

Dear potential SGS Graduate Student

Thank you for your interest in University of Botswana's Graduate Programmes leading to Postgraduate Diploma, Master's, MPhil and PhD qualifications. The Master's degree programmes may consist of courses only, or may include a requirement for a written report about a research project (the Research Essay or Dissertation). The MPhil and PhD programmes consist mainly or entirely of an original research project (Thesis) carried out by the student. The general requirement for admission is at least a B grade point average in the relevant undergraduate programme; individual programmes may have additional requirements. The usual duration of full-time study is 4 semesters for a Master's degree and 8 semesters for a Doctoral degree; students who register for part-time study require a longer time. Additional information may be obtained from the UB (www.ub.bw) or SGS web site (www.ubotho.net) with the UB and SGS calendar as pdf-download as well as the following contacts and pages:
