Academic Calendar 2019/20
## Contents

### Introduction
- Academic Year Almanac
- SGS Introduction
- Schedule of fees
- International Academic Partnerships
- SGS Staff and Coordinators Contacts

### Academic General Regulations
- Academic Regulation
- General Regulations for Master's and Doctor of Philosophy Degrees
- Academic General Regulations for Master's MPhil, PhD Programmes
- General Regulations Degrees of Master of Philosophy (MPhil) & Doctor of Philosophy (PhD)

### School of Graduate Studies
- Modular Postgraduate Programmes
- Masters Development Practice including Postgraduate Programmes
- Masters in Science, Research, Educational Management

### Faculty of Business
- Modular Master in Business
- Masters MPhil/PhD in Business

### Faculty of Education
- MPhil/PhD in Education
- Master of Education (MEd)
- Department of Lifelong Learning Community Development
- Department of Educational Foundation
- Department of Languages and Social Sciences
- Department of Mathematics and Science Education
- Department of Physical Education, Health and Recreation
- Department of Primary Education

### Faculty of Engineering and Technology
- MPhil/PhD in Engineering
- Department of Civil Engineering
- Department of Electrical Engineering
- Mechanical Engineering

### Faculty of Health Sciences
- Department of Nursing

### Faculty of Humanities
- Department of African Language and Literature
- Department of English
- Department of History
- Department of Library and Information Studies
- Department of Theology and Religious Studies

### Faculty of Medicine
- Internal Medicine
- Anaesthesia & Critical Care
- Emergency Medicine
- Family Medicine
- Public Health Medicine
- Paediatrics and Adolescent Health
- Pathology

### Faculty of Science
- Department of Biological Sciences
- Department of Chemistry
- Department of Computer Science
- Department of Environmental Sciences
- Department of Geology
- Department of Mathematics
- Department of Physics

### Faculty of Social Sciences
- Department of Economics
- Department of Law
- Department of Political and administration Studies
- Department of Population Studies
- Department of Social Work
- Department of Sociology
- Department of Statistics

### Okavango Research Institute
Vision
To be a leading centre of academic excellence in Africa and the world.

Mission
To improve economic and social conditions for the Nation while advancing itself as a distinctively African university with a regional and international outlook.

Specifically, the University will:

- Provide excellence in the delivery of learning to ensure society is provided with talented, creative and confident graduates
- Advance knowledge and understanding through excellence in research and its application
- Improve economic and social development by high impact engagement with business, the professions, government and civil society

Values

To achieve its vision and fulfil its mission the University of Botswana values the following:

- Students by creating a holistic environment which ensures that learning is their central focus, and by establishing and developing a range of learning, social, cultural and recreational opportunities that will facilitate the full realisation of their potential for academic and personal growth
- Academic integrity expressed in creativity, objective analysis, experimentation, critical appraisal, independent thought, informed debate and intellectual honesty
- Cultural authenticity by ensuring that the diversity of Botswana’s individual values and cultural heritage forms an important part of the academic and organisational life of the institution and reflects its distinctiveness as an African university
- Internationalism through participation in the global world of scholarship, by being receptive and responsive to issues within the international environment as well as the recruitment of an international staff and student body
- Staff by fostering a University community through encouraging, supporting, developing and empowering all individuals and groups to achieve the University’s Goals
- Professional and ethical standards by upholding the highest professional and ethical behaviour and through openness, honesty, tolerance and respect for the individual
- Social responsibility by promoting an awareness of, and providing leadership in responding to, the issues and problems facing society
- Equity by ensuring equal opportunity and non-discrimination on the basis of personal, ethnic, religious, gender or other social characteristics
- Autonomy as an institution that is, through its self-governing structures, independent in action while being responsive to societal needs
- Academic freedom by upholding the spirit of free and critical thought and enquiry, through the tolerance of a diversity of beliefs and understanding, as well as the open exchange of ideas and knowledge
- Public accountability by ensuring transparent decision-making and open review as well as the full participation of stakeholders in the development of the institution
- Productivity through the setting and rewarding of high standards of performance underpinned by a dedication to quality, efficiency and effectiveness throughout the institution
- Environmental Sustainability by deepening awareness and ensuring environmental issues are incorporated into student learning and teaching and research, the development of environmentally sustainable campuses and through contributing to the environmental sustainability agenda in Botswana and beyond
PRINCIPAL OFFICERS

Chairman of Council
Dr. Joseph M. Makhema

Chancellor
Ms Linah K. Mohohlo

Vice Chancellor
Prof. David Norris

Acting Deputy Vice Chancellor (Academic Affairs)
Prof. Oathokwa Nkomazana

Acting Deputy Vice Chancellor (Finance & Administration)
Mr Lopang Mosupi

Acting Deputy Vice Chancellor (Student Affairs)
Prof. Happy Siphambe
UNIVERSITY OF BOTSWANA

ACADEMIC CALENDAR 2019-2020

SEMESTER ONE - 2019

JULY
- Registration for Semester 1 Begins (All Students): 14 June
- Last Day of Classes (Faculty of Medicine): 21 June

SENATE EXECUTIVE COMMITTEE (Approval of Medicine Results): 28 June
- Supplementary Exam Registration Period: 14 Jun - 12 July
- Sir Seretse Khama Day: 1 July
- Public Holiday: 2 July
- Academic Policy Review and Planning Committee: 4 July
- President’s Day: 15 July
- Public Holiday: 16 July

Supplementary Exams: 17 - 19 July
- New Student Orientation and Registration (New Undergraduates): 22 July - 26 July
- Arrival and Registration (New Graduate Students): 22 July - 26 July
- DE-Registration Period: 22 July - 26 July

SENATE EXECUTIVE COMMITTEE (Approval of Supplementary Exams): 26 July
- Final Supplementary Grades Published: 26 July
- Winter Session Ends: 26 July
- DE-New Student Orientation: 26 July
- DE-New Students Library Orientation: 26 July
- DE-Business Degrees Introductory Session (All Levels): 27 - 28 July
- DE-Diploma Residential Session 1: 27 July - 2 August
- Arrival (All Continuing Students): 29 July - 2 August

AUGUST
- New Graduate Student Orientation: 31 July
- Academic Policy Review and Planning Committee: 1 August
- University Research Committee: 2 August
- Registration for Semester 1 Ends (All Students): 2 August
- DE-Business Degrees Residential Session 1 (Level 3, 4, 5): 3 - 4 August

Classes Begin: 5 August
- Late Registration and Course Add/Drop Period Begins: 5 August
- Late Registration and Course Add/Drop Period Ends: 9 August
- DE-Business Degrees Residential Session 1 (Level 1&2): 10 - 11 August

SENATE: 14 August
- First Year Student Banquet: 16 August
- DE-Business Degrees Test 1 (Level 3, 4, 5): 17 - 18 August
- DE Business Degrees Test 1 (Level 1 & 2): 24 - 25 August
- CCE Board: 26 August
- Last day to withdraw and receive a refund: 30 August

SEPTEMBER
- Academic Policy Review and Planning Committee: 6 September
- COUNCIL: 7 September
- DE-Business Degrees Residential 2 (Level 3, 4, 5): 1 - 2 September
- DE-Business Degrees Residential 2 (Level 1 & 2): 8 - 9 September
- DE-Diploma Residential Session 2 and Test: 10 - 16 September
- Mid-Semester Break Begins: 23 September
- Botswana Day: 30 September

OCTOBER
- Public Holiday: 1 October

SGS INTRODUCTION

Dear Reader of the SGS Calendar

Thank you for your interest in University of Botswana’s Graduate Programmes offered in Gaborone and Maun and leading to Postgraduate Diploma, Master’s, MPhil and PhD qualifications.

The University of Botswana (UB) has offered graduate level programmes of study since 1983 and, in 1996 UB management took an informed decision to establish the School of Graduate Studies (SGS) by UB Statutes XXI, 59(i) with the mandate to coordinate all aspects of graduate student programmes, from recommendation for approval by Senate to quality management as well as from admission through graduation, and to recommend regulations for approval by Senate. PhD enrolments commenced in the academic year 1995/96 and the first research student graduated in 1998/99. In 2014/2015, 261 Masters, 5 MPhil and 19 PhD students graduated. During the same period, Masters/MPhil enrolments grew by 9% from 1704 in 2014/2015 to 1870 in 2015/2016 and PhD grew by 13% from 96 in 2014/2015 to 110 in 2015/2016. One of the UB strategic directions is to become a research intensive University. To achieve this objective, there is need for increase in graduate enrolment and research outputs. The 2015/2016 enrollment of graduate students stands at 1980 of which 1870 are Masters/MPhil students and 110 PhD students. The number of international graduate students has also increased from 62 in 2014/2015 academic year to 218 in 2015/2016 academic year. In 2016, 230 graduated and in 2017, 256 graduated, an increase of 10%.

So far, taught graduate programmes were offered only in full/part-time mode, limiting the intake to those students who are able to be residential in Gaborone during their semesters of study. Considering that Botswana has a population of 2 million dispersed over a 600,000 km2 territory (combined area of Germany and UK), lifelong learning for professionals living outside the capital’s catchment area was severely restricted. In 2010, SGS launched a new breed of programmes based on the five MAGIC principles (modular, accredited, globally appealing, interdisciplinary, compliant). The first programme in this category is the Master’s in Development Practice (MDP) for which SGS received significant competitive funding from the MacArthur Foundation as one of twenty selected universities worldwide. Being chosen to receive this grant and to offer MDP signifies the increasing global importance of sustainable development and acknowledges the multi-disciplinary competencies UB’s Graduate Programme Portfolio has developed in this area. Currently there are 33 global association universities of MDP programme.

The new modular programmes had enabled professionals residential outside Gaborone to take up graduate studies and provide opportunities for national organisations wishing to strengthen staff recruitment, development, and retention by supporting lifelong learning of their employees. The first MDP cohort graduated in 2013. Masters programmes by distance mode are to be introduced. For quality assurance purposes, Dissertations and Thesis are assessed by both an internal examiner and external examiner.

ACADEMIC GENERAL REGULATIONS

Academic Regulation 15
General Regulations for Master's and Doctor of Philosophy Degrees 15
Academic General Regulations for Master's MPhil, PhD Programmes 15
General Regulations Degrees of Master of Philosophy (MPhil) & Doctor of Philosophy (PhD) 17
1. Admission Regulations

1.1 Admission Applications

1.2 Unless other specific instructions are given, application forms are obtained from and returned to:

The Undergraduate Admissions Office;
University of Botswana; Private Bag 0022;
Gaborone, Botswana

1.2.1 Unless other specific instructions are given, application forms are obtained from and returned to:

The Undergraduate Admissions Office;
University of Botswana; Private Bag 0022;
Gaborone, Botswana

1.2.2 Each application shall consist of: i) The application form, the applicant must enclose a non-refundable application fee.

1.2.3 When returning the application form, the applicant must enclose a non-refundable application fee.

1.2.4 Applications will not be considered until the University has received the application form, relevant academic transcripts and certificates, and the application fee.

1.2.5 In addition, an applicant who has attended another university or other postsecondary institution must submit a certificate of good conduct, and a transcript, duly signed by the competent officer of the issuing University.

1.2.6 Unless an applicant is notified to the contrary, the closing date for the receipt of complete application forms and accompanying documents will be the last working day of March immediately preceding the commencement of the academic year for which application is made. (The academic year starts in August.)

1.2.7 Graduate Degrees

1.2.7.1 Application procedures are as for undergraduate study (1.2.1 to 1.2.6 above).

1.2.7.2 Admission to a programme leading to a graduate degree must be approved by the School of Graduate Studies on the authority of Senate.

1.2.7.3 On receipt of completed graduate studies application forms, the School of Graduate Studies shall send one copy to the relevant Head of Department who shall submit to the Departmental Board/Relevant Unit. The Departmental Board/Relevant Unit shall forward the final decision to School of Graduate Studies to confirm that the regulations have been met and issue admission letters.

1.2.7.4 Registration for Master's Degree programmes by coursework and dissertation shall normally take place at the beginning of the first semester of each academic year but may, in special circumstances, and on the recommendation by the Graduate Studies Board, take place at the beginning of the semester following that in which the application is approved by the Senate.

1.2.7.5 MPhil and PhD applicants may be accepted and register anytime during the academic year with permission of the relevant Department/unit.

1.3 Notification of Acceptance

1.3.1 The Admissions Office for undergraduate applicants and the School of Graduate Studies for graduate applicants shall notify each applicant whether or not he/she has been accepted for admission to the University.

1.3.2 No applicant should come to the University unless he or she has received a formal offer of admission.

0.08 Assessment

0.08.1 Continuous Assessment

0.08.1.1 The continuous assessment component of each course may include one or more of the following: Written Assignments, Written Tests, Practicals, Projects, Research exercise, Essays, Book tests, Independent Study, Dissertations/Theses, Oral tests plus other forms of continuous assessment as shall be determined by the instructor and approved by the Head of Department.

0.08.1.2 A student is required to fulfill all requirements prescribed for continuous assessment. Failure to do so without valid reasons will normally incur penalties as prescribed in Special Faculty and Departmental Regulations.

0.08.2 Final Examinations

Where the assessment of a course includes final examinations, the following regulations shall apply:

0.08.2.1 All final examinations shall be held within the period one to three hours, in which the course is taught.

0.08.2.2 A paper in a final written examination of a course shall be of one to three hours duration.

0.08.2.3 Other forms of examination of a course shall be as prescribed in Special Faculty and Departmental Regulations.

0.08.2.4 A student must take final examinations at the scheduled times. Failure to do so without valid reasons will amount to a candidate being awarded a zero mark in that particular examination.

0.08.2.5 Special final examinations will be considered on an individual basis for students who miss scheduled final examinations due to exceptional and extenuating circumstances. Refer to the approved guidelines for the detailed procedures, deadline and examples of the reasons adjudged acceptable or unacceptable to UB.

0.08.2.6 In any course, the weighting between different components of assessment shall be specified in the Special Faculty Regulations and Departmental Regulations. When letter grades are used, they shall represent the following:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Outstanding</td>
</tr>
<tr>
<td>B+</td>
<td>Excellent</td>
</tr>
<tr>
<td>B</td>
<td>Very Good</td>
</tr>
<tr>
<td>B-</td>
<td>Good</td>
</tr>
<tr>
<td>C+</td>
<td>Satisfactory</td>
</tr>
<tr>
<td>C</td>
<td>Pass</td>
</tr>
<tr>
<td>C-</td>
<td>Marginal Pass</td>
</tr>
<tr>
<td>D+</td>
<td>Marginal</td>
</tr>
<tr>
<td>D</td>
<td>Marginal Fail</td>
</tr>
<tr>
<td>D-</td>
<td>Fail</td>
</tr>
<tr>
<td>E</td>
<td>Fail (Zero Grade Point)</td>
</tr>
<tr>
<td>X</td>
<td>Absent</td>
</tr>
</tbody>
</table>

0.08.2.7 Cumulative Grade Point Average (Cumulative GPA): The Cumulative Grade Point Average (Cumulative GPA) associated with courses at UB at any time during the student's programme is obtained as follows:

a) Identify the credits for the course;

b) Identify the Marks (M), corresponding Letter Grade and the Grade Point using the table in Regulation 0.826;

c) Obtain the Weighted Score by multiplying the Credits and the Grade Point for each course;

d) Obtain the Total Weighted Score by adding the Weighted Scores for all the courses;

e) The cumulative GPA is given by the Total Weighted Score divided by the total number of attempted credits. The cumulative GPA shall be computed to two decimal places.

0.08.31 Supplementary Examinations

0.08.31.1 Supplementary examinations maybe permitted to enable a student to obtain the minimum mark required in course to satisfy any additional requirements as specified in the Faculty and Departmental special regulations in order to proceed to the following semester or pass the final semester of study.

0.08.32 Except as stated in Faculty Special and Departmental regulations a full-time student may be allowed to write supplementary examinations in a maximum of three failed courses in any one Semester, or the equivalent number for part-time study.

0.08.33 In determining whether a student shall be permitted to supplement, Senate shall first of all satisfy itself that supplementation will enable the students to obtain the minimum mark required to pass a course, before satisfying any other requirement as specified in Faculty Special and Departmental regulations.

0.08.34 In order to be permitted to supplement a failed course, a student must have obtained 50-54% as final mark in the course.

0.08.35 If a student is permitted to supplement in order to pass a course, the maximum course mark awarded shall not exceed the minimum requirement to pass that course as specified in Faculty Special and Departmental regulations.

0.08.36 In recalculating the final course mark, the original continuous assessment mark shall be used.

0.08.37 If in a given course, a student obtains a supplementary mark that is lower than the original mark, then the original mark shall be retained.

0.08.38 The original mark and the supplementary mark obtained in a course shall be recorded on the student Academic Transcript.

0.08.39 A fee to be determined by the University from time to time shall be charged for each course to be supplemented.

0.08.40 To sit for supplementary examinations, a student shall be required to register for all courses they intend to supplement.

0.08.41 Any student who fails to write supplementary examinations after registering for them shall be awarded a 0 (zero) mark for supplementary examinations.

0.08.45 Retaking Courses

0.08.45.1 A student shall not retake a course already passed with a minimum grade of fifty five (55) (c).

0.08.45.2 A student who failed a core course, pre-requisite, co-requisite or a required General Education Course must retake the course when it is offered again, while a student who has failed an optional, elective or a non-required General Education Course may retake the course or substitute course. The student's transcript shall indicate the courses and grades previously obtained and the fact that the student has repeated the course. The higher grade shall be used in the computation of the Cumulative GPA.
40.0 General Regulations for Graduate and Post-Graduate Programmes

For General Regulations for Master’s Degree, Master of Philosophy (MPhil) Degree and Doctor of Philosophy (PhD) Degree Programmes, consult the School of Graduate Studies General Regulations 41.0 and 50.0 (refer to a separate catalogue for Graduate Studies).

ACADEMIC GENERAL REGULATIONS

For Master’s, MPhil and PhD Programmes

40 GENERAL REGULATIONS FOR MASTER’S AND DOCTOR OF PHILOSOPHY DEGREES

40.1 REGULATIONS APPLICABLE TO ALL MASTER’S AND DOCTOR OF PHILOSOPHY PROGRAMMES

40.11 Master’s and Doctoral degree programmes are subject to the Academic General Regulations 00.0, unless specified otherwise.

40.12 Applications for admission must be in accordance with General Regulations governing admissions, fees and programme regulations. Under no circumstances may an applicant begin work on the degree programme until registration formalities are complete.

40.13 The applicant must conform to Departmental and Faculty Regulations, which may consist of specific entry requirements, special conditions of study, details of required courses, and course assessment.

40.14 English is the medium of instruction and assessment. Applicants who have not taken a degree in the English medium must satisfy the Department and the School of Graduate Studies that they are proficient in English before they are admitted.

40.15 An applicant who has been admitted may be allowed to defer his/her admission for up to one year, by submitting a written request to the School of Graduate Studies. The request should include an explanation of the reason for the request.

40.16 A student may withdraw from studies by requesting permission to withdraw from the Department and from the School of Graduate Studies. When such a request is approved by the Department and the School of Graduate Studies, the student’s registration may be suspended for up to two years (four semesters).

40.17 When a programme has listed optional courses, not all of those courses will necessarily be offered in any one semester.

40.18 Departments may from time to time approve courses from other departments as options without requiring special approval.

40.19 Departments shall approve methods of assessment for each course, and where appropriate, the relative weighting for each component of assessment in the total mark for each course. The details will be specified in the official course entry and notified to each student at the beginning of the semester.

40.2 The School of Graduate Studies shall monitor the progress of graduate students by means of semester reports to be submitted by the Supervisor to the School of Graduate Studies Board through the Departmental Board.

40.21 The Dissertation, Research Essay or Thesis must be based on original research carried out by the student. Submission of work that is copied entirely or in part from another source is not acceptable and will result in an assessment of ‘Fail’.

40.22A graduate student who is not making satisfactory progress in his/her programme may be advised by the Department and the School of Graduate Studies Board to withdraw.

40.23 A full time graduate student may be employed part-time, provided that the maximum number of hours does not exceed twenty contact hours per week. A graduate student who is employed for more than twenty hours per week would normally be accepted for registration on a part-time basis.

40.24 A graduate student may not accept any sponsorship that places any restrictions on the presentation of the Dissertation, Research Essay, or Thesis, or the deposition of these documents in the University Library or other libraries.

40.25 The School of Graduate Studies Board may terminate studies for a graduate student who fails, without valid reason, to comply with registration requirements.

41 GENERAL REGULATIONS SPECIFIC FOR MASTER’S DEGREE PROGRAMMES

Preamble: The Master’s degrees are postgraduate degrees which are earned through successful completion of course work or through a combination of course work and research. Master’s degree programmes may be available through all Faculties and Departments, through the School of Graduate Studies, Supervisory and research arrangements will be determined in the Departments and require approval of the School of Graduate Studies. It is not essential that the Master’s degree be pursued in the same Faculty as the Bachelor’s degree was obtained, but normally the subject for study in the higher degree shall have been a major subject taken successfully at the Bachelor’s level. If the Bachelor’s degree has been earned in a different academic discipline, the student may be required to meet additional academic requirements.

41.1 The Master’s degrees programmes shall be specified in the Programme and Faculty Regulations and shall be offered in one of the following modes:

a) Course work only in Course Outlines.

b) Course work and either Dissertation or Research Essay;

41.2 Applicants who wish to pursue a Master’s Programme by research only must apply for admission for the MPhil degree. See Regulation 50.0

41.3 Entrance Qualifications

41.3.1 The normal minimum entrance requirement shall be a Bachelor’s degree of this or any other recognized University or equivalent institution with at least a second class, second division or equivalent (3.0 GPA, on a 4-point scale) in the relevant field.

41.3.2 Candidates with a Pass degree or equivalent, and who have at least two years of relevant work experience, may be considered for provisional admission. After successful completion of 2 semesters of full-time academic work or 24 credits of part-time work, the student will be considered to be in good academic standing.

41.3.3 Applicants who have completed a post-graduate diploma are eligible for admission into a Master’s programme. The number of credits to be allowed towards the Master’s will be assessed on admission.

41.4 Subject to the approval of the Departmental Board and the School of Graduate Studies, students seeking to transfer from another recognized institution may be credited with up to a maximum of one-third of the total number of credits required for the programme. A transfer student must meet existing Departmental and Faculty pre-requisites for the intended programme of study.

41.5 Programme Structure

The curriculum for the Master’s degree programmes shall be specified in Departmental and Faculty Regulations.

41.5.1 Duration of the Programme

The normal duration for a student in a Master’s programme shall be as follows:

a) A minimum of 3 to a maximum of 6 semesters on a full-time basis;

b) A minimum of 4 to a maximum of 8 semesters on a part-time basis.

Under no circumstances can the duration of study be longer than 12 semesters.

41.6 Registration

41.6.1 The normal work load for a full-time Master’s student shall be 12 credits. A full time student may register for 12-15 credits per semester, unless specified otherwise in Departmental or Faculty Regulations. The normal work load for part-time Master’s students shall be 6-9 credits per semester.

41.6.2 To be awarded a Master’s degree, a candidate must complete a minimum of 36 credits and complete all work as specified in Programme and Course Outlines.

41.6.3 Students who have full-time employment must register as part-time students.

41.7 Assessment

41.7.1 Continuous Assessment

Continuous Assessment shall be as prescribed in General Regulation 00.81.

41.7.2 Where the assessment includes final examinations, such examinations shall be held within the semester in which the course was taught, and Academic General Regulation 00.82 shall apply.

41.7.3 In any course, the weighting between different components of assessment shall be specified in the programme regulations and in General Regulation 00.84.1.

41.7.4 Overall performance in a course shall be assessed on a percentage scale, a Letter Grade and/or a
Grade Point as follows: Explanation of grades: FG (Failing Grade), I (Incomplete).

<table>
<thead>
<tr>
<th>Marks (%)</th>
<th>Letter Grade</th>
<th>Grade Point</th>
</tr>
</thead>
<tbody>

41.7.6 A student, who for reasonable cause, has been unable to complete a Research Essay, Dissertation or Thesis, may, in writing, request an extension of up to a maximum of twelve months. The Departmental Board will review the request and forward a recommendation to the School of Graduate Studies. All course work, Research Essays, Dissertations and Theses must be completed within the allocated time period. If after this extension, the student still has not completed, he/she will be allowed to register for another extension of up to a maximum of twelve months and pay an equivalent of three credits. If after the second extension, the student has not completed, the student is deemed to have failed the programme.

41.7.7 The cumulative GPA shall be calculated in accordance with General Regulation 00.86.

41.8 Progression from Semester to Semester

41.8.1 To proceed to the next semester, a student must have a cumulative GPA of 2.5 or above.

41.8.2 A student who has failed not more than one course each semester with a mark of at least 40 and has a cumulative GPA of not less than 2.0 may register for the next semester on Probation, unless specified otherwise in Departmental or Faculty Regulations. However, such a student will be permitted to retake a failed course only once in subsequent semesters. A student on Probation shall be required to achieve a cumulative GPA of at least 2.5 at the end of the next semester in order to be eligible to continue in the programme.

41.8.3 Students are permitted to retake a failed course only once. All Core courses must be passed. A failed Optional course with a grade of at least 40 percent may be replaced by another Optional course, which must be passed. A student shall not retake a course already passed with a minimum grade of fifty five (55) (c).

41.8.4 A student who obtains less than 50% of courses registered in a semester will have failed the programme.

41.8.5 A student on fail and discontinues status may apply for readmission to the programme after a lapse of at least one (1) semester. To return to the programme the student must apply and be accepted for re-entry/ readmission.

41.8.6 A student on fail and discontinues status may apply to change to another programme for which the student qualifies and can enter in the subsequent semester(s).

41.8.7 A student who is placed on fail and continues status twice in one programme shall be placed on a fail and exclude status.

41.8.8 A student placed on fail and exclude status may apply for readmission to the university after a lapse of at least two academic years.

41.9 Dissertation

41.9.1 The Dissertation Supervisor shall normally be nominated by the Department before the completion of coursework. Such a supervisor shall normally be a member of academic staff in the department in which the research is being pursued, or with the approval of the School of Graduate Studies, the Supervisor may be from another department or appropriate external institution. The Department shall nominate up to 2 additional members who shall be Co-Supervisors, who with the Supervisor shall constitute a Supervision Committee.

The supervisor and co-supervisors should sign the Memorandum of Understanding (MOU) with the supervisee. A copy of the signed MOU should be sent to SGS. The MOU is included as an Appendix A.

41.9.2 In exceptional circumstances, a change of Supervisor may be requested by the student and/or recommended by the Departmental Board to the School of Graduate Studies Board.

41.9.3 Where a Supervisor is absent from the University for more than two months, an acting Supervisor must be appointed. The Supervisor shall make the recommendation of an acting Supervisor to the Department, for approval by the School of Graduate Studies.

41.9.4 The normal weight of a Dissertation shall be 24 credits.

41.9.5 The Length of the Dissertation shall normally be 20,000 to 40,000 words (excluding footnotes, tables and appendices).

41.9.6 The dissertation/may be submitted in the format specified below:

Format:

The Dissertation or Thesis shall be typed, double-spaced on single sides of good quality A4 paper. The font shall be Arial or Times New Roman, size 12. Margins shall be: 40 mm on the left hand side, to allow for binding, 10 mm on the right-hand side, and to 20 mm on the top and bottom. Initial pages:

The first page shall be a title page which contains the following information: (1) Name of the University, (2) University Logo,(3) Name of Faculty,(4) Department,(5) Title of the thesis or Dissertation, (6) Student’s name, (7) Student number (8) Reflect whether the thesis/ dissertation is in partial fulfillment or in fulfillment of the requirements for the degree, depending on whether or not coursework has been involved (9) Supervisor and Co-Supervisor(s) name, (10) Date of submission.

There shall be an Abstract of not more than 500 words, and a Table of Contents. Pages shall be numbered such that the title page, Table of Contents, and Abstract are in Roman numerals and the main text of the Thesis or Dissertation is in Arabic page numbers.

41.10 Research Essay

41.10.1 The Research Essay Supervisor shall normally be nominated by the Department before the completion of course work. Such a Supervisor shall normally be a member of academic staff in the department in which the research is being pursued, or with the approval of the School of
Graduate Studies, the supervisor may be from another department or appropriate external institution. The Department shall nominate up to 2 additional members who shall be Co-Supervisors, with the Supervisor shall constitute a Supervision Committee.

41.10.2 In exceptional circumstances, a change of Supervisor may be recommended by the Departmental Board to the School of Graduate Studies.

41.10.3 Where a Supervisor is absent from the University for more than two months, an acting supervisor must be appointed. The Supervisor shall make the recommendation of an acting Supervisor to the Department for approval by the School of Graduate Studies.

41.10.4 The normal weight of a Research Essay shall be 12 credits.

41.10.5 The length of a Research Essay shall normally be 10,000 to 20,000 words (excluding footnotes, tables and appendices).

41.10.6 The format of the Research Essay shall be according to directions provided to the student by the School of Graduate Studies.

41.10.7 The Research Essay shall normally be submitted within 6 months for full-time students and 12 months for part-time students, from the date that the School of Graduate Studies approves the final course-work marks. 30th of June is the deadline for submission of research Essay for examination if the student is to graduate in October of the same year.

41.10.8 In cases where the Supervisor has not approved the submission of the Research Essay for examination, but all other procedures have been met, the candidate may submit the Research Essay to the School of Graduate Studies without the Supervisor’s approval, through the supervision committee, and following an appeal to the Departmental Board.

41.11 Examination of a Dissertation or Research Essay

41.11.10n the recommendation of the Departmental Board, the School of Graduate Studies shall normally appoint an Internal Examiner (who shall not be the Supervisor) and an External Examiner.

41.11.2 Subject to Departmental and Faculty regulations, a student shall give two months’ notice to the Head of Department and the Dean of the School of Graduate Studies of the date of submission of the Research Essay, Dissertation, or Thesis together with its final title. 30th of June is the deadline for submission of Research Essay, Dissertation and Thesis for examination if the student is to graduate in October of the same year.

41.11.3 A Student shall submit three loose-bound copies of the Dissertation/Research Essay, accompanied by a covering letter signed by the Supervisor indicating his or her approval; or, to the School of Graduate Studies for examination by Internal and External Examiners; the Dean of the School of Graduate Studies shall retain one copy.

41.11.4 The Examiners shall each submit a signed report to the Dean of the School of Graduate Studies stating whether the Dissertation or Research Essay is:

a) Accepted and passed;

b) Accepted pending minor amendments;

c) Referred for major amendments; or

d) Failed.

41.11.5 The completion of required minor amendments to the Dissertation or Research Essay shall be coordinated by the Supervisor and certified by the Internal Examiner.

41.11.6 If the Dissertation or Research Essay has been referred for major amendments, it is the responsibility of the Supervisor to determine that the candidate has made all the corrections recommended by the Examiners. Major amendments shall then be approved by the External Examiner. A Dissertation which has been referred for amendment shall be resubmitted only once, and this must be done within a period of twelve months. A Research Essay which has been referred for amendment shall be resubmitted only once, and this must be done within a period of six months.

41.11.7 In the case of conflicting reports from Examiners or in borderline cases the Department may request and recommend a third Examiner to the School of Graduate Studies.

41.11.8 Once the Dissertation or Research Essay has been accepted by the Examiners, the Departmental Board shall recommend the award of the degree. The recommendation, with the results of the coursework and Dissertation/Research Essay, shall be submitted by the Departmental Board to the School of Graduate Studies and Senate, and the decision of Senate communicated immediately to the student.

41.11.9 Following approval by Senate, the student is responsible for submitting at least five bound copies under the Legal Deposit Act. Of the five copies, the relevant Department, the UB Library, and the National Botswana Archives will get one copy each; the student will get two copies. The Supervisor and Co-Supervisor will receive copies which they may have bound at their own expense.

41.12 Notification of results and award of the Master’s degree

41.12.1 Candidates will be notified of their examination results by the School of Graduate Studies only after the reports from the External and Internal Examiners, Departmental Board and School of Graduate Studies Board have been accepted and ap-proved by the Senate.

41.12.2 The award of the Master’s degree under the seal of the University shall be delivered to each successful candidate after the award of the degree has been approved by the Senate.

41.12.3 A student normally has the right of appeal to Senate on decisions taken under these regulations.

41.12.4 Appeal is made to the Dean of the School of Graduate Studies, for consideration by the Departmental Board and the School of Graduate Studies Board, within three months from the date of notification of the results.

41.12.5 The Master’s degree shall not be classified.

GENERAL REGULATIONS - DEGREES OF MASTER OF PHILOSOPHY (MPhil) AND DOCTOR OF PHILOSOPHY (PhD)

Preamble: The MPhil and PhD degrees are graduate degrees carried out through supervised research, but which may require coursework if deemed necessary by the Departmental Board. Courses to fulfill such requirements must be approved by the Departmental Board, the School of Graduate Studies and Senate. These degrees may be available through all Faculties and Departments, through the School of Graduate Studies. Further studies, research and supervisory arrangements will be determined in the Departments and require approval of the School of Graduate Studies Board. It is not essential that these degrees be pursued in the same Faculty as the Bachelor’s degree was obtained, but normally the subject for study in the higher degree shall have been a major subject taken successfully at the Bachelor’s level. If the Bachelor’s degree has been earned in a different academic discipline, the student may be required to meet additional academic requirements.

50.1 Admission into the Master of Philosophy Degree Programme

50.1.1 Normally applicants must have obtained an appropriate single major or Honours degree with a First or Upper Second Class (overall A or B average; GPA of 3.5 on a 5 point scale) from a recognized University or equivalent Institution of Higher Education or a Master’s degree.

50.1.2 Applicants who have obtained an appropriate combined major degree with a First or Second Class (overall A or B average) may be considered provided that, at least, an Upper Second Class performance (B average) is achieved in the intended field of study.

50.1.3 Applicants who have obtained other qualifications and have relevant experience may be considered by the School’s Committee on the recommendation of the appropriate Departmental Board. Applicants may be required to pass a qualifying examination, set and organized by the Department concerned, who shall forward the results to the School of Graduate Studies Board through the Departmental Board before a final decision on the applicant’s acceptability is made.

50.1.4 Applications must also conform to all relevant Programme and Faculty Regulations and must include an acceptable preliminary research proposal.

50.2 Admission to the Doctor of Philosophy Degree Programme

50.2.1 Applicants who have obtained an appropriate Master’s Degree (MSc, MA, MEd MPhil or equivalent) with course work and research are eligible to apply.

50.2.2 a) Subject to paragraph “d”, applicants shall normally be admitted into an MPhil programme.

b) After completion of a maximum of two semesters of full-time academic work ([or equivalent] the department/faculty/unit) shall recommend the student either to transfer to the PhD programme or for continuation as an MPhil candidate.

b) When transfer to the PhD programme occurs, the credits accumulated as an MPhil student shall be applied toward the 72 credits required for completion of the PhD degree.

d) Applicants with previous research experience may be admitted directly into a PhD programme, upon recommendation of the Departmental Board and approval by the School of Graduate Studies.

50.2.3 A prospective applicant must first discuss the proposed programme with the department in which s/he proposes to work, to establish in general terms whether the research proposal is acceptable.

50.2.4 On receipt of completed application forms and supporting documents, including an acceptable outline of the proposed research, the School of Graduate Studies shall send one copy to the relevant Head of Department for review and recom-mendation.

50.2.5 Acceptances/Rejections shall be considered by the School of Graduate Studies Board after receipt of the recommendation of the Departmental Board and verification that a qualified Supervisor is available.

50.2.6 Each applicant shall be notified of the result of his/her application by the School of Graduate Studies. Successful applicants should then proceed with registration. A graduate student is expected
to begin study for the MPhil or PhD degree within one calendar year from the date the application is approved.

50.3 Registration

50.3.1 Retroactive registration will not normally be permitted. All registration must be finalized by the end of the third week of the semester.

50.3.2 The normal work load for a full-time MPhil or PhD student shall be 12 credits each semester. A full-time student may register for 9 - 15 credits per semester, unless specified otherwise in Departmental or Faculty Regulations. The normal work load for part-time students shall be 6 - 9 credits per semester.

50.3.3 Students who have full-time employment must register as part-time students.

50.4 Transfer from another University

50.4.1 Transfer to an MPhil at UB from another recognized University or equivalent Institution of higher education may be considered by the School of Graduate Studies Board on production of satisfactory documentation and references. No more than one-third of the total number of credits required for the programme can be credited from study at another university.

50.5 Duration of the Programme

50.5.1 Master of Philosophy Degree

The normal duration of the MPhil Degree Programme shall be as follows:

(a) A minimum of 2 semesters and a maximum of 4 semesters on a full-time basis.
(b) A minimum of 4 semesters and a maximum of 8 semesters on a part-time basis.
(c) Under no circumstances can the duration of study be greater than 8 semesters.

During this time the student shall register for and complete 24 credits of Thesis research.

50.5.2 Doctor of Philosophy Degree

The normal duration of the PhD Degree Programme shall be as follows:

(a) A minimum of 6 semesters and a maximum of 8 semesters on a full-time basis.
(b) A minimum of 8 semesters and a maximum of 12 semesters on a part-time basis.
(c) Under no circumstances can the duration of study be greater than 12 semesters.

During this time the student shall register for and complete 72 credits of Thesis research.

50.5.3 If a reduction or extension of registration outside the normal period is required, a written application must be submitted through the Supervisor and the Departmental Board to the School of Graduate Studies Board, which may grant an extension of up to twelve months. Any reduction or further extension may only be approved by the School of Graduate Studies Board. Under certain circumstances, the School of Graduate Studies Board may only grant such permission if the student agrees to transfer to regulations current at that time.

50.6 Programme of Study

50.6.1 Each graduate student is required to pursue a prescribed programme of study under the direction of a Supervisor.

50.6.2 The Supervisor shall be recommended by the Departmental Board, and shall be approved and appointed by the School of Graduate Studies Board. With approval of the School of Graduate Studies, the Department shall nominate up to two additional members who shall act as Co-Supervisors, who with the Supervisor shall constitute a Supervision Committee. In approving the Supervision Committee, the School of Graduate Studies shall take into account the overall expertise and experience of the proposed team.

50.6.3 Co-Supervisors from within or outside the University of Botswana may be recommended by the Departmental Board, and shall be approved and appointed by the School of Graduate Studies Board which, before reaching a decision, will examine the respective CV's for evidence of an appropriate level of experience and/or current scholarly work.

50.6.4 In exceptional circumstances, a change of Supervisor may be recommended by the Departmental Board to the School of Graduate Studies Board.

50.6.5 Where a Supervisor is absent from the University for more than two months, then an acting Supervisor must be appointed. The Supervisor shall make the recommendation of an acting Supervisor to the Department for approval by the School of Graduate Studies.

50.6.6 At the beginning of the student's programme of study, there shall be a written statement prepared which identifies the expectations the Supervisor has of the student and which the student has of the Supervisor.

50.7 Transfer of Registration

50.7.1 Transfer from MPhil to PhD

50.7.1.1 A candidate provisionally registered for the PhD degree shall apply to transfer registration and proceed to the PhD, after completion of at least a period of 9 months but not more than 24 months (full-time students) or at least 9 but not more than 36 months (part-time students), if the Supervisor so recommends. The recommendation shall be based on the work that has already been done by the student within the said period. The application must then be supported by a statement from the Supervisor describing progress and giving details of how the study is to be developed. The application must be submitted through the Departmental Board to the School of Graduate Studies Board for final decision.

50.7.2 Transfer from PhD to MPhil

50.7.2.1 A candidate registered for the PhD, may choose to transfer to the MPhil programme. The student's Supervisor may recommend that the student transfer to the MPhil programme. In both of these situations, the application for transfer must be accompanied by a written recommendation from the Supervisor and be submitted through the Departmental Board to the School of Graduate Studies Board for final decision.

50.7.2.2 When the Supervisor recommends that the student transfer to the MPhil programme and the student does not wish to do so, the student will be required to withdraw.

50.8 Thesis

50.8.1 Submission of Title and Abstract of the Thesis

The title and abstract (not exceeding 500 words) of the Thesis must be written in English. Exceptions may be made; when an exception is requested, approval of the School of Graduate Studies Board shall be obtained at the time of original submission. Any thesis which is not written in English must be accompanied by an English language abstract and synopsis.

50.8.2 Format and Content of the Thesis

50.8.2.1 The Thesis must be written in English. Exceptions

50.8.3 Submission of the Thesis for Examination

50.8.3.1 After completing the research/investigation, the candidate, or if jointly, the candidate must prepare a draft of the Thesis. The Thesis must consist of the candidate's own account of the research. The Thesis may describe work carried out in conjunction with the candidate's Supervisors, and others. It may also include material obtained or produced with technical or other assistance, provided that the candidate's personal share in the investigation is stated clearly, and specifically acknowledges all such assistance. Publications and other contributions (e.g. reports) may be submitted, provided they are published solely by the candidate, or if jointly, the candidate must state fully his/her contribution to the work.

50.8.4 The Thesis may be submitted in the format specified in General Regulation 41.9.6 or as a collection of papers published in peer-reviewed journals or books, provided the overall Thesis forms a logical and linked development of ideas.

50.8.5 It is not permitted to present a Thesis that has been submitted to another University or Institute of Higher Education for an award except by written agreement between the two institutions at the beginning of the study.

50.8.6 Submission of the Thesis for Examination

50.9 Examination

50.9.1 Entry into the Examination

50.9.1.1 Application for entry to the examination must be made on the appropriate form obtainable from the Dean of School of Graduate Studies. The examination entry form shall be endorsed by the Supervisor, who shall first satisfy himself/herself...
that the Thesis is in a form suitable for examination and, if items of coursework have been set, that the candidate has satisfactorily completed them. The completed form must be returned to the School of Graduate Studies, Supervisor, or Head of the relevant Department.

50.9.4 Functions of the Board of Examiners
50.9.4.1 The External Examiner and the Internal Examiner(s) shall examine the MPhil or the PhD Thesis before the Oral Examination. There shall be no communication between examiners until the reports are completed, except through and with approval of the Dean of the School of Graduate Studies. The Examiners shall submit independently written reports, including recommendations to the Dean of the School of Graduate Studies, whether the Thesis should be:
   a) Accepted
   b) Accepted pending amendments
   c) Failed

The Dean of School of Graduate Studies shall submit the reports of the external and the internal examiner to the supervisor and the coordinator. Minor amendments shall be completed within eight weeks coordinated by the supervisor and certified by the internal examiner before the oral examination is scheduled. Major amendments should be completed within 12 months. For Major amendments, it is the responsibility of the supervisor to determine that the candidate has made all the corrections recommended by the examiners. Major amendments shall then be certified by the external examiner before the oral examination is scheduled. Thereafter if the external examiner accepted the corrections, the copies of the revised thesis should be sent to internal examiner for noting. In exceptional circumstances, the School of Graduate Studies Board may appoint a second External Examiner to assess the Thesis.

50.9.5 The Board of Examiners
50.9.5.1 The Oral Examination is mandatory for MPhil and PhD submissions. Oral Examination should be scheduled in accordance with Regulation 50.9.3 before the Oral Examination is scheduled.

50.9.5.2 The oral examination is an integral part of the examination of the MPhil and PhD degrees, and shall be held in English.

50.9.5.3 The main purposes of the Oral examination are:
   a) To provide the candidate an opportunity to clarify issues;
   b) To further assess the Thesis and find out whether the candidate can explain his/her work;
   c) To test the candidate on general knowledge of the subject;
   d) To provide an opportunity for a panel of experts to discuss the research with the student.

50.9.5.4 The candidate shall not be informed of the names of the examiners until 24 hours before the oral examination.

50.9.5.5 At the end of the oral examination, the Board of Examiners may require further examination through written papers, practical examinations or oral examination in the case of a resubmitted thesis. The Board of Examiners may waive the requirement for an oral examination in the case of a resubmitted thesis.

50.9.6 Results of the Thesis and Oral Examinations
50.9.6.1 Once the candidate has excused himself/herself, the Board of Examiners shall sit for its final deliberations. These deliberations will be guided by the Chairperson of the Board of Examiners, and be based on the Thesis examination reports of the External Examiner and the Internal Examiner, and the performance of the candidate during the oral examination. The Chairperson of the Board of Examination shall make a report (including the final recommendation signed by the External and Internal Examiner(s) countersigned by the Chairperson) to the Dean of School of Graduate Studies. An unsigned copy of the report shall be provided to the student.

50.9.6.2 The report shall recommend one of the following decisions:
   a) Recommend the award of MPhil or PhD degree;
   b) Recommend the award of MPhil or PhD degree, pending amendments;
   c) Failed.

50.9.6.3 After the Board of Examiners has concluded its deliberations and agreed upon a recommendation, the candidate shall be asked to leave into the examination room and shall be informed of the outcome of the examination. The outcome of the examination shall be forwarded by the Chairperson to the School of Graduate Studies Board, which will review it and forward a recommendation to Senate.

50.9.6.4 The Board of Examiners, in very exceptional circumstances, may require further examination written papers, practical examinations or other forms of assessment.

50.9.6.5 If the award of MPhil or PhD has been recommended pending minor amendments, the internal Examiner(s) shall certify that the candidate has completed all the corrections before lodgement of the final bound copies of the Thesis, within a period of 4 weeks.

50.9.6.6 If the recommendation is not to award the MPhil or PhD pending major amendments, it is the responsibility of the Supervisor to ensure that the candidate has made all the recommendations of the Examiners. Major amendments must be approved by the Internal Examiner and certified by the External Examiner. The revised Thesis must be resubmitted within one calendar year from date of School of Graduate Studies Board’s decision. The Board of Examiners may waive the requirement for an oral examination in the case of a resubmitted thesis.

50.9.6.7 If in the opinion of the Board of Examiners, a candidate for the PhD degree does not justify a recommendation for the award of a PhD, nor the re-presentation of the Thesis in a revised form for that degree, they may, at their discretion, recommend that the candidate be awarded an MPhil. The student may decline to receive the MPhil degree.

50.9.6.8 The MPhil and PhD degrees shall not be classified.

50.9.7 Lodgement and Distribution of the Thesis
50.9.7.1 After the examination(s), the Dean of the School of Graduate Studies will retrieve the loosely bound Thesis copies from the Examiners. If the submitted Thesis has been passed and the candidate has been notified of the results in accordance with Regulation 50.9.6.3, the Dean of the School of Graduate Studies will inform the candidate to arrange that the Thesis be bound in accordance with Regulation 50.9.7.2, and that the candidate lodge with the Dean five bound copies of the Thesis within three months after the examination.

50.9.7.2 The Dean of School of Graduate Studies shall arrange that the Thesis be bound in accordance with Regulation 50.9.7.3 before the Thesis is submitted for examination. The Thesis shall be available for purchase by the candidate at a cost of $3.00.
results. After receiving the bound Thesis, the Dean of the School of Graduate Studies will deposit two copies in the University Library of which one will be delivered to National Archives and the third copy in the relevant Department. Unless the School of Graduate Studies Board has agreed to the contrary the Thesis shall be open to public reference, but not taken away on loan. Copyright restrictions and intellectual property policy that may be in force at the University of Botswana will apply. Additional copies may be required as agreed between the Department and the Candidate.

50.9.7.2 The copies shall be bound in accordance with the following specifications:
Buckram or cloth; overcast; edges uncut; lettered boldly up the spine in gold. Letters should be from 5 mm to 10 mm in size and indicate NAME, DEGREE and YEAR, in that order, beneath the TITLE. Colour of cover: Botswana blue or other colour approved by the School of Graduate Studies Board.

50.8.7.3 An electronic copy of the thesis shall be submitted together with the copies of the Thesis. The electronic copy shall be labelled with NAME, DEGREE, YEAR, TITLE OF THESIS and the SOFTWARE PACKAGE used, in that order, and deposited in the University of Botswana Library.

50.10 Notification of Results and Award of Degree
50.10.1 Candidates will be formally notified of their examination results by the School of Graduate Studies, after the reports from the Board of Examiners, Departmental Board and School of Graduate Studies Board have been accepted and approved by Senate.

50.10.2 The award of the MPhil and PhD degrees under the seal of the University shall be delivered to each successful candidate after the award of the degree has been approved by the Senate.

50.10.3 A student normally has the right of appeal to Senate on decisions taken under these regulations. The Appeal shall be made to the Dean of the School of Graduate Studies, for consideration by the Departmental Board, with a recommendation to the School of Graduate Studies Board, within three months from the date of notification of the results.
SCHOOL OF GRADUATE STUDIES

MODULAR POSTGRADUATE PROGRAMMES 22
Masters Development Practice including Postgraduate Programmes 22
Masters in Science, Research, Educational Management 24
MODULAR POSTGRADUATE PROGRAMMES

SCHOOL OF GRADUATE STUDIES
(Coordination) AND FACULTY OF SOCIAL SCIENCES (Award of Qualification):

What is the Master’s in Development Practice (MDP) Degree?
The Master’s in Development Practice (MDP) at UB is a modular cross-disciplinary program providing skills and knowledge required to better identify and address the global challenges of sustainable development, such as poverty, population, health, conservation, climate change, and human rights. Core courses cover the natural, social, health, and management sciences. A global course on Integrated Approaches to Sustainable Development brings together expert practitioners, students and faculty from around the world. Practical field training and academic programs are being launched in Africa, Asia, Australia, Europe, and the Americas.

The John D. and Catherine T. MacArthur Foundation (MAF) committed 16 million US$ over the period from 2009 to 2013 to create MDP programmes at over 20 universities worldwide and with it a global network of faculty, students, practitioners and partner organisations.

As one of the nine universities selected by MAF for delivery in 2010, the University of Botswana has been awarded 2.5 million Pula (330,000 US$) for seed funding. However, UB’s MDP framework considerably differs from other partners’ programmes by integrating a compulsory in-company research project and by its modular mode. By departing from full-time delivery, UB’s MDP will allow professional capacity development for participants living outside the capital’s catchment area, from Botswana as well as from other member states of the Southern African Development Community (SADC). An accreditation of UB’s modular MDP with a European agency is under way, making it particularly convenient for international exchange students and regional volunteers to engage in part of UB’s MDP and to take worldwide recognised credits back to their home institutions. The MDP also integrates Postgraduate Certificates and Diplomas for participants only interested in selected MDP modules.

What prompted the Promotion of Global MDP Programmes?
In 2007, the International Commission on Education for Sustainable Development (E4SD) made a call for development professionals to set out to challenge the narrow scope of current respective programmes available and to broaden the training and knowledge base by integrating the core disciplines of health, natural and social sciences and management. By acquiring interdisciplinary knowledge as well as practical skills via two intensive practical field-training experiences, students are equipped to work across different fields to design and manage integrated development interventions and to implement appropriate policies to support sustainable development. Hence, the MDP will provide training and competences beyond the typical classroom study of economics and management found in most development studies programs.

What Professional & Career-oriented Aims underpin UB’s MDP?
UB fully backs the recommended multidisciplinary approach to sustainable development and employs a holistic perspective by integrating systems thinking, economic, natural resource, health, social, ecological, technological, environmental, legal, and management dimensions. UB’s MDP promotes modular study opportunities for regional and international students as well as for professional capacity development. It, particularly, supports – together with other modular programmes at UB – organisations in regard to their staff development, recruitment and retention needs by enabling convenient access for citizens residing/employed outside Gaborone, less time-consuming and less costly compared to academic competitors in the region. Graduates will be well prepared to confront complex sustainable development challenges in the private or public sector. The MDP’s structure, contents, delivery, and assessments are geared towards the achievement of five major aims:

- Integration of the International Commission on Education for Sustainable Development Practice Recommendations incl. scope, duration, contents, and learning outcomes of the eighteen competency areas expressed (see front cover) across the four key disciplines (health, management, natural & social sciences);
- Compliance with Regional Credit and Qualification Frameworks concerning size and workload distribution of postgraduate qualification(s) and level descriptors;
- Equivalence of UB’s MDP with international qualifications as evidenced by an International Accreditation Agency’s Audit during the first year of delivery;
- Development of communication, project management, and leadership skills as expected by the professional world of government, enterprises and other organisations, as exemplified by the findings of the Global MBA Recruiters Survey and UB’s Graduate Attributes;
- Contribution to Botswana’s Economic and Social Development Agenda by assuring that graduates entering employment are equipped with knowledge, skills, entrepreneurial talent as well as attitudes to create a society and economy that will bring benefits for the advancement of the country and its people.

Special MDP Regulations
In order to be awarded the MDP degree, a participant must complete successfully all the programme elements as listed in chapter 4.3 and earn 125 UBECTS credits for the Master, 48 UBECTS credits for the Postgraduate Diploma, or 24 UBECTS credits for a Postgraduate Certificate. Credits taken at another tertiary institution as exchange student or credits recognised based on UB’s ‘Articulation, Credit Transfer and Recognition of Prior Learning (RPL) Policy and Procedures’ can be taken into account.

Subject to regulations governing Admissions, Fees, and Discipline, the provisions of Academic General Regulations 000, and General Regulations for Master’s Degree 40.00 and 41.00, the following special regulations of the School of Graduate Studies as the coordinator and the Faculty of Social Science as awarding body of the MDP shall apply.

40.24 A graduate MDP student undertaking an in-company research project may apply on behalf of the respective organisation to the MDP Board for a confidentiality agreement which places time-limited restrictions on the presentation of the Dissertation, or the deposition of the Dissertation in the University Library or other libraries.

41 Regulations Specific for the MDP Degree Programme
41.1 The programme of study will be offered for the award of the Master’s in Development Practice (MDP) Degree (3,125 hours, 125 credits)

- Postgraduate Diploma in Development Management (1,200 hours, 48 credits)
- PG Certificate in Sustainable Development Practice (600 hours, 24 credits)
- PG Certificate in Sustainable Tourism Development (600 hours, 24 credits)
- PG Certificate in Resource Management (600 hours, 24 credits)
- PG Certificate in Sustainable Infrastructure Development (600 hours, 24 credits)

shall be specified in the Programme and School Regulations and shall be offered in the following mode: Modular Course Work, Field Study, Studies, and Dissertation (for Master qualification).

41.3 Entrance Qualifications
41.3.1 The normal minimum entrance requirement for the graduate MDP programmes shall be one of the following: a minimum of a 2.2 or equivalent in their first degree, relevant to the MDP.
41.3.2 In addition, the programme will cater for two student categories:
(a) Candidates who fulfil the academic entry requirement and who at the time of application are working in the field of development. Such candidates will be required to have gained at least two years of work experience in the area of development.
(b) Alternatively, the programme will cater for individuals with a professional training who want to convert their existing qualifications into a development orientated qualification. These candidates will also be expected to fulfil the academic entry requirement but will be exempted from the two year work experience requirement.
41.3.3 Candidates who already hold a postgraduate degree will be exempt from the 41.3.2 academic requirements.
41.3.4 In the case of all candidates, preference will be given to those who plan to make a career in areas specifically related to issues of development policy and practice.

41.4 Application for Admission
41.4.6 Students who have failed any of the MDP programmes are eligible to re-apply to that programme after one semester. Re-application is limited to two times.

41.5 Programme Structure
The curriculum for the MDP degree programmes shall be specified in Departmental and School Regulations.

41.5.1 Duration of the Programme
• The normal duration for a student in a MDP programme shall be as follows:
• A minimum of 28 months to a maximum of 72 months in the modular mode for Master and Postgraduate Diploma; 28 months to a maximum of 36 months for Postgraduate Certificates.

41.6 Registration
41.6.1 According to the recommended MDP programme progression, the normal workload for a modular MDP student shall be 48 notional hours for on-campus residential weeks and 12 hours for interim off-campus weeks. The workloads in the modular delivery mode vary according to scheduling.
41.6.2 To be awarded a MDP degree, a candidate must complete a minimum of 125 credits and complete all work as specified in Programme and Course Outlines resulting in a minimum GPA of 2.5 (55%) in all courses including the Research Dissertation.
41.6.3 The general regulation 41.6.3 does not apply due to the modular delivery modes of the MDP programme.

41.7 Assessment
in accordance with the General Regulations for Master’s Degree 41.7
41.7.1 Continuous Assessment: Continuous Assessment shall be as prescribed in General Regulation 00.81. Other modes of assessment deemed fit by the course lecturer could be used subject to approval of departmental quality assurance committees.

41.8 Progression from Modular Phase to Modular Phase
41.8.1 Canceled.
41.8.2 A student who has maximal one course shown as failed or incomplete in his/her transcript at any time may register for the next module or modular phase.
41.8.3 Students are permitted to retake a failed course only once. A failed optional course may be replaced by another (substitute) optional course, which must be passed straight away.
41.8.4 Add Regulation 41.8.4 and should read: A student who obtains less than 50% of courses registered in a semester will have failed the programme. Regulation was omitted in 2012/2013 SGS Academic Calendar. As a result, regulation 41.8.4 becomes 41.8.5. 41.8.5 becomes 41.8.6, 41.8.6 becomes 41.8.7.
41.8.5 With the approval of the School Board and the School of Graduate Studies, the Supervisor may be from another department or appropriate external institution. The School shall nominate up to 2 additional members who shall be Co-Supervisors, who with the Supervisor shall constitute a Supervision Committee. In case of an in-company project, a co-supervisor - if adequately qualified - can be from an external organisation.
41.8.6 The Dissertation shall normally be submitted within two semesters for modular students, after the semester the proposal has been approved.
41.8.7 In case of an in-company project, the Supervisor is expected to endorse or prepare a short briefing concerning the particular complexities the student has encountered/tackled in his/her in-company research dissertation to assist the internal and external examiners in making an informed assessment.

41.9 Dissertation
in accordance with the General Regulations for Master’s Degree 41.9
41.9.1 The Dissertation Supervisor shall normally be nominated by the School before the registration of the dissertation. Such a supervisor shall normally be a member of academic staff of the related MDP departments in which the research is being pursued, or with the approval of the School of Graduate Studies, the Supervisor may be from another department or appropriate external institution. The Department shall nominate up to 2 additional members who shall be Co-Supervisors, who with the Supervisor shall constitute a Supervision Committee. In case of an in-company project, a co-supervisor - if adequately qualified - can be from an external organisation.
41.9.7 The Dissertation shall normally be submitted within two semesters for modular students, after the semester the proposal has been approved.
41.9.9 In case of an in-company project, the Supervisor is expected to endorse or prepare a short briefing concerning the particular complexities the student has encountered/tackled in his/her in-company research dissertation to assist the internal and external examiners in making an informed assessment.

Management (MSREM) is a modular cross-disciplinary program providing relevant capacity development to the widest range of stakeholders in the national Science and Technology, Research and Educational Context. The MSREM will utilise individual and institutional performance indicators as point of departure and focus on Public and Private Management of Science, Research, Technology, Innovation and Education accordingly. Focal points would be: the repertoire of state interventions, international best practices and global opportunities, public-private partnerships, (inter-)national actors and networks and their abilities to interact, manage, adapt and be financed.

By departing from full-time delivery, UB's MSREM will allow professional capacity development for participants living outside the capital’s catchment area, from Botswana as well as from other member states of the Southern African Development Community (SADC). An accreditation of UB’s modular MSREM with a European agency is under way, making it particularly convenient and attractive for international exchange students and/or regional volunteers to engage in part of UB's MSREM and to take worldwide recognised credits back to their home institutions. The MSREM also integrates Postgraduate Certificates and Diplomas for participants only interested in selected MSREM modules.

What prompted the development of MSREM?
Based on the understanding that tertiary education systems are destined to stimulate long-term economic growth, by educating talented, creative, and capable researchers and by producing inventive, pioneering, high-impact research, the stakeholders in academia, government and industry engage in the transformation of higher education, science and research systems worldwide. Guided by multinational policies and agreements, qualification frameworks, credit transfer and grading systems, accreditation systems, funding formulas, and excellence initiatives, academic institutions are challenging established academic practices and are aligning their teaching, learning, mentoring, and assessment strategies.

As a consequence, higher education and research institutions as well as their counterparts in government are faced with changing degrees of autonomy and responsibility which trigger a wide range of change processes and a need for the professionalisation of management as well as academic and administrative staff. With a shift of focus away from a transactional perspective toward problem-solving, management capabilities, and self-funding as well as the introduction of new methods and tools necessary to accomplish the transformed tasks better and faster, adequate capacity development becomes crucial, but a systematic sector-oriented approach like the MSREM has been missing in the professional world of government, enterprises and other organisations, as exemplified by the findings of the Global MBA Recruiters Survey (provider of GMAT test);

• Contribution to Botswana's Economic and Social Development Agenda and Vision 2016 by assuring that graduates entering employment are equipped with knowledge, skills, entrepreneurial talent as well as attitudes to create a society and economy that will bring benefits for the advancement of the country and its people.

• The integration of some best practices and approaches observed at UB and affiliated institutions worldwide concerning Capacity Building and Quality Management.

The MSREM has been approved by UB Council in June 2010 and shares some of the contents with UB’s other modular programmes. Delivery of the programme is planned during 2011/12 with further Postgraduate Certificates planned to be added to the MSREM to cover all areas of Learning & Teaching, Research Excellence, Leadership, and Services & Outreach.

Particulars of the MSREM Regulations
Size of the Qualification and Award of Graduate Degree Because of the unique framework and the new programme and delivery structure, UB’s MSREM is not fully compatible with UB’s General Regulations for Master’s Degree 40.24 and 41.00, but is compatible with the special regulations approved already for the modular MBA and the MDP. In order to be awarded the MSREM degrees, a participant must complete successfully all the programme elements as listed in chapter 4.3 and earn 72 UB/ECTS credits for the Master, 48 UB/ECTS credits for the Postgraduate Diploma, or 24 UB/ECTS credits for a Postgraduate Certificate. Credits taken at another tertiary institution as exchange student or credits recognised based on UB’s ‘Articulation, Credit Transfer and Recognition of Prior Learning (RPL) Policy and Procedures’ can be taken into account.

Regulations for the modular SREM Programme Subject to regulations governing Admissions, Fees, and Discipline, the provisions of Academic General Regulations 000, and General Regulations for Master's Degree 40.00 and 41.00, the following special regulations of the School of Graduate Studies as the coordinator and the Faculty of Education as awarding body of the SREM shall apply.

41 Regulations Specific for the SREM Degree Programme 41.1 The programme of study will be offered for the award of the Master’s in Science, Research, Educational Management (1,800 hours, 72 credits).

41.2 A graduate SREM student undertaking an in-company research project may apply on behalf of the respective organisation to the SREM Board for a confidentiality agreement which places time-limited restrictions on the presentation of the Dissertation or the deposit of the Dissertation in the University Library or other libraries.

41.3 PG Diploma in Science, Research, Educational Management (PSDREM)
Any one of the PG Certificate plus any 24 credits of other coursework
Master in Science, Research and Educational Management (MSREM)
PG Diploma as stipulated above plus tba (24) Research: Thesis 600 hours

Master in Science, Research, Educational Management
What is the Master in Science, Research, Educational Management?
The Master in Science, Research and Educational Management (MSREM) is a modular cross-disciplinary program providing relevant capacity development to the widest range of stakeholders in the national Science and Technology, Research and Educational Context. The MSREM will utilise individual and institutional...
41.6.3 The general regulation 41.6.3 does not apply.

41.6.2 To be awarded a SREM Master/PGDip/PGCert according to the recommended SREM programme.

41.5.1 Duration of the Programme

Curriculum for the SREM degree programmes shall be specified in Departmental and School Regulations.

41.3 Entrance Qualifications

41.3.1 The normal minimum entrance requirement for the graduate SREM pro-grammes shall be one of the following: a minimum of a 2.1 or equivalent in their first degree, relevant to the SREM.

41.3.2 In addition, the programme will cater for two student categories:

(a) Candidates who fulfil the academic entry requirement and who at the time of application are working in the field of science, research, and education. Such candidates will be required to have gained at least two years of work experience.

(b) Alternatively, the programme will cater for individuals with a professional training who want to convert their existing qualifications into a SRE-management orientated qualification. These candidates will also be expected to fulfil the academic entry requirement but will be exempted from the two year work experience requirement.

41.3.3 Candidates who already hold a post-graduate degree will be exempt from the 41.3.2 academic requirements.

41.3.4 In the case of all candidates, preference will be given to those who plan to make a career in areas specifically related to issues of SRE management, policy, and practice.

41.4 Application for Admission

41.4.6 Students who have failed any of the SREM programmes are eligible to reapply to that programme after one semester. Re-application is limited to two times.

41.5 Programme Structure

The curriculum for the SREM degree programmes shall be specified in Departmental and School Regulations.

41.5.1 Duration of the Programme

The normal duration for a student in a SREM programme shall be as follows:

A minimum of 12 months to a maximum of 48 months in the modular mode for Master and Postgraduate Diploma; 12 months to a maximum of 36 months for Postgraduate Certificates.

41.6 Registration

41.6.1 According to the recommended SREM programme progression, the normal workload for a modular SREM student shall be 48 notional hours for on-campus residential weeks and 12 hours for interim off-campus weeks. The workloads in the modular delivery mode vary according to scheduling.

41.6.2 To be awarded a SREM Master/PGDip/PGCert degree, a candidate must complete a minimum of 72/48/24 credits and complete all work as specified in Programme and Course Outlines resulting in a minimum GPA of 2.5 (55%) in all courses including the Research Dissertation for the Master qualification.

41.6.3 The general regulation 41.6.3 does not apply due to the modular delivery modes of the SREM programme.

41.7 Assessment

41.7.1 Continuous Assessment

Continuous Assessment shall be as prescribed in General Regulation 00.8.1. Other modes of assessment deemed fit by the course lecturer could be used subject to approval of departmental quality assurance committees.

41.8 Progression from Modular Phase to Modular Phase

41.8.1 Cancelled.

41.8.2 A student who has maximal one course shown as failed or incomplete in his/her transcript at any time may register for the next module or modular phase.

41.8.3 Students are permitted to retake a failed course only once. All core courses must be passed. A failed optional course may be replaced by another (substitute) optional course, which must be passed straight away.

41.8.4 A student who has more than one course shown as failed or incomplete in his/her transcript at any time is not allowed to register for the next module or modular phase until the number of courses shown as failed or incomplete in his/her transcript has been reduced to a maximum of one.

41.8.5. With the approval of the School Board and the School of Graduate Studies Board, SREM programme regulations can stipulate how individual parts of a failed course's Continuous Assessment can, in a limited time frame, be repeated without having to retake the complete course. The choice of this option by the student constitutes a re-take of the student according to 41.8.3; any part of the continuous assessment can be re-taken only once and the mark of the re-take supersedes the initial mark.

41.9 Dissertation

Dissertation in accordance with the General Regulations for Master's Degree 41.9

41.9.1 The Dissertation Supervisor shall normally be nominated by the School before the registration of the dissertation. Such a supervisor shall normally be a member of academic staff of the related SREM departments in which the research is being pursued, or with the approval of the School of Graduate Studies, the Supervisor may be from another department or appropriate external institution. The Department shall nominate up to 2 additional members who shall be Co-Supervisors, who with the Supervisor shall constitute a Supervision Committee. In case of an in-company project, a co-supervisor – if adequately qualified - can be from an external organisation.

41.9.7 The Dissertation shall normally be submitted within two semesters for modular students, after the semester the proposal has been approved.

41.9.9 In case of an In-company project, the Supervisor is expected to endorse or prepare a short briefing concerning the particular complexities the student has encountered/tackled in his/her in-company research dissertation to assist the internal and external examiners in making an informed assessment.

41.10 Research Essay – not applicable

41.11 Examination of a Dissertation

Examination of a Dissertation in accordance with the General Regulations for Master's Degree 41.11

41.12 Notification of results and award of the SREM degree in accordance with the General Regulations for Master's Degree 41.12

41.13 Evidence of proficiency in English language is a requirement.

Revised Regulations for Students starting in 2011/12

The Master of Business Administration degree (MBA) is internationally recognized as a key qualification for senior corporate managers in today's changing technological, cultural, political and economic environment. These changes include increasing globalisation of business and technology, presenting opportunities and challenges in the new millennium. In order to take advantage of the opportunities and to deal with the challenges in our fast changing turbulent environment, organizations require knowledgeable and skilled managers with sharp decision making skills, innovation, confidence and vision.

The MBA Programmes consists of sixteen (16) semester courses, comprising twelve (12) compulsory core courses and four (4) optional courses in addition to a compulsory dissertation. Each semester course consists of 75 workload hours over a semester or the equivalent in modular delivery. The normal duration of the full-time MBA programme shall be a minimum of three (3) semesters (1.5 years), and a maximum of 12 semesters, and 1.5 years for the Modular and EMBA.

The MBA Programme

The UB's full/part-time and modular MBA as well as the modular EMBA are career development generalist degrees. The curriculum provides students with a rigorous and critical grounding in key core and functional areas of business and their inter-relationships. Integrative, interactive and global outlook are the key philosophical drivers behind the curriculum. It further puts emphasis on developing leadership through strategic management with a significant practical and professional orientation. In full compliance with all relevant standards, the programme offers the students the intellectual and practical knowledge required to enhance their competitiveness in the national and global market.

Entrance Qualification

Admission into the MBA Programme is highly competitive. Places are limited, and typically about 30% of all applicants currently gain admission.

Entrance Qualifications (for the General MBA)

41.3.1 The normal minimum entrance requirement for the full/part-time MBA shall be one of the following:

(a) An undergraduate degree in any discipline from this or any other recognized university or institution of higher learning, having earned at least a GPA of 2.8 out of 4.00 scale; or 3.00 out of a 5.00 scale, second class, second division, or its equivalent coupled with at least three years appropriate work experience; or

(b) Relevant professional or postgraduate qualifications deemed equivalent to at least a 2.8 GPA [2(i)] degree by the Faculty of Business coupled with at least three years appropriate work experience; or

(c) An undergraduate degree at a pass division or equivalent coupled with a post-graduate diploma at credit level or above and at least three years appropriate work experience; or

(d) An undergraduate degree at pass division or equivalent coupled with at least 5 years relevant experience.

Core Courses and Research Project/Dissertation: Students must take and pass (55%) the following twelve (12) compulsory core courses. Students also have to undertake and pass a compulsory research project dissertation of 600 hours simultaneously to or after the coursework of the programme.

Optional Courses: Students must then take and pass four (4) optional courses chosen from a menu of 38 elective courses from the sub disciplines of Business Intelligence & IT, Sales, Marketing & Procurement, Trade and Logistics, Leadership & Capacity Building, Financial Management, and Tourism & Hospitality Management. The Faculty of Business also offer elective modules comprising three courses suited to support an integrating 3 credit Mini Group Project or Workshop.

Foundation courses: To support participants with non-business first degrees and backgrounds, the new MBA and EMBA introduced six optional courses (1.5 credits each) and an integrating case study (1 credit) prior to the commencement of the MBA programmes. The aim is to bring students up to a required minimum level of competencies, so that the learning experience of business experienced participants in the graduate MBA programmes is not compromised. These courses are: Principles and Practices of Management, Principles of Marketing, Quantitative Analysis for Business, Information Technology for Managers, Economic Concepts for Management.

Part-time and Modular Mode

The part-time and modular modes cover the same curriculum and class room hours as the full-time MBA, but have been designed to meet the needs of participants who are working while they study. While the part-time MBA provides easy access to citizens in the wider Gaborone area, participants in Botswana and the region can cherish the convenient access the modular delivery mode provides. An additional modular Executive MBA (EMBA) demanding further working experience will provide a stimulating environment for more senior managers and administrators. Although structure and the associated workload hours are the same in all MBAs, a number of measures have been taken to suit the Executive version to the particular needs of the more experienced clientele.

The Faculty of Business recognizes the educational benefits of having a diversified group of MBA students; hence selection aims to achieve a balance of participants from a variety of disciplines and backgrounds.

Entrance Qualifications (for the EMBA)

41.3.2 The normal minimum entrance requirement for the modular Executive MBA shall be one of the following:

a) An undergraduate degree in any discipline form this or any other recognized University or institution of higher learning; or

b) Relevant professional or postgraduate qualifications deemed equivalent to at least a 2.8 GPA [2(ii)] Degree by the Faculty of Business and

c) A minimum of 5 years relevant postgraduate professional experience and a proven management track record (at least 3 years experience of minimum two years) in the public or private sector.

d) In certain situations, applicants may also be required to take part in an interview.

Programmes of the Faculty shall apply. Regulations 000, and General Regulations for Master's Discipline, the provisions of Academic General Regulations for the MBA

41.3.1 The normal minimum entrance requirement for the modular Executive MBA shall be one of the following:

a) An undergraduate degree in any discipline from this or any other recognized University or institution of higher learning; or

b) Relevant professional or postgraduate qualifications deemed equivalent to at least a 2.8 GPA [2(ii)] Degree by the Faculty of Business; and

c) A minimum of 5 years’ relevant postgraduate professional experience and a proven management track record (managerial experience of minimum two years) in the public or private sector.

d) In certain situations, applicants may also be required to take part in an interview.

41.3.2 Foundation Courses

Students for the full/part-time MBA or modular Executive MBA are to demonstrate sufficient academic business background by the successful completion of the MBA Foundation Courses (10 credits).

(b) Students can be exempted from taking any or all of the six foundation courses plus case study if they can successfully demonstrate prior proficiency in those areas in accordance with UB’s ‘Articulation, Credit Transfer and Recognition of Prior Learning (RPL) Policy and Procedures.’ Normally students will be required to submit an application for exemptions accompanied by degree transcripts to the MBA Coordinator.

c) Holders of B.Com, B.Acc and BBA degrees of the University of Botswana will be exempted from all foundation courses. Holders of equivalent degrees from other Universities will be granted exemptions on a case-by-case basis.

d) Credits of Foundation Courses do not count towards the award of the MBA or EMBA qualification.

e) General Academic regulation 00.4(i) on exemptions, credit banking and transfers applies.

41.3.3 Application for Admission

Students who have failed the MBA programme are eligible to reapply to that programme after one semester. Re-application is limited to two times.

41.5 Programme Structure

The curriculum for the MBA degree programmes shall be specified in Departmental and Faculty Regulations.

41.5.1 Duration of the Programme

The normal duration for a student in a MBA programme shall be as follows:

a) A minimum of 2 to a maximum of 6 semesters on a full-time basis or in the modular Executive MBA;

b) A minimum of 4 to a maximum of 8 semesters on a part-time basis.

Under no circumstances can the duration of study be longer than 12 semesters.

41.6 Registration

According to the recommended MBA programme progression, the normal workload for a full-time MBA student shall be 18 credits and for a part-time MBA students Workloads in the modular delivery mode vary according to scheduling.

41.6.2 To be awarded a MBA degree, a candidate must complete a minimum of 72 credits and complete all work as specified in Programme and Course Outlines resulting in a minimum GPA of 2.5 (55%) in all courses including the Research Dissertation.

41.6.3 The general regulation 41.6.3 does not apply due to the mixed delivery modes of the MBA programmes.

41.7 Assessment

In accordance with the General Regulations for Master’s Degree 41.7

41.7.1 Continuous Assessment shall be as prescribed in General Regulation 00.81. Other modes of assessment deemed fit by the course lecturer could be used subject to approval of departmental quality assurance committees.

41.8 Progression from Semester to Semester, Modular Phase to Modular Phase

41.8.1 Cancelled.

41.8.2 A student who has maximal one course shown as failed or incomplete in his/her transcript at any time may register for the next semester/modular phase.

41.8.3 Students are permitted to retake a failed course only once. All core courses must be passed. A failed Optional course may be replaced by another (substitute) Optional course, which must be passed straight away.

41.8.4 A student who has more than one course shown as failed or incomplete in his/her transcript at any time is not allowed to register for the next semester/modular phase until the number of courses shown as failed or incomplete in his/her transcript has been reduced to a maximum of one.

41.8.5 With the approval of the Faculty Board and the School of Graduate Studies Board, MBA programme regulations can stipulate how individual parts of a failed course’s Continuous Assessment can, in a limited time frame, be repeated without having to retake the complete course. The choice of this option by the student constitutes a re-take of the student according to 41.8.3; any part of the continuous assessment can be re-taken only once and the mark of the re-take supersedes the initial mark.

41.9 Dissertation

In accordance with the General Regulations for Master’s Degree 41.9

41.9.1 The Dissertation Supervisor shall normally be nominated by the Department before the registration of the dissertation. Such a supervisor shall normally be a member of academic staff in the department in which the research is being pursued, or with the approval of the School of Graduate Studies, the Supervisor may be from another department or appropriate external institution. The Department shall nominate up to 2 additional members who shall be Co-Supervisors, who with the Supervisor shall constitute a Supervision Committee. In case of an In-company project, a co-supervisor – if adequately qualified - can be from an external organisation.

41.9.7 The Dissertation shall normally be submitted within two semesters for full-time students and three semesters for part-time students, after the semester the proposal has been approved.

41.9.9 In case of an In-company project, the Supervisor
Master of Business Administration (MBA) Old Regulations for Students starting prior to 2011/12

Full-time and Part-time

1.0 Special Regulations for the Faculty of Business (All Departments)

Subject to the provisions of General Academic Regulations 00.0 to 20.4, the following Special Regulations shall apply:

2.0 Special Regulations for the MBA Degree Programme

Subject to regulations governing Admissions, Fees, and Discipline, the provisions of General Academic Regulations 00.0, and General Regulations for the Master's Degree 40.0, the following Special Regulations of the Faculty of Business shall apply:

2.1 Degree Programme

The programme of study will be offered for the award of the Master of Business Administration (MBA) Degree.

2.2 Entrance Qualifications

2.2.1 The minimum admission requirements for the Master of Business Administration Degree Programme shall be:

a) An undergraduate degree in any discipline from this or any other recognized University or institution of higher learning, having earned at least a 2.8 GPA [2(iii)] Degree by the Faculty of Business; or

b) Final professional or postgraduate qualifications or membership in professional institutions deemed equivalent to at least a 2.8 GPA [2(iii)] Degree by the Faculty of Business; or

c) An undergraduate degree at a pass division or equivalent coupled with a postgraduate diploma at credit level or above; or

2.2.2 Students with post-graduation work experience will be preferred.

2.3 Programme Structure

2.3.1 The Master of Business Administration Programme consists of 16 semester courses, comprising ten compulsory core courses, and six optional courses chosen by the student in consultation with the Faculty from a selection of courses approved as MBA courses; or in the case of students choosing to undertake the Research Essay, ten core courses, two optional courses, and the Research Essay.

2.3.2 Subject to the General Regulations for the Master's Degree 40.41, students may undertake any number of courses in any semester, after consultation with the Faculty. Each semester course shall consist of the equivalent of three contact hours per week.

2.3.3 All MBA students must undertake and pass the following ten compulsory core courses:

ACC 600 Accounting Framework

BIS 680 Information Technology for Managers

ECO 616 Economic Concepts for Management

FIN 620 Business Finance

LAW 602 Advanced Company Law

MG T 640 Behaviour in Organisations

MG T 641 Quantitative Analysis for Business

MG T 741 Business Research Methods

MG T 743 Strategic Management

MK T 680 Principles of Marketing

2.3.4 Students must then undertake and pass 6 optional courses, chosen in consultation with the Faculty from a menu of optional courses. Subject to changes approved by the Faculty from time to time, the list of optional courses shall be as follows:

ACC 700 Managerial Accounting for Business

ACC 701 Tax Planning

BIS 780 Management Information Systems

ECO 717 Managerial Economics for Business

FIN 720 Financial Management and Policy

FIN 721 Financial Institutions and Markets

MG T 740 The Practice of Management

MG T 742 Operations Management

MG T 744 Human Resource Management

MG T 745 Human Resource Development

MG T 746 Contemporary Issues in Organizational Change and Development

MG T 747 Production Management

MK T 760 Marketing Strategy

MK T 761 Consumers and Industrial Buying

MK T 762 International Marketing Strategy

2.3.5 Research Essay Option

Where a student selects to undertake the Research Essay (ACC 719/ BIS 799/ FIN 739/ MGT 759/ MKT 779) the student must take and pass the Research Essay and two optional courses, chosen in the same manner as in 2.3.4.

3.0 Transfer Credits

Transfer credits shall be given in accordance with the Revised General Academic Regulations for Master's, MPhil and PhD Programmes (40.25).

4.0 Assessment and Examinations

4.1 The final grade of each course shall be based on the continuous assessment and the end-of-semester examination. The continuous assessment will consist of a combination of timed tests, graded assignments and projects. The ratio of continuous assessment to final examination shall be 2:3, with the exception of the Research Essay where the student must pass in the Research Essay.

4.2 General Academic Regulation 00.82 shall govern the format, duration and mode of the final examination.

5.0 Progression

Progression from semester to semester and other recommendations shall be in accordance with the General Regulation 40.6 for the Master's programme.

6.0 Research Essay

6.1 The Research Essay shall be identified as:

ACC 719 Research Essay in Accounting Topics

BIS 799 Research Essay in Business Information Systems Topics

FIN 739 Research Essay in Business Finance Topics

MGT 759 Research Essay in Management Topics

MKT 779 Research Essay in Marketing Topics

7.0 Award of Degree

A minimum GPA of 2.5 [55 per cent] in each of the 16 courses, or in the case of students who elect to undertake the Research Essay, in 12 courses and in the Research Essay, is required for the award of the MBA Degree.

Executive Master in Entrepreneurship (EMENT)

1.0 Objectives

The ENEMT curriculum will provide students with a rigorous and critical grounding in key core and functional areas of business, entrepreneurship and their inter-relationships. Integrative, interactive and global outlook are the key philosophical drivers behind the curriculum that further puts emphasis on developing leadership through strategic management with a significant practical and professional orientation. In full compliance with all relevant standards, the programme offers the students the intellectual and practical knowledge required to enhance their competitiveness in the national and global market, and in creating competitive companies that will effectively participate in a globalised economy.

In compliance with the stated learning outcomes of the ENEMT programme and supported by the ENEMT's learning and teaching strategies, the successful graduates will have demonstrated their ability to analyse and independently and systematically solve problems in relevant subject areas by applying academic and scientific methods within set periods of time. In particular, by the end of the programme students will be able to:

a. apply the specialist knowledge necessary to enable engagement with and critique of current ENEMT related research or practices [Scope of Knowledge],

b. contribute to scholarly debates around theories of knowledge and processes of knowledge production in regard to the scope of ENEMT studies [Knowledge Literacy],

c. apply and adapt methods, techniques, processes, systems or technologies in original, creative and innovative ways where appropriate in the context of ENEMT studies [Methods and Procedures],

d. apply specialist knowledge and theory in the critically reflexive, creative and novel ways required to address the inherent complex practical and theoretical problems of ENEMT studies [Problem Solving],

e. design and implement strategies for the processing and management of information in order to conduct comprehensive up-to-date reviews and to produce significant insights [Accessing, Processing & Managing Information],

f. appropriately use the resources of academic, professional/occupational discourses to communicate and defend their findings for the benefit of the stakeholders involved [Producing & Communicating Information],

g. make interventions, if necessary, at an appropriate level based on an understanding of the relationships of the internal and external stakeholders involved and to address the intended and unintended consequences of interventions [Context and Systems],

is expected to endorse or prepare a short briefing concerning the particular complexities the student has encountered/tackled in his/her in-company research dissertation to assist the internal and external examiners in making an informed external examination.
h. develop own learning strategies which sustain independent learning and academic or professional development and can interact effectively within a team as a means of enhancing learning [Management of Learning and Knowledge Transfer],

i. make autonomous ethical decisions to deal with emerging complex organisational or professional issues and/or to critically contribute to the development of ethical standards, if crucial [Ethics and Professional Practice], and

j. operate independently and take full responsibility for own work, and where appropriate accountability for leading and initiating processes and implementing systems, ensuring good resource management and governance practices [Accountability].

2.0 Target Group

The programme aims at developing entrepreneurship skills for people from diverse backgrounds. Therefore, the EMENT programme offers critical benefits to the envisaged target groups which share the following profile:

I. A Bachelor’ degree

II. Professional experience in a corporate, governmental, or equally relevant environment

III. Currently employed or self-employed, or wishing to start a business

IV. Postgraduate students from other international recognized tertiary institutions to participate in parts of the EMENT programme in order to get the acquired credits recognized at their home institutions (enabled via international accreditation).

3.0 Regulations Specific for the Executive Master in Entrepreneurship Programme

3.1 The programme of study will be offered for the award of the Executive Master in Entrepreneurship Degree, shall be specified in the Programme and Faculty Regulations and shall be offered as a part-time programme.

3.2 Entrance Qualifications

The minimum entrance requirement for the Executive Master in Entrepreneurship shall be one of the following:

(a) An undergraduate degree in any discipline from University of Botswana or any other recognised university or institution of higher learning, having earned at least a GPA of 2.8 out of 4.00 scale; or 3.00 out of a 5.00 scale, second class, second division, or its equivalent coupled with at least three years appropriate work experience; or

(b) Relevant professional or postgraduate qualifications deemed equivalent to a degree by the Faculty of Business at least of a 2.8 GPA [2.33] coupled with at least three years appropriate work experience; or

(c) An undergraduate degree at a pass division or equivalent coupled with a postgraduate diploma at credit level or above and at least three years appropriate work experience; or

(d) An undergraduate degree at a pass division or equivalent coupled with at least 5 years relevant experience.

e) All applicants will be required to take part in an interview.

3.3 Application for Admission

Students who have failed the Executive Master in Entrepreneurship programme are eligible to reapply to that programme after one semester. Re-application is limited to two times.

3.4 Registration

The normal workload for the part-time Executive Master in Entrepreneurship Programme is 12 credits. The general regulation 41.6.3 does not apply due to the part-time delivery modes of the Executive Master in Entrepreneurship programme.

To be awarded an Executive Master in Entrepreneurship degree, a candidate must complete a minimum of 60 credits and complete all work as specified in the Programme Structure.

4.0 Programme Structure

4.1 Core Courses [24 credits]

There are 8 core courses (Strategic Management, Marketing Strategy, Business Research Methods, Introduction to Entrepreneurship and New Venture Ideas, Creativity and Innovation Management, Financing the Entrepreneur Venture, Business Development Services, International Management) that cuts across the major business and entrepreneurship areas. Students will only be exempted from undertaking any of these courses in line with UB’s ‘Articulation, Credit Transfer and Recognition of Prior Learning (RPL) Policy and Procedures’.

4.2 Optional Courses [12 credits]

This programme is interdisciplinary and offers options that allow students to integrate the entrepreneurship programme with whatever discipline of their choice.

Students from other programmes, taking entrepreneurship courses as options, will be regulated as follows:

- Students will only be exempted from undertaking any of these courses in line with UB’s ‘Articulation, Credit Transfer and Recognition of Prior Learning (RPL) Policy and Procedures’.

4.3 Full Time Mode

Semester 1

Core Courses

MG743 Strategic Management
MG760 Marketing Strategy
MG741 Business Research Methods
ENT700 Introduction To Entrepreneurship and Innovation

Semester 2

Core Courses

ENT701 Creativity and Innovation Management
ENT703 Financing the Enterprise Venture
ENT721 Public Policy and Entrepreneurship
ENT705 Intellectual Property Management

Semester 3 (Winter)

Optional Courses

ENT720 Practicum of Entrepreneurship
ENT704 Business Development Services
ENT722 Managing Growth
ENT723 Social Entrepreneurship
MG753 Globalisation and international business management

Semester 1, 2 & 3

New Venture Creation/ Entrepreneurial projects

ENT706 New Venture Creation

6.0 Duration of the Programme

The normal duration for a student in Executive Master in Entrepreneurship programme shall be as follows:

a) A minimum of 5 to a maximum of 6 semesters on a full-time basis;

b) A minimum of 6 to a maximum of 8 semesters on a part-time basis.

Under no circumstances can the duration of study be longer than 12 semesters.

7.0 Award of the EMENT degree

In order to be awarded the EMENT degree, a participant must take and pass the core courses (24 credits), the optional courses (12 credits) and New Venture Creation (24 credits).
MPhil / PhD in Business

Aims and Objectives of the Programme
The aim of the FOB programme is to provide robust, systematic research training for scholars who wish to pursue in-depth MPhil/PhD studies in particular business disciplines. The aim is in line with the approved Tertiary Education Policy and the creation of the Innovation Hub in the country. This aim will be achieved by providing resources and facilities at the cutting edge of teaching, learning, researching, monitoring and assessment. This aim is also consistent with the University’s Vision and Mission and Strategic Priority Area 4, articulated in ‘Shaping Our Future’. The MPhil/PhD programme will:

- Be a high quality academic programme, ensuring commitment and mastery of life-long learning skills, and encouraging a spirit of critical enquiry;
- Advance scholarship and generate research through the discovery, integration, dissemination, and application of knowledge; and
- Respond to the nation’s cultural, economic, political, scientific, social, technological, business and industrial needs.

Objectives of the Programme: It is expected that students in the MPhil/PhD programme will:

- Develop as high calibre, well-rounded practitioners, with specialised knowledge in business disciplines and professional competencies;
- Contribute to inquiry, development and synthesis of new knowledge in the theory and practice of management and business;
- On graduation, perform as managers, intellectual leaders, mentors and role models in the practice and study of business;
- Advance new methods and techniques of research in disciplines of business.
- Develop internationally/regionally/nationally recognized independent research that contributes to the frontiers of knowledge in business disciplines.
- Demonstrate ability to present and defend research output to a critical audience.

Regulations

1. General Regulations 50 for the degrees of MPhil/PhD will apply.

2. Faculty Special Regulations for the MPhil/PhD programme

Subject to the General Regulations of 50 mentioned above, the following special faculty regulations will apply.

2.0 Programme Structure

2.1 A student should take and pass, at MPhil/PhD level, the designated courses as recommended by the FOB MPhil/PhD Committee (Appendix B).

2.2 In exceptional circumstances, the School of Graduate Studies, acting on a recommendation of the FOB MPhil/PhD Committee, shall exempt a student from such courses.

2.3 Upon recommendation of the supervisor, a student may be required to register for courses at the Masters level in order to supplement background knowledge. Such supplementary courses are not examinable.

2.4 A student registered for MPhil/PhD will be expected to present in at least one seminar.

2.5 At both MPhil/PhD level a student shall be required to perform satisfactorily in the written report and oral presentation of their research proposals as part of fulfilling the requirements of the MPhil/PhD thesis.

MPhil/PhD Course structure

As governed by General Regulation 50.5 the MPhil programme will be for a duration of 2 years full time and 3 years part time. The PhD will be for duration of 3 years full time and 5 years part time.

EVE9000 Supervised Research and Thesis Environmental Education (PhD)

Registration
In accordance with the General Regulations 50.3.
Transfer from another University
In accordance with the General Regulations 50.4.
Duration of the Programme
In accordance with the General Regulations 50.5.
Programme of Study
Supervision Committee: For each graduate student there shall be a student Supervision Committee of 3 academics, one of which must come from outside the Faculty. The Committee will be led by the main supervisor who shall have been appointed by the SGS after receipt of a recommendation from the Coordinating Committee. Where possible, one of the committee members may be a person of the student’s own choosing. In accordance
with the General Regulations 50.6.1 to 50.6.6

Transfer of Registration
In accordance with the General Regulations 50.7.1 to 50.7.2 governing the transfer from MPhil to PhD and from PhD to MPhil.

Thesis
In accordance with the General Regulations 50.8 with the following provisions:

50.8.1 Submission of Title and Abstract of the Thesis

The title and abstract (not exceeding 500 words) of the Thesis must be submitted through the Supervisor and the FoE MPhil/PhD Coordinating Committee for approval by the School of Graduate Studies Board approximately three months before submission of the Thesis. After the title has been approved, it may not be changed except with the permission of the FoE MPhil/PhD Coordinating Committee and the School of Graduate Studies Board. The abstract may be edited before the final submission of the thesis.

Examination
In accordance with the General Regulations 50.9 with the following provisions:

50.9.1 Entry into the Examination
50.9.1.2 The final submission of the Thesis for examination may follow at any time within the permitted time limit, but the candidate must immediately beforehand inform the FoE MPhil/PhD Coordinating Committee in writing of the intention to do so, and also submit a signed statement from the Supervisor indicating his/her approval or otherwise, to the submission of the Thesis for examination.

50.9.1.3 In cases where the Supervision Committee has not approved the submission of the Thesis for examination, but all other procedures have been met, the candidate may submit the Thesis to the School of Graduate Studies without the Supervisor's approval, through the supervision committee, after a successful appeal to the FoE MPhil/PhD Coordinating committee.

50.9.2 Appointment and Functions of Internal Examiners
50.9.2.1 There shall be one External Examiner and one Internal Examiner appointed by the School of Graduate Studies Board on the recommendation of the FoE MPhil/PhD Coordinating Committee. In the exceptional event that no suitable Internal Examiner is available from within the University, a Second External Examiner in lieu shall be appointed.

50.9.3 Board of Examiners
50.9.3.1 Composition of the Board of Examiners

The Board of Examiners for the degree of MPhil and PhD shall comprise at least three members from the following, as recommended by the FoE MPhil/PhD Coordinating Committee and approved by the School of Graduate Studies Board.

Chairperson: A Professor or Senior Academic normally from a different department of the relevant faculty provided s/he is not a member of the Supervision Committee.

Internal Examiner: An academic member of staff who is competent in the area of the work to be examined. In the exceptional event that no suitable Internal Examiner is available from within the University, a Second External Examiner in lieu shall be appointed.

External Examiner: A Senior Academic from outside the University of Botswana. The person must be competent in the area of the work to be examined, and an experienced researcher. S/he shall not be a former member of UB unless at least three years have elapsed since leaving UB.

50.9.3.3 In advisory capacity, at least one person may be recommended from the following: One Senior Academic from a cognate Department. One Senior Academic from a cognate Department. One Expert in the relevant field from outside the University.

50.9.3.4 In attendance: At least one from the following: Dean of the School of Graduate Studies, Supervisor or Head of the relevant Department(s).

Notification of Results and Award of Degree
In accordance with the General Regulations 50.10 with the following provisions:

50.10.1 Candidates will be formally notified of their examination results by the School of Graduate Studies, after the reports from the Board of Examiners, FoE MPhil/PhD Coordinating Committee and School of Graduate Studies Board have been accepted and approved by Senate.

50.10.3 A student normally has the right of appeal to Senate on decisions taken under these regulations. The Appeal shall be made to the Dean of the School of Graduate Studies, for consideration by the FoE MPhil/PhD Coordinating Committee, with a recommendation to the School of Graduate Studies Board, within three months from the date of notification of the results. The appeals procedure shall appear in the School of Graduate Studies handbook.

Progression
A student should take and pass, at MPhil level, and before proceeding with research at PhD level, one course in research methodology from two such alternative generic courses, as recommended by the FoE MPhil/PhD Coordinating Committee. Only in exceptional circumstances shall the SGS, acting on a recommendation from the FoE MPhil/PhD Coordinating Committee, exempt a student from such courses.

Master of Education (MEd)

41.0 Faculty of Education Special Regulations for the MEd Degree

Subject to the provisions of General Regulations for Master’s Degrees 40.0, the following Special Regulations of the Faculty of Education shall apply.

41.1 Entrance Requirements
41.11 The normal minimum entrance requirements for admission to the MEd programme shall be:

(a) A relevant BEd degree from this or any recognised university or equivalent qualification with at least 2(i) or its equivalent;

(b) A relevant Bachelor’s degree of this university with at least a second class second division plus at least a credit in the concurrent Diploma in Education or pass in the Post Graduate Diploma in Education. Equivalent qualifications from other recognised academic institutions shall be considered.

(c) A relevant Bachelor’s degree of this university at pass level with at least a credit in the Post Graduate Diploma in Education.

41.3 MEd work in any specialisation must be preceded by sufficient undergraduate work in that field or a related one to satisfy the Board of the department in which the specialisation is offered that the candidate is likely to be successful.

41.4 Candidates may be required to take and pass prerequisite courses, which are deemed necessary or desirable. Such prerequisites may be required prior to admission to the MEd programme or prior to commencing a particular course or prior to the granting of the degree. Prerequisite courses will not earn credit towards degree requirements.

41.28 During the first year, a Research Supervisor shall be appointed for each student.

41.3 Selection of Research Committee for Dissertation Students
41.31 A Research Supervisor shall normally be appointed from within the Department offering the specialisation.

41.32 The Department may nominate up to two additional advisory members, at least one of whom shall be from the Department offering the specialisation, who with the Supervisor shall form a Supervisory Committee.

41.33 The supervisor and committee members shall be appointed following approval by the Departmental Board. Any subsequent change in the committee structure must be similarly approved.

41.4 Qualifications of Research Committee for Dissertation Students
41.41 The Supervisor shall normally be a member of the Department offering the specialisation and shall have qualifications and experience in the topic area and/or research methodology appropriate for guiding the research process.

41.42 Committee members shall be chosen for their potential contribution to the proposed investigation or its methodology. Normally at least one committee member in addition to the Supervisor shall be a member of the Department offering the specialisation.

41.43 The role of this committee shall be to monitor and guide all aspects of the student’s research work including approval of the proposal. One member of the committee (but not the Supervisor) shall normally, with the approval
of the Head of Department offering the specialisation, serve as Internal Examiner for the Dissertation.

41.5. Program Structure

41.5.1 The degree shall be a course-based MEd offered as course work and Dissertation OR course work and Research Essay. The degree shall be offered through departmental specialisations and shall be designated Master of Education (Specialisation) e.g. the degree offered in the Department of Adult Education shall be MEd (Adult Education). The degree shall be offered through full-time or part-time study, or through a distance education mode.

51.52 A taught course shall have a duration of one semester and carry three credits. Each course shall comprise lectures, group work, seminars, discussion, and individual research and writing.

51.53 On satisfactory completion of a minimum of 24 credits, students shall progress into the Dissertation route or the Research Essay route.

51.54 All students must take three faculty core courses (EFF640, EFF641, EFF642). Students following the Dissertation route must complete a further five specialisation courses while students following the Research Essay route must complete a further nine specialisation courses. Students may take one course during the long vacation subject to the availability of staff. With the consent of the Head of Department offering the specialisation and agreement with the cognate department, a maximum of two courses may be taken from another MEd specialisation, from another Master's programme at the University of Botswana, from an approved Master's programme of another university, or as specified in Departmental Special Regulations.

41.5. Course Work and Dissertation

41.5.51 The MEd degree offered by course work and Dissertation shall consist of eight taught courses equivalent to 24 credits and a Dissertation equivalent to 24 credits. The eight taught courses shall comprise three core courses offered at Faculty level and five courses offered as departmental specialisations.

41.5.52 Students shall be required to satisfactorily complete a minimum of 24 credit hours before proceeding to the Research Essay route. For full-time students, the Research Essay shall be submitted within twelve months of final approval of course work marks. For part-time and distance education students, the Research Essay shall be submitted within twenty-four months of final approval of course work marks.

41.5.53 The subject of the Dissertation shall be in accordance with Faculty Special Regulation 41.5.

41.5.54 The subject of the Dissertation shall be within the general field of specialisation and shall reveal independent and original investigation and knowledge of methods of scholarship. The Dissertation shall normally consist of 20,000 words (excluding footnotes, references and appendices) and should not exceed 40,000 words.

41.5.55 Where not otherwise indicated in the Faculty of Education Special Regulations, General Regulations 40.71, 40.73 and 40.74 of the General Academic Regulations for Master's Degrees governing supervision, examination and submission of Dissertations shall apply to the Dissertation.

41.5.56 Course Work and Research Essay

41.5.561 The MEd degree offered by course work and Research Essay shall consist of twelve taught courses equivalent to 36 credits and a research essay equivalent to twelve credits. The twelve taught courses shall comprise three core courses offered at Faculty level and nine courses offered as departmental specialisations.

41.5.562 Students shall be required to satisfactorily complete a minimum of 24 credit hours before proceeding to the Research Essay route. For full-time students, the Research Essay shall be submitted within twelve months of final approval of course work marks. For part-time and distance education students, the Research Essay shall be submitted within twenty-four months of final approval of course work marks.

41.5.563 The type of Research Essay shall be selected using the Faculty of Education Guidelines for the MEd Research Essay Option and have the mutual agreement of the student and the research supervisor.

41.5.564 The subject of the Research Essay shall be within the general field of specialization and shall consist of approximately 10,000 words (excluding footnotes, references and appendices) and should not exceed 20,000 words.

41.5.565 The Research Essay shall be marked by the supervisor according to the guidelines produced by the Faculty of Education and shall be internally and externally examined.

41.6 Assessment

41.61 Unless specified otherwise in the course outline in departmental specialisations, each course shall be assessed by continuous assessment.

41.62 The ratio between continuous assessment and formal examination if applicable shall be 60:40.

41.63 Courses taken in Faculties other than Education shall be examined in accordance with the regulations of the Faculties within which the work was undertaken.

41.64 The cumulative GPA for each semester shall be computed on the basis of equal weighting for all courses.

DEPARTMENT OF LIFELONG LEARNING AND COMMUNITY DEVELOPMENT

Master of Education (Med) in Lifelong Learning and Community Development

Regulations

1.0 Departmental Special Regulations for the Master of Lifelong Learning and Community Development

Degree Programme

Subject to the provisions of General Regulations 400 and the Faculty of Education special regulation 41.2, the following Departmental Specific Regulations shall apply.

1.1 Entrance Requirements

Entrance into the Master of Lifelong Learning and Community Development Degree Programme shall be in accordance with the Faculty Special Regulation 41.1.

1.2 Programme Structure

The structure of the Master in Lifelong Learning, Community Education and Development programme shall be in accordance with Faculty Special Regulation 41.5.

With the consent of the Head of Department and agreement with the cognate department, a maximum of two courses may be taken from another Master of Education specialisation, from another Master's programme at the University of Botswana or from an approved Master's programme of another university.

Level 2

In Level Two of the Programme, students shall take the Dissertation route or the Research Essay route.

Dissertation Route - The Dissertation Route shall be in accordance with the Faculty of Education Special Regulation 41.55.

DLC 761 Dissertation
Research Essay Route - The Research Essay route shall be in accordance with Faculty of Education Special Regulation 41.56.

DLC 751 Research Essay plus:

Four optional courses from the Course Listing in Section 3.3 not previously taken are also required

General Aims of the Programme Med (Lifelong Learning and Community Development)

The Master’s programme is by its nature multidisciplinary, embracing areas such as Education for social responsibility, Lifelong learning, Approaches to rural development, Innovations & ICT driven community developments, Livelihood skills for economic development, Community education and social transformation, Outreach, volunteering and community engagement, Programmes for social change and empowerment, Special interests and special groups in adult education, Ethics and professionalism in lifelong learning and community development, Indigenous knowledge systems relative community development, Participatory democracy, management techniques and policy development, educational needs of the underprivileged/vulnerable individuals and groups, planning, implementation, monitoring of programmes and projects, social and economic projects with lifelong impact, research methods, assessment techniques and evaluation in community development and lifelong learning programmes, entrepreneurship skills development and self-help projects, community pedagogies and research approaches. Furthermore, there are some courses that this programme gets from other departments, for example, Educational Foundations.

5. Programme Structure

The structure of the Master in Lifelong Learning and Community Development programme shall be in accordance with Faculty Special Regulation 41.5.

The programme is offered in two formats.

The degree by Course Work and Dissertation consists of eight taught courses (=120 credits) and a dissertation (= 120 credits),

The degree by Course Work and Research Essay consists of twelve taught courses (= 180 credits) and the research essay (=60 credits). For both formats, 240 credits are required to be awarded the degree.

LEVEL ONE:

Students shall be required to take the following Core Courses, each of which carries 12 credits:

- LCD 640 Advanced Design of Adult Learning and Education
- LCD 641 Advanced Philosophical Foundations of Adult Education
- LCD 661 Community Participatory Approaches
- LCD 642 Multidimensional role of adult education in Community Development
- LCD 653 Lifelong Learning for Sustainable Development
- LCD 644 Multicultural Issues in Community Development Contexts
- LCD 657 DLCD Graduate Research Seminar
- LCD 649 Advanced Models of Community Development
- LCD 656 GCMD Community Empowerment Projects
- LCD 659 DLCD Graduate Research Seminar
- LCD 648 Contextual Strategies in Human Resource Development
- LCD 655 Youth Assets in Community Development
- LCD 643 Participatory planning and management approaches

Plus any two of the following Optional Courses:

- LCD 654 Gender Issues in Community Development
- LCD 652 Adult Education and later life learning
- LCD 648 Planning, Monitoring and evaluating of community projects
- LCD 656 Practical and Analytic Skills of Topical issues in Adult Education
- LCD 647 Community Education & Skills Training
- LCD 645 Skills for Planning, Monitoring and evaluating community projects

Availability of these optional courses to be confirmed in each year. With the consent of the Head of Department and agreement with the cognate department, a maximum of two courses may be taken from another Med specialisation, from another Master’s programme at the University of Botswana, or from an approved master’s programme at another university.

LEVEL TWO:

In Level Two of the programme, students shall take the Dissertation Route or the Research Essay Route.

Dissertation Route - The Dissertation route shall be in accordance with Faculty of Education Special Regulation 41.55. DLC 761 Dissertation

Research Essay Route - The Research Essay route shall be in accordance with Faculty of Education Special Regulation 41.56.

DLC 751 Research Essay plus four Optional Courses from the list above not previously taken.

REGULATIONS FOR THE MPhil/PhD (LIFELONG LEARNING AND COMMUNITY DEVELOPMENT)

Regulations

Subject to the provisions of General Regulations 400 and the Faculty of Education special regulation 41.0, the following Departmental Specific Regulations shall apply.

Entry Requirements (MPhil/PhD Programme)

The normal entrance requirements for admission to the MPhil/PhD programme shall be:

A Bachelor’s degree in any field and a Masters degree in Adult Education/Community Development specialisation or related field.

Or:

A B.Ed (Adult Education) or single major or honours degree in a related field, with a First or Upper Second Class from a university or equivalent institution of higher learning recognised by Senate.

For direct entry into the PhD Programme applicants should have obtained:

An M.Phil in Adult Education/Community Development or related field.

Or:

A Bachelor’s degree in any field and a Masters degree in Adult Education/Community Development specialisation or related field with a weighted course average of 65% and a satisfactory dissertation from a university or equivalent institution of higher learning.

Those entering the programme without any qualification in Adult Education and related programmes are required to take adult education foundation courses and research courses.

1.2 PROGRAMME STRUCTURE

The MPhil/PhD degrees are offered on both full-time and part-time bases. In the case of the PhD programme candidates will register initially (and for one academic year) for the MPhil degree. During this period the candidates shall be expected to fulfil the requirements as stipulated in the general regulations for promotion to the PhD candidacy (Regulations 50.6.2 and 50.6.3) for promotion to the PhD candidature, in which case the MPhil shall convert into the first year of the PhD degree. Failure to meet the requirements for transfer to the PhD program shall lead to termination of the student's candidature. The duration of the programme shall be governed by the general regulations 50.5.1 to 50.5.3.

The M.Phil and PhD Degree is carried out through supervised research, and in accordance with Academic General Regulations 500.

Progression Transfer from M.Phil to PhD shall be in accordance with Academic General Regulations 50.43.1 and 50.43.2
Award of the MPhil and PhD shall be in accordance with Academic General Regulations 50.70.

Minimum standards of achievement for the award of the qualification

Candidates must meet the minimum standards to be awarded the qualification.

Certification

Candidates meeting prescribed requirements will be awarded the qualification in accordance with standards prescribed for the award of the qualification and applicable policies. Candidates who do not meet the prescribed minimum standards may, where applicable, be considered for appropriate exit awards in accordance with applicable policies.

General Aims of the Programme MPhil/PhD (Lifelong Learning and Community Development) - This programme is aimed at imparting high skill orders for driving improvement in all sectors of the economy, especially in community education, lifelong learning, community development, extension work, adult basic education and entrepreneurship. Botswana like all other countries needs highly skilled workforce for a more diversified, knowledge-based economy hence DLCD is positioned to contribute in this respect. As an integral part of programmes offered in the Department of Community Education and Lifelong Learning, students doing this programme are expected to do research exploring issues/areas like conducting needs and risk assessment, embedding lifelong learning and resilience in educational policies, developing policy drivers for resilience education and communities, investment in adult education, community-based research, community pedagogies, community education as a model for transformation and many more related community education and lifelong learning interests. Full time students are expected to complete their Masters and MPhil programmes within 6 semesters and their PhD programme within 8 semesters. Part-time students are expected to complete the same programmes within 12 and 16 semesters respectively.

ASSESSMENT STRATEGIES, REQUIREMENTS AND WEIGHTINGS

All the assessments, formative and summative, leading/contributing to the award of credits or a qualification should be based on learning outcomes and/or sub-outcomes.

Assessment in Community Education and Lifelong Learning shall include both formative and summative.

Formative assessment

In line with General Regulation 00.81, courses in this program will have continuous assessment. This means the formative assessment or continuous assessment contributing towards the award of credits should be based on course outcomes. Formative assessment comprises of CA for courses based on among other things extended assignments including written assignments, written tests, in-class practical exercises, reflective essays, projects, and presentations. The CA of a course normally constitutes 50% of the final assessment unless otherwise required by the approach of the course.

Summative assessment

Mainstream assessment

General regulation 00.82 on final examinations shall guide summative assessments. Candidates may be assessed through different modalities including (but not limited to) written examinations, research projects and field related practicalities.

All summative practical assessments must, as far as possible, be conducted in real work settings.

2.1 MPhil and PhD assessment

The MPhil and PhD Degree is carried out through supervised research, and in accordance with Academic General Regulations 500.1 including (i) oral examination of the research proposal to proceed from MPhil to PhD, (ii) External examination of the PhD dissertation and subsequent oral defense of the dissertation.

2.2 MODERATION

General regulation 00.831 that relates to quality assurance holds that Senate shall determine the quality assurance of programmes at the University. In line with the University policies and regulations, moderation at graduate level shall include the following;

• Oral presentation of their research proposal at the department level.
• Graduate research workshops
• Supervising committee for MPhil/PhD

Documentation

All necessary documents including qualification document, assessment instruments and Assessment criteria/rubrics should be available.

Pre-assessment Moderation

Before administering any assessments that contribute towards the award of credits, moderation must take place. This entails ensuring that:

• The assessment strategy to be used is appropriate for the learning outcome to be assessed,
• The assessment instrument adequately captures the learning outcomes against which assessment is to be carried out,
• The assessment tasks in both formative and summative assessment enable the assessor to collect sufficient evidence in line with relevant exit level descriptors,
• The cover page contains all necessary information
• The assessment instrument layout is appropriate and that wording of assessment tasks or questions is in line with the exit level descriptors for knowledge, skills and competencies,
• Supervisor and supervisee draw a plan for the research process
• Ensure that timelines are met
• Feedback mechanisms are agreed upon and monitored
• Mutual approval of final product for presentation to the Departmental Board

Post-assessment Moderation

Moderators must verify that the assessment has been done in compliance with assessment principles. This should include checking and verifying that:

• All scripts have been assessed using the same criteria,
• Assessment judgments and decisions are consistent,
• Calculation of marks has been done correctly,
• Necessary records and reports have been completed,
• For proposals, ensure that all necessary corrections are made and approved by supervisors/ committee/ internal moderator.

Sampling Procedure for Moderation

All graduate work shall be internally moderated.

Moderation reports

A moderation report shall capture, but not limited to the following:

• Observations about the performance of candidates
• Consistency of assessment judgments and decisions
• Assessment instruments and alignment to learning outcomes
• Recommendations for improvement

DEPARTMENT OF EDUCATIONAL FOUNDATIONS

Master of Education Degrees

Preamble

Subject to the provisions of General Regulations for Master’s Degrees 40.0, the following Special Regulations for the Faculty of Education shall apply.

Entrance Requirements

The normal minimum entrance requirements for admission to the MEd programme shall be:

• A relevant BEd degree from this or any recognised university or equivalent institution with at least a 2(iii) or its equivalent; or
• A relevant Bachelor’s degree of this university with at least a second class second division plus at least a credit in the concurrent Diploma in Education or pass in the Post Graduate Diploma in Education. Equivalent qualifications from other recognised academic institutions shall be considered.
• A relevant bachelor’s degree of this university at pass level with at least a credit in the Post Graduate Diploma in Education.

With the approval of Senate, equivalent qualifications and experience may be accepted. Such candidates may be required to perform successfully on an admission examination or satisfy other requirements as deemed appropriate by the Faculty of Education.

MEd work in any specialisation must be preceded by sufficient undergraduate work in that field or a related one to satisfy the Board of the department in which the specialisation is offered that the candidate is likely to be successful. Candidates may be required to take and pass prerequisite courses which are deemed necessary or desirable. Such prerequisites may be required prior to admission to the MEd programme or prior to commencing a particular course or prior to the granting of the degree. Prerequisite courses will not earn credit towards degree requirements.

Student Advising

Upon admission each student shall be assigned an Advisor. The Advisor shall consult with the student regarding course work and other issues related to the programme of study and may or may not serve as the Research Supervisor. During the first year, a Research Supervisor shall be appointed for each student.

Selection of Research Committee for Dissertation Students
A Research Supervisor shall normally be appointed from within the Department offering the specialisation. The Department may nominate up to two additional advisory members, at least one of whom shall be from the appointed faculty. The Board of specialisation, with whom the Supervisor shall form a Supervisory Committee. The names of the Supervisor and committee members shall be approved by the Board of the Department. Any subsequent change in the committee structure must be similarly approved.

Qualifications of the Research Committee for Dissertation Students

The Supervisor shall normally be a member of the Department offering the specialisation and shall have qualifications and experience in the topic area and/or research methodology appropriate for guiding the research process. Committee members shall be chosen for their potential contribution to the proposed investigation or its methodology. Normally at least one committee member in addition to the Supervisor shall be a member of the department offering the specialisation. The role of this committee shall be to monitor and guide all aspects of the student’s research work including approval of the proposal. The Supervisor shall be a member of the committee (but not the Head). The Supervisor shall be elected by the Head of the Department offering the specialisation, serve as Internal Examiner for the Dissertation.

Programme Structure

The degree shall be a course-based MEd offered as course work and Dissertation OR course work and Research Essay. The degree shall be offered through departmental specialisations and shall be designated Master of Education (Specialisation). The degree shall be offered through full-time or part-time study, or through a distance education mode. A taught course shall have a duration of one semester and carry three credits. Each course shall comprise lectures, group work, seminars, discussion, and individual research and writing. On satisfactory completion of a minimum of 24 credits, students shall progress into the Dissertation route or the Research Essay route. All students must take three Faculty core courses (EFF 640, EFF 641, EFF 642). Students following the Dissertation route must complete a further five specialisation courses while students following the Research Essay route must complete a further nine specialisation courses. Students may take one course during the long vacation subject to the availability of staff. With the consent of the Head of Department offering the specialization and agreement with the cognate department, a maximum of two courses may be taken from another MEd specialisation, from another Master’s programme at the University of Botswana, from an approved Master’s programme of another university, or as specified in Departmental Special Regulations.

Course Work and Dissertation

The MEd degree offered by course work and Research Essay shall consist of twelve taught courses equivalent to 36 credits and a Research Essay equivalent to twelve credits. The twelve taught courses shall comprise three core courses offered at Faculty level and nine courses offered as departmental specialisations. Students shall be required to satisfactorily complete a minimum of 24 credit hours before proceeding to the Research Essay route. For full-time students, the Research Essay shall be submitted within twelve months of final approval of course work marks. For part-time and distance education students, the Research Essay shall be submitted within twenty four months of final approval of course work marks. The type of Research Essay shall be selected using the Faculty of Education Guidelines for the MEd Research Essay Option and have the mutual agreement of the student and the research supervisor. The subject of the Research Essay shall be within the general field of specialization and shall consist of approximately 10,000 words (excluding footnotes, references and appendices) and should not exceed 20,000 words. The Research Essay shall be marked by the supervisor according to the guidelines produced by the Faculty of Education and shall be internally and externally examined.

Assessment

Unless specified otherwise in the course outline in departmental specialisations, each course shall be assessed by continuous assessment. The ratio between continuous assessment and formal examination if applicable shall be 60:40. Courses taken in Faculties other than Education shall be examined in accordance with the regulations of the Faculties within which the work was undertaken. The cumulative GPA for each semester shall be computed on the basis of equal weighting for all courses.

Award of the Degree

The degree of MEd shall be awarded on achieving a pass in all required courses with a cumulative GPA of 2.0 or above and successful completion of the Dissertation or Research Essay.

Master of Education in Counselling and Human Services

Departmental Special Regulations for the MEd (Counselling and Human Services)

Entrance Requirements

Entrance into the MEd (CHS) shall be in accordance with the Faculty Special Regulation 41.1.

Work experience

Notwithstanding regulation 41.1, candidates with a pass in their first degree and further postgraduate work experience or two years relevant work experience shall also be admissible.

Exemptions

Holders of the PGDCE [UB] or equivalent qualifications shall be exempted from Level One courses [except for compulsory courses EFH 651 AND EFH 751] that are deemed equivalent to MEd [CHS] courses. PGDCE [UB] students shall be exempted from the following courses if they have completed equivalent courses in the PGDCE: EFH 640, EFH 642, EFH 643, EFH 644, EFH 645 and EFH 646. Course exemptions at Level One for holders of equivalent postgraduate qualifications shall be treated on a case-by-case basis.

Course Work, Practicum Et Internship

Subject to the provision of General Regulations 000, the following regulations shall apply to students enrolled in the MEd [CHS]. Students must pass all courses, which they have taken [including EFH 651 and EFH 751] in order to be awarded the degree.

Course Work

The degree shall consist of thirteen taught course equivalent to 39 credits and internship equivalent to 12 credits. The thirteen courses shall comprise three core courses offered at Faculty level and ten courses offered as programme specialisation. Students shall be required to complete satisfactorily, a minimum of 24 credit hours before proceeding to EFH 651 and EFH 751. For students with postgraduate diploma qualifications, the computation of the 24 credits shall include credits for their diploma courses, which will have been used as the basis to exempt them from some of the level I MEd [CHS] courses. Full-time students shall take EFH 651 during Semester three, Level II. Full-time students shall take EFH 751 during Semester Four, Level II.

Practicum (EFH 651)

This course EFH 651 is a pre-requisite to EFH 751. The minimum number of hours spent on EFH 651 shall be 30 hours in class and 96 hours in the field. Of the 30 hours of class sessions, 24 hours shall be devoted to micro-counselling practice in the application of interpersonal relationship skills, working with both individuals and groups and in-vivo practice in other relevant aspects of the training. The remaining six hours will be devoted to intermittent group comments, debriefing, sharing and consultation with the course coordinator during field practicum. The 96 hours of field attachment shall be spread over at least six consecutive weeks after completion of the 24-hours of the micro-training phase and shall be distributed as follows: A minimum of 12 hours per week in direct contact with clients. Of this time, 4 hours shall be devoted to activities with individuals and 8 hours to group activities. A minimum of 4 hours per week shall be spent on the professional activities and support such as consultation [especially with on-site supervisor], training, networking, and research.

Internship (EFH 751)

Notwithstanding the Faculty of Education Special Regulation 41.56, students shall undertake a Counselling and Human Service Project as an integral component of their internship work. The minimum number of hours spent on EFH 751 shall be 560. One quarter of this time shall be allocated to a Counselling and Human Services Project. Each student shall select a study topic which they will use to collect data, analyse it and write a report to be submitted in partial fulfilment of the MEd (CHS) degree. The selection of topic of the paper shall be done in consultation with university supervisors before participating in the Internship. The Counselling and Human Service Project Report shall consist of approximately 4,000 words (excluding references and appendices) and shall not exceed 8,000 words. The internship shall include: A minimum of 20 hours per week for full-time students and ten hours per week for part-time students in direct
contact with clients. Of this time, eight hours (four hours for part-time students for up to two semesters) shall be devoted to activities with individuals and twelve hours (six hours for part-time students for up to two semesters) to group activities; a minimum of ten hours per week (five for part-time students for up to two semesters) shall be spent on the professional activities and support such as consultation, training, networking, management or day-to-day operations of the organisation and research. The total number of hours for each segment of the internship for full-time and part-time students shall be equal. However, part-time students may spread the work over a longer period as determined by the UB supervisor but not longer than double the period prescribed for full-time students.

The course coordinator shall be responsible for the in-vivo 30-hour micro-counselling training. The coordinator, together with relevant UB staff, shall provide regular supervision for each student on a weekly basis during the field attachment. Feedback on the supervision shall be in writing. Each student shall produce a self-report comprising a comprehensive documentation and description of the entire internship experience, including a log of hours spent on professional and supporting activities. The analysis of the log data should take into account the time allocations as prescribed. The report shall be included in the course package with all other materials and resources used during the internship fieldwork. The UB staff shall mark the internship report.

Assessment
Continuous assessment shall be in accordance with Faculty of Education Special Regulation 41.6. There shall be formal assessment of Practicum and Internship done by the designated and appropriately qualified on-site supervisor (a helping professional with training in counselling or a related area) and a University of Botswana staff member who has the relevant training. The designated UB staff members shall provide regular supervision at agreed intervals of no longer than two weeks, while the on-site supervisor shall do it on a weekly basis. The assessment of the journal and the analysis of the logbook should take into account the time allocation as prescribed. The report shall be included in the Internship package with all other materials and resources used during Internship. The internship report and the Counselling and Human Service Project Report shall be marked by the supervisor and shall be internally and externally moderated. All courses except EFH 651 and EFH 751 shall be assessed in accordance with Faculty of Education Regulation 41.6.

EFH 651 shall be assessed as follows:
A confidential report from Practicum on-site supervisor shall carry thirty-five per cent of the Practicum grade. Practicum assessment forms completed by faculty staff shall carry thirty-five per cent of the Practicum grade. A written report from the student on the total course experience that shall carry thirty per cent of the Practicum grade.

EFH 751 shall be assessed as follows:
A confidential report from Internship on-site supervisor shall carry twenty-five per cent of the Internship grade. Internship assessment forms completed by faculty staff, shall carry twenty-five per cent of the Internship grade. A written report from the student on the supervised Internship shall carry twenty-five per cent of the Internship grade. The Counselling and Human Service Project Report shall carry twenty-five per cent of the Internship grade. Any course from Level 2, Semester One, subject to approval by the MEd (CHS) Programme Coordinator. (This applies to students who hold a PEDCE [UB] certificate or equivalent).

Semester One
Core courses (12 credits)
EFH 640 Integrated Foundations of Education
EFH 641 Educational Research I
EFH 644 Counselling Theories and Indigenous Helping Approaches in Africa and either
EFH 640 Foundations of Counselling and Human Services OR
Any course from Level 2, Semester One, subject to approval by the MEd (CHS) Programme Coordinator. (This applies to students who hold a PEDCE [UB] certificate or equivalent).

Semester Two
Core courses (9 credits)
Options (3 credits)
EFH 644 Educational Research II
EFH 646 Career Development
EFH 643 Group Process and Dynamics in Counseling
Take any one course from the list below. Except for EFH 652, which will be available every year, the Department may not guarantee availability of any of the remaining courses in the list. Students shall ascertain availability from the relevant department before registering for any of the options listed.

EFH 652 Teaching Methods in Guidance
TRC 603 Contextual Theology
TRC 609 Moral Theology
TRC 626 Ethics of Religion
TRC 627 Philosophy of Religion
TRC 628 Sociology of Religion
MSW 606 Social Policy in a Changing Society
MSW 608 Poverty Welfare
MSW 702 Child & Family Welfare
MSW 707 Social Work in Educational Settings
LAW 608 International Human Rights law
MNS 718 Psychiatric Rehabilitation

Semester Three Core (12 credits)
EFH 644 Appraisal Techniques
EFH 645 Ethical & Legal Issues in Counselling
EFH 646 Counselling of Persons with Special Needs Evaluation
EFH 651 Practicum in Counselling and Human Services Options (3 credits) - Take any one of the following:
EFH 647 Seminars: Contemporary Issues and Challenges in Counselling
EFH 648 Counselling Over the Life Span
EFH 649 Stress Management
EFH 650 Programme Development and Delivery

Semester Four
EFH 751 Internship in Counselling and Human Services (12 credits)
Course Equivalents: PEDCE [UB] AND Med [CHS] [UB]

Master of Education Degree in Curriculum and Instruction
Departmental Special Regulations for the MEd (Curriculum And Instruction)

Preamble
Subject to the provisions of General Regulations 400 and the Faculty of Education Special Regulations 41.0, the following Departmental Special Regulations shall apply.

Entrance Requirements
Entrance into the MEd (Curriculum and Instruction) shall be in accordance with Faculty Special Regulation 41.1.

Programme Structure
The structure of the MEd (Curriculum and Instruction) programme shall be in accordance with Faculty Special Regulation 41.5.

Level One
All students will be required to take the following core courses.

EFH 640 Integrated Foundations of Education
EFH 641 Educational Research I
EFH 642 Educational Research II
EFH 643 Principles of Teaching and Learning
EFH 644 Curriculum Development
EFH 645 Instructional Design

Plus any two of the following optional courses:
EFC 646 The Theory of Programme Design and Evaluation
EFC 647 The Practice of Programme Design and Evaluation
EFC 648 Curriculum Seminar
EFA 640 Introduction to the Foundations of Educational Management
EFA 642 Instructional Supervision
EFB 642 Gender, Curriculum and Instruction

With the consent of the Head of Department and agreement with the cognate department, a maximum of two courses may be taken from another MEd specialisation, from another Master’s programme at the University of Botswana or from an approved Master’s programme of another university.

Level Two
In the Level Two of the programme, students shall take the Dissertation route or the Research Essay route.

Dissertation Route - The Dissertation route shall be in accordance with Faculty of Education Special Regulation 41.55.

EFC 761 Dissertation
Research Essay Route - The research essay route shall be in accordance with Faculty of Education Special Regulation 41.56.

EFC 751 Research Essay
Plus four optional courses from the following or from Level One optional courses not previously taken:
EFC 740 Educational Planning and Evaluation
EFC 743 Managing the Curriculum and Resources
EFC 744 Classroom Observation
EFC 745 Research in Teaching Methodology
EFC 750 Special Topics in Curriculum Development

Master of Education Degree in Educational Management

Departmental Special Regulations for the MEd (Education Management) Preamble
Subject to the provisions of General Regulations 400 and the Faculty of Education Special Regulations 41.0, the following Departmental Special Regulations shall apply.

Entrance Requirements
Entrance into the MEd (Educational Management) shall be in accordance with Faculty Special Regulation 41.1.
Programme Structure
The structure of the MEd (Educational Management) programme shall be in accordance with Faculty Special Regulation 41.5.

Level One
All students will be required to take the following core courses.
EFF 640 Integrated Foundations of Education
EFF 641 Educational Research I
EFF 642 Educational Research II
EFA 640 Introduction to Foundations of Educational Management
EFA 641 Educational Policy in National Development
EFA 642 Instructional Supervision

Plus any two of the following optional courses
FIC 620 Business Finance
EFA 644 Gender Issues in Educational Management
EFA 645 Management of Innovation and Change
EFA 646 Social Divisions in Educational Management
EFA 647 School Observation, Monitoring and Evaluation

With the consent of the Head of Department and agreement with the cognate department, a maximum of two courses may be taken from another MEd specialisation, from another Master’s programme at the University of Botswana or from an approved Master’s programme of another university.

Level Two
In Level Two of the programme, students shall take the Dissertation route or the Research Essay route.

Dissertation Route - The Dissertation route shall be in accordance with Faculty of Education Special Regulation 41.55.

EFA 761 Dissertation
Research Essay Route - The Research Essay route shall be in accordance with Faculty of Education Special Regulation 41.56.

EFA 751 Research Essay
Plus four optional courses from the following

EFA 741 Comparative Studies of Gender Effects in Education (Temporary Suspended)
EFA 743 Gender and Health Education (Temporary Suspended)
EFA 745 Gender in Educational Leadership
EFA 747 Politics of Gender in Educational Organisations
EFA 743 Gender Bias in Assessment and Evaluation (Temporary Suspended)
EFA 750 Special Topics in Gender Education

With the consent of the Head of Department and agreement with the cognate department, a maximum of two courses may be taken from another MEd specialisation, from another Master’s programme at the University of Botswana or from an approved Master’s programme of another university.

Master of Education Degree in Gender Education

Departmental Special Regulations for the MEd (Gender Education)

Preamble
Subject to the provisions of General Regulations 40.0 and the Faculty of Education Special Regulations 41.0, the following Departmental Special Regulations shall apply.

Entrance Requirements
Entrance into the MEd (Gender Education) shall be in accordance with Faculty Special Regulation 41.1.

Programme Structure
The structure of the MEd (Gender Education) programme shall be in accordance with Faculty Special Regulation 41.5.

Level One
All students will be required to take the following core courses.
EFF 640 Integrated Foundations of Education
EFF 641 Educational Research I
EFF 642 Educational Research II
EFB 641 Introduction to Gender in Education
EFB 643 Feminist Theories and Gender Analysis
EFB 640 Feminist Research and Pedagogy

Plus any two of the following optional courses
EFB 642 Gender, Curriculum and Instruction
EFB 644 Gender and Human Diversity
EFB 646 Gender, Health and Population Issues in Education (Temporary Suspended)
EFB 648 The Gender Perspective in Educational Policy, Planning and Evaluation (Temporary Suspended)

With the consent of the Head of Department and agreement with the cognate department, a maximum of two courses may be taken from another MEd specialisation, from another Master’s programme at the University of Botswana or from an approved Master’s programme of another university.

Level Two
In Level Two of the programme, students shall take the Dissertation route or the Research Essay route.

Dissertation Route - The Dissertation route shall be in accordance with Faculty of Education Special Regulation 41.55.

EFR 761 Dissertation
Research Essay Route - The Research Essay route shall be in accordance with Faculty of Education Special Regulation 41.56.

EFR 751 Research Essay
Plus four optional courses from the following

EFR 741 Comparative Studies of Gender Effects in Education (Temporary Suspended)
EFR 743 Gender and Health Education (Temporary Suspended)
EFR 745 Gender in Educational Leadership
EFR 747 Politics of Gender in Educational Organisations
EFR 743 Gender Bias in Assessment and Evaluation (Temporary Suspended)
EFR 750 Special Topics in Gender Education

With the consent of the Head of Department and agreement with the cognate department, a maximum of two courses may be taken from another MEd specialisation, from another Master’s programme at the University of Botswana or from an approved Master’s programme of another university.

Master of Education Degree in Research and Evaluation

Departmental Special Regulations for the MEd (Research And Evaluation)

Preamble
Subject to the provisions of General Regulations 40.0 and the Faculty of Education Special Regulations 41.0, the following Departmental Special Regulations shall apply.

Entrance Requirements
Entrance into the MEd (Research and Evaluation) shall be in accordance with Faculty Special Regulation 41.1.

Programme Structure
The structure of the MEd (Research and Evaluation) programme shall be in accordance with Faculty Special Regulation 41.5.

Level One
All students will be required to take the following core courses.
EFF 640 Integrated Foundations of Education
EFF 641 Educational Research I
EFF 642 Educational Research II
EFR 750 Special Topics in Research and Evaluation

With the consent of the Head of Department and agreement with the cognate department, a maximum of two courses may be taken from another MEd specialisation, from another Master’s programme at the University of Botswana or from an approved Master’s programme of another university.

Level Two
In Level Two of the programme, students shall take the Dissertation route or the Research Essay route.

Dissertation Route - The Dissertation route shall be in accordance with Faculty of Education Special Regulation 41.55.

EFR 761 Dissertation
Research Essay Route - The Research Essay route shall be in accordance with Faculty of Education Special Regulation 41.56.

EFR 751 Research Essay
Plus four optional courses from the following

EFR 741 Comparative Studies of Gender Effects in Education (Temporary Suspended)
EFR 743 Gender and Health Education (Temporary Suspended)
EFR 745 Gender in Educational Leadership
EFR 747 Politics of Gender in Educational Organisations
EFR 743 Gender Bias in Assessment and Evaluation (Temporary Suspended)
EFR 750 Special Topics in Gender Education

With the consent of the Head of Department and agreement with the cognate department, a maximum of two courses may be taken from another MEd specialisation, from another Master’s programme at the University of Botswana or from an approved Master’s programme of another university.

Entrance Requirements
Entrance into the MEd (Research and Evaluation) shall be in accordance with Faculty Special Regulation 41.1.

Programme Structure
The structure of the MEd (Research and Evaluation) programme shall be in accordance with Faculty Special Regulation 41.5.

Level One
All students will be required to take the following core courses.
EFF 640 Integrated Foundations of Education
EFF 641 Educational Research I
EFR 743 Gender and Health Education (Temporary Suspended)
EFR 745 Gender in Educational Leadership
EFR 747 Politics of Gender in Educational Organisations
EFR 743 Gender Bias in Assessment and Evaluation (Temporary Suspended)
EFR 750 Special Topics in Gender Education

With the consent of the Head of Department and agreement with the cognate department, a maximum of two courses may be taken from another MEd specialisation, from another Master’s programme at the University of Botswana or from an approved Master’s programme of another university.

Level Two
In Level Two of the programme, students shall take the Dissertation route or the Research Essay route.

Dissertation Route - The Dissertation route shall be in accordance with Faculty of Education Special Regulation 41.55.

EFR 761 Dissertation
Research Essay Route - The Research Essay route shall be in accordance with Faculty of Education Special Regulation 41.56.

EFR 751 Research Essay
Plus four optional courses from the following

EFR 741 Comparative Studies of Gender Effects in Education (Temporary Suspended)
EFR 743 Gender and Health Education (Temporary Suspended)
EFR 745 Gender in Educational Leadership
EFR 747 Politics of Gender in Educational Organisations
EFR 743 Gender Bias in Assessment and Evaluation (Temporary Suspended)
EFR 750 Special Topics in Gender Education

With the consent of the Head of Department and agreement with the cognate department, a maximum of two courses may be taken from another MEd specialisation, from another Master’s programme at the University of Botswana or from an approved Master’s programme of another university.

DEPARTMENT OF LANGUAGES AND SOCIAL SCIENCES EDUCATION

Master of Education Degree in Environmental Education

1.0 Programme Goals
The goals of the M. Ed (EE) programme are to:

i. provide top-level human resources for the formulation and implementation of educational education policies;

ii. produce reflexive professionals in the area with specific ability to diagnose needs, problems,
aspirations and integrate environmental and sustainability issues into learning objectives for their clients and communities;
iii. contribute to the enrichment of the graduate programmes and enhance their relevance to the needs of Botswana, the sub-region and beyond;
iv. increase postgraduate and research outputs
v. build capacity and competencies in dealing with emerging socio-ecological risks and respond appropriately within the Education for Sustainable Development (ESD) framework and initiatives.

2.0 Departmental Special Regulations
Subject to the provisions of General Regulations 400 and the Faculty of Education Special Regulations 41.0 the following Departmental Special Regulations shall apply:

2.1 Entry Requirements
Entrance into M. Ed programme (EE) shall be in accordance with Faculty of Education Special Regulation 41.1. It should be noted that this regulation includes graduates with relevant Bachelor degrees from the UB and other institutions

3.0 Programme Structure
The structure of the M. Ed (EE) programme shall be in accordance with the Faculty of Education Special Regulation 41.5.

Level One
Semester 1
Core Courses
Students will be required to take the following courses:
EFF640 Integrated Foundation of Education
EFF641 Educational Research I
EEL601 Environmental Sustainability Education Processes and practice
Plus any one of the following optional courses
EEL604 Sustainable Development
ENV621 Economic Aspects of Resource Utilization and Management

Semester two
Core Courses
EFF642 Educational Research II
EEL602 The Socio-ecological Issues and Risks
Plus any one of the following optional courses
EEL603 Environmental Education Policy Processes
EEL605 Environmental Ethics
EEL606 Resources Material Development
EEL607 Gender and the Environment
EEL612 Languages and Sustainable Development
EEL613 Research in Environmental Education

Level Two
In the second year of the programme (or third year for part-time students) students shall take the dissertation. The dissertation shall be in accordance with Faculty of Education Special Regulations 41.55.

EEL705 Dissertation (24 Credits)
Students taking the part time option shall be required to take at least two courses/modules per semester

Semester 5 and 6 for Part Time
EEL705 Dissertation (24 Credits)

4.0 Assessment
Assessment shall be in accordance with Faculty of Education Special Regulation 41.6.

5.0 Progression
Progression shall be in accordance with Faculty of Education Special Regulation 41.7.

5.1 Programme Structure
The structure of the Programme shall be in accordance with the Faculty Special Regulation 41.5.

5.2 Course Listings
Level One
All students will be required to take the following Modules:

Semester 1
EFF 640 Integrated Foundation of Education
EFF 641 Educational Research I
ELS 640 Readings in Educational Policies
ELR 645 Religious Education and Curriculum Development

Semester 2
EFF 642 Educational Research II
ELR 646 World Religions and Educational Practice
ELS 644 Independent Study
Plus any one module from the following list:
ELR 702 Ethics
ELR 704 Old Testament Studies
ELR 705 New Testament Studies; Teachings of Jesus
ELR 706 African Traditional Religions
ELR 707 Judaism
ELR 708 Islam
ELR 709 Hinduism
ELR 710 Buddhism
Level Two – In Level Two of the Programme, students shall take the Dissertation option or the Research Essay option.

a) ELR 761 Dissertation Option
The Dissertation Option shall be in accordance with Faculty of Education Special Regulations 41.55.

ELR751 Research Essay
b) Research Essay Option – The Research Essay Option shall be in accordance with Faculty of Education Special Regulation 41.56.

Semester 1
Students shall be required to take the following modules:

ELR 740 Psychology in Religious Education
ELR 741 Contemporary Issues in Religious Education

In addition, students will take any two of the following modules:

ELR 742 Religious Education Teaching Methods in Primary/ Secondary Schools
ELR743 Evaluation in Religious Education
ELR744 Gender and Religious Education
ELR745 Religious Education and Legal Provision
ELR750 Special Topics in Religious Education

Semester 2
ELR 761 Dissertation

5.9 Module Description for MEd (Religious Education)

In this or any recognised university or an equivalent institution with at least a 2 or its equivalent or:

a credit in the Post Graduate Diploma in Education. Equivalent qualifications from other recognised academic institutions will be considered.

4.1.2 A relevant Bachelor's Degree of this University at pass level with at least credit in the Post Graduate Diploma in Education.

4.1.3 At least two years of appropriate professional experience which may be acquired concurrently with part-time studies.

4.1.4 At least two satisfactory professional references, and evidence of potential to perform successfully in a Graduate Level Programme.

5.1.5 A satisfactory interview may be required.

5.1.6 With the approval of Senate, equivalent qualifications and experience may be accepted. Such candidates may be required to perform successfully on an admission examination or satisfy other requirements as is deemed appropriate by the Faculty of Education.

4.1.7 Master's Level work in Religious Education/Social Studies Education must be preceded by sufficient undergraduate work in that field or a related field to satisfy the Board of the Department of Languages and Social Sciences Education that he candidate is likely to be successful.

4.1.8 Candidates may be required to take and pass prerequisite courses, which are deemed by he Board to be necessary or desirable. Such prerequisites may be required prior to admission to the Master's Programme or prior to commencing a particular module or prior to the granting of the degree. Prerequisite courses will not earn credit towards Degree Requirements.

5.0 Entrance Requirements for the degree MEd (Religious Education)

Entrance into the Master of Education Degree Programme in Religious Education shall be in accordance with Faculty of Education Special Regulation 41.1.

5.1 Programme Structure
The structure of the Programme shall be in accordance with the Faculty Special Regulation 41.5.

5.2 Course Listings
Level One
All students will be required to take the following Modules:

Semester 1
EFF 640 Integrated Foundation of Education
EFF 641 Educational Research I
ELS 640 Readings in Educational Policies
ELR 645 Religious Education and Curriculum Development

Semester 2
EFF 642 Educational Research II
ELR 646 World Religions and Educational Practice
ELS 644 Independent Study
Plus any one module from the following list:
ELR 702 Ethics
ELR 704 Old Testament Studies
ELR 705 New Testament Studies; Teachings of Jesus
ELR 706 African Traditional Religions
ELR 707 Judaism
ELR 708 Islam
ELR 709 Hinduism
ELR 710 Buddhism
Level Two – In Level Two of the Programme, students shall take the Dissertation option or the Research Essay option.

a) ELR 761 Dissertation Option
The Dissertation Option shall be in accordance with Faculty of Education Special Regulations 41.55.

ELR751 Research Essay
b) Research Essay Option – The Research Essay Option shall be in accordance with Faculty of Education Special Regulation 41.56.

Semester 1
Students shall be required to take the following modules:

ELR 740 Psychology in Religious Education
ELR 741 Contemporary Issues in Religious Education

In addition, students will take any two of the following modules:

ELR 742 Religious Education Teaching Methods in Primary/ Secondary Schools
ELR743 Evaluation in Religious Education
ELR744 Gender and Religious Education
ELR745 Religious Education and Legal Provision
ELR750 Special Topics in Religious Education

Semester 2
ELR 761 Dissertation

5.9 Module Description for MEd (Religious Education)

In this or any recognised university or an equivalent institution with at least a 2 or its equivalent or:

a credit in the concurrent Diploma in Education or pass in the Post Graduate Diploma in Education. Equivalent qualifications from other recognised academic institutions will be considered.

4.1.2 A relevant Bachelor's Degree of this University at pass level with at least credit in the Post Graduate Diploma in Education.

4.1.3 At least two years of appropriate professional experience which may be acquired concurrently with part-time studies.

4.1.4 At least two satisfactory professional references, and evidence of potential to perform successfully in a Graduate Level Programme.

5.1.5 A satisfactory interview may be required.

5.1.6 With the approval of Senate, equivalent qualifications and experience may be accepted. Such candidates may be required to perform successfully on an admission examination or satisfy other requirements as is deemed appropriate by the Faculty of Education.

4.1.7 Master's Level work in Religious Education/Social Studies Education must be preceded by sufficient undergraduate work in that field or a related field to satisfy the Board of the Department of Languages and Social Sciences Education that he candidate is likely to be successful.

4.1.8 Candidates may be required to take and pass prerequisite courses, which are deemed by he Board to be necessary or desirable. Such prerequisites may be required prior to admission to the Master's Programme or prior to commencing a particular module or prior to the granting of the degree. Prerequisite courses will not earn credit towards Degree Requirements.

5.0 Entrance Requirements for the degree MEd (Religious Education)

Entrance into the Master of Education Degree Programme in Religious Education shall be in accordance with Faculty of Education Special Regulation 41.1.

5.1 Programme Structure
The structure of the Programme shall be in accordance with the Faculty Special Regulation 41.5.
Entrance into the Master of Education Degree Programme in Social Studies Education shall be in accordance with Faculty of Education Special regulation 41.1.

6.1 Programme Structure
The structure of the Programme shall be in accordance with the Faculty Special Regulation 41.5.

Level One
All students will be required to take the following core courses, each of which carries 3 credits:

**EPS742  The Social Studies Teacher**
**EPS741  Evaluation in Social Studies Education**
Plus any three of the following optional courses, each of which carries three credits:

**ELS 640  Readings in Educational Policies**
**EPS 641  Citizenship Education**
**EPS 644  Independent Study**
**EPS 640  Readings in Educational Policies**
**EPS 641  Citizenship Education**
**EPS 644  Independent Study**
**ELC 740  Evaluation in Social Studies Education**
**ELC 742  The Social Studies Teacher**
**ELC 742  Populations and Family Welfare Education**
**ELC743  Social Sciences in Social Studies Education**
**ELC750  Special Topics in Social Studies Education**

Semester 2
**ELC751  Research Essay**

DEPARTMENT OF MATHEMATICS AND SCIENCE EDUCATION

Master of Education Degree in Mathematics Education and Science Education

4.0 Graduate Programmes in Mathematics and Science Education

4.1 Objectives
The primary goal of the graduate programme in the Department of Mathematics and Science Education (DMSE) is to build capacity in Mathematics and Science Education in the southern African region. The Department works to produce high calibre, professionally sound personnel for pedagogical and research careers in tertiary institutions as well as in allied institutions/bodies in the education sector of the region. The objectives of the graduate programmes are:

- a) To produce high-level graduates in Mathematics and Science Education for careers in pedagogy and research in tertiary institutions and allied bodies;
- b) To provide research skills to Mathematics and Science graduate students with a view to enhancing their analytical abilities;
- c) To broaden the research base of the Department to enable graduates to contribute more significantly and meaningfully to innovations in the different facets of Mathematics and Science Education;
- d) To strengthen the research capacity of the Department with a view to enhancing its ability to extend the frontiers of knowledge in the realm of Mathematics and Science Education.

5.0 Master of Education (MEd) Degree Programmes

5.1 Entrance Requirements
5.1.1 The normal minimum entrance requirements for admission to the Master of Education Programmes are:

- a) A relevant Bachelor of Education Degree from this or any recognised university or equivalent institution with at least a 2 or its equivalent or
- b) A relevant Bachelor's Degree of this University with at least a second class, second division plus at least a credit in the concurrent Diploma in Education or pass in the Post Graduate Diploma in Education. Equivalent qualifications from other recognised academic institutions will be considered or:
- c) A relevant Bachelor's Degree of this University at pass level with at least a credit in the Post Graduate Diploma in Education
- d) At least two years of appropriate professional experience and at least two satisfactory professional references
- e) A satisfactory interview may be required

5.1.2 With the approval of Senate, equivalent qualifications and experience may be accepted. Such candidates may be required to perform successfully on an admission examination or satisfy other requirements as deemed appropriate by the Faculty of Education.

5.1.3 Master's-level work in Mathematics Education or Science Education must be preceded by sufficient undergraduate work in that field or a related field to satisfy the Board of the Department of Mathematics and Science Education that the candidate is likely to be successful.

5.1.4 Candidates may be required to take and pass pre-requisite courses, which are deemed by the Board to be necessary or desirable. Such pre-requisites may be required prior to admission to the Master's Programme or prior to commencing a particular course or prior to granting of the Degree. Pre-requisite courses will not earn credit towards Degree requirements.

5.2 Student Advising
Upon admission, each student will be assigned an Advisor. The Advisor will be available to consult with the student regarding coursework and any other issues related to Master's-level studies. During the second semester of Level One, a Research Supervisor for the Dissertation or Research Essay, which is to be completed during Level Two, will be appointed for each student. The Advisor will normally, but not necessarily, act as the Research Supervisor.

5.3 Programme Structure MEd (Mathematics Education)

Level 1
Core Courses
All students are required to take the following:

**EFF 640  Integrated Foundation of Education**
**EFF 641  Educational Research I**
**ELS 640  Readings in Educational Policies**
**ELS 644  Independent Study**
In addition, students will take any one module from the following list:

**ESS 621  Economic Aspects of Resource Utilisation**
**ESS 622  Climate and Resources in Semi-arid Environments**
**ESS 625  Population Dynamics and Human Settlement**
**ESS 634  Waste Management and Pollution Control Social Sciences**
**MPA 615  Environmental and Natural Resources Management**

Level Two
In Level Two of the Programme, students shall take the Dissertation Option or the Research Essay Option.

- a) Dissertation Option - The Dissertation Option shall be in accordance with Faculty of Education Special Regulations 41.5.

- b) Research Essay Option - The Research Essay Option shall be in accordance with Faculty of Education Special Regulation 41.7.

Semester 1 Students shall be required to take the following courses:

**EPS471  Evaluation in Social Studies Education**
**EPS472  The Social Studies Teacher**
**ELC742  Populations and Family Welfare Education**
**ELC743  Social Sciences in Social Studies Education**
**ELC750  Special Topics in Social Studies Education**

Semester 2
**ELC751  Research Essay**
Level Two
In Level Two of the Programme, students shall take the Dissertation Route or the Research Essay Route.

Dissertation Route
ESM 761 Dissertation

Research Essay Route
ESM 751 Research Essay

In addition, students taking the Research Essay Route shall take 4 optional courses, each of which carries 3 credits, from one area of subspecialisation.

Sub-Specialisation A: Secondary Mathematics Teaching
ESM 741 Research Seminar in Mathematics Education II
ESM 743 Philosophical Foundations of Mathematics Education
ESM 745 Development of Mathematics Education in Botswana
ESM 747 Independent Study in Mathematics Education
ESM 749 Ethnomathematics
ESM 750 Special Topics in Mathematics Education

With the consent of the Department and agreement of the cognate department, a maximum of two optional courses may be selected from other Master of Education specialisations/subspecialisations or from Level 400 or Level 600 approved Science courses of the Faculty of Science.

Sub-Specialisation B: Primary Mathematics Teaching
EPM 741 Modern Algebra for Teachers
EPM 743 Basic Ideas of Calculus
EPM 745 Foundations of Geometry
EPM 747 Problems of Teaching Primary School Mathematics
EPM 749 Computers and Algorithms in Mathematics

With the consent of the Department and agreement of the cognate department, a maximum of two of the four optional courses may be selected from other Master of Education specialisations/subspecialisations.

5.4 Programme Structure MEd (Science Education)
Level One
All students will be required to take the following core courses, each of which carries 3 credits:

eff640 Integrated Foundations of Education
Eff641 Educational Research I
Eff642 Educational Research II
ESs641 Advanced Curriculum Development, Implementation and Evaluation in Science Education

In addition, students shall take any four optional courses, each of which carries 3 credits, from one of the following areas of subspecialisation:

Sub-Specialisation A: Secondary Science Teaching
ESM630 Advanced Integrated Science Concepts I
ESM632 Advanced Integrated Science Concepts II
ESM634 Teaching Science in Primary Schools
ESM636 Foundations of Environmental Education
ESM638 Critique of Educational Literature in Science Education

With the consent of the Department an agreement of the cognate department, one optional course may be selected from other Master of Education specialisations/subspecialisations or from Level 400 approved Science courses in the Faculty of Science. It should be noted that the Department might not be able to offer every optional course every year. Students are required to satisfactorily complete a minimum of 24 credits before proceeding to the Dissertation Route or Research Essay Route in Level Two.

Level Two
In the second year of the Programme, students shall take the Dissertation Route or the Research Essay Route.

Dissertation Route
ESS761 Dissertation

Research Essay Route
ESS751 Research Essay

In addition, students shall take four optional courses, each of which carries 3 credits, from one of the following areas of sub-specialisation:

Sub-Specialisation A: Secondary Science Teaching
ESS741 Research Seminar in Science Education II
ESS743 Emergent Issues in Science Education
ESS745 Development of Science Education in Botswana
ESS747 Independent Study in Science Education
ESS749 Science, Technology and Society
ESS750 Special Topics in Science Education

With the consent of the Department and agreement of the cognate department, a maximum of two optional courses may be selected from other Master of Education specialisations/subspecialisations or from Level 400 or Level 600 approved Science courses of the Faculty of Science.

Sub-Specialisation B: Primary Science Teaching
EPM/731 Advanced Integrated Science Concepts III
EPM/733 Advanced Integrated Science Concepts IV
EPM/735 Teaching College Science
EPM/737 Science Supervision
EPM/739 Trends and Issues in Environmental Education

With the consent of the Department and agreement of the cognate department, a maximum of two optional courses may be selected from other Master of Education specialisations/subspecialisations or from Level 400 or Level 600 approved Science courses of the Faculty of Science.

DEPARTMENT OF PHYSICAL EDUCATION, HEALTH AND RECREATION

Master of Education Degree in Physical Education

The following courses are offered for the Master of Education Degree in Physical Education:

• MEd (Physical Education- Pedagogy)
• MEd (Physical Education-Sports Management)
• MEd (Physical Education-Sports Science)
• MEd (Physical Education-Sports Psychology)

41.0 Departmental Regulations MEd (Physical Education)
Subject to the provisions of General Regulations 40.0 and the Faculty of Education Special Regulations 41.0, the following Departmental Special Regulations shall apply:

41.1 Entrance Requirements
41.11 The normal minimum entrance requirements for admission to the MEd programmes of the Department of Physical Education shall be:

a) A BEd degree in Physical Education or related area from this University or recognised equivalent institution with at least a 2(ii) or 3.0 GPA on a five-point scale or;

b) An acceptable Bachelor's degree with at least a 2(ii) or 3.0 GPA plus a Post Graduate diploma in any relevant area of Physical Education or;

c) At least one year of relevant experience.

41.12 MEd work in any specialisation must be preceded by sufficient undergraduate work in that field or a related one to satisfy the Board of the Department.

6.0 Programme Structure
The structure of the MEd (Physical Education) Programme shall be in accordance with Faculty Special Regulation 41.5. The MEd Degree offered by coursework and Dissertation shall consist of eight taught courses equivalent to 24 credits and a Dissertation (PHR798) equivalent to 24 credits. The MEd degree offered by coursework and Research Essay (PHR798) shall consist of twelve taught courses equivalent to 36 credits and a Research Essay equivalent to twelve credits.

Level One
All students are required to take the following core courses:

Semester 1
Core Courses
EFF640 Integrated Foundations of Education
Eff641 Educational Research I
PHR600 Contemporary Issues in Physical Education, Sport, Recreation and Leisure

Plus three credits from the core of any one of the specialisations that follow:

Semester 2
Eff642 Educational Research II
Phr601 Measurement, Evaluation and Statistical Procedures for Physical Education and Sports Plus any six credits from any one of the following specialisations.

Specialisation A: Pedagogy of Physical Education and Sport Core Course
PHR716 Methodology in Physical Education And Sports

Options

PHR717 Curriculum Development in Physical Education

PHR719 Coaching Techniques in Physical Education and Sports

PHR720 Supervision in Physical Education and Sport
PHR721 Motor Learning and Human Performance

Specialisation B: Physical Education and Sport Management Core Course
PHR705 Organisational Behaviour, Sport Management Theory and Practice

Options
PHR 706 Sport Entrepreneurship, Marketing and Promotions
PHR 708 Practicum in Sports Marketing and Sports Management (pre-requisite PHR 706)
PHR 709 Sport and Law

Specialisation C: Physical Education and Sport Science
Core Course
PHR710 Advanced Physiology of Exercise

Options
PHR711 Laboratory Techniques in Sport Sciences
PHR712 Biomechanics Applied to Physical Education and Sports
PHR714 Kinesiological Considerations in Physical Education and Sports
PHR715 Advanced Physical Fitness Testing in Health and Sports

PHR 798 Research Essay

6.021 Dissertation Route - The Dissertation route shall be in accordance with Faculty of Education Special Regulation 41.55.
PHR 799 Dissertation

6.022 Research Essay Route - The Research Essay route shall be in accordance with Faculty of Education Special Regulation 41.56.
PHR 798 Research Essay

Semester 3
Students shall take two courses they did not take in their area of specialisation plus two from the following:
MG750 Organizational Theory and Behavior
PHR604 Sport and the Media
PHR700 Physical Education and Sport in Traditional African Cultures
PHR702 Comparative History of Physical Education and Sport
PHR704 Philosophical Bases of Physical Education and Sport
PHR707 Sports and Physical Education Facilities Planning, Construction and Management
PHR713 Psychological Factors in Physical Education and Sports
PHR718 Instructional Technology in Physical Education and Sport
PHR734 Management of Sport Injuries
PHR735 Qualitative Analysis of Movement
PHR736 Independent Study
PHR725 Rehabilitation and Social Integration of Individuals with Special Educational Needs
PHR731 Ethics and Controversy in Leisure, Travel and Tourism

Semester 4
PHR798 Research Essay

DEPARTMENT OF PRIMARY EDUCATION

3.0 Graduate Programmes in the Department of Primary Education

3.1 Objectives
The primary goal of graduate programmes based in the Department of Primary Education is capacity building in Language Education and Primary Education in the Southern African region. It is geared towards the preparation of high calibre, professionally sound personnel for pedagogical and research careers in tertiary institutions as well as in allied institutions/bodies in the education sector of the economy in the region. The objective of our graduate programmes is to:

- Produce high-level graduates in Language Education and Primary Education for careers in pedagogy and research in tertiary institutions and allied bodies in the country in particular and the region in general;
- Provide research skills to Language Education and Primary Education graduate students in the region with a view to enhancing their analytical abilities;
- Broaden the research base of the Department to enable it to contribute more significantly and meaningfully to innovations in the different facets of the disciplines of Language Education and Primary Education;
- Strengthen the research capacity of the Department with a view to enhancing its ability to extend the frontiers of knowledge in the realm of Language Education and Primary Education.

4.0 Master of Education Degree Programme in Department of Primary Education

4.1 Preamble
Subject to the provisions of General Regulations 41.5 the following Departmental Special Regulations shall apply:

4.2 The degree shall be a course-based MEd offered as coursework and Dissertation OR coursework and Research Essay. The degree shall be offered through full-time or part-time study.

4.3 A taught course should be of one semester in duration and carry three credits. Each course shall comprise lectures, group work, seminars, discussion and individual research writing.

4.4 On satisfactory completion of a minimum of 24 credits, students shall progress into the Dissertation route or the Research Essay route.

4.5 All students must take three Faculty core courses (EFF640, EFF641, EFF642). Students following the Dissertation route must complete a further five specialisation courses while students following the Research Essay route must complete a further nine specialisation courses. Students may take one course during the long vacation, subject to the availability of staff. With the consent of the Head of Department offering the specialisation and agreement with the cognate department, a maximum of two courses may be taken from another MEd specialisation, from another Master’s programme at the University of Botswana, from an approved Master’s programme of another university or as specified in Departmental Special Regulations.

4.6 Course Work and Dissertation
Subject to the provisions of the General Regulations, the following Departmental Special Regulations shall apply:

4.6.1 The Dissertation proposal must be approved by the Board of the Department of Primary Education.

4.6.2 The subject of the Dissertation shall be within the general field of specialisation and must reveal independent and original investigation and knowledge of methods of scholarship.

4.7 Course Work and Research Essay
Subject to the provisions of General Regulation 41.5, 41.10 and 41.11, the following Departmental Special Regulations shall apply:
4.4.7.1 The type of Research Essay shall be selected using the Faculty of Education Guidelines for the MEd Research Essay Option and have the mutual agreement of the student and the research supervisor.

4.4.7.2 The subject of the Research Essay shall be within the general field of specialisation.

4.5 Programme Structure MEd (Language Education)

Level One
All students will be required to take the following core courses:

- EFF 640 Integrated Foundations of Education
- EFF 641 Educational Research I
- EFF 642 Educational Research II
- EPL 640 Language in the Curriculum
- EPL 642 Reading and Writing Disabilities
- EPL 643 Developing Children's Literature
- EPL 647 Drama in Education
- EPL 750 Special Topics in Language Education

Level Two
In level two of the programme, students shall take the Dissertation route or the Research Essay route.

Dissertation Route - The Dissertation route shall be in accordance with General Regulations 41.9 and 41.11.

Research Essay Route
The Research Essay route shall be in accordance with General Regulations 41.10 and 41.11.

- EPL 751 Research Essay
- Plus four optional courses from the following:
  - EPL 740 Language in Education Policy and Planning
  - EPL 741 Bilingual Education
  - EPL 742 Teaching Language and Literacy
  - EPL 743 First and Second Language Acquisition
  - EPL 748 First and Second Language Teacher Education

4.6 Programme Structure MEd (Primary Education)

Level One
All students will be required to take the following core courses:

- EFF 640 Integrated Foundations of Education
- EFF 641 Educational Research I
- EFF 642 Educational Research II
- EPI 640 Learning Strategies in Infant/Primary Education
- EPI 641 Research Method and Design in Infant/Primary Education
FACULTY OF ENGINEERING AND TECHNOLOGY

- Special Regulations for MPhil and PhD: 47
- Department of Civil Engineering: 48
- Department of Electrical Engineering: 50
- Mechanical Engineering: 50
MPhil/PhD in the following specialisation areas:

- Engineering
- Design
- Technology
- Built Environment
- Project Management

12.0 Faculty Special Regulations for the Degree of MPhil and PhD

Subject to the Special General Regulations 50.0, the following Faculty Special regulations apply:

Preamble: The MPhil and PhD degrees are graduate degrees carried out through supervised research, but which may require coursework if deemed necessary by the FET Interdisciplinary Supervisory Committee (ISC). Courses to fulfill such requirements must be approved by the FET Interdisciplinary Supervisory Committee, the School of Graduate Studies and Senate. These degrees may be available through all Faculties and Departments of the Faculty of Engineering and Technology (FET), through the School of Graduate Studies. Further studies, research and supervisory arrangements will be determined by the FET Interdisciplinary Supervisory Committee and require approval of the School of Graduate Studies Board. It is not essential that these degrees be pursued in the same Faculty as the Bachelor’s degree was obtained, but normally the subject for study in the higher degree shall have been a major subject taken successfully at the Bachelor’s level. If the Bachelor’s degree has been earned in a different academic discipline, the student may be required to meet additional academic re-requirements.

12.1 Admission into the Master of Philosophy Degree Programme

In accordance with the General Regulations 50.1 with the following provisions:

50.1.3 Applicants who have obtained other qualifications and have relevant experience may be considered by the School of Graduate Studies Board on the recommendation of the FET Interdisciplinary Supervisory Committee. Applicants may be required to pass a qualifying examination, set and organized by the Department concerned, who shall forward the results to the School of Graduate Studies Board through the FET Interdisciplinary Supervisory Committee before a final decision on the applicant’s acceptability is made.

12.2 Admission to the Doctor of Philosophy Degree Programme

In accordance with the General Regulations 50.2 with the following provisions:

50.2.2 d) Applicants with previous research experience may be admitted directly into a PhD programme, upon recommendation of the FET Interdisciplinary Supervisory Committee and approval by the School of Graduate Studies.

12.3 Registration

In accordance with the General Regulations 50.3.

12.4 Transfer from another University

In accordance with the General Regulations 50.4.

12.5 Programme Structure (MPhil)

The courses are:

- IDR600 Design research Methods
- ENE800 Supervised Research and Thesis in Engineering (MPhil)
- DES800 Supervised Research and Thesis in Design (MPhil)
- TEC800 Supervised Research and Thesis in Technology (MPhil)
- BEN800 Supervised Research and Thesis in Built Environment (MPhil)
- MPM800 Supervised Research and Thesis in Project Management (MPhil)

12.6 Programme Structure (PhD)

The courses are:

- ENE900 Supervised Research and Thesis in Engineering (PhD)
- DES900 Supervised Research and Thesis in Design (PhD)
- TEC900 Supervised Research and Thesis in Technology (PhD)
- BEN900 Supervised Research and Thesis in Built Environment (PhD)
- MPM900 Supervised Research and Thesis in Project Management (PhD)

12.7 Duration of the Programme

In accordance with the General Regulations 50.5 with the following provisions:

50.5.3 If a reduction or extension of registration outside the normal period is required, a written application must be submitted through the Supervisor and the FET Interdisciplinary Supervisory Committee to the School of Graduate Studies Board, which may grant an extension of up to twelve months. Any reduction or further extension may only be approved by the School of Graduate Studies Board. Under certain circumstances, the School of Graduate Studies Board may only grant such permission if the student agrees to transfer to regulations current at that time.

12.8 Programme of Study

In accordance with the General Regulations 50.6 with the following provisions:

50.6.1 Each graduate student is required to pursue a prescribed programme of study under the direction of a Supervision Committee.

50.6.2 The main Supervisor shall be recommended by the FET Interdisciplinary Supervisory Committee, and shall be approved and appointed by the School of Graduate Studies Board. With approval of the School of Graduate Studies, the FET Interdisciplinary Supervisory Committee shall nominate two additional members who shall act as Co-Supervisors, who with the Supervisor shall constitute a Supervision Committee. In approving the Supervision Committee, the School of Graduate Studies shall take into account the overall expertise and experience of the proposed team.

50.6.3 Co-Supervisors from within or outside the University of Botswana may be recommended by the FET Interdisciplinary Supervisory Committee, and shall be approved and appointed by the School of Graduate Studies Board which, before reaching a decision, will examine the respective CV’s for evidence of an appropriate level of experience and/ or current scholarly work.

50.6.4 In exceptional circumstances, a change of Supervisor may be recommended by the FET Interdisciplinary Supervisory Committee to the School of Graduate Studies Board.

50.6.5 Where a Supervisor is absent from the University for more than two months, then an acting Supervisor must be appointed. The Supervisor shall make the recommendation of an acting Supervisor to the FET Interdisciplinary Supervisory Committee for approval by the School of Graduate Studies.

12.9 Transfer of Registration

In accordance with the General Regulations 50.7 with the following provisions:

50.7.1 Transfer from MPhil to PhD

50.7.1.1 A candidate provisionally registered for the PhD degree shall apply to transfer registration and proceed to the PhD, after completion of at least a period of 9 months but not more than 24 months (full-time students) or at least 9 but not more than 36 months (part-time students), if the Supervisor so recommends. The recommendation shall be based on the work that has already been done by the student within the said period. The application must then be supported by a statement from the Supervisor describing progress and giving details of how the study is to be developed. The application must be submitted through the FET Interdisciplinary Supervisory Committee to the School of Graduate Studies Board for final decision.

50.7.2 Transfer from PhD to MPhil

50.7.2.1 A candidate registered for the PhD, may choose to transfer to the MPhil programme. The student’s Supervisor may recommend that the student transfer to the MPhil programme. In both of these situations, the application for transfer must be accompanied by a written recommendation from the Supervisor and be submitted through the FET Interdisciplinary Supervisory Committee to the School of Graduate Studies Board for final decision.

13.0 Thesis

In accordance with the General Regulations 50.8 with the following provisions:

50.8.1 Submission of Title and Abstract of the Thesis

The title and abstract (not exceeding 500 words) of the Thesis must be submitted through the Supervisor and the FET Interdisciplinary Supervisory Committee for approval by the School of Graduate Studies Board approximately three months before submission of the Thesis. After the title has been approved, it may not be changed except with the permission of the FET Interdisciplinary Supervisory Committee and the School of Graduate Studies Board. The abstract may be edited before the final submission of the thesis.

13.1 Examination

In accordance with the General Regulations 50.9 with the following provisions:
50.9.1 Entry into the Examination
50.9.1.2 The final submission of the Thesis for examination may follow at any time within the permitted time limit, but the candidate must immediately beforehand inform the FET Interdisciplinary Supervisory Committee and School of Graduate Studies Board in writing of the intention to do so, and also submit a signed statement from the Supervisor indicating higher approval or otherwise, to the submission of the Thesis for examination.
50.9.1.3 In cases where the Supervision Committee has not approved the submission of the Thesis for examination, but all other procedures have been met, the candidate may submit the Thesis to the School of Graduate Studies without the Supervisor's approval, through the supervision committee, after a successful appeal to the FET Interdisciplinary Supervisory Committee.

50.9.2 Appointment and Functions of Internal Examiners
50.9.2.1 There shall be one External Examiner and one Internal Examiner appointed by School of Graduate Studies Board on the recommendation of the FET Interdisciplinary Supervisory Committee. In the exceptional event that no suitable Internal Examiner is available from within the University, a Second External Examiner in lieu shall be appointed.

50.9.3 Board of Examiners
50.9.3.1 Composition of the Board of Examiners
The Board of Examiners for the degree of MPhil and PhD shall comprise at least three members from the following, as recommended by the FET Interdisciplinary Supervisory Committee and approved by the School of Graduate Studies Board.
Chairperson: A Professor or Senior Academic normally from a different (unattached) department of the relevant faculty, provided s/he is not a member of the Supervision Committee.
Internal Examiner: An academic member of staff who is competent in the area of the work to be examined. In the exceptional event that no suitable Internal Examiner is available from within the University, a Second External Examiner in lieu shall be appointed.
External Examiner: A Senior Academic from outside the University of Botswana. The person must be competent in the area of the work to be examined, and an experienced researcher. S/he shall not be a former member of UB unless at least three years have elapsed since leaving UB.
50.9.3.3 In advisory capacity, at least one person may be recommended from the following. Such persons shall have no voting power on decisions to be made by the Board. One Senior Academic from a relevant Department. One Senior Academic from a cognate Department. One Expert from an approved industrial partners, as envisaged by the faculty.

The Appeal shall be made to the Dean of the School of Graduate Studies, for consideration by the FET Interdisciplinary Supervisory Committee, with a recommendation to the School of Graduate Studies Board, within three months from the date of notification of the results. The appeals procedure shall appear in the School of Graduate Studies handbook.

13.2 Programme Structure
A student should at MPhil level, and before proceeding with research at PhD level, one course in research methodology from two such alternative generic courses, as recommended by the Faculty ISC.

Courses for MPhil/PhD Students
In accordance with the General regulations, 50.5, all MPhil programmes would be a minimum of 2 years full time and 3 years Part time. The PhD would take a minimum of 3 years full time and 5 years part time. Attendance at students' re-search seminars and lectures by visiting scholars will be a non-credit requirement. Participation in conferences and publications will also be part of the programmes. Strong industrial links will be fostered including work and stay on site and with approved industrial partners, as envisaged by the faculty.

MPhil students take one of the two core courses on Research Methods, as appropriate to their background and intended topic of research, on the advice of the Faculty ISC. The two core courses on Research Methodology are as follows:

CEM603 Analytical Research Methods (3)
(Dealing with Quantitative Research Methods)
IDR600 Design Research Methods (3)
(Qualitative and Quantitative Research Methods)

DEPARTMENT OF CIVIL ENGINEERING

Master of Science Degree in Civil Engineering

5.1 Preamble
The Master's Programme in Civil Engineering (MSC) curriculum reflects national demands in design and construction and management, and conforms to global trends in graduate education. It consists of core and optional courses which are streamed into five areas of Civil Engineering specialization: Water Resources & Environmental Engineering, Structural Engineering, Construction Management, Geotechnical Engineering and Transportation Engineering.

5.2 Duration
Full-time students can complete the Programme in four semesters while part-time students can complete in six semesters. The first year of full-time study (semesters 1 and 2) in the Master's Programme in Civil Engineering is based on coursework while the second year of study (semesters 3 and 4) on the supervised research of individuals leading to the presentation of their dissertation. Courses are normally offered at times to suit part time students.

5.3 Admission
The entrance requirements are a Bachelor's degree in Civil Engineering or Construction Engineering and Management with at least second class, second division, or equivalent, from a recognized university or institution of higher learning, with an average of at least grade C or equivalent in the relevant areas. An alternative is a Bachelor's degree in Civil Engineering or Construction Engineering and Management from this or any other university with two years of relevant work experience, or a 4-5 year Bachelor's degrees in Material Science, Physics or Mathematics with at least second class, second division, or the equivalent, from this or any other recognized university.

5.4 Evaluation
Courses are evaluated from assignments and tests (40%) and exams (60%). A minimum of 55% is required to pass. Courses normally carry 3 credits.

5.5 Courses Offered
Semester 1 (all core courses)

Common courses;
MAT 691 Mathematical methods for engineers
CEM 602 Introduction to project management
CEM 603 Research methodologies

Specialization 1: Geotechnics
CEM 611 Advanced soil mechanics
CEM 631 Construction finance & economics

Specialization 2: Transportation
CEM 611 Advanced soil mechanics

Specialization 3: Water & Environment
CEM 641 Water quality management, modeling

Specialization 4: Structural
CEM 651 Advanced structural analysis

Semester 2
Specialization 1: Geotechnics
Core courses
CEM 6612 Site Investigation and Soil Testing
CEM 6613 Analysis & Design of Shallow & Deep Foundations

Optional courses
CEM 614 Slope stability and dams
CEM 615 Clay mineralogy and expansive soils
CEM 616 Earth pressure & retaining structures
CEM 621 Pavement design
CEM 622 Highway engineering materials
CEM 655 Finite element analysis

Specialization 2: Construction management
Core courses;
MGT 744 Human resources management
CEM 633 Construction planning & cost control

Optional courses
CEM 634 Total quality management
CEM 636 Info. management in construction
CEM 637 Strategic management construction
LAW 615 Alternative dispute resolution

Specialization 3: Transportation
Core courses
CEM 621 Pavement design
CEM 622 Highway engineering materials

Optional courses
CEM 623 Construction technology & equipment
CEM 624 Highway rehabilitation & maintenance
CEM 625 Transportation planning
CEM 626 Transportation systems & safety

Specialization 3: Water & Environment
Core courses

50.10.3 A student normally has the right of appeal to Senate on decisions taken under these regulations.
3.6.3. Applicants will be required to indicate at registration the intended area of research to provide ample time for planning resources, such as, dissertation supervisors and also to assess the viability of the research. Admission of qualified applicants is dependent upon availability of an appropriate research supervisor.

3.6.4. Subject to changes approved from time to time, the list of MPM courses shall be as indicated in Table 2 and 3.

3.6.5. The availability for registration of optional courses and the research essay option shall be subject to regulation 40.17.

Students take any four optional courses.

3.7 Assessment

The General Regulation 41.7 governing assessment shall apply.

3.8 Dissertation and Research Essay

3.8.1. A student intending to write a Dissertation or Research Essay shall be required to submit a research topic to the Head of Department before the completion of coursework. The Dissertation proposal shall be presented to the Departmental Board for consideration and approval.

3.9 Assessment and Examination

3.9.1. Course assessment shall be based on continuous assessment and examination at the end of the semester in which the course is taken. The ratio between continuous assessment and examination is as stipulated in the individual course outlines.

3.9.2. Academic General Regulations 41.7 and 0.86 shall govern continuous assessment and the final examinations.

3.10 Progression from Semester to Semester

3.10.1. Progression from one semester to the next shall be governed by Academic General Regulations 41.8.

3.10.2. In addition, for students to register for courses in Level 700 they should have completed and passed all Level 600 courses.

3.10.3. In order for a student to register for the course MPM 701 Dissertation, the course MPM 700 MPM Proposal must be completed in accordance with regulation 3.8.2.

3.11 Management and Assessment of the Dissertation and Research Essay

The management and assessment of the dissertation and research essay shall be as stipulated in regulations 41.9 and 41.10 respectively.

3.12 Award of the MPM

The Degree of Master in Project Management shall be awarded as per General Regulation 41.12.
DEPARTMENT OF ELECTRICAL ENGINEERING

Master of Science Degree in Electrical/Electronic Engineering

Entrance Requirements
Applicants for MSc Programme should have obtained a relevant Bachelor's degree in Electrical/Electronic Engineering with at least second class, second division (3.0 on 5.0 scale) on equivalent from a recognized university or equivalent institution of higher learning.

Assessment
Each course shall be assessed by formal examination and continuous assessment. The ratio between formal examination and continuous assessment shall be 50:50.

Award of Degree.
The Degree of MSc in Electrical/Electronic Engineering (each stream) shall be awarded upon achieving a minimum of grade C in each course and upon successful completion and defence of the Research Dissertation (stream one-Electrical Engineering, Stream two-Electronic Systems Engineering).

STREAM 1 – ELECTRICAL POWER ENGINEERING

Semester 1 – Core Courses (12 Credits)
MAT 601 Mathematical Methods for Engineers
CEM 603 Research Methods
EEM 601 Electric Power Systems Analysis

Semester 2 – Core Courses (6 Credits)
EEM 611 High Voltage Transmission
EEM 612 Electrical Machines and Drives Optional Courses (Select 2 out of 5 Courses – 6 Credits)
EEM 610 Electrical Measurements and Control Engineering
EEM 613 Power Systems Economics and Management
EEM 614 Power Distribution Systems
EEM 615 Computer Control Systems
EEM 616 Electric Power System Operations

Semesters 3 and 4 – Core Courses (24 Credits)
EEM 701 Supervised Research and Dissertation

STREAM 2 – ELECTRONIC SYSTEMS ENGINEERING

Semester 1 – Core Courses (12)
MAT 691 Mathematical Methods for Engineers
CEM 603 Research Methods
EEM 615 Computer Control Systems
EEM 602 Digital Systems Design Using PLDs

Semester 2 – Core Courses (6 Credits)
EEM 621 Digital Signal Processing
EEM 622 Digital Communication

Optional Courses (Select 3 out of 5 Courses – 9 Credits)
CSI 602 Computer Software Engineering
EEM 610 Electrical Measurements and Control Engineering
EEM 623 Image Processing
EEM 624 VLSI Circuits Design
EEM 625 Mobile and Wireless Communications
EEM 626 Optical and Broad band Communications

Semesters 3 and 4 – Core Courses (24 Credits)
EEM 701 Supervised Research and Dissertation

DEPARTMENT OF MECHANICAL ENGINEERING

Master of Science Degree in Mechanical Engineering

7.0 Departmental Special Regulations for the MSc Degree Programme in Mechanical Engineering

7.1 Preamble
The Department of Mechanical Engineering offers MSc degree programmes by course work and research thesis (Dissertation). Subject to the General Regulations for Master’s and Doctor of Philosophy Degrees 4.00 and to General Regulations specific for Master’s Degree Programmes 4.10 the following Departmental Special regulations shall apply:

7.2 Entrance Requirements
Applicants for the MSc programme in Mechanical Engineering should have obtained a Bachelor’s degree in Mechanical Engineering or related field, with a GPA of at least 3.0 (on a 5-point scale) from a recognized university or institution of higher learning.

7.3 Programme Structure
1.1.1. The MSc degree programme in Mechanical Engineering shall be a modular based programme offered as coursework and Dissertation. The degree will be offered through full-time or part-time study.
1.1.2. The programme shall consist of course work and Dissertation/thesis extending over 4 semesters of full-time study or 6 semesters of part-time study.
1.1.3. The course work will extend over two semesters and shall consist of three Departmental common courses, one core course and four optional courses. Each stream in the second semester shall consist of four optional courses, where all of them can be chosen from the same stream or two of them from the same stream, and the other two from any of the streams/department/faculty.
1.1.4. The Departmental common courses will be taken in the first semester and the remaining courses will be taken in semesters one and two
1.1.5. The course work structure shall comprise of Departmental common courses, Stream core courses and Optional courses as follows:

Semester 1 (12 credits)
Two Departmental Common Courses (2 x 3 = 6 credits). One Departmental Core Course from other Departments (1 x 3 = 3 credits). One Stream Core Course (1 x 3 = 3 credits).

Semester 2 (12 credits)
Two out of four Stream Courses (2 x 3 = 6 credits). Two Courses from any Stream/department/faculty (2 x 3 = 6 credits).

Semester 3 & 4 (12 + 12 = 24 credits)

The structures of the streams are as follows:

A. STREAM 1 – MANUFACTURING

Semester 1
Three Common Courses plus One Core (2 credits)
MAT 691 Mathematical Methods for Engineers
MEM 602 Information Technology in Engineering
CEM 603 Research Methodologies
MEM 611 Advanced Topics in Manufacturing

Semester 2 (12 credits)
Two out of the Four Stream Courses plus Two Courses from any Stream/department/faculty
MEM 612 Advanced Manufacturing Systems

B. STREAM 2: ENERGY AND PROCESS ENGINEERING

Semester 1 (12 credits)
Three Common Courses plus One Core
MAT 691 Mathematical Methods for Engineers
MEM 602 Information Technology in Engineering
CEM 603 Research Methodologies
MEM 621 Transport Phenomena (core) 3

Semester 2
Two out of Four Stream Courses

C. STREAM 3 – ENGINEERING MANAGEMENT

Semester 1
Three Common Courses plus One Core (12 credits)
MAT 691 Mathematical Methods for Engineers
MEM 602 Information Technology in Engineering
CEM 603 Research Methodologies
MEM 632 Engineering Management Fundamentals (core)

Semester 2
MEM 633 System Dynamics and Modelling
MEM 634 Project Administration Procedures
MEM 635 Operations Research
MAT 675 Statistical Analysis of Reliability

D. STREAM 4 – CONTROL SYSTEMS

Semester 1
Three Common Courses plus One Core (12 credits)
MAT 691 Mathematical Methods for Engineers
MEM 602 Information Technology in Engineering
CEM 603 Research Methodologies
MEM 641 Modeling and Control (core)

Semester 2
Two out of Four Stream Courses

7.4 Assessment
The ratio between formal examination and Continuous assessment shall be 50:50.
DEPARTMENT OF NURSING
Master of Nursing Science (MNSc)

2.0 Special Regulations
Subject to the provisions of the General Regulations 000 and 200, the following Departmental Regulations shall apply:

2.1 Entrance Requirements
Entrance requirements to the Master of Nursing Science Degree Programme are:
a) A Bachelor's Degree in Nursing, with at least a second class; second division or equivalent. Equivalent degrees from other recognized academic institutions will be considered on an individual basis. Candidates with a Pass at the undergraduate level in Nursing Programmes will be considered on an individual basis;
b) A current and active nursing license in Botswana or transferable in Botswana through the Nursing and Midwifery Council for Botswana;
c) A minimum of 2 years appropriate professional practice following the first Degree, which may be acquired concurrently with part-time study. Professional practice for students who have obtained a pass in their undergraduate programmes will be considered on an individual basis.

2.2 Programme Structure
The Master of Nursing Science is a 4-semester Degree Programme consisting of coursework, a Research Essay, a clinical practicum and internship.
The Degree is offered as a full-time and part-time Programme. The normal duration for the Master of Nursing Science Degree Programme shall be as stipulated in Section 40.321 of the Master's Degree Regulations.

2.3 Course Listings
Level 1/Year 1
Semester 1
Core Courses
MNS603 Family Health Nursing
MNS604 Health Assessment
MNS605 Normal Physiology and Pathophysiology
MNS606 Health Promotion Across the Life Span (except Parents and Child)
STA683 Medical Statistics

Semester 2
Core Courses
MNS601 Theoretical Foundations of Nursing
MNS602 Research Methods in Nursing
Specialty Courses (6 credits, core): All students shall select at least 2 courses from the list of courses in their specialty areas:

Adult Health Nursing Speciality
MNS607 Care of the Adult with Acute and Chronic Illness
MNS608 Advanced Concepts in Professional Nursing

Community Health Nursing Speciality
MNS609 Epidemiology
MNS610 Theory and Practice of Community Health Nursing
MNS611 Advanced Community Health Nursing Practice

Psychiatric Mental Health Nursing Speciality
MNS612 Trends in Psychiatric Modalities
MNS608 Advanced Concepts in Professional Nursing

Parent and Child Health Nursing Speciality
MNS613 Human Embryology and Genetics
MNS614 Neonatal Nursing

Family Nurse Practitioner Speciality
MNS615 Pharmaceutical Interventions in Primary Health Care
MNS706 Disaster and Trauma Nursing

Optional Courses (3 credits)
In addition, all students shall select 1 course from the optional course listing below:
MNS731 Health Policy and Health Service Management
MNS732 Trends in Midwifery Practice
MNS733 Health Informatics
EFP743 Gender and Health Education
DVS713 Health and Development
MGT640 Behavior in Organisations
LAW652 Ethics and Law in Health Care
EFH646 Counselling of Persons with Special Needs

Semester 3
MNS707 HIV/AIDS Epidemic and Nursing Management
Sub-Speciality Courses (6 credits, core): In addition, all students shall select 2 courses listed under sub-specialty areas. The 2 courses selected shall be from the same sub-specialty. All sub-specialty courses are core courses.

Adult Health Nursing Sub-Specialty
a) Critical/Emergency/Trauma Nursing
MNS706 Disaster and Trauma Nursing
MNS709 Advanced Skills in Disaster and Trauma Nursing
Or:
b) Gerontological and Geriatric Nursing
MNS610 Epidemiology
MNS710 Theoretical Perspectives in Aging

MNS728 Diagnostic Tests and Family Nurse Practice
MNS729 Advanced Clinical Skills in Family Nurse Practice

Semester 4
MNS 702 Research Essay
Optional Courses
All students shall select courses not already taken from the optional courses listed under Semester 2.
Internship (core)
Internship Courses
MNS734 Internship in Adult Health Nursing
MNS735 Internship in Community Health Nursing
MNS736 Internship in Family Nurse Practitioner
MNS737 Internship in Psychiatric Mental Health Nursing
MNS738 Internship in Parent and Child Nursing

2.7 Assessment
2.7.1 Unless specified otherwise in the course outline, each course shall be assessed by continuous assessment, which may entail tests, assignments, written papers and oral presentations. Continuous assessment shall be based on the following 3 components of work:
a) Two components of theory consisting of a major assignment and a final term assignment;
b) A cumulative practicum report.
2.7.2 Coursework taken in Departments other than Nursing Education shall be examined in accordance with the Regulations of the Departments in which the work was taken.
2.7.3 Theory and Practice shall be weighted on a ratio of 60: 40. The rationale is that at a Master's Level, students' practice should be theory and evidence-based.

Master of Philosophy (MPhil) and Doctor of Philosophy (PhD) in Medical Sciences degree programmes

1.0 AIM AND OBJECTIVES
1.1 Aim
The principal aim of the MPhil/PhD programmes is to develop national and regional research capacity and competencies to enable knowledge generation that would guide national and regional interventions, ensuring that health research is aligned to the national health needs.

1.2 Objectives
The objectives of the programme are to:
• promote scientific enquiry in medical sciences.
• develop medical scientists who can identify a research problem, conduct a critical scientific review of literature, develop an appropriate study design, implement and manage a research project, analyze data, interpret scientific findings and write a scientific report.

• develop researchers capable of communicating scientific findings to scientific communities, stakeholders and the general public through publications in international peer-reviewed journals and in other forums.

• develop leaders in medical laboratory science who can influence policy and practice.

• support training of medical scientists seeking higher degrees.

2.0 CAREER PATHS

There are employment opportunities in academia for MPhil/PhD (Medical Sciences) graduates in the country and beyond. Some of the graduates can join academic programmes at UB and Institute of Health Sciences. Other opportunities are available at research centers in the country including the proposed Botswana Innovation Hub. Furthermore, the Ministry of Health has plans to establish a public health laboratory that will be mandated with detection and surveillance of known and emerging diseases. In order to carry out this mandate, the public health laboratory will require trained researchers in medical sciences. In addition, there are business opportunities for graduates from this programme. Manufacturing of laboratory diagnostic reagents is an attractive enterprise since most of the reagents used in medical laboratories are imported.

3.0 PROGRAMME STRUCTURE

The MPhil and PhD in Medical Sciences are research degrees. However, students may be required to take limited coursework as determined by the Department.

**MPhil in Medical Sciences**

- MLS801 Critical Appraisal and Research Seminars (Core) 6 credits
- MLS802 MPhil Thesis (Core) 24 credits
- Total Credits for MPhil in Medical Sciences = 30

**PhD in Medical Sciences**

- MLS801 Critical Appraisal and Research Seminars (Core) 6 credits
- MLS901 PhD Thesis (Core) 72 credits
- Total Credits for PhD in Medical Sciences = 78

4.0 REGULATIONS

4.1 Admission into the Master of Philosophy (Medical Sciences) Degree Programme

Subject to the provisions of the General Academic Regulations 50.1 and the Faculty of Health Sciences regulations the following Departmental regulations shall apply:

4.1.1 An applicant for the Master of Philosophy (Medical Sciences) degree shall normally hold a first degree in medical laboratory sciences, medicine or pharmacy, from this University or from other recognized university or equivalent institution. This should have been passed with a minimum cumulative GPA of 3.5 on a 5-point scale.

4.1.2 An applicant with a first degree in pure or applied biological science subject or related science field obtained with a minimum cumulative GPA of 3.5 or equivalent plus relevant experience in a clinical laboratory may also be considered.

4.1.3 In addition, a candidate must first discuss the proposed research topic with the designated MPhil Supervisor or Supervision Committee constituted by the Department. The applicant must also submit an acceptable outline of the proposed research (concept paper), with relevant application forms obtained from the University. The applicant is expected to make a presentation of the research concept to the Department before the Department makes a final decision on the application.

4.2 Admission into the Doctor of Philosophy (Medical Sciences) Degree Programme

In addition to General Academic Regulations 50.2, the following Departmental regulations shall apply:

4.2.1 A candidate with appropriate first degree or MSc by coursework shall register for MPhil studies at the first instance. He/she may apply to transfer his/her registration to a PhD programme according to GAR 50.7.1.

4.2.2 A candidate with an appropriate MPhil degree is eligible to apply for direct entry into the PhD programme. Such a candidate may be exempted from coursework, at the discretion of the Department.

4.2.3 The applicant with MPhil qualification must also submit an acceptable outline of research to be conducted, with application forms. Such an applicant is expected to make a presentation of the research concept to the Department before the Department makes a final decision on the application.

4.3 Registration

This shall be in accordance with General Academic Regulations 50.3.

4.4 Transfer from another University

This shall be in accordance with General Academic Regulations 50.4.

4.5 Duration of the Programme

This shall be in accordance with General Academic Regulations 50.5.

4.6 Programme of Study

This shall be as provided for in General Academic Regulations 50.6.

4.7 Transfer of Registration

The procedure for transferring registration from MPhil to PhD and from PhD to MPhil is governed by General Academic Regulations 50.7.

4.8 Progression

A student’s performance shall be reviewed every Semester by the Department. The review shall consist of:

- A written progress report by the student.
- A written commentary by the Supervisor on the student’s progress. The Supervisor may be required to submit a supportive or corrective action plan being pursued to ensure that the student completes studies within the given time.

4.9 Thesis

This shall be in accordance with General Academic Regulations 50.8. However, candidates are strongly recommended to publish their work in peer-reviewed journals before submission of the thesis in accordance to GAR 50.8.2.5.

4.10 Examination

In addition to GAR 50.9, the following Departmental Regulations shall apply:

- In the event the candidate to be examined holds an appointment in or has left the employ of the Department in the last three years, the Internal Examiner for his/her thesis, shall be appointed from another Department in the Faculty or other Faculties.

4.11 Notification of Results and Award of Degree

In accordance with General Academic Regulations 50.10.
FACULTY OF HUMANITIES

Department of African Language and Literature 57
Department of English 57
Department of History 58
Department of Library and Information Studies 59
Department of Theology and Religious Studies 61
DEPARTMENT OF AFRICAN LANGUAGES & LITERATURE

Master of Arts Programme in African Languages and Literature

The Department of African Languages and Literature offers a two-year Master of Arts Programme by coursework and Dissertation. Subject to the provisions of General Regulation 400 governing such programmes, the following Departmental Regulations shall apply:

2.0 Entrance Requirements

2.0.1 The normal minimum entrance requirement for admission to the Master of Arts Programme in the Department of African Languages and Literature shall be either a Bachelor of Arts Degree programme from the University of Botswana or other recognised institutions, with at least a second class, second division or equivalent (3.0 GPA on a 5-point scale) in the subject of African Languages and Literature.

2.0.2 The Department may admit candidates with other qualifications, which, in the view of Senate, are deemed to be acceptable from their academic or professional relevance.

2.1 Programme Structure

2.1.1 In the Full Time offering of the Programme, students are required to complete two semesters of coursework and two semesters of Dissertation.

2.1.2 In the Part Time offering of the Programme, students are required to complete four semesters of coursework and four semesters of Dissertation.

2.2 Mode of Coursework Offering

The coursework will be offered in three streams: The students will be free to choose the stream they wish to follow.

2.2.1 Stream A consists of courses from both African Languages and Literature. The Programme comprises as follows:

a) Six core courses from Language and Literature, including a course in research methods;

b) Four optional courses from the Language and Literature;

c) Two compulsory non-credit courses aimed at providing special skills.

2.2.2 Stream B consists of African Languages and Linguistics courses. The Programme comprises the following:

a) Four core Linguistics courses, including a course in research methods;

b) Four optional courses from the Language options, one of which may be taken as an elective from other departments;

c) Two compulsory non-credit courses aimed at providing special skills.

2.2.3 Stream C consists of African Oral and Written Literature courses. The Programme is comprised as follows:

a) Four core Literature courses, including a course in research methods;

b) Four optional courses from the Literature options, one of which may be taken as an elective from other departments;

c) Two compulsory non-credit courses aimed to provide special skills.

2.3 Requirement for Completion of Coursework

2.3.1 A student will usually be required to complete and pass 8 courses, obtaining a total of 24 credits.

2.3.2 Upon completion of coursework, a student will be expected to do Dissertation ALL701, which will normally be undertaken in two semesters (Full Time) and four Semesters (Part Time). The Dissertation will be 24 credits.

2.4 Coursework and Research Essay Option

2.4.1 In the Coursework and Research Essay option, candidates may do additional coursework in three semesters consisting of:

a) Nine core courses including a course in Research Methods;

b) Three optional courses from Language and Literature, one of which may be taken as an elective from other departments;

c) Two compulsory non-credit courses aimed at providing special skills.

2.4.2 The Research Essay ALL 702 will normally be written in one semester and will be equivalent to four courses or 12 credits.

2.5 Assessment and Examination

2.5.1 To proceed from Part One to Part Two of the Master of Arts Programme in African Languages and Literature, the candidate shall normally be expected to complete the coursework and pass all the courses in Part One.

2.5.2 Assessment shall normally be by continuous assessment. Where examinations are required, the weighting shall be as follows:

a) Sixty per cent (60%) continuous assessment;

b) Forty per cent (40%) end-of-semester examination.

2.6 Progression from Semester to Semester

2.6.1 The progression requirements shall follow General Regulation 40.6.

2.7 Listing of Courses

STREAM A

SEMINAR I
Core Courses
ALL611 Phonetics and Language Transcription (3 credits)
ALL612 Grammatical Theory and Analysis (3 credits)
ALL613 African Literature and Literary Theory I (3 credits)
ALL614 Poetics of Orality and Inter-textuality in Africa (3 credits)
ALL665 Oral Traditions of the Khoesan and Cultures in Botswana (3 credits)

Optional Courses
ALL631 The Major Writers of Southern Africa (3 credits)
ALL632 Advanced Creative Writing I (3 credits)
ALL633 African Theatre and Drama (3 credits)

The English Department offers a graduate programme leading to the award of MA in English in one of the following areas of specialisation:
- English Language and Linguistics
- African Literature and Literature of Africans in the Diaspora
- Theatre Studies

Departmental Regulations for the MA in English

5.1.4 Entrance Requirements
Applicants must have the following minimum requirements to be considered:
- A major in English in a Single or Combined-major Bachelor degree programme, from this university of another recognized institution or
- A degree classification of 2(i) with at least 60% in the subject English or
- Other qualifications that in the view of Senate are deemed equivalent to those in Graduate School Regulations. The Department shall interview candidates whom it deems worthy of admission but who do not satisfy the requirements of the Regulations.

5.1.5 Degree structure
Full-time: Four semesters of full-time study consists of:

Part I: Two semesters of full-time study during which the candidate shall undertake course work as prescribed for his/her programme, including the course on Research Methods which shall be a compulsory course taken at the beginning of the second semester of study.

Part II: Two semesters of full-time study during which the candidate shall undertake supervised research and prepare a Dissertation of not less than 20,000 words.

Part-time: Six to eight semesters, consisting of:

Part I. Four semesters of part-time study during which the candidate shall undertake course work as prescribed for his/her programme, including the course on Research Methods which shall be a compulsory (one semester) course.

Part II. Up to four semesters of part-time study during which the candidate shall undertake supervised research and prepare a Dissertation of not less than 20,000 words.

5.1.6 Specialisations & their required course work for Part I:

Specialisation 1: English Language and Linguistics: Semester 1 - Candidates must take 12 credits comprising the two core courses plus two optional courses.
- ENG 601 Core: Grammatical Theory
- ENG 611 Core: Advanced Phonology of English

Optional courses
- ENG 621 Issues in Psycholinguistics
- ENG 631 Advanced Pragmatics
- ENG 641 Applied Linguistics and Language Teaching
- ENG 651 Lexicographic and Translation Theory
- ENG 661 Stylistics
- ENG 671 English for Specific Purposes

Semester 2 - Candidates must take 15 credits comprising the three core courses plus two optional courses.
- ENG 600 Core: Research Methods
- ENG 701 Core: Modern English Structure and Usage
- ENG 711 Core: Advanced morphlogy in English

Optional courses
- ENG 721 Topics in Sociolinguistics
- ENG 731 Advanced Discourse Analysis
- ENG 751 Methodology in Lexicography

ENG 761 Literary Stylistics

Semester 3
- ENG 771 Supervised Research and Dissertation in English Language and Linguistics

Specialisation 2: English Literature
Semester 1 - Candidates must take 12 credits comprising the one core course plus three optional courses.
- ENG 602 Core: A Period in English Literature: The Modern Age

Optional courses
- ENG 622 Tradition and Continuity in English Poetry
- ENG 642 The English Novel from Defoe to Joyce
- ENG 652 Readings in World Literature
- ENG 682 19th Century Novel in America

Semester 2 - Candidates must take 15 credits comprising the three core courses plus two optional courses.
- ENG 600 Core: Research Methods
- ENG 612 Core: 20th Century Literature Theory and Criticism

Optional courses
- ENG 632 Early 17th Century English Poetry: 1603-1660
- ENG 662 Special Author in English Literature
- ENG 672 Language in Literature in English Literature
- ENG 692 20th Century Novel in America
- ENG 702 The Modern British Novel

Semester 3
- ENG 772 Supervised Research and Dissertation in English Literature

Semester 4
- ENG 772 Supervised Research and Dissertation in English Literature

Specialisation 3: African Literature and Literature of Africans in the Diaspora
Semester 1 - Candidates must take 12 credits comprising the one core course plus three optional courses.
- ENG 603 Core: Modern African Literature: A Historical Perspective

Optional courses
- ENG 623 Oral Literature
- ENG 633 Caribbean Literature
- ENG 643 African Poetry
- ENG 663 Special Author in African Literature I

Semester 2 - Candidates must take 15 credits comprising the three core courses plus two optional courses.
- ENG 600 Core: Research Methods
- ENG 613 Core: The Criticism of African Literature

Optional Courses
- ENG 653 African American Literature
- ENG 673 Language and Literature of Africans in the Diaspora
- ENG 683 The African Novel: A Regional and In-Depth Approach
- ENG 693 Special Author in African Literature II
- ENG 715 The Contexts of Modern African Literature (to be offered online)

Semester 3
- ENG 773 Supervised Research and Dissertation in African Literature and Literature of Africans in the Diaspora

Semester 4
- ENG 773 Supervised Research and Dissertation in African Literature and Literature of Africans in the Diaspora

Specialisation 4: Theatre Studies
Semester 1 - Candidates must take 12 credits comprising the two core courses plus two optional courses.
- ENG 604 Core: Topics in Theatre History

Optional courses
- ENG 644 Acting II
- ENG 664 Directing II
- ENG 684 Technical Theatre II
- ENG 704 Theatre Management

Semester 3
- ENG 774 Supervised Research and Dissertation in Theatre and Theatre Studies

Semester 4
- ENG 774 Supervised Research and Dissertation in Theatre and Theatre Studies

5.1.7 Assessment
To proceed from Part I to Part II of the programme, the candidate must complete the coursework and pass all the eight courses in Part I. In addition, the candidate must present a Dissertation proposal which should be approved by the Department. Assessment of each course in all programmes shall consist of: 50% continuous assessment and 50% final examination, except for:
- a. Research Methodology courses in which a 5,000-word research paper shall be required in place of the final examination. The research paper shall form the basis of the Dissertation proposal to be presented to the Department as stipulated above; and
- b. Practical Drama in which continuous assessment shall be 70%, made up of 40% Portfolio and 30% Practical; the final examination shall be 30%.

A student who has failed not more than 4 courses will be required to retake the failed courses in subsequent semesters, according to the General Regulations.

MPhil and PhD Degrees in English

Admission Requirements
Admission to the MPhil programme shall be in accordance with Regulation 50.1.

Candidates must have obtained a single major or
honours degree in English with an overall A or B average from a recognized university or equivalent institution of higher education. Candidates who have obtained a First or Upper Second Class in a combined major degree may be considered provided that they have achieved at least a B average in the subject English. Candidates who have obtained degrees in English but do not meet the requirements above may be admitted to the programme provided they undergo a departmental assessment to determine their eligibility to undertake the MPhil programme in English.

Admission into the PhD programme. To register for the PhD degree a candidate must have obtained an MA or MPhil degree in English from a recognized university. Candidates already registered for the MPhil programme may transfer to the PhD in accordance with the provisions of General Regulation 50.7.1.1

Duration of the Programme
The programme of study shall be as stipulated in General Regulation 50.5.

The programmes. The MPhil and PhD programmes shall consist of two courses in any of the Department's four areas of graduate specialization: English Language and Linguistics, English Literature, African Literature and the Literature of Africans in the Diaspora, and Theatre Studies. The courses are:

- ENG 800 Supervised Research and Thesis in English
- ENG 900 Supervised research and Thesis in English (PhD)

DEPARTMENT OF HISTORY

Master of Arts Programme in History

Entry Requirements
MA Degrees & Postgraduate Diplomas
- Applicants should normally have either (a) a Bachelor's degree of the University of Botswana or at least second class, second division, with an average of at least 65% in History or Archaeology courses, or (b) a Bachelor's degree or equivalent qualification, which in the opinion of the History Department is of the same standard, from a recognized university or equivalent institution of higher learning.

Applicants who do not meet the above requirements may be considered for admission after the Department has satisfied itself that the candidate has the capability to complete the programme successfully. In all cases, the questions of whether an applicant is qualified, and of which applicants shall be given preference if there are more qualified applicants than can be admitted, shall be determined by the History Department on the basis of its judgment of the candidate's academic abilities. In making this determination the Department may take into account the applicant's academic record, the applicant's work experience, and any other information provided by the applicant; and may interview the applicant and require the applicant to undergo further assessment at the Department's discretion.

MPhil and PhD Degrees in History

MPhil Programme
The following candidates are eligible for admission:

- Applicants with at least a one-year graduate qualification from a recognized university of higher learning in any subject which is deemed relevant to a proposed research, Dissertation may be admitted subject to the discretion of the Department of History Board.

PhD Programme
The following candidates are eligible for admission:

- Applicants already registered for the MPhil Programme shall be permitted to transfer to the PhD Programme in accordance with the provisions of General Regulations 50.2;
- Applicants with an MPhil or equivalent degree in History from a recognized university or institution of higher learning;
- Applicants with an MPhil or equivalent degree from a recognized university or equivalent institution of higher learning in any subject which is deemed relevant to the proposed research topic by the Department of History, in accordance with the provisions of General Regulation 50.3.2, applicants who do not satisfy the above qualifications shall initially register for the MPhil Programme

Programme Structure
The courses are:

- HIS 800 Supervised Research and Thesis in History (MPhil)
- HIS 900 Supervised Research and Thesis in History (PhD)

Duration
MA:
- Full-time: 2 years (i.e. 2 semesters of coursework and 2 semesters of Dissertation or 3 semesters of coursework and 1 semester of Research Essay),
- Part-time: 3 years (i.e. 4 semesters of coursework and 2 semesters of Dissertation or Research Essay).

PhD:
- 2 years (full-time minimum)
- 3 years (full-time minimum)

Course Structure
MA Degree in History.

Dissertation courses (core)
- HIS 662 Research Proposal for Dissertation

Other optional courses
With the approval of the History Department Board, candidates may take courses offered by other Departments which shall be counted as substituting for optional History courses. Appropriate courses from the Master's level programmes of the following departments will normally be approved: African Languages and Literature, Theology and Religious Studies, Sociology (Development Studies), Political and Administrative Studies, and Environmental Science. Courses from other departments may be approved especially in the case of courses relevant to particular research projects posed by candidates.

DEPARTMENT OF LIBRARY AND INFORMATION STUDIES

Degrees offered: Master's, MPhil and PhD in Library and Information Studies; Master's in Archives and Records Management

Special Regulations for the Master's in Library and Information Studies

Subject to the provisions of the Regulations, the following Departmental Regulations shall apply:

Entrance Requirements
The entrance requirements for the Master's Degree in Library and Information Studies are as follows:

- The normal minimum qualifications for entry into the MLIS shall be a first Degree in any subject obtained from this University or equivalent institutions with at least a minimum second class lower division or equivalent. Holders of degrees other than Library and Information Studies will also be considered.
- Applicants who have obtained a pass Degree at the undergraduate level and who have obtained a minimum of credit in the Postgraduate Diploma in Library and Information Studies (PGDUS) or its equivalent from this University or any recognized university may be admitted directly to Year Two of the MLIS Pro-graamme.

Programme Structure
The MLIS Programme extends over four semesters of full-time study and six semesters of part-time study.
in the single subject Library and Information Studies, leading to the award of a Master's in Library and Information Studies Degree. The MLIS Programme shall be by coursework and Dissertation, with the normal duration as described in General Regulation 40.321. The Programme shall consist of a minimum of 57 credits.

The first year will consist mainly of coursework and developing a research proposal. The coursework consists of core courses in Library and Information Studies, Information Science and courses specifically devoted to the theory and practice of Archives and Records Management, as well as optional courses. It is also possible to select other electives offered at the Master's level. However, such courses can only be chosen with the approval of the Head of the Department.

A two-month practical attachment will be undertaken after the first year, during the long vacation, leading to the development of a professional report under the auspices of LIS729.

In the second year, students will carry out their research and write a Dissertation. The Dissertation shall be completed in accordance with the provisions of General Regulation 40.74. Part-time MLIS students shall complete the MLIS in 6 semesters. A student shall be expected to take a minimum of 6 credits per semester.

Semester 1
Core Courses
LIS 600 Computers and Data Communications
LIS620 Foundations of the Information Profession
LIS 621 Theory and Practice of Cataloguing and Classification
REC 601 Theory and Practice of Records Management

Optional Courses
LIS 630 Technical Writing, Editing and Newsletter/ Magazine Production
LIS 634 Knowledge Management for the Information Professional
LIS 635 Business Information Systems
LIS 602 Database Systems
LIS 607 Web Design and Multimedia
LIS 628 Information Entrepreneurship Skills
REC 603 Advanced Course in Preservation and Conservation
REC 605 Legal Aspects of Information

Semester 2
Core Courses of Graduate Studies
LIS 622 Information Storage and Retrieval
LIS 623 Information Needs, Sources and Services
LIS 624 General Management in Information Services
LIS 627 Research Methods And Proposals
REC 602 Theory and Practice of Archives Management

Optional Courses
LIS 605 Concepts of Geographic Information Systems
LIS 626 Information Networks and Networking (Pre-requisite LIS600)
LIS 632 Special Topics in Library and Information Science and Archives and Records Management
LIS 636 Cataloguing Electronic Resources (Pre-requisite LIS600)
REC 604 Electronic Records Management

Semester 3
Core Courses
LIS 729 Practical Placement

LIS 700 Dissertation (12, prerequisite LIS 627)

Semester 4
LIS 700 Dissertation (12, prerequisite LIS 627)

Dissertation Supervision
Supervision shall be as prescribed in General Regulation 41.9.

Assessment and Examinations
Evaluation of students' performance in the MLIS Programme shall be based on continuous assessment and a formal examination at the end of each semester. The weighting between continuous assessment and formal examination shall be 1:1 except LIS729: Practical Attachment, which will be assessed by continuous assessment only. All examinations will be three hours' duration unless stated otherwise. The overall grade will be computed as per General Regulation 40.532 and the GPA shall be computed in accordance with General Academic Regulation 00.86. The Dissertation will be examined by an internal examiner and an external examiner, both nominated by the Department.

Award of Degree
To be awarded the Master's in Library and Information Studies Degree, a student must be credited with at least 57 credits, including all core courses: 27 credits in the first year, 6 credits in the winter vacation, and 24 credits in the second year. Regulation 00.85 shall apply.

Master in Archives And Records Management (MARM)

Special Regulations
Subject to the provisions of the academic General Regulations and Faculty of Humanities, the following Departmental Regulations shall apply:

Entrance Qualifications
• The minimum entry qualification shall be a Bachelor's degree in any subject obtained from this or any other recognized university or equivalent institution with at least a minimum of a second-class lower division or equivalent or a minimum of 3.0 GPA.
• Holders of a pass degree at undergraduate level in any subject with two years relevant work experience are eligible for admission into the MARM programme.

Program Structure
The programme shall extend over four semesters leading to the award of a Master's in Archives and Records Management. The programme shall extend over 6 semesters for part-time MARM students.

The program shall be by coursework and Dissertation, with the normal duration as described in General Regulation 40.321. The curriculum shall consist of credit units, that is, the number of course hours per week. The program shall consist of a minimum of 54 credits. The first year consists mainly of course work, developing research proposal and a practical attachment. In the second year students will carry out their research and write a Dissertation. The coursework consists of core courses (common to Library and Information work coded LIS) and courses specifically devoted to the theory and practice of archives and records management coded REC. Optional courses can be selected from other departments and faculties at the Master's level. However, such courses can only be chosen with the approval of the Head of the Department of Library and Information Studies.

A practical attachment will be undertaken after the first year, during the long-vacation, for a period of two (2) months leading to the development of a professional report under the auspices of REC 611.

In the second year students will carry out their research and write a Dissertation. The Dissertation shall be completed in accordance to the provisions of General Regulation 41.9.

Part-time MARM students shall complete the MARM in 6 semesters. A student shall be expected to take a minimum of 6 credits per semester.

Semester 1
Core
REC 601 Theory and Practice of Records Management
REC 603 Advanced Course in Conservation and Preservation
REC 606 Computer Applications for Archives and Records Management

Optional
REC 603 Advanced course in preservation & conservation
REC 605 Legal aspects of information
LIS 620 Foundation of the Information Profession
LIS 621 Theory & Practice of Cataloguing and Classification
LIS 630 Technical writing, editing and Newsletter Magazine production
LIS 634 Knowledge management for the information Professional
LIS 635 Business information systems
LIS 602 Database systems
LIS 607 Web design and multimedia
LIS 628 Information entrepreneurship skills

Semester 2
Core
REC 602 Theory & Practice of Archives management
REC 604 Electronic Records Management
LIS 627 Research Methods and Proposals

Optional
REC 607 Managing Audio-visual Archives
REC 608 Business Records Management
REC 609 Archival Public Services, systems and the Profession
REC 610 Management of specialized Records
LIS 624 General Management in Information Services
LIS 626 Information networks and networking (Pre: LIS 600)
LIS 632 Special topics in information science & archives and records management
LIS 636 Cataloguing Electronic Resources (Pre: LIS621)

Winter vacation (core)
REC 611 Practical Placement

Semester 3
Core
REC 700 Dissertation (Pr LIS627)

Semester 4
REC 700 Dissertation (Pr LIS627)

Assessment and Examinations
Evaluation of students' performance in the program shall be based on continuous assessment and a project or a formal examination at the end of each semester. The weighting between continuous assessment and formal examination shall be 1:1. Continuous Assessment in year one shall comprise at least two assignments, practical exercises or tests in each course. Formal examination shall comprise one paper of three hours duration in each course. The overall course grade will be based on continuous assessment and a formal examination at the end of each semester. The weighting between continuous assessment and formal examination shall be 1:1 except LIS729: Practical Attachment, which will be assessed by continuous assessment only. All examinations will be three hours' duration unless stated otherwise. The overall grade will be computed as per General Regulation 40.532 and the GPA shall be computed in accordance with General Academic Regulation 00.86. The Dissertation will be examined by an internal examiner and an external examiner, both nominated by the Department.

Award of Degree
To be awarded the Master's in Library and Information Studies Degree, a student must be credited with at least 57 credits, including all core courses: 27 credits in the first year, 6 credits in the winter vacation, and 24 credits in the second year. Regulation 00.85 shall apply.
be computed as General Regulation 40.532 and the GPA shall be computed in accordance with Academic General Regulation 00.86. The Dissertation will be examined by an internal and an external examiner, both of whom shall be nominated by the department.

**Dissertation Supervision**
Supervision shall be as prescribed in General Regulation 40.50.

**Award of the Master of Archives and Records Management (MARM)**
A student to be awarded the Master of Archives and Records Management degree must: be credited with 57 credits including all core courses distributed in the following manner: 12 credits in the first semester, 15 credits in the second semester of the first year and 6 credits of practical attachment carried out in the long vacation, and 24 credits in the second year. Regulation 41.6.2 shall apply.

**MPhil and PhD Degrees in Library and Information Studies**

**Doctor of Philosophy - Library and Information Studies**

**Preamble**
Subject to the provisions of the Academic General Regulations 50.2 and Faculty of Humanities, the following Departmental Regulations shall apply. The degree is carried out through supervised research, but with required coursework that is deemed necessary by the Departmental Board.

**Entrance Requirements**
The normal minimum qualifications for entry into the PhD shall be:

- An appropriate Master's (MSc, MA, MEd, MPhil or equivalent)
- Applications shall initially have a provisional registration into the PhD, and subsequently transfer registration to the PhD degree after satisfying the requirements for such a transfer of registration.

**Duration of Programme**
The normal duration of the degree shall be as follows:

- A minimum of 8 semesters and a maximum of 16 semesters on a full-time basis.
- A minimum of 8 semesters and a maximum of 16 semesters on a part-time basis.
- Under no circumstances can the duration of study be greater than 16 semesters.

Further information on program structure are found in the Academic General Regulations 50.4- 50.5.

**Programme Structure**
The courses are:
LIS 801 Seminar Paper
LIS 802 MPhil Proposal Defense
LIS 800 Supervised Research and Thesis in Library and Information Studies (MPhil)
LIS 900 Supervised Research and Thesis in Library and Information Studies (PhD)

**DEPARTMENT OF THEOLOGY & RELIGIOUS STUDIES**

**Master of Arts Degree in Theology and Religious Studies**

**Entry Requirements**

The normal entry requirement shall be as stipulated in the School of Graduate Studies General Regulation 41.0 and 50.0 and Departmental Regulations 4.0 to 4.4.

**Programme Structure**
The programme structure will be as prescribed underGeneral Regulations 40.61 and Departmental Regulations 5.2 to 5.6, 7.1 to 7.4.

**Semester 1**
Core course:
TRS 600 Research Methods

Optional courses:

a. Christian Theology:
TRS 601 Systematic Theology: Methodological Reflections
TRS 602 The Reformation and Counter-Reformation in Theological Perspective
TRS 603 Liberation Theologies in Developing Countries

b. Religion and Philosophy:
TRS 620 African Divinities and Cosmologies
TRS 621 Hinduism: Its Essence and Development
TRS 622 Buddhism: Its Social History and Thought
TRS 623 Inter-Testamentary and Rabbinic Judaism
TRS 624 A Critical Study of Islamic Sources
TRS 625 History of Christianity in Africa
TRS 626 Ethics and Religion
TRS 627 Philosophical Reflections on God
TRS 628 Religion and Society
TRS 629 Debates in African Philosophy

**Semester 2**
Core course:
LIS 627 Research Methods And Proposals

Optional courses:

a. Christian Theology:
TRS 611 Modern and Contemporary Theologies
TRS 612 Major Themes in Reformation Theology
TRS 613 Theologies of Gender and Identity
TRS 614 Advanced Old Testament Hermeneutics
TRS 615 Hebrew Grammar and Translation
TRS 616 Advanced New Testament Hermeneutics
TRS 617 Greek Grammar and Translation
TRS 618 Theologies of African Independent Churches
TRS 619 Moral Theologies and Pluralism

b. Religion and Philosophy:
TRS 630 African Traditional Religions in Contemporary Society
TRS 631 Hinduism in Modern Society
TRS 632 Buddhism in Modern World
TRS 633 Judaism and Modernity
TRS 634 Modern Muslim Society
TRS 635 History of Christianity in Botswana
TRS 636 Professional Ethics
TRS 637 Critical Philosophical Themes on Religion
TRS 638 Religion and Modernity
TRS 639 Rational Psychology

**Semester 3**
TRS 700 Dissertation

**Assessment**
Assessment shall be as per General Regulation 00.8 and Departmental Regulations 10.0.

**MPhil/PhD in Theology and Religious Studies**

**INTRODUCTION**
The Department of Theology and Religious Studies (TRS) is one of seven departments that constitute the Faculty of Humanities. It plays a crucial role as one of the key stakeholders within the University structures. At the undergraduate level, the TRS Department offers a Bachelor of Arts program. The TRS Department also offers a Master of Arts in Theology and Religious Studies on a full-time and part-time basis. The MA program was introduced during the 1980s. Since then a number of people have graduated.

**Aims and Objectives**
The TRS Department’s mission statement, which falls in line with the university’s mission, is "to advance the intellectual and human resource capability of the nation and the international community". One of the goals of the University’s Strategic Plan, "A Strategy for Excellence", is to provide relevant and high quality academic programs with inspired academic confidence and leadership in the tertiary education sector. It intends to deliver excellence in all it does thereby acquiring a growing national, regional and international reputation. This, in turn, will position the University of Botswana as a leading university in Africa. For this mission to be actualized, the TRS Department has identified a number of Aims and Objectives. These are:

- To stimulate research in the area of Theology, Religious studies and Philosophy by explaining how these dimensions affect the day-to-day life of the individual and the nation as a whole.
- To contribute to the enhancement of undergraduate programs by absorbing into these programs relevant findings from postgraduate research.
- To provide an opportunity for Botswana citizens and others from SADC and beyond to obtain the highest level of professional qualification in Theology, Religious Studies and Philosophy.
- To assist in the training of individuals in public service, the private sector, and religious institutions in order to develop the country’s human resources.
- To enable students to acquire a better understanding of humanity in its totality via the process of thinking critically and creatively.
- To collaborate with other UB Departments and Faculties by mounting interdisciplinary programs to enhance and enrich the MPhil and PhD that will grant potential candidates better job opportunities.
- To cooperate with other university agencies such as the Centre for Continuing Education in upgrading the knowledge and skills of teachers, ministers of religion, and other public servants who may wish to acquire theological and philosophical training on part-time basis, or via distance learning, or who may wish to register for tailor-made study programs in different centers around the country.
- To strengthen the present MA program in Theology and Religious Studies by sharing the resources and information with the MPhil/PhD program.
- To produce quality graduates who are equipped to critically interact with society in one of the four areas of specialization, namely Theology, Biblical
Needs Assessment:
The TRS Department has been approached by numerous individuals from within the University of Botswana structures as well as from the region regarding its Doctoral studies programme (letters attached). The Department expects some of its own MA graduates and those currently registered to consider joining the MPhil/PhD programme. During the university-wide review of semestered postgraduate programmes the external assessors for TRS recommended as follows: "The introduction of a PhD programme in TRS must receive urgent attention. The Department needs to be proactive to draw outstanding postgraduates for the PhD programme. PhD students can provide the capacity for the department to appoint research and teaching assistants that will nurture a research environment in the department". Again the TRS Advisory Board (27/3/9) and the Humanities Faculty Executive (28/4/9) strongly supported the idea of introducing the MPhil/PhD programme noting that it will enhance capacity building not only of people working in church related organizations but also in other sectors of the Botswana economy. The Department has a cadre of scholars with a wide range of expertise and specialization. Potential MPhil/PhD students may therefore wish to enter programs that cover areas such as African Religious Traditions, African Philosophy, Cultural Studies, Gender/Feminist and postcolonial Approaches to Biblical Studies, Pentecostalism, Ecumenism, Ethics, Religion/Theology and HIV/AIDS, Philosophies of African Religions, Religion and Society in SADC and Religion and International Relations. These areas have not been adequately dealt with by similar departments with which it competes in the region. The Department anticipates that it, on average, attract three students annually and contribute to the development of Botswana’s human resources.

Submission of Applications for Admission
The procedure for submitting applications for admissions to the MPhil and PhD degree programmes shall be as stipulated in the University General Regulations 50.1 and 50.2.

Registration
The procedure for registration for the MPhil/PhD degree programmes shall be as prescribed in General Regulation 50.3.

Programme
The programme of study shall be as specified in the University General Regulation 50.6.

Transfer of Registration
Transfers of registration from MPhil to PhD and from PhD to MPhil shall be permitted in accordance with University General Regulation 50.7.

Thesis
Theses shall be submitted in accordance with the provisions of University General Regulation 50.8.

Examinations
Examinations shall be conducted in accordance with the provisions of University General Regulation 50.9.

Notification of Results and award of Degree
The notification of results and award of degree shall be in accordance with University General Regulation 50.10 (UB Calendar 2006-2007).

Departmental Regulations for MPhil/PhD Degrees in Theology & Religious Studies

Preamble
The Department of Theology & Religious Studies offers MPhil and PhD degrees by supervised research only in accordance with UB General Regulation 50.0.

Admission Requirements for MPhil Programme
Admission into the MPhil (Theology, Religious Studies and Philosophy) programme shall be in accordance with Regulation 50.1 of the University General Regulations for Master’s and MPhil.

a. Candidates must have obtained a Single Major or Honours degree in Theology and Religious Studies with a First or Upper Second Class (overall A or B average; GPA of 3.5 on a 5 point scale) from a recognized University or equivalent Institution of Higher Education or a Master’s degree in order to do MPhil in TRS.

b. Candidates must have obtained a Single Major or Honours degree in Philosophy with a First or Upper Second Class (overall A or B average; GPA of 3.5 on a 5 point scale) from a recognized University or equivalent Institution of Higher Education in order to do MPhil in Philosophy.

c. Candidates who have obtained an appropriate combined major degree with a First or Upper Second Class (overall A or B average) may be considered, provided that have achieved at least an Upper Second Class performance (B average) in the subject Theology, Religious Studies and Philosophy.

d. Candidates who have obtained degrees in Theology, Religious Studies and Philosophy, but who do not meet the requirements above may be admitted to the programme, provided they undergo a departmental assessment to determine their eligibility to undertake the MPhil programme in Theology, Religious Studies and Philosophy. On the basis of this evaluation, the departmental board shall make recommendation to the School of Graduate Studies as to whether the candidate is admissible to the programme.

PhD Programme
Admission into the PhD (Theology, Religious Studies and Philosophy) programme shall be in accordance with University Regulation 50.2 of the General Regulations for Master’s and Doctor of Philosophy Degrees. Students must have a first degree honours in TRS or equivalent (as stated in the University statutes) who apply for PhD, will be required to do one year of MPhil before they qualify for PhD. The following regulations shall also apply:

(i) To register for the PhD degree (Theology and Religious Studies) a candidate must have obtained an MA, MTh or MPhil degree or equivalent in Theology and Religious Studies from a recognized university.

(ii) To register for the PhD degree (Philosophy) a candidate must have obtained an MA or MPhil degree or equivalent in Philosophy from a recognized university.

(iii) Candidates already registered for the MPhil programme may transfer to the PhD in accordance with the provisions of University General Regulation 50.7.1.1.

Background
The new Faculty of Medicine (FOM) at the University of Botswana (UB) offers both undergraduate (MBBS) and postgraduate degrees (MMed). The following 4 year long postgraduate training programmes (start in January) are available:
- Anaesthesia & Critical Care (Princess Marina and South African academic hospitals)
- Emergency Medicine (Princess Marina and University of Cape Town academic hospitals)
- Family Medicine (Mahalapye District Hospital, Letsholathebe II Memorial Hospital, Maun)
- Internal Medicine (Princess Marina and University of Cape Town and Stellenbosch Univ academic hospitals)
- Paediatrics and Adolescent Health (Princess Marina and Univ of Witwatersrand academic hospitals)
- Public Health Medicine (based in Gaborone with district rotations)
- Pathology (Anatomical and Clinical) UB, National Health Lab and South African academic hospitals

Requirements
All applicants should have completed medical training at a recognized school of medicine and have been in active clinical practice for at least two years – one or more of which must have been in an approved internship programme. Whilst preference will be given to Botswana citizens, non-citizens with proof of sponsorship will be considered as well. It’s the responsibility of the applicant to ensure they fulfill criteria for sponsorship by their prospective sponsor before applying.

Application Procedures
Completed applications must include: a. An up-to-date curriculum vitae listing education, work experience and relevant personal information. b. A statement of approximately 500 words indicating why the applicant is seeking postgraduate training in the particular specialty. c. Certified copies of qualifications and degrees as well as official transcripts from the applicant’s medical school. d. Three letters of reference from professional contacts. e. Completed School of Graduate Studies application form.

Regulations
The Master of Medicine is offered as a medical postgraduate programme involving clinical rotations, course work and dissertation. Trainees will be working full time in health establishments and undertaking training as an integral part of their clinical workload.

1.0 Special Regulations
Subject to the provisions of the General Regulations 00, 40 and 41, the following Faculty of Medicine (FOM) regulations shall apply.

2.0 Degree Programme
All who successfully complete these programmes will be awarded an MMed degree from the University of Botswana and will qualify for specialty registration with the Botswana Health Professions Council.

3.0 Entrance and Residential Requirements

3.1 Applicants must hold a first degree in Medicine or equivalent from recognized University and must have completed at least two years of clinical practice the applicant must include at least 12 months in a recognized supervised internship programme.

3.2 Completed applications shall be received by the deadline set by the SOM immediately preceding the commencement of the academic year for which the application is made.

3.3 Applicants meeting basic entry requirements will be invited for an interview. Selection will be based on the candidate’s competitiveness including the interview outcome. The overall assessment will be 30% for academic qualifications, 30% for relevant experience including supportive references and 40% for the interview.

3.4 The graduate student will commence her/his M. Med Programme on the date specified in the offer letter.

3.5 The applicants will be required to start as a class on pre-set dates. An applicant unable to take up her/his admission may however request her/his application to be deferred for the interview.

3.6 A student may withdraw from studies by requesting permission to withdraw from the Department and the SGS. When such a request is approved by the Department and the SGS the student’s registration may be suspended for up to 24 months (4 semesters).

4.0 Programme Structure

4.1 The specialised M. Med. Areas share a common format.

4.2 Each requires four years of full time study which is consistent with SADC and other international standards. Candidates will complete eight levels of Level 600 and 700 courses.

4.3 A dissertation is required.

5.0 Progression and Research Requirements

5.1 Progress toward the M. Med. degree will be made through a balanced programme of study including didactic seminar instruction and supervised clinical apprenticeships in the specialty area of choice.

5.2 As an integrating capstone to this continuous learning process each student must write and defend a research-based dissertation. It is expected that the initial effort for this dissertation will begin early in the learner’s career at UB and no later than the second semester courses GME 602 and 701; Introduction to Clinical Research & Introduction to Medical Literature respectively. Formal submission and examination of this work will occur at some point during the last two years of the M. Med programme. Academic credit structure to support the dissertation research may vary from specialty to specialty.

5.3 Students are generally required to progress through all the courses of the programme in sequence. However, in the early years of the programme there may be exceptional applicants who have completed one or more years of post-graduate training in other countries. Such candidates may apply to the Dean of FOM for special consideration in accordance with UB policy on prior learning.

5.4 Training shall be based on a tutorial and interactive learning mode.

5.5 Supervision from clinical staff members shall be provided at different levels depending on the progress of the student and the difficulty or risk involved with the service/ procedure.

5.6 By the end of the programme all trainees will be expected to function independently in the vast majority of clinical situations to be encountered by the average practitioner in their disciplines.

5.7 While the seminar-based subject material can in general be well defined and presented in an orderly progression, the learning process for the clinical base is less structured and predictable. Patients arrive, are cared for, and provide unique learning opportunities at different times and in different settings. Competency is, of course, measured and reported during the entire learning experience, but each learner’s sequential progress is different depending on the presentation of clinical material to the wards and clinics. This is a distinguishing feature of postgraduate medical education and it requires a very close interactive relationship between learner and mentor(s) throughout the training programme.

5.8 In the end the faculty is obliged to confirm that all learners have reached competency levels in all relevant areas of the chosen specialty but the integration of the individual patient based learning experiences will be different for each candidate.

5.9 Students who demonstrate conduct appropriate to the profession of medicine throughout the four duration of the programme and successfully complete all the academic requirements of the programme will be eligible to graduate with a Master of Medicine degree.

7.0 Conduct of students

7.1 Any conduct deemed inappropriate to the profession of medicine will be referred to the Dean of the Faculty of Medicine in writing. If these allegations are of a serious nature, the Dean may convene a Disciplinary Committee to investigate the allegations and to determine any actions to be taken. The allegations may be dismissed, or the student may be given a written warning, placed on probation or dismissed after consultation with the Dean of the School of Graduate Studies and the DVCAA. Any student who appears before the disciplinary committee more than once for allegations of serious nature which are proved to be true is likely to be dismissed.

7.2 The opinion of the BHPC will be sought in cases of serious professional misconduct.

8.0 Performance Evaluation

8.1 Rotations Evaluations

8.1.1 The resident’s performance will be evaluated by the specialist/lecturer. A written evaluation will be completed at least once per rotation.

8.1.2 The record of evaluations of the residents will be maintained by the Faculty of Medicine. These written reports, completed on the evaluation form, will be kept in the resident’s personal file. Residents will review their file any time he or she wishes.

8.1.3 Evaluations assess procedural skills, fund of medical knowledge, medical management ability, patient communication and relationship skills, acceptance of supervision, work ethic, patient-centred focusing and application of socioeconomic principles, and medical record completion.

8.1.4 Verbal feedback will be given to the resident regarding the evaluation by the faculty.

8.1.5 The resident will be given a grade of P (progress), U (unsatisfactory) or I (incomplete) for each rotation.

8.1.6 The Faculty members of the relevant Specialty will
review residents' progress regularly.

8.1.7 The relevant Specialty Faculty members will meet the residents at regular intervals (at least quarterly), to evaluate their performance, give them feedback and listen to their concerns.

9.0 Attendance at formal teaching sessions: Attendance is expected at all teaching sessions, unless in case of unavoidable clinical responsibilities, sickness or personal emergency, subject to approval by the Head of Department. Mandatory minimum attendance requirement of 80%.

9.1 Unsatisfactory Evaluations
9.1.1 Those residents who do not receive a satisfactory grade for a rotation will be allowed to repeat that rotation once without penalty.
9.1.2 A second poor showing will result in the resident being placed on probation which will include specific requirements which must be met before it can be lifted.
9.1.3 A resident who remains on probation for more than 6 months is liable to termination from the programme.

9.2 Dissertation and Examinations
Candidates who have successfully completed Part I exam, dissertation, Part II exam and the rotations, shall be recommended by the FOM to Senate for award of the MMed degree of the University of Botswana.

9.2.1 Residents shall be required to have a dissertation accepted by the examiners as well as pass Part I and Part II examinations prior to receipt of the MMed degree. The examinations shall be of similar standard as that of the College of Medicine of South Africa or similar international professional body for the respective specialties/disciplines. Where possible, desirable and advantageous, disciplines may use the South African College examinations which shall be accepted by the UB as equivalent to its own examinations and for purposes of meeting the academic requirements of the MMed programme.

9.2.2 Dissertation
9.2.2.1 Residents will be required to take a course on clinical research and medical literature within the first two years as a prerequisite for their dissertation.
9.2.2.2 Each resident will select their dissertation topic and supervisor by end of the first year. The resident will, with the assistance of the supervisor, develop an acceptable programme of the research project culminating in the submission and examination of the proposal by the seventh semester.
9.2.2.3 The dissertation will have to be 2500 to 10 000 words (excluding footnotes, tables and appendices) and found to be of adequate standard by the examiners.
9.2.2.4 Examination of the Dissertation shall be in accordance with the UB regulations [41.11] and shall be assessed as follows:
a. Accepted and passed;
b. Accepted pending minor modifications;
c. Referred for major amendments; or
d. Failed

The completion of required minor amendments to the Dissertation shall be coordinated by the Supervisor and certified by the Internal Examiner [41.11.5]. Major amendments shall be approved by the External Examiner [41.11.6].

9.2.3 The M. Med Part I examination must be passed by the resident within the first two years of the MMed programme. Satisfactory evaluations of both the Rotations and by the relevant faculty members shall be a prerequisite for taking the M. Med Part I examination. Residents will be given a pass or fail grade for the MMed Part I examination.

9.2.3.1 A candidate who fails the MMed Part I exam shall be allowed to re-sit the Part I exam the following semester.
9.2.3.2 The Part I exam will be available once every semester. Therefore within the first two years of the M Med programme there will be a maximum of four potential opportunities for the resident to sit the exam.
9.2.3.3 A candidate who does not pass the MMed Part I exam within the first two years of the MMed shall have their future with the MMed programme reviewed by the Faculty of Medicine Board, with strong consideration given to the recommendation by the relevant supervising department.
9.2.3.4 If the Faculty of Medicine Board decides that the candidate has otherwise performed well during their MMed and is worthy of further opportunities to pass the Part I exam, the candidate may remain in the M Med programme and re-sit the exam. Such a candidate will re-register for the MMed Part I examination preparation course and complete the clinical rotations of the fourth semester in Botswana. Once the candidate has successfully passed the part 1 exam they may commence third year (semester five) of the MMed programme.
9.2.3.5 If the Faculty of Medicine Board decides that the candidates overall performance during the M Med programme has been unsatisfactory, the Faculty of Medicine Board may decide to terminate the candidate’s place in the M Med programme. A candidate shall commence rotations at external collaborating institutions only after successfully passing the Part-I M Med examination and completing at least two years of the programme in Botswana.
9.2.3.6 This section on examinations may not apply to all programmes. Please refer to the section on each programme for specifics on examinations.

9.2.4 The MMed Part II examination will take place during fourth year of the MMed programme and the candidates will be examined according to the training received. Satisfactory evaluations of the Rotations by the relevant faculty members shall be a prerequisite for taking the M. Med Part II examination. The Part II examination may be taken before or after acceptance of the dissertation, but the resident has to have successfully completed the dissertation and passed the Part II examination in order to be recommended by the Faculty Board to the Senate for conferment of an MMed degree. Individual MMed programmes may set additional pre-requisites for the sitting of the Part II examination, e.g., the submission of case logs or performance portfolios. Residents will receive a pass or fail grade for the M Med part II examination.

9.2.4.1 A candidate who fails the M Med Part II exam shall, with the permission of the Faculty of Medicine Board be allowed to re-sit the exam the following semester.
9.2.4.2 Further attempts at the Part II exam may be possible, with the permission of the Faculty of Medicine Board, providing the resident does not exceed the overall maximum duration of the M Med programme.

9.2.4.3 The maximum duration of the MMed training programme is 6 years. Therefore a candidate who fails to pass the Part II exam within 6 years of commencing the MMed shall, with the permission of the Faculty of Medicine Board, be discontinued from the programme.

9.2.4.4 It is the responsibility of the resident to ensure that they have the requisite funding to cover training and welfare expenses during their time at UB. Where a resident’s training goes beyond 4 years, they have to secure additional sponsorship to sustain them during this time as well.

10.0 Leave
10.1 Residents will be entitled to twenty (20) working days of leave per year, that must (except for extraordinary and unforeseen circumstances) be approved in writing at least four months in advance by the relevant University of Botswana Head of Departments. Leave approval must be granted by both the Head of Department of the residents Specialty, as well as the Supervising Clinician in whichever clinical rotation the resident is undertaking at the time of the leave. Leave cannot accumulate from one year to the next.

10.2 Residents will be entitled to ten (10) working days of conference/skills development/remedial work or similar extracurricular academic activities per year. Attendance at mandatory courses, examinations, etc. is NOT considered as study leave, as it is part of the study course. However, attendance at conferences will be considered study leave. Study leave must (except for extraordinary and unforeseen circumstances) be approved in writing at least four months in advance by the relevant University of Botswana Head of Departments. Leave approval must be granted by both the Head of Department of the residents Specialty, as well as the Supervising Clinician in whichever clinical rotation the resident is undertaking at the time of the leave. Leave cannot accumulate from one year to the next.

10.3
• Unauthorized absences will be counted as annual leave, or study leave if no annual leave remaining.
• If no annual leave or study leave remaining, absenteeism must be made up for by working an extra shift.
• If there are concerns regarding persistent absenteeism, these concerns must be discussed with the trainee, and documented and placed in their file.
• Maternity leave, sick leave and so on will be granted according to Botswana Law. Time for maternity or any such extenuating circumstances shall be excluded in calculating the total duration that a resident has spent in the MMed Programme. Absence of one week or more because of sick leave: this time must be made up, in order to ensure residents have adequate exposure and education from the rotation. Study leave can be used to make up this extra time.

11.0 Programme Structure
11.1 Course Sequencing for Internal Medicine
Semester One
GME 601 Communication, Ethics and Professionalism 2 (Prereq: MBBS degree)
preventive and public health issues as well as research fundamentals. Full details of the curriculum and examination format can be accessed at http://www.collegemedia.ac.za/view_college.aspx?collegeid=18

b) Part-II MMed

The Part-II MMed examination will be taken during the final year of the programme. In order to qualify for this examination, the resident should have attended at least 80% of the planned activities, satisfactorily rotated through the clinical wards and have been positively continuously assessed.

A candidate must attempt Part II MMed not later than 6 years from the start of their training.

The Part II MMed examination will be the Fellowship of the College of Physicians under the auspices of the College of Medicine of South Africa (CMSA). This examination will assess the student's knowledge of cover clinical Internal Medicine, community medicine, ethics, health policy and common Internal Medicine problems from other disciplines. Full details of the curriculum and examination format can be accessed at: http://www.collegemedia.ac.za/view_college.aspx?collegeid=18

11.2 Course Sequencing for Anaesthesia & Critical Care

GME 601 Communication, Ethics and Professionalism. (2) (Prereq: MBBS degree)
GME 603 M. Med Part 1 Exam preparation I (2) (Prereq: MBBS degree)
GME 631 Basic Science of Anaesthesia and the Practice of Anaesthesia I (16) (Prereq: MBBS degree) Credit total (20)

Semester Two

GME 701 Introduction to Medical Literature (2)
GME 703 M. Med Part 1 Exam preparation II (2)
GME 711 Intermediate Internal Medicine I (14) Credit total (20)

Semester Three

GME 705 Principles & Techniques of Medical Education (2)
GME 790 Dissertation I (2)
GME 793 Dissertation IV (2) Credit total (20)

Semester Four

GME 702 Public Health Principles & International Health (2)
GME 791 Dissertation II (2)
GME 794 Presentation and Defence of Dissertation (4)
GME 797 Principles of Emergency Medicine I (16) Credit total (20)

Semester Five

GME 792 Dissertation III (2)
GME 713 Intermediate Internal Medicine III (16) Credit total (18)

Semester Six

GME 706 Presentation and Defence of Dissertation (2)
GME 790 Dissertation I (2)
GME 793 Dissertation IV (2) Credit total (20)

Semester Seven

GME 707 M. Med Part 2 Exam preparation I (Prereq: MBBS degree)
GME 715 Advanced Internal Medicine I Credit total(24)

Semester Eight

GME 716 Advanced Internal Medicine II Credit total

11.1.1 EXAMINATION REGULATIONS for M. MED (Internal Medicine)

Residents shall be required to pass Part I and Part II examinations and the dissertation prior to receipt of the MMed degree. A tentative format for these exams is listed below. The format will be subject to review by the teaching staff of the Department of Anaesthesia on an annual basis.

a) Part I MMed

The examination must be passed within the first 2 years of the MMed programme. Satisfactory evaluations by both the rotation supervisors and the Residents Review Committee shall be a prerequisite for taking the M. Med Part I examination.

The details of the Part I M. Med examination will be finalised once agreement has been made between the UB SOM and other institutions, e.g. South African institutions offering M. Med or the respective Colleges of Medicine of South Africa or the Royal Colleges of Medicine of the United Kingdom. However this examination will assess the student's knowledge of basic sciences and their application to Anaesthesia and Intensive Care Medicine, fundamental principles of clinical care, preventive and public health issues as well as research fundamentals.

b) Part-II MMed

The Part-II MMed examination will be taken during the fourth academic year and it is the final exit examination upon which the student's final outcome depends.

The candidate shall only be allowed to sit in the final examination if he/she is in good standing with satisfactory evaluations of both the rotations and the Assistant Programme Director.

A candidate must attempt Part II M. Med not later than two years after passing Part-I of the examination.

A candidate must attempt Part II M. Med not later than 6 years from the start of his/her training.

11.3 Course Sequencing for Emergency Medicine

Semester One

GME 601 Communication, Ethics and Professionalism. (2) (Prereq: MBBS degree)
GME 603 M. Med Part 1 Exam preparation I (2) (Prereq: MBBS degree)
GME 641 Principles of Emergency Medicine I (16) (Prereq: MBBS degree) Credit total (20)
Part 1 exam. This examination will assess the student’s knowledge of basic sciences and pathophysiology and appropriate number of clinical rotations and have been positively continuously assessed. The Resident will need to successfully submit a critical performance portfolio prior to the Part 2 exam, which will include the submission of a research dissertation.

A candidate must attempt Part II MMed not later than 6 years from the start of his/her training.

The Part 2 MMed examination will be the Fellowship of the College of Emergency Medicine (FCEM) offered under the auspices of the Colleges of Medicine of South Africa (CMSA). This examination will assess the student’s knowledge of clinical Emergency Medicine, ethics, health policy and common Emergency Medicine problems from other disciplines. Full details of the curriculum, exam requirements and examination format can be accessed at http://www.collegemedsa.ac.za/view_exam.aspx?examid=21

11.4 Course Sequencing for Family Medicine

11.3.1 EXAMINATION REGULATIONS for MMed (Emergency Medicine)

Residents shall be required to successfully complete Part I and Part II examinations and the dissertation prior to receipt of the M. Med degree. The format will be subject to review by the teaching staff of the Department of Emergency Medicine on an annual basis.

a) Part I MMed

The examination will be taken within the first two years of the programme. In order to qualify for this examination, the resident should have attended at least 80% of the planned activities, satisfactorily rotated through the appropriate number of clinical rotations and have been positively continuously assessed. A critical performance portfolio involving clinical cases, case write ups and logbook of procedures needs to be maintained by the EM resident and examined every six months by the Head of Department.

The Emergency Medicine residents will sit the Colleges of Emergency Medicine of South Africa (CEM (SA)) Part 1 exam. This examination will assess the student’s knowledge of basic sciences and pathophysiology and their application to Emergency Medicine, fundamental principles of clinical, preventive and public health issues as well as research fundamentals.

Full details of the curriculum, exam requirements and examination format can be accessed at http://www.collegemedsa.ac.za/view_exam.aspx?examid=21

b) Part II MMed

The examination will be taken within the final year of the programme. In order to qualify for this examination, the resident should have attended at least 80% of the planned activities, satisfactorily rotated through the appropriate number of clinical rotations and have been positively continuously assessed. The Resident will need to successfully submit a critical performance portfolio prior to the Part 2 exam, which will include the submission of a research dissertation.

A candidate must attempt Part II MMed not later than 6 years from the start of his/her training.

The Part 2 MMed examination will be the Fellowship of the College of Emergency Medicine (FCEM) offered under the auspices of the Colleges of Medicine of South Africa (CMSA). This examination will assess the student’s knowledge of clinical Emergency Medicine, ethics, health policy and common Emergency Medicine problems from other disciplines. Full details of the curriculum, exam requirements and examination format can be accessed at http://www.collegemedsa.ac.za/view_exam.aspx?examid=21

11.4.1 ADMISSION TO THE FAMILY MEDICINE EXAMINATION AND RESEARCH COMPONENT

Final Part A

A candidate may be admitted to the examination having:

a. A post-internship registration to practice medicine which is registered or registrable with the Botswana Health Professions Council (BHPC) and

b. Successfully completed three years fulltime post-internship training in Family Medicine in a training programme approved by the Department of Family Medicine and Primary Health Care, UB. Such training must also be certified by the Head of Department of Family Medicine, and

c. Obtained a current CPR, ACLS or ATLS certificate of competence or its equivalent, and

d. Submitted a successfully completed learning portfolio.

The Head of the Department of Family Medicine and Primary Health Care must complete the certificate of completion of training when the candidate applies to write the examination.

e. Research Component (RC): MMed (FM)

Final Part B

A candidate may be admitted for the RC having:

a. Completed the three years fulltime training in Family Medicine and passed the Final Part A examination, and

b. Completed the Research Component as follows:

c. Assessed MMed (Family Medicine) research dissertation/report, provided that such dissertation/report was completed within the duration allowed by the Department of Family Medicine, University of Botswana, or

d. Accepted/published original article in a Family Medicine peer-reviewed journal as "first author", provided that such article was completed within the duration allowed by the Department of Family Medicine, University of Botswana and in accordance to the requirements of the Family Medicine peer-reviewed journal

e. Conforms to the suggested structure for dissertation/report/accepted original article

f. A declaration has been received that the research component is original work.

g. The Head of Department of Family Medicine must complete the certificate of completion of research component when the candidate applies for the Final part B

h. The UB Senate, through its relevant and statutory organs, will review every application for admission to the examination, and, RC, may also consider the professional and ethical standing of the candidate, and will give the final approval of examination results.
11.4.2 CONTENT OF THE EXAMINATION

The examination will test the diagnostic and patient management ability of the candidate with specific reference to, but not limited to the following:

a. Diagnostic ability against the background of family practice. Stress will be placed on early diagnosis, screening tests and special diagnostic methods such as laboratory and radiological investigations.

b. Management, with special reference to medications in common usage, side effects and interactions. Preliminary management of emergencies of various types.

c. Psychosocial aspects concerning emotional and personality disturbances. Special emphasis in this regard is given to child behavioral problems, marriage guidance and problems of adolescence.

d. Preventive medicine, e.g. immunization, genetic counseling, nutrition, mental health and environmental hygiene.

e. Knowledge of community services or organizations which might be complementary to the family physician’s field of endeavor, e.g. government (including the district health system) and its welfare services, and NGOs such as the SOS, Alcoholics Anonymous, Cancer Society of Botswana, etc.

f. Ability in practice management, including consulting room planning, programme for the routine day, clinical notes, accounting, health economics, human resource management, and requirements for ethical and legal practice.

g. Traditional clinical patient consultations, including examination and presentation— at least 3 cases of short cases and Objective Structured Clinical Examination (OSCE). These will include:

1. Clinical examination, which will include a number of short cases and Objective Structured Clinical Examination (OSCE): These will include:

   a. Diagnostic ability against the background of family practice.

   b. Management, with special reference to medications in common usage, side effects and interactions.

   c. Psychosocial aspects concerning emotional and personality disturbances.

   d. Preventive medicine, e.g. immunization, genetic counseling, nutrition, mental health and environmental hygiene.

   e. Knowledge of community services or organizations which might be complementary to the family physician’s field of endeavor, e.g. government (including the district health system) and its welfare services, and NGOs such as the SOS, Alcoholics Anonymous, Cancer Society of Botswana, etc.

   f. Ability in practice management, including consulting room planning, programme for the routine day, clinical notes, accounting, health economics, human resource management, and requirements for ethical and legal practice.

h. Objective structured clinical examination (OSCE)— which will include the Management Interview.

1. Conduct of the clinical examination:

   a. At least two examiners will participate in each station of the clinical patient consultations of each candidate.

   b. The examiners will submit their assessments in percentages. Candidates must achieve at least 50% of marks in each component of the clinical examination i.e. clinical patient consultations and OSCE.

1.4.4. RESEARCH COMPONENT ASSESSMENT (RCA)

A copy of the research dissertation report or accepted original article shall be submitted to the Department of Family Medicine and Primary Health Care Assessment Committee for assessment at least 60 days prior to the date of the next graduation ceremony of UB.

If a candidate has failed to pass the clinical examination after three years of education and training, it is possible to present for the examination and the RC in the same MMED (FM) examination session in subsequent years.

11.5. Course Sequencing for Public Health Medicine

Semester One

- GME 601 Communication, Ethics and Professionalism. (Prereq: MBBS degree) (2)
- GME 603 M. Med Part I Exam preparation I (2) (Prereq: MBBS degree)
- GME 661 Introduction to Public Health I (Prereq: MBBS degree) (16) Credit total (20)

Semester Two

- GME 602 Introduction to Clinical Research (2)
- GME 604 M. Med Part I Exam preparation II (2)
- GME 662 Introduction to Public Health II (16) Credit total (20)

Semester Three

- GME 701 Introduction to Medical Literature (2)
- GME 790 Dissertation I (2)
- GME 703 M. Med Part I Exam preparation III (2)
- GME 761 Intermediate Public Health I (14) Credit total (20)

Semester Four

- GME 702 Public Health Principles & International Health (2)
- GME 791 Dissertation 2 (2)
- GME 704 Introduction to Healthcare Management (3)
- GME 762 Introduction to Public Health II (14) Credit total 20

Semester Five

- GME 792 Dissertation 3 (2)
- GME 705 Principles and Techniques of Medical Education (2)
- GME 763 Intermediate Public Health III (16) Credit total 20

Semester Six

- GME 793 Dissertation 4 (2)
- GME 706 Presentation and Defence of dissertation (2)
- GME 764 Intermediate Public Health IV (16) Credit total (20)

Semester Seven

- GME 794 Presentation and Defence of dissertation (4)
- GME 707 M. Med Part 2 Exam preparation III (2)
- GME 765 Advanced Public Health Medicine I (18) Credit total 24

Semester Eight

- GME 766 Advanced Public Health Medicine II (16) Credit total (16)

11.5.1 EXAMINATION REGULATIONS for

MMED (Public Health Medicine)

Residents shall be required to pass Part I and Part II examinations prior to receipt of the MMED degree in accordance with Regulation 8.0 of the Faculty of Medicine, Master of Medicine programme. A tentative format for these exams is listed below. The format will be subject to review by faculty of the Department of Public Health on an annual basis.

a) Part I M. Med

The examination must be passed within the first 2 years of the MMED programme. Satisfactory evaluations by both the rotation supervisors and the Trainees Review Committee shall be a prerequisite for taking the MMED Part I examination.

This examination will assess the student’s knowledge of preventive and public health issues as well as research fundamentals. The examination will likely consist of a combination of multiple-choice questions and written papers. A candidate who has failed one or more section, but passed others, may re-sit the individual section failed at the next offered examination date, without having to re-sit the passed sections.

b) Part-II MMed.

Medical examination will be taken at the end of the fourth academic year and it is the final exit examination upon which the student’s final outcome depends.

The candidate shall only be allowed to sit in the final examination if s/he is in good standing with satisfactory evaluations of both the rotations and the Assistant Programme Director.

This examination will assess the student’s competency in applying Public Health principles to the practice of Public Health Medicine.

11.6 Course Sequencing for Paediatrics and Adolescent Health

All courses are required except for the exam preparation whose requirement ceases once the candidate passes the exam. The sequence outlined should be followed, but exceptions in sequencing and prerequisites may be possible by written approval of the Dean of FOM.

Semester One

- GME 601 Communication, Ethics and Professionalism. (Prereq: MBBS degree) (2)
- GME 603 M. Med Part I Exam preparation I (2) (Prereq: MBBS degree)
- GME 621 Introduction to Paediatrics and Adolescent Health I (Prereq: MBBS degree) (16) Credit total 20

Semester Two

- GME 602 Introduction to Clinical Research (2)
- GME 701 Introduction to the Medical Literature (2)
- GME 622 Introduction to Paediatrics and Adolescent Health II (16) Credit total (20)

Semester Three

- GME 705 Principles and Techniques of Medical Education (2)
- GME 703 M. Med Part I Exam preparation III (2)
- GME 761 Intermediate Public Health I (14) Credit total (20)
- GME 766 Advanced Public Health Medicine II (16) Credit total (16)
of the College of Paediatricians (FCPaed) offered under the auspices of the Colleges of Medicine of South Africa (CMSA). This examination will assess the student's knowledge of Paediatrics and Adolescent Health, fundamental principles of clinical child care, preventive and public health issues as well as research fundamentals. Full details of the curriculum and examination format can be accessed at http://www.collegemedsa.ac.za/view_exam.aspx?examid=31

11.7 Pathology

11.7.1 Course Sequencing for Anatomic Pathology

GME 601 Communication, Ethics and Professionalism (2) (Prereq: MBBS degree)
GME 603 M. Med Part 1 Exam preparation I (2) Prereq: MBBS degree
GME 671 Introduction to General Pathology I (16) Prereq: MBBS degree Credit total 20

Semester Two

GME 602 Introduction to Clinical Research (2)
GME 604 M. Med Part 1 Exam preparation II (2) GME 672 Introduction to General Pathology II (16) Credit total 20

Semester Three

GME 701 Introduction to Medical Literature (2) GME 790 Dissertation I 2
GME 703 M. Med Part 1 Exam preparation III (2)
GME 771 Intermediate Anatomic Pathology I (14) Credit total 20

Semester Four

GME 702 Public Health Principles & International Health (2)
GME 791 Dissertation II 2
GME 707 M. Med Part 2 Exam preparation III (2)
GME 772 Intermediate Anatomic Pathology II (2) Credit total (20)

Semester Five

GME 793 Dissertation 3 (2)
GME 705 Principles and Techniques of Medical Education (2)
GME 773 Intermediate Anatomic Pathology III (16) Credit total (20)

Semester Six

GME 792 Dissertation 4 (2)
GME 790 Presentation and Defence of dissertation (2) Credit total (24)

Semester Seven

GME 794 Presentation and Defence of Dissertation (4)
GME 707 M. Med Part 2 Exam preparation III (2)
GME 785 Advanced Clinical Pathology I (18) Credit total (20)

Semester Eight

GME 786 Advanced Clinical Pathology II (16) Credit total (16)

11.7.3 EXAMINATION REGULATIONS for M. MED (Pathology)

Residents shall be required to pass Part I and Part II examinations and the dissertation prior to the award of the M.Med degree. The format for these exams is outlined below. The format will be subject to review by the teaching staff of the Department of Pathology on an annual basis in conjunction with the College of Pathologists of South Africa.

11.7.4 The Structure

At present the examination is in two parts.

11.7.5 Part I M. Med Examination (Basic Sciences)

A candidate will be admitted to the part I Examination after completing 18 months of full time post-internship training in as a registrar in accredited anatomical Pathology teaching laboratory at the time of applying for the examination. The examination must be passed within the first two years of the programme. In order to qualify for this examination, the resident should have attended at least 80% of the planned activities, satisfactorily rotated through the clinical wards and have been positively continuously assessed.
through the required benches and have been positively continuously assessed.

11.7.1 Conduct of the Examination
The Part I examination with an overall pass mark of 50% shall comprise of:

• A one 3-hour closed book written examination paper, with a subminimum of 45%
• The format shall be a mixture of essay questions to demonstrate integrative skills and short answer questions. A candidate will be required to answer all questions.
• A 3-hour closed book practical examination with a subminimum of 50%. The format shall be: Answer all questions.
• An H & E stained section from 15 different histo-pathological cases (including surgical or autopsy cases) to be described and a diagnosis (or differential diagnosis) exhibited, with mention of any appropriate ancillary investigations that may be required for the diagnosis.
• The slides will comprise medical and surgical pathology and each slide will be diagnosable at a morphological level. No dual pathologies will be included. Cytopathology will not be included. No more than three cases may be diagnosed incorrectly.

11.7.2 Part-II M. Med Examination
A candidate will be admitted to the part II examination after completing 42 months in full-time post internship training as an Anatomical pathology Registrar in an accredited anatomical Pathology teaching laboratory at the time of applying for the examination. The candidate must have successfully completed part I. The candidate must have completed at least 6 months full time in an approved cytology laboratory. This may form part of the 42 months training in anatomical pathology. The candidate will be required to submit a certificate from the Head of the department(s) where he/she has been working showing that he/she has properly completed a minimum of 50 autopsies satisfactorily under supervision and is able to cut and stained frozen sections. A portfolio of training must be submitted for assessment to confirm that the above have been adequately and satisfactorily completed.

11.7.6.1 Conduct of the examination
The part II examination with overall pass mark of 50% shall comprise:

i. A two 3-hour closed book written examination paper, each with a subminimum of 50%.
ii. The format shall be:
iii. Answer all questions comprising a mixture of essay questions to demonstrate integrative skills and short answer questions divided into molecular pathology; principles of pathology and special techniques including electron microscopy, immunohistochemistry and special investigations and laboratory management as well as ethical considerations. The practice of surgical pathology and cytopathology will also be part of this examination.
iv. A series of practical examinations each with a subminimum of 50% (unless otherwise stated) comprising:
• An autopsy examination with a time-limit of 3 hours.
The format will include:
• Scrutiny of the clinical file(s)
• External examination of the body
• Appropriate dissection
• Presentation of the findings with a clinicopathological correlation and a provisional anatomical diagnosis
• Performance of frozen section or smear if necessary.
v. Two three-hour closed book practical examination each with a subminimum of 50%.
The format shall be as follows:
• Answer all questions
• The first practical consists of an H & E stained sections from each of 15 different histo-pathological cases to be described and a diagnosis or differential diagnosis exhibited with mention of any appropriate ancillary investigations that may be required for the diagnosis.
• The second practical consists of appropriately stained exfoliative or aspiration smears from 15 different cases to be described and a diagnosis or differential diagnosis exhibited with mention of appropriate ancillary investigations that may be required for the diagnosis. Not more than 3 cases may be diagnosed incorrectly in either examination.
• The basic tenet is that the pass in each slide and the examination overall should be that the candidate must demonstrate the ability to practice surgical and cytopathology safely at a generalist level.
vi. Two closed book OSPE examination of up to three hours duration each with a subminimum of 50% (except for certain inter-active components).

11.7.6.2 The weighting of the final mark will be as follows:
• Written component 15%
• Histopathology slides 25%
• Cytopathology 20%
• OSPE 1 10%
• OSPE 2 10%
• Autopsy 10%
• Viva voce

b) Part-II MMed
The Part-II MMed examination will be taken at the end of the fourth academic year and it is the final exit examination upon which the student’s final outcome depends.

The candidate shall only be allowed to sit in the final examination if they are in good standing with satisfactory evaluations of both the rotations and the Assistant Programme Director.

A candidate must attempt Part II M. Med not later than 6 years from the start of his/her training.

The Part II M. Med examination will be comparable with those of South African institutions offering M. Med. This examination will assess the student’s knowledge of cover clinical paediatrics, community paediatrics, ethics, health policy and common paediatric problems from other disciplines.
FACULTY OF SCIENCE

Department of Biological Sciences 73
Department of Chemistry 73
Department of Computer Science 75
Department of Environmental Sciences 77
Department of Geology 80
Department of Mathematics 81
Department of Physics 83
Special Regulations for the Master of Science Degree

The Faculty of Science offers the Master of Science Degree in Departments for which such programmes have been approved. General Regulation 40.0 and Special Departmental Regulations shall apply.

Special Regulations for the MPhil and PhD Degrees

The Faculty of Science offers the MPhil and PhD Degrees in Departments for which such programmes have been approved. General Regulation 50.0 and Special Departmental Regulations shall apply.

DEPARTMENT OF BIOLOGICAL SCIENCES

Master of Science Degree in Applied Microbiology

3.0 Departmental Regulations for the MSc (Applied Microbiology)

3.1 Entrance Requirements

Applicants intending to study for the Master of Science Degree in Applied Microbiology should normally have a first degree in a pure or applied Biological subject from this University or from any other recognised university or equivalent institution, as single or combined major or equivalent. This should be passed with a min- mum of lower second class overall and in the Biological component, which should normally include passes in at least 1 course in Microbiology and 1 course in Biochemistry.

3.2 Degree Structure

The Master of Science Degree Programme shall consist of course work and Dissertation extending over 4 semesters of full-time study, which include the long vacation period between the semesters. All courses are 3 credits each. The Dissertation shall be based on a supervised original research project extending over the second year of study (Semesters 3 and 4) and shall normally be presented at the end of that year. Extensions beyond this can only be made with the approval of the School of Graduate Studies.

3.3 Research Seminar

BIO 614: Research Seminar will be assessed based on assignments related to data analysis and project formulations, write-ups of project proposals and oral presentations of reports including proposals. BIO 614 will be assessed with 30 per cent based on the seminar and 70 per cent based on the final report.

3.4 Coursework

The coursework shall extend over the first 2 semesters of study and shall consist of 4 core courses (12 credits) taken in the first semester and 1 in the second semester (3 credits). In the second semester, candidates will choose to specialize in either Food Microbiology or Environmental Microbiology. There are 4 courses for each stream with a total of 12 credits.

3.5 Course Listings

All students enrolled for the Master of Science Degree in Applied Microbiology must take and Pass the following courses in the first and second semesters of study:

Semester 1 (Core Courses)
- BIO6010 Bacteriology
- BIO6011 Mycology
- BIO6012 Virology
- BIO6013 Molecular Genetics

Semester 2
- BIO 614 Research Seminar (core)

Stream 1: Food Microbiology
- BIO620 Industrial Microbiology
- BIO621 Food Microbiology and Hygiene
- BIO622 Food Toxicology
- BIO623 Food Science and Technology

Stream 2: Environmental Microbiology
- BIO630 Microbial Ecology
- BIO631 Environmental Toxicology
- BIO632 Phylogeny
- BIO633 Soil Microbiology

Seminars 3 and 4
- BIO700 Master of Science Dissertation

3.6 Supervision

Supervision will be as specified in General Academic Regulation 40.7.

3.7 Period of Study

The period of study shall be as specified in General Academic Regulations and shall include the long vacation period between the semesters.

3.8 Assessment and Examination

3.8.1 Continuous assessment shall be based on a combination of assignments, written tests and practical exercises as approved by the Department Board.

3.8.2 The grading of BIO 614: Research Seminar will be based upon the assessment of the written and oral reports.

3.8.3 The formal written examination of each course except BIO 614 shall take the form of a final exam paper of 2 hour’s duration. The ratio between continuous assessment and examination shall be 1:1.

3.9 Progression from Year 1 to Year 2

In order to proceed to the second year, a student must pass all courses taken during Semesters 1 and 2.

3.10 Dissertation

The regulations regarding the Dissertation shall be as specified in the General Academic Regulations.

MPhil and PhD Degrees in Biological Sciences

4.0 Departmental Regulations for MPhil/PhD Degree Programmes

4.1 General Provisions

The Department of Biological Sciences offers the MPhil and the PhD Degrees by supervised research only. General Regulations shall apply.

4.2 Entrance Requirements

4.2.1 Entrance requirements are in accordance with General Academic Regulation 50.0.

4.2.2 When applying for the MPhil/PhD Degree Programme, a candidate must first discuss the proposed programme with the Department. The applicant must also submit an acceptable outline of research to be conducted with application forms. Applicants may be expected to present themselves for an interview before the Department makes a final decision on their applications.

4.3 Programme of Study

The programme of study shall be as specified in the General Academic Regulations.

4.4. Thesis regulations and examinations shall be as specified in the General Academic Regulations.

4.5. Programme Structure

BIO800 Supervised Research and Thesis in Biological Sciences (MPhil)
BIO900 Supervised Research and Thesis in Biological Sciences (PhD)

DEPARTMENT OF CHEMISTRY

Master of Science Degree in Chemistry, MPhil and PhD Degrees in Chemistry

1.1 General Provisions

Subject to the provisions of General Academic Regulations and the School of Graduate Studies Special Regulations, the following Departmental Regulations shall apply:

1.2 Qualification Titles

The Department offers the following programmes:
- Master of Science Degree in Chemistry
- Master of Philosophy Degree in Chemistry (Analytical, Inorganic, Organic or Physical Chemistry)
- PhD Degree in Chemistry (Analytical, Inorganic, Organic or Physical Chemistry)

1.3 Programme Objectives

The objectives of the Graduate and Postgraduate Degree programmes in Chemistry are the following:
(a) To train students to acquire advanced skills and knowledge in the chemical sciences required by government, parastatals and the private sector
(b) To develop in students the creative flair and patience necessary to independently undertake and execute research work
(c) To kindle in students the desire to investigate indigenous natural resources derived from plants, animals, and minerals for development
(d) To enhance the training capacity of the Chemistry Department by developing economically and socially relevant curricula in the chemical sciences.

2.0 Departmental Regulations for the Master of Science Degree

2.1 Entrance Requirements

To enter into any of the Master of Science degree programmes, a student must satisfy one of the following requirements:
(a) A Bachelor of Science Degree in Chemistry from a recognized university or equivalent institution of higher learning with a minimum achievement of 3.0 GPA on a 5- point scale;
(b) A Bachelor of Science Degree in Chemistry with a pass (GPA of 2.00-2.99 on a 5-point scale) from a recognized university or equivalent institution of higher learning. In addition, applicants must also have at least two years of relevant experience in Chemistry.
2.2 Programme Structure
2.2.1 The Master of Science
Degree programmes in chemistry are by coursework and dissertation, extending over two years, including the intervening long vacation period. The coursework is normally conducted during the first academic year and is followed by a supervised original research project extending over the second year of study.

2.2.2 Students enrolled in the Master of Science programmes must take and normally pass 24 credits in the core and specialization courses before proceeding to the dissertation. The duration of the Master of Science programmes shall be as stipulated in General Regulation 40.32.

3.0 Regulations for the MPhil and PhD Programmes
3.1 Entrance Requirements
3.1.1 To be eligible to register for the MPhil Degree in Chemistry, applicants must satisfy one of the following requirements:
(a) A Single Major or Honours Bachelor of Science Degree in Chemistry from a recognized university or equivalent institution of higher learning with a minimum achievement of 3.5 GPA on a 5-point scale;
(b) A Combined Major Bachelor of Science Degree or allied fields in Chemistry from a recognized university or equivalent institution of higher learning with a minimum achievement of 4.0 GPA on a 5-point scale;
(c) A Master of Science Degree in Chemistry from a recognized university or equivalent institution of higher learning.

3.1.2 To be eligible to register for the PhD Degree, applicants must have a Master’s Degree in Chemistry, i.e. Master of Science or MPhil, or a Bachelor of Science Degree (Chemistry Single Major) with minimum achievement of 4.2 GPA on a 5-point scale from a recognized university or equivalent institution of higher learning. In addition, the candidate may be required to take and pass a qualifying examination as prescribed by the Departmental Board. In all cases the provisions of General Regulation 50.21.2 shall apply.

3.2 Programme Structure
3.2.1 MPhil and PhD
Degrees shall normally consist of seminar(s), research work and thesis. The duration of the MPhil and PhD programmes shall be in accordance with General Regulations 50.43.1 and 50.43.2, respectively. In addition to the above provisions, a candidate requesting transfer from the MPHIL to the PhD programme must satisfy the following Departmental Requirements:
(a) Candidates must achieve satisfactory performance in both the oral presentation and written report in one of the seminar courses (CHE801 through CHE808) as assessed by the Departmental Board or a sectional committee constituted by it;
(b) Candidates must achieve satisfactory performance in both the oral presentation and the written report on his/her research project, as assessed by the Departmental Board or a sectional committee constituted by it, normally within 9 to 24 months from the date of initial registration. The degree candidate may also be required to pass a qualifying examination as prescribed by the Departmental Board.

4.0 Department of Chemistry Course Listing
4.1 Master of Science Courses

Semester 1
Common Core Courses:
CHE651 Separation Science and Spectrometry (3 credits)
CHE621 Advanced Inorganic Chemistry (3 credits)
CHE631 Advanced Organic Chemistry (3 credits)
CHE641 Advanced Physical Chemistry (3 credits)

Semester 2
4.1 Analytical Chemistry Core Courses
CHE652 Analytical Spectrometry (3 credits) Pre-req CHE 651
CHE656 Applications of Analytical Chemistry (3 credits) Pre-req CHE 651
CHE654 Hyphenated Techniques (3 credits) Pre-req (CHE 651)
CHE658 Special Techniques in Analytical (3 credits) Pre-req CHE 651

4.2 Inorganic Chemistry Core Courses
CHE622 Physical Methods in Inorganic Chem - (Pre-req CHE621) (3 credits)
CHE623 Kinetics and Mechanism of Reactions in Inorganic Chemistry (2)
CHE624 Structure and Reactivity in Inorganic Chemistry (3)

Optional Courses
CHE625 Chemistry of the Solid State, Metals and Semiconductors (2)
CHE626 Main Group Chemistry (2)
CHE627 Organometallic Chem in Homogeneous Catalysis and Synthesis (2)

4.3 Organic Chemistry Core Courses:
CHE632 Spectroscopic Methods in Organic Chemistry - Pre-req CHE631 (3 credits)
CHE634 Methods and Design of Organic Synthesis (2 credits)
CHE636 Advanced Laboratory Synthesis (2 credits)
CHE638 Introduction to Chem and Biosynthesis of Natural Products (3 credits)

Optional Courses
CHE630 Organic Chemistry of Primary Metabolites (2 credits)
CHE633 Organic Free Radical Chemistry and Photochemistry (2 credits)
CHE635 Polycyclic and Heterocyclic Aromatic Chemistry (2 credits)
CHE637 Advanced Organic Synthesis (2)

4.4 Physical Chemistry Core Courses:
CHE642 Quantum Mechanics and Spectroscopy (3)
CHE644 Interfacial Phenomena - Pre-req CHE641 (3 credits)

Optional Courses
CHE646 Polymer Chemistry - Pre-req CHE 641(3)
CHE648 Advanced Chem. Kinetics - Pre-req CHE641 (3)
CHE649 Diffraction Methods (3)

Students may take optional courses from any of the four sections of Chemistry. Optional courses may also be taken from other Faculty Departments at the appropriate level, by permission of the Chemistry Board and by the department offering the course.

Semester 3
CHE751 Dissertation (Analytical Chemistry) (12 credits)

Semester 4
CHE751 Dissertation (Analytical Chemistry) (12 credits)

MPhil and PhD Courses
CHE801 Seminar Topics in Analytical Chemistry I (2)
CHE802 Seminar Topics in Inorganic Chemistry I (2)
CHE803 Seminar Topics in Analytical Chemistry II (2)
CHE804 Seminar Topics in Inorganic Chemistry II (2)
CHE805 Seminar Topics in Organic Chemistry I (2)
CHE806 Seminar Topics in Physical Chemistry I (2)
CHE807 Seminar Topics in Organic Chemistry II (2)
CHE808 Seminar Topics in Physical Chemistry II (2)

Dissertation and Thesis
24 credits:
CHE751 Supervised Research and Dissertation in Analytical Chemistry (MSC)
CHE752 Supervised Research and Dissertation in Inorganic Chemistry (MSC)
CHE753 Supervised Research and Dissertation in Organic Chemistry (MSC)
CHE754 Supervised Research and Dissertation in Physical Chemistry (MSc) 46 credits:
CHE851 Supervised Research and Thesis in Analytical Chemistry (MPhil)
CHE852 Supervised Research and Thesis in Inorganic Chemistry (MPhil)
CHE853 Supervised Research and Thesis in Organic Chemistry (MPhil)
CHE854 Supervised Research and Thesis in Physical Chemistry (MPhil)

CHE951 Supervised Research and Thesis in Physical Chemistry (PhD)
CHE952 Supervised Research and Thesis in Inorganic Chemistry (PhD)
CHE953 Supervised Research and Thesis in Organic Chemistry (PhD)
CHE954 Supervised Research and Thesis in Physical Chemistry (PhD)

5.0 Assessment and Examination
5.1 The coursework shall be continuously assessed. Continuous assessment shall consist of written tests, assignments, seminar-type presentations on assigned materials, laboratory exercises, etc. There shall be a formal examination of all courses taken in each semester. The ratio between continuous assessment and formal examination marks shall be 1:1.

5.2 The examination of dissertations and theses shall be conducted in accordance with the provisions of General Regulations 50.50 through 50.61.4.

DEPARTMENT OF COMPUTER SCIENCE

Master of Science Degree with specializations in Computer Science and Computer Information Systems

Departmental Regulations for Graduate Programmes

The Department of Computer Science offers the an MSc Programme with specialties in Computer Science and Computer Information Systems leading to the award of the degree of MSc (Computer Science) and MSc (Computer Information Systems), respectively.

3.1. Preamble General Provisions

Subject to the provisions of General Academic Regulations 40.0, the following Departmental Regulations shall apply:

Departmental Regulations for the Master's Degree Programmes

3.1.1 Subject to the provisions of General Regulations 40.0, the following Departmental Special Regulations shall apply:

Entrance Qualifications and Admissions

To be admitted into the Master's degree programme, subject to the provisions of General Regulations 41.3, an applicant shall normally have any one of the following:

3.1.2 Completed either the single major or combined major/minor degree programme in Computer Science or Information Systems or similar degree of-fered at this University or equivalent institution.

3.1.3 Obtained a Bachelor's Degree from this University or any other recognized institution in any other field, PLUS a postgraduate diploma in Computer Science or Information Systems or equivalent qualification, from a recognized institution, considered appropriate by the department.

3.1.4 Application for admission into the programme shall be in accordance with General Regulation 41.4.

3.1.5 Registration for the programme shall be subject to general regulation 41.6.

3.2 Programme Structure

Subject to the General Regulation 41.5 the following regulations shall hold:

3.2.1 Programme Offering Mode, Duration and Workload

3.2.1.1 The Master's programme shall be offered on both full-time and part-time basis.

3.2.1.2 Subject to the General Regulation 41.1, the Programme shall be offered in the coursework and Dissertation mode.

3.2.1.3 The minimum duration for the Master's programme shall be subject to the General Regulation.

3.2.1.4 Student registration for the programme shall be in accordance with the provisions of the General Regulations.

3.2.1.5 The coursework component shall be drawn from core, optional and approved Additional Optional courses as specified under Regulations 2.4.3.

3.2.1.6 Selection of optional courses shall be from either of the two streams of specialization, which are, CS (Computer Science) stream and CIS (Computer Information Systems) stream, as specified under Regulation 2.4.3. Additional streams of specialization may be added in future depending on departmental capabilities and national needs. Additional optional non-computing courses can be taken as prescribed under Regulation 3.2.2.2.

3.2.1.7 Subject to relevant General regulations, students who select and pass the prescribed minimum number of 48 credits of core and optional courses from any of the Computer Science (CS) and Computer Information Systems (CIS) specialization streams shall be awarded the MSc degree with the title, MSc (Computer Science) and MSc (Computer Information Systems), respectively.

Core and Optional Courses

Semester I

CS Stream Courses

Core Courses

CS605 Object-Oriented Software Engineering
CS697 Data Warehousing
CS604 Operating systems

Optional Courses

CS643 Machine Learning
CS633 Web Engineering
CS637 Agent-Oriented Systems
CS639 Topics in Computing

Other relevant Masters level courses as may be deemed necessary.

CSI Stream Courses

Core Courses

CS629 Information Systems Policy and Strategy
CS603 Information Systems Engineering
CS697 Data Warehousing

Optional Courses

CS639 Topics in Computing
FIN620 Business Finance
MGT743 Strategic Management
MK760 Principles of Marketing

Other relevant Masters level courses as may be deemed necessary.

Semester II

CS Stream Courses

Core Course

CS601 Computer Networking and Communications

CSI Stream Courses

Core Courses

CS609 Algorithms and Data Structures
CS695 Computing Research Methods

Optional Courses

CSI645 Grid Computing Systems
CSI631 Multimedia Computing Systems
CSI647 Aspect-oriented Software Development
CSI607 Information Retrieval

Other relevant Masters level courses as may be deemed necessary.

Semester III

CS Stream Courses

Core Courses

CSI700 Supervised Research and Dissertation

Other relevant Masters level courses as may be deemed necessary.

Semester IV

CS Stream Courses

Core Courses

CSI700 Supervised Research and Dissertation

Other relevant Masters level courses as may be deemed necessary.

Additional Optional Courses

Subject to the General regulation 40.18, with the approval of the departmental Board, additional core/optional course(s) can be introduced from within the field of Computing or selected from other relevant Master's level programmes in the university, as may be prescribed by the department from time to time, and such additional course(s) shall be advertised in the departmental hand book prior to the commencement of the semester during which this will take effect.

Audited Courses

Students can audit any undergraduate or postgraduate course as may be con-sidered necessary. Such audited course shall not count as part of normal course work in respect of credit earning.

75
MPhil and PhD Degrees in Computer Science and Computer Information Systems

1.0 Aims and Objectives
The aims and objectives of the proposed programs are:

a) To adequately address both the academic and industry higher level of computing knowledge and skills needs within a single program, through the integration of the two areas of computing specialties, i.e. Computer Science and Information Systems.

b) To increase the critical mass of higher caliber computing professionals and potential computing academics in the country in line with global trends. Also, to train higher-level computing personnel with greater potential for productive computing academic career and professional practice, a cadre of personnel that is in great demand but in short supply locally, regionally, and globally.

c) To develop lecturers who will contribute to enquiry, development and synthesis of new knowledge in the theory and research of computing and academia. The students who are in this program will also develop internationally, regionally, and nationally recognized independent research that contributes to the frontier of knowledge in today’s fast growing technology. They will also demonstrate the ability to present and defend research output to a critical audience.

2.0 Rationale for the Program

a) Botswana like many other countries is becoming more and more reliant on Information Technology in economic and social sectors. To keep up with the pressures or challenges of IT implementation and application the country needs to have skilled IT personnel. Maitlamo, Botswana’s National ICT Policy LEGISLATIVE FRAMEWORK & CHANGE REPORT Final Report, December 2004 aims to make the country’s economy competitive by creating an enabling environment for the growth of the ICT industry in the country and making Botswana a Regional ICT Hub. Government initiatives such as the Botswana Innovation Hub are focused on creating an environment where businesses could be developed through research and de-development. The objectives of the National ICT policy will be realized with skilled local manpower up to the level of research in areas of ICT. One of the factors that would attract International Companies to the Innovation Hub is an educated local workforce. The proposed programs will produce skilled workforce that could drive ICT developments.

b) Local tertiary institutions are looking towards the University of Botswana to increase the high calibre staff strength in their establishments together with research outputs. The University of Botswana seeks to be a centre of excellence by moving from a teaching Institution to a research Institution therefore the situation necessitates the need of high calibre manpower to lead in the research. The local institutions are also interested in starting research projects as shown by the high enrolment number of their academic staff members in our Masters programs.

c) The statistical analyses have been carried out in all three ways. These are: on-line access to the university websites, through personal contacts by getting there, and the data-survey done through an advertisement to fill the vacancy in the department. Based on them and the feedback taken from the honorable members of the advisory board, it was found that there were a very few MPhil/PhD programs running in Computer Science or Computer Information Systems being in the SADC region. Existing programs in the region and internationally are not easily accessible to local students due to a number of factors including high tuition fees, family and social commitments. The University of Botswana is in a better position to fill this gap and produce research graduates for its consumption as well as for other international institutions and industry through the proposed programs.

3.0 Career Opportunities
These programs will produce professionals at senior levels of operations, administration, management, design & planning and are expected to fill gaps in high demand areas such as computer auditing project management etc.

Career opportunities for computer scientists are, therefore, plentiful and varied at senior to very senior levels besides the academic ones. In fact, a competent Computer Scientist is employable in many positions that are traditionally associated with Computer Science. These
include but are not limited to: Computer Programmer or Analyst; Applications Programmer; Software Engineer; Network Administrator; Database Administrator; Computer Systems Consultant; Information Systems Manager; Operations Manager; Technical Consultant; Systems Analyst; Systems Development Manager; Project Manager, Sales and End-user Technical Support Manager or Consultant, Computer Science Academic or Researcher.

4.0 Departmental Regulations for MPhil/PhD Degree Programmes in Computer Science and Computer Information Systems

General Regulation 50.0** for the degrees of MPhil/PhD will apply.

4.1 MPhil Degree Program
The program of study shall be offered for the award of the Master of Philosophy in Computer Science and Master of Philosophy in Computer Information Systems by supervised research and course work both as indicated in General Regulation 41.1

4.2 PhD Degree Program
The program of study shall be offered for the award of the Doctor of Philosophy in Computer Science and Doctor of Philosophy in Computer Information Systems by supervised research only.

4.3 Entrance Requirements and Regulation
In line with the General Regulation 50.0** the following minimum entrance requirements shall apply:

a) In order to register for the MPhil degree, a candidate must discuss the proposed programme with the Department of Computer Science and then submit with the application form, an acceptable outline of the research, in addition to satisfying regulation 50.1**.

b) A candidate may be required to undergo a departmental assessment and evaluation in order to determine whether or not s/he is adequately qualified to undertake the MPhil program of study. On the basis of this assessment and evaluation, the departmental board shall make a recommendation whether a candidate is admissible or not admissible into the MPhil degree program in Computer Science/Computer Information Systems.

5.0 Submission of Application
The procedure for submitting the application for admission to the MPhil/PhD programmes shall be as stipulated in General Regulation 50.1** and 50.2** respectively.

6.0 Registration
The procedure for registration for the MPhil/PhD programmes shall be as prescribed in General Regulation 50.3**

A student shall register for and complete 24 credits of Thesis research for MPhil program.

A student shall register for and complete 72 credits of Thesis research for PhD program.

6.1 Transfer of Registration
The procedure of transfer of registration from MPhil to PhD or from PhD to MPhil programmes shall be as prescribed in General Regulation 50.7**

7.0 Award of the Master of Philosophy (MPhil) Degree
A student shall be eligible for the award of MPhil in Computer Science after satisfying all the requirements of the program as given in General Regulation 50.10**

7.0 Award of the Doctor of Philosophy (PhD) Degree
A student shall be eligible for the award of PhD in Computer Science or PhD in Computer Information System after satisfying all the requirements of the program as given in General Regulation 50.10**

9.0 Programme Structure
In line with the General Regulation
a) A student should take and pass, at MPhil. level, the designated course(s) recommended by the Department, as indicated in sections 14.1 and 14.2
b) In exceptional cases, the School of Graduate Studies, acting on a recommendation by the Department of Computer Science, shall exempt a student from such courses.
c) A student registered for MPhil/PhD will be required to present at least one Departmental seminar per semester.

9.1 Master of Philosophy (MPhil)
CS800 Supervised Research and Thesis in Computer Science (MPhil)
CS800 Supervised Research and Thesis in Computer Information Systems (MPhil)

9.2 Doctor of Philosophy (PhD)
CS900 Supervised Research and Thesis in Computer Science (PhD)
CS900 Supervised Research and Thesis in Computer Information Systems (PhD)

DEPARTMENT OF ENVIRONMENTAL SCIENCES

Master of Science Degree in Environmental Science

7.0 Departmental Regulations for Postgraduate Programmes in Environmental Science

7.1 General Provisions
Subject to the provisions of the General Academic Regulations and the Faculty of Science Special Regulations, the following Departmental Regulations shall apply:

7.2 Graduate Programmes and Titles of Graduate Degrees
The Department of Environmental Science offers Postgraduate Programmes leading to the award of the following degrees:

• A Master of Science Degree in Environmental Science for students enrolled in the Master of Science Programme as per Departmental Regulation 5.0
• A Master of Philosophy Degree in Environmental Science for students enrolled in the MPhil and PhD Programmes as per Departmental Regulation 6.0
• A Doctor of Philosophy Degree in Environmental Science for qualifying students in the MPhil and PhD Programmes as per Departmental Regulation 6.0

8.0 Master of Science Degree Programme in the Department of Environmental Science

8.1 Objectives
The objectives of the Master of Science Degree Programme in Environmental Science are as follows:

a) To stimulate in students a critical appreciation of the integrated nature of environmental problems and to present opportunities for them to understand the complex interactions between biophysical and socioeconomic environments;

b) To impart specialised knowledge and skills to students in particular areas of the national or regional environment within the context set by the above.

8.2 Justification
The management of the environment has become an important undertaking in the last 20 years. This is an area where environmental scientists have a major contribution to make as specialists with a critical appreciation of the integrated nature of the environment. The Master of Science Programme is justified in trying to provide individuals with the knowledge and skills that will allow them to carry out research on the complex relationships in the environment and to relate humans to their physical and cultural environment.

8.3 Career Opportunities
Career opportunities for Master of Science graduates are widespread in all the ministries, parastatals and NGOs working with environmental issues in Botswana. In addition, the academic profession has programmes at all levels that are expanding, requiring environmental scientists with analytical abilities at the Master of Science level.

8.4 Departmental Regulations for the Master of Science Degree in Environmental Science

8.5 Entrance Requirements
Applicants intending to study for the Master of Science Degree in Environmental Science should have a first degree from the University of Botswana or any other equivalent institution, with at least a good Second Class (Lower Division) or its equivalent in Environmental Science or any other cognate subject (e.g. Geography, Wildlife Management, Natural Resources Management, Forestry) approved by the Board of the Department of Environmental Science as a major subject.

8.6 Application and Registration
Application and registration procedures for this Programme shall be in accordance with the provisions of General Regulation 41.0.

8.7 Programme Structure

8.7.1 The Master of Science Degree Programme shall be offered on a full-time basis over a period of 4 semesters of study and on a part-time basis covering 6 semesters of study. The Programme consists of coursework and a Dissertation.

8.7.2 For full-time students, the coursework shall extend over the first 2 semesters, the vacation period, and the first half of the third semester of the period of study. The Dissertation shall be done over the rest of the third semester and the fourth semester. For part-time students, coursework shall be done during the fourth 4 semesters; directed readings will also be taken during the fourth semester, and the Dissertation shall be done in Semesters 5 and 6 of the period of study.
8.7.3 For full-time students, the coursework in the first 2 semesters of study shall consist of 4 compulsory courses: ENS 600, ENS 601, ENS 602 and 5 optional courses. For part-time students, ENS600, ENS 601, and ENS602 shall be taken together with 1 optional course during the first 2 semesters of the period of study. During the third and fourth semesters the other optional courses shall be taken. During the 5th and 6th semesters ENS 700 and ENS 701 shall be taken.

8.7.4 The Dissertation shall be based on a supervised original research project and shall normally be presented at the end of the fourth semester for full-time students and at the end of the sixth semester for part-time students. Extensions beyond this time can only be made on the recommendation of the Departmental Board with the approval of the Board of Graduate Studies.

8.7.5 Full-time students who have successfully completed all Level 600 courses at the end of the second semester of study shall enrol in the Level 700 courses.

8.8 Supervision
Supervision shall be as prescribed in General Regulation 41.9.

8.9 Period of Study
The full-time Master of Science Programme will normally take 4 semesters, while the part-time Programme will normally take 6 semesters.

8.10 Course Listings
All Master of Science courses carry 3 credits except for ENS 700: Research Proposal and ENS 701: Dissertation, which carry 9 and 15 credits respectively.

Full-time Master of Science Degree Programme

**Stream 1: Geospatial Science**

**Semester 1**
- Core courses: (6 credits)
  - ENS 600 Quantitative Techniques in Environmental Science
- ENS 601 Integrated Environmental Management
- Optional Courses (6 credits)
  - ENS 603 Specialist Directed Readings & Labs
  - ENS 610 GIS Analytical Methods (Pre: ENS 242, ENS 342, ENS 440, ENS 456 or equiv.)
  - ENS 611 Remote Sensing & Spatial Modelling (Pre: ENS 243, ENS 343, ENS 444 or equiv.)

**Any course from other specializations**

**Semester 2**
- Core courses: (3 credits)
  - ENS 602 Research Methodology
- Optional Courses (9 credits)
  - ENS 622 Selected topics in Environmental Economics (Pre: ENS 620 or equiv.)
  - ENS 623 Environmental Assessment & Audits
  - ENS 624 Environmental Legislation & compliance

**Any course from other specializations**

**Semester 3 & 4**
- Core Courses (24 credits)
  - ENS 700 MSc. Research Proposal
  - ENS 701 MSc. Dissertation

**Stream 2: Sustainable Development & Climate Change**

**Semester 1**
- Core Courses (3 credits)
  - ENS 600 Quantitative Techniques in Environmental Science
- ENS 601 Integrated Environmental Management
- Optional Courses (6 credits)
  - ENS 603 Specialist Directed Readings & Labs
  - ENS 630 Sustainable tourism Development
  - ENS 631 Agriculture & Environment
  - ENS 632 Advanced Climatology
  - ENS 633 Sustainable Cities & Environment

**Any course from other specializations**

**Semester 2**
- Core courses: (3 credits)
  - ENS 602 Research Methodology
- Optional Courses (9 credits)
  - ENS 634 Sustainable Wildlife Management
  - ENS 635 Environmental Hazards & Disaster management
  - ENS 636 Climate Change Vulnerability, Impacts & Resilience
  - ENS 637 Rural Development & Natural Resources Conservation
  - ENS 638 Population, Environment & Development

**Any course from other specializations**

**Semesters 3 & 4**
- Core Courses (24 credits)
  - ENS 700 MSc. Research Proposal
  - ENS 701 MSc. Dissertation

**Stream 3: Sustainable Development & Climate Change**

**Semester 1**
- Core Courses (6 credits)
  - ENS600 Quantitative Techniques in Environmental Science
  - ENS 601 Integrated Environmental Management
- Optional Courses (6 credits)
  - ENS 603 Specialist Directed Readings & Labs
  - ENS 630 Sustainable tourism Development
  - ENS 631 Agriculture & Environment
  - ENS 632 Advanced Climatology
  - ENS 633 Sustainable Cities & Environment

**Any course from other specializations**

**Semester 2**
- Core courses: (3 credits)
  - ENS 602 Research Methodology
- Optional Courses (9 credits)
  - ENS 634 Sustainable Wildlife Management
  - ENS 635 Environmental Hazards & Disaster management
  - ENS 636 Climate Change Vulnerability, Impacts & Resilience
  - ENS 637 Rural Development & Natural Resources Conservation
  - ENS 638 Population, Environment & Development

**Any course from other specializations**

**Semesters 3 & 4**
- Core Courses (24 credits)
  - ENS 700 MSc. Research Proposal
  - ENS 701 MSc. Dissertation

**Part-time Masters of Science Degree Programme**

**Stream 1: Geospatial Science**

**Semester 1**
- Core Courses (6 credits)
  - ENS 600 Quantitative Techniques in Environmental Science
  - ENS 601 Integrated Environmental Management
  - Optional Courses

**None**

**Semester 2**
- Core courses: (3 credits)
  - ENS 602 Research Methodology
- Optional Courses (3 credits)
  - ENS 612 GIS Modelling & Data Management (Pre: ENS 610 or equivalent)
  - ENS 613 Advanced Image Processing & Interpretation (Pre: ENS 243, ENS 343, ENS 444 or equiv.)
  - ENS 614 Remote Sensing & Spatial Modelling (Pre: ENS 243, ENS 343, ENS 444 or equiv.)
  - ENS 615 Digital Cartographic Visualization

**Any course from other specializations**

**Semester 3**
- Core Courses
  - none
- Optional Courses (6 credits)
  - ENS603 Specialist Directed Readings & Labs
  - ENS610 GIS Analytical Methods (Pre: ENS 242, ENS 342, ENS 440, ENS 456 or equiv.)
  - ENS611 Remote Sensing & Spatial Modelling (Pre: ENS 243, ENS 343, ENS 444 or equiv.)

**Any course from other specializations**

**Semester 4**
- Core courses:
  - None
- Optional Courses (6 credits)
  - ENS612 GIS Modelling & Data Management (Pre: ENS 610 or equivalent)
  - ENS 613 Advanced Image Processing & Interpretation (Pre: ENS 243, ENS 343, ENS 444 or equiv.)
  - ENS 614 Remote Sensing & Spatial Modelling (Pre: ENS 243, ENS 343, ENS 444 or equiv.)
  - ENS 615 Digital Cartographic Visualization

**Any course from other specializations**
Stream 2: Environmental Policy & Assessments

Semester 1
Core Courses (6 credits)
ENS 600 Quantitative Techniques in Environmental Science
ENS 611 Remote Sensing & Spatial Modelling
Optional Courses
None

Semester 2
Core courses: (3 credits)
ENS 622 Selected topics in Environmental Economics (Pre: ENS 620 or equiv.)
ENS 623 Environmental Assessment & Audits.
ENS 624 Environmental Legislation & compliance
Any course from other specializations

Semester 3
Core courses:
None
Optional Courses (6 credits)
ENS603 Specialist Directed Readings & Labs (Pre: ENS 242, ENS 342, ENS 440, ENS 456 or equiv.)
ENS 611 Remote Sensing & Spatial Modelling (Pre: ENS 243, ENS 343, ENS 444 or equiv.)
Any course from other specializations

Semester 4
Core Courses
None
Optional Courses (6 Credits)
ENS 603 Specialist Directed Readings & Labs
ENS 610 GIS Analytical Methods (Pre: ENS 242, ENS 342, ENS 440, ENS 456 or equiv.)
ENS 611 Remote Sensing & Spatial Modelling (Pre: ENS 243, ENS 343, ENS 444 or equiv.)
Any course from other specializations

Semesters 5 & 6
Core Courses (24 credits)
ENS 700 MSc. Research Proposal
ENS 701 MSc. Dissertation

Core Courses:
None
Optional Courses (6 Credits)
ENS 603 Specialist Directed Readings & Labs
ENS 610 GIS Analytical Methods (Pre: ENS 242, ENS 342, ENS 440, ENS 456 or equiv.)
ENS 611 Remote Sensing & Spatial Modelling (Pre: ENS 243, ENS 343, ENS 444 or equiv.)
Any course from other specializations

Stream 4: Environmental Resources Management

Semester 1
Core Courses (6 credits)
ENS 600 Quantitative Techniques in Environmental Science
ENS 601 Integrated Environmental Management
Optional Courses
None

Semester 2
Core Courses (3 Credits)
ENS 602 Research Methodology
Optional Courses (3 Credits)
ENS 603 Specialist Directed Readings & Labs
ENS 610 GIS Analytical Methods (Pre: ENS 242, ENS 342, ENS 440, ENS 456 or equiv.)
ENS 611 Remote Sensing & Spatial Modelling (Pre: ENS 243, ENS 343, ENS 444 or equiv.)
Any course from other specializations

Semester 3
Core Courses
None
Optional Courses (6 Credits)
ENS 603 Specialist Directed Readings & Labs
ENS 640 Advanced Hydrology (Pre: ENS 418 or ENS 418 or equivalent)
ENS 641 Range Resources Management (Pre: ENS 411 and ENS 412 or equivalent)
ENS 642 Applied Environmental Toxicology (Pre: ENS 348, ENS 447, ENS 448, ENS 420 or equiv.)
ENS643 Integrated Environmental Resource Management
Any course from other specializations

Semester 4
Core Courses
None
Optional Courses (6 Credits)
ENS644 Water Resources Management (Pre: ENS 417 & ENS 418)
ENS645 Geomorphology & Environmental Management
ENS646 Environmental Application of Soil Science (Pre: ENS 419 or ENS 420 or equiv.)
ENS647 Land-use Planning Management
ENS648 Pollution Control & Resource Recovery (Pre: ENS 348, ENS 420, ENS 447, ENS 448 or equiv.)
Any course from other specializations

Semesters 5 & 6
Core Courses (24 credits)
ENS 700 MSc. Research Proposal
ENS 701 MSc. Dissertation

Stream 3: Sustainable Development & Climate Change
Semester 1
Core Courses (6 Credits)
ENS 600 Quantitative Techniques in Environmental Science
ENS 601 Integrated Environmental Management
Optional Courses
None

Semester 2
Core Courses (3 Credits)
ENS 602 Research Methodology
Optional Courses (3 Credits)
ENS 634 Sustainable Wildlife Management
ENS 635 Environmental Hazards & Disaster management
ENS 636 Climate Change Vulnerability, Impacts & Resilience
ENS 637 Rural Development & Natural Resources Conservation
ENS 638 Population, Environment & Development
Any course from other specializations

Semester 3
Core Courses
None
Optional Courses (6 Credits)
ENS 603 Specialist Directed Readings & Labs
ENS 640 Advanced Hydrology (Pre: ENS 418 or ENS 418 or equivalent)
ENS 641 Range Resources Management (Pre: ENS 411 and ENS 412 or equivalent)
ENS 642 Applied Environmental Toxicology (Pre: ENS 348, ENS 447, ENS 448, ENS 420 or equiv.)
ENS643 Integrated Environmental Resource Management
Any course from other specializations

Semester 4
Core Courses
None
Optional Courses (6 Credits)
ENS644 Water Resources Management (Pre: ENS 417 & ENS 418)
ENS645 Geomorphology & Environmental Management
ENS646 Environmental Application of Soil Science (Pre: ENS 419 or ENS 420 or equiv.)
ENS647 Land-use Planning Management
ENS648 Pollution Control & Resource Recovery (Pre: ENS 348, ENS 420, ENS 447, ENS 448 or equiv.)
Any course from other specializations

Semesters 5 & 6
Core Courses (24 credits)
ENS 700 MSc. Research Proposal
ENS 701 MSc. Dissertation

8.11 Assessment and Examination
8.11.1 Level 600 courses shall be assessed through continuous assessment alone or through a combination of continuous assessment and written examination at the end of the semester in which they are taken.
8.11.2 Continuous assessment shall be based on a combination of essay assignments, seminar presentations, tests, and practical exercises, the balance of these varying as determined and approved by the Department of Environmental Science Board.
8.11.3 The formal written examination of each course shall take the form of a paper of 3 hours’ duration. The ratio between continuous assessment and examina-tion shall be 1:1.
8.11.4 ENV 700 shall be internally assessed through seminar presentations. ENV 701 will be internally and externally assessed. The courses ENV 700 and ENV 701 may be supplemented with either minor amendments or major amendments.

8.12 Progression
8.12.1 In order to proceed to Level 700 courses, the student must have attained at least a mark of 55 percent for each of the courses taken at Level 600.
8.12.2 In order to do ENV 701: MSc. Dissertation, the candidate has to pass ENV 700.

8.13 Dissertation
8.13.1 The Dissertation shall be as specified in General Regulation 41.9.
8.13.2 The Dissertation shall only be submitted for examination after written consent from the supervisor on the recommendation of the internal Dissertation committee.

MPhil and PhD Degrees in Environmental Science
9.0. Master of Philosophy and Doctor of Philosophy Degree Programmes

9.1 Objectives
The objectives of the MPhil and PhD Degree Programmes in Environmental Science are as follows:
a) To provide a deeper understanding of the
inter-relationship between biophysical and socioeconomic environmental processes;

b) To impart advanced research and analytical skills and knowledge for competent inquiry within selected fields of specialisation;

c) To develop in the student the ability to provide leadership in academic pursuits and on research and policy-making teams.

9.2 Justification

Leaders in various aspects of Environmental Science in the country and throughout the Southern African region are still in great demand as issues on the environment are expanding in importance. The MPhil and PhD Programmes produce scientists with the ability to provide leadership in both academic and professional fields.

9.3 Career Opportunities

The fields in which graduates of the MPhil and PhD Programmes have the opportunity to be employed in are similar to those listed above for the Master of Science Degree Programme. The graduates of this Programme, however, have a higher ability to provide leadership in the same fields.

10.0 Departmental Regulations for MPhil and PhD Degree Programmes in Environmental Science

The Department of Environmental Science offers MPhil and PhD Degrees by supervised research only. General Regulations 50.0 shall apply.

10.1 Entrance Requirements

10.1.1 For eligibility to apply for admission to the MPhil and PhD Programmes in Environmental Science, General Regulation 50.1 and 50.2 shall apply.

10.1.2 In accordance with General Regulation 50.1 and 50.2, to be admitted to the MPhil or PhD Programmes, applicants must have completed a Major/Minor, Combined Major/Major, or Single Major Degree Programme in Environmental Science or a cognate discipline (e.g. Geography, Natural Resources Management, Wildlife Management, Forestry, etc.) of the University of Botswana or equivalent institution. Applicants must also have obtained at least a second class (upper division). Candidates whose degrees are not Single Major must attain an upper second grade in the portion of the Degree that is relevant to Environmental Science.

10.1.3 In accordance with General Regulation 50.2, all applicants who do not possess an MPhil in Environmental Science or a cognate discipline (e.g. Geography, Natural Resources, Wildlife Management, Forestry) from the University of Botswana or any other recognised university, or equivalent academic institution, must initially register for that Degree and subsequently transfer registration from the MPhil to the PhD degree after satisfying the requirements for such a transfer in accordance with General Regulation 2. Possession of the minimum qualification, however, does not guarantee ad-mission into either the MPhil or PhD Programme, and the Board of the Department of Environmental Science reserves the right not to recommend an applicant for admission. The Department may require any applicant to submit to an interview before admission to the MPhil or PhD Programmes. In addition, depending on the applicant’s area of interest, the interview panel may include persons from outside the Department.

10.2 Application and Registration

Application and registration procedures for this Programme shall be in accordance with the provisions of General Regulation 50.3.

10.3 Programme Structure

In accordance with General Regulation 50.0, the MPhil and PhD Programmes are offered primarily through supervised research.

The courses are:

ENW 800 Supervised Research and Thesis in Environmental Science (MPhil)
ENW 900 Supervised Research and Thesis in Environmental Sciences (PhD)

DEPARTMENT OF GEOLOGY

Master of Science Degree Programme in Hydrogeology

3.0 Departmental Regulations for the Master of Science Degree Programme in Hydrogeology

3.1 Entrance Qualifications

3.1.1 The normal minimum entrance requirements for admission to the Master of Science Degree Programme in Hydrogeology shall be one of the following:

a) A Bachelor of Science Degree from this or any recognized university with at least a 2 (ii) or equivalent in either Geology as a Single Major, or Geology as a Combined Major with Environmental Science, Physics, Chemistry, or a cognate subject approved by the Departmental Board;

b) A Bachelor of Science Degree from this or any recognized university with at least a 2 (ii) or equivalent in either Chemistry, Mathematics, Physics, Civil Engineering, Environmental Science or any other field deemed relevant by the Departmental Board;

c) A Bachelor of Science Degree with a pass grade or equivalent in the subjects as listed above and at least 2 years relevant work experience.

3.1.2 In all cases, the Department reserves the right to recommend admission to the Master of Science Programme.

3.2 Additional Requirements

Candidates who do not have a background in the Geosciences will be required to take and pass an introductory level course in Geology (GED101, refer to undergraduate programme course listings) in addition to the Master’s Degree courses.

3.3 Programme Structure

3.3.1 The Master’s Degree Programme shall be by coursework and Dissertation.

3.3.2 The coursework shall extend over the first and second semesters and shall consist of 8 courses.

3.3.3 Each course shall consist of a combination of lectures and/or practical sessions.

3.3.4 The Dissertation shall be based on a supervised original research project extending over the third and fourth semesters and shall be equivalent to 24 credits. The research findings shall normally be presented at the end of the fourth semester of study.

3.3.5 All students enrolled for the Master of Science Degree Programme in Hydrogeology must take and pass the 7 core courses, 1 optional course and a supervised Dissertation.

1.0 Aims

The MPhil/PhD programme in Geosciences and Earth Sciences is designed to produce graduates who are competent and interested in both advanced theoretical and practical Earth Science studies. The programme will enable students to acquire advanced knowledge and skills through instructions and research.

2.0 The Objectives of the MPhil/PhD Programme are:

- General

- Geology

- Hydrogeology

- Stochastic Hydrology

- Applied Geophysical Exploration

- Groundwater Modelling

- Integrated Water Resources Management

SCHOOL OF GRADUATE STUDIES ACADEMIC CALENDAR 2019-2020

10.2 Application and Registration

Application and registration procedures for this
4.2 Admission Requirements

MPhil/PhD students will receive training in field techniques, methods of data collection, data analysis, laboratory techniques, computer graphics, research planning, and presentation skills, and in more specialist techniques.

The MPhil/PhD degree programme in Geology shall be in accordance with the General Regulations 50.1 and 50.2 of the Degrees of Master of Philosophy (MPhil) and Doctor of Philosophy (PhD) of the University of Botswana as captured in the School of Graduate Studies Academic Calendar for 2014/2015.

4.2.1 MPhil Programme

Admission into the MPhil (Geology) programme shall be in accordance with Regulation 50.1 of the General Regulations for the Degrees of Master of Philosophy (MPhil) and Doctor of Philosophy (PhD).

4.2.2 PhD Programme

Admission into the PhD (Geology) programme shall be in accordance with Regulation 50.2 of the General Regulations for the Degree of Doctor of Philosophy (PhD).

4.3 Submission of Application for admission

The procedure for submitting applications for admissions to the PhD (Geology) programme shall be as stipulated in the General Regulations 50.2.

4.4 Registration

The procedure for registration for the PhD (Geology) programme shall be as stated in General Regulations 50.3.

4.5 Programme Structure

Further to the provisions of the General Regulations, all candidates are expected to complete satisfactorily the following requirements:

4.5.1 MPhil Programme

GEO800 Research Methodology or equivalent - 3 credits (Core)
GEO801 MPhil Thesis (Geology-Specialization) - 24 credits

4.5.2 PhD Programme

GEO900 PhD Thesis (Geology-Specialization) - 72 credits

4.6 Duration of the Programme

The duration of the programme shall be as prescribed in General Regulation 50.5.2 and 50.5.3.

4.7 Programme of Study

The programme of study shall be as stipulated in General Regulation 50.6.

4.8 Transfer of Registration

Transfer of registration from MPhil to PhD and from PhD to MPhil shall be in accordance with General Regulation 50.7. Candidates registered for the MPhil programme may transfer to the PhD programme after the completion of the MPhil proposal.

4.9 Thesis

The thesis shall be submitted as specified in General Regulation 50.8.

4.10 Examinations

Examinations shall be conducted in accordance with the provisions of General Regulations 50.9.

4.11 Notification of Results and Award of Degree

The notification of results and award of degree shall be in accordance with the provisions of General Regulations 50.10 (UB Graduate Calendar 2014/2015).

4.12 Specialization available in the Programme of study

MPhil and PhD research degrees would be offered on a full-time and part-time basis.

(a) Economic Geology/Mineral Exploration

(b) Geochemistry

(c) Geophysics/Applied Geophysics

(d) Hydrogeology

(e) Mineralogy and Petrology

(f) Sedimentology

(g) Structural Geology

(h) Geotechnical Studies/ Engineering Geology

DEPARTMENT OF MATHEMATICS

Master of Science Degree in Mathematics

The Department of Mathematics offers the MSc, MPhil and PhD Degrees.

3.1 Entrance Requirements

To be admitted to the Master's Degree Programme in Mathematics, the applicant should have completed either the Single Major or Combined Major Degree Programme in Mathematics offered at this University or equivalent in-stitution and obtained at least a second class, second division, or an equivalent qualification.

3.2 Programme Structure

3.2.1 The Master of Science Degree Programme shall be offered on a full-time and/or part-time basis.

3.2.2 The Programme shall be offered in the modes as specified in General Regulation 40.12, which are, coursework only, coursework and Research Essay, or coursework and Dissertation.

3.2.3 Subject to General Regulation 41.5.1 the programme duration will normally be 4 semesters.

3.2.4 The Programme will consist of essentially two streams, Pure Mathematics and Applied Mathematics leading to an award of a Master of Science Degree in Mathematics.

3.3 Course Listings

3.3.1 Pure Mathematics streams

3.3.1.1 Pure Mathematics Course Work Only

Semester 1

Core Course
MAT 621 Advanced Mathematical Analysis
Optional Courses
MAT 601 Logic and Set Theory
MAT 623 Advanced Functional Analysis
MAT 631 Geometry of Curves and Surfaces
MAT 641 Mathematical Methods

Semester 2

Optional Courses
MAT 602 Coding Theory
MAT 616 Lattice Theory
MAT 622 Orthogonal and Fourier Series
MAT 632 Differential Geometry
MAT 644 Calculus of Variation

Semester 3

Optional Courses
MAT 611 Module Theory
MAT 613 Commutative Rings
MAT 615 Representation Theory of Groups
MAT 633 Algebraic Topology I
MAT 641 Ordinary Differential Equations
MAT 649 Mathematical Software
MAT614 Commutative Algebra
MAT608 Advanced Topics in Pure Mathematics
MAT612 Homological Algebra
MAT614 Commutative Algebra
MAT634 Algebraic Topology II

3.3.1.2 Pure Mathematics Course Work and Research Essay

Semester 1
Core Course
MAT 621 Advanced Mathematical Analysis

Optional Courses
MAT 601 Logic and Set Theory
MAT611 Module Theory
MAT 623 Advanced Functional Analysis
MAT631 Geometry of Curves and Surfaces
MAT633 Algebraic Topology I

Semester 2
Optional Courses
MAT 602 Coding Theory
MAT 604 Ergodic Theory
MAT 606 Algebraic Number Theory
MAT 608 Advanced Topics in Pure Mathematics
MAT611 Representation Theory of Groups
MAT641 Ordinary Differential Equations
MAT649 Mathematical Software
MAT 644 Calculus of Variation

Semester 3
Optional Courses
MAT611 Commutative Rings
MAT615 Representation Theory of Groups
MAT641 Ordinary Differential Equations
MAT649 Mathematical Software
MAT651 Mathematical Methods

Semester 4
Optional Courses
MAT702 Research Essay

3.3.1.3 Pure Mathematics Course Work and Supervised Research and Dissertation

Semester 1
Core Course
MAT 621 Advanced Mathematical Analysis

Optional Courses
MAT 601 Logic and Set Theory
MAT611 Module Theory
MAT613 Homological Algebra
MAT614 Commutative Algebra
MAT616 Lattice Theory
MAT 622 Orthogonal and Fourier Series
MAT632 Algebraic Topology II
MAT644 Calculus of Variation

Semester 3
Optional Courses
MAT642 Constrained Optimization
MAT644 Calculus of Variation
MAT652 Compressible Flow Theory
MAT654 Hydrodynamic Stability
MAT672 Bayesian Inferences
MAT676 Applied Stochastic Processes

Semester 4
Optional Courses
MAT642 Constrained Optimization
MAT644 Calculus of Variation
MAT652 Compressible Flow Theory
MAT654 Hydrodynamic Stability
MAT656 Magnetohydrodynamics
MAT658 Stochastic Differential Equations
MAT662 Theory of Pricing in Financial Economics
MAT672 Bayesian Inferences
MAT674 Mathematical Statistics II
MAT676 Applied Stochastic Processes

3.3.2 Applied Mathematics streams

3.3.2.1 Applied Mathematics Course Work only

Semester 1
Core Course
MAT 621 Advanced Mathematical Analysis

Optional Courses
MAT 623 Advanced Functional Analysis
MAT641 Ordinary Differential Equations
MAT643 Approximation Theory
MAT645 Numerical Linear Algebra
MAT651 Mathematical Methods
MAT675 Statistical Analysis of Reliability

Semester 2
Optional Courses
MAT642 Constrained Optimization
MAT644 Calculus of Variation
MAT652 Compressible Flow Theory
MAT654 Hydrodynamic Stability
MAT672 Bayesian Inferences
MAT676 Applied Stochastic Processes

Semester 3
Optional Courses
MAT647 Unconstrained Optimization
MAT649 Mathematical Software
MAT651 Mathematical Methods
MAT653 Computational Fluid Dynamics
MAT655 Viscous Flow Theory
MAT661 Theory of Arbitrage in Financial Economics

Semester 4
Optional Courses
MAT702 Research Essay

3.3.2.2 Applied Mathematics Course Work and Research Essay

Semester 1
Core Course
MAT 621 Advanced Mathematical Analysis

Optional Courses
MAT 623 Advanced Functional Analysis
MAT641 Ordinary Differential Equations
MAT649 Approximation Theory
MAT647 Unconstrained Optimization
MAT649 Mathematical Software
MAT653 Computational Fluid Dynamics
MAT655 Viscous Flow Theory
MAT661 Theory of Arbitrage in Financial Economics
MAT671 Multivariate Statistical Analysis
MAT673 Mathematical Statistics Computing I
MAT675 Statistical Analysis of Reliability

Semester 2
Optional Courses
MAT642 Constrained Optimisation
MAT644 Calculus of Variation
MAT648 Interval Iterative Methods
MAT656 Magnetohydrodynamics
MAT658 Stochastic Differential Equations
MAT662 Theory of Pricing in Financial Economics
MAT667 Theory of Arbitrage in Financial Economics
MAT671 Multivariate Statistical Analysis
MAT673 Mathematical Statistics Computing I
MAT675 Statistical Analysis of Reliability

Semester 3
Optional Courses
MAT 702 Research Essay

3.4 Assessment and Progression

3.4.1 During the coursework, each of the graduate courses will be assessed by combining continuous assessment and a final examination in the ratio 1:1.

3.4.2 The regulations governing the supervised research and dissertation shall be as specified in General Regulations 41.9–41.31. The dissertation will be examined by an internal examiner and an external examiner, both of whom will be nominated by the Department.

MPhil and PhD Degrees in
Mathematics

Departmental Regulations for MPhil/PhD Degrees in Mathematics

The Department offers MPhil and PhD Degrees by supervised research only. General Regulation 50.0 shall apply.

Entrance Requirements

Master of Philosophy Degree Programme (MPhil)

a) In order to register for the MPhil Degree, a candidate must discuss the proposed programme with the Department and then submit with the application form an acceptable outline of the research.

b) A candidate may be required to undergo a Departmental assessment and evaluation in order to determine whether or not he/she is adequately qualified to undertake the MPhil programme of study.

On the basis of this assessment and evaluation, the Departmental Board shall make a recommendation whether a candidate is admissible or not admissible into the MPhil Programme in Physics.

Doctor of Philosophy Degree programme (PhD)

To register for a PhD Degree, a candidate must have obtained an appropriate Degree (Master of Science or MPhil), in accordance with Regulation 50.2.

Programme Structure

The MPhil and PhD Programmes consist of 2 courses:

MAT801 Supervised Research and Thesis in Mathematics (MPhil)
MAT900 Supervised Research and Thesis in Mathematics (PhD)

DEPARTMENT OF PHYSICS

Master of Science Degree in Physics

Departmental Regulations for the Master of Science Degree in Physics

5.1 Entrance Requirements

5.1.1 To be admitted to the Master's Degree Programme in Physics, the applicant should have completed either the Combined Major/Minor, Combined Major Major or the Single Major Degree Programme in Physics offered at this University or equivalent institution, and obtained at least a second class, second division, or an equivalent qualification.

5.2 Programme Structure

5.2.1 The Master of Science Degree Programme shall be by coursework and Dissertation, with the normal duration as described in General Regulation 41.5.1.

5.2.2 Coursework will take 2 semesters and shall consist of 12 credits of core courses and 12 credits of optional courses from 1 of the 4 different streams given below. Additional streams may be added in the future depending on Departmental research capabilities and national interests.

5.2.2.1 Courses

Core Courses
PHY611 Classical Mechanics and Fluid Mechanics
PHY612 Electrodynamics
PHY613 Quantum Mechanics
PHY614 Thermal and Statistical Physics

Optional Courses
Candidates must take 12 credits from any 1 of the following streams:

Stream A: Energy and Environmental Physics
PHY620 Energy Physics
PHY621 Environmental Physics
PHY622 Agricultural Physics
PHY623 Atmospheric Physics
PHY624 Radiation Physics
PHY642 Electronic Instrumentation
PHY643 Independent Study Course
PHY650 Mathematical Methods for Physics

Stream B: Geophysics
PHY630 Physics of the Earth
PHY631 Seismology
PHY632 Exploration Geophysics
PHY633 Geophysics Field Experiments
PHY623 Atmospheric Physics
PHY642 Electronic Instrumentation
PHY643 Independent Study Course
PHY650 Mathematical Methods for Physics

Stream C: Instrumentation
PHY640 Microprocessor Systems and Applications
PHY641 Physics of Semiconductor Devices
PHY642 Electronic Instrumentation
PHY643 Independent Study Course
PHY650 Mathematical Methods for Physics

Stream D: Theoretical Physics
PHY650 Mathematical Methods for Physics
PHY651 Field Theory
PHY652 Particle Physics
PHY653 Nuclear Structure Theory
PHY654 Condensed Matter Physics
PHY655 General Relativity and Cosmology
PHY656 Quantum Optics [3]
PHY643 Independent Study [3]

Dissertation
PHY700 Supervised Research and Dissertation in Physics

5.3 Progression to Dissertation

5.3.1 Students must have passed all the papers of the coursework in order to be permitted to enrol for PHY 700 Supervised Research and Dissertation in Physics, which shall begin during the long vacation following the first 2 semesters and shall continue for the following 2 semesters.

5.3.2 Students can proceed with probation as described in General Regulation 41.8.2.

5.4 Supervision

Supervision shall be as prescribed in General Regulation 41.9.

5.5 Assessment and Examination

5.5.1 During the coursework, each of the graduate courses will be assessed by combining continuous assessment and a final examination in the ratio 1:1, except for PHY643 Independent Study and PHY633 Geophysics Field Experiments, which will be assessed by continuous assessment only. All examinations shall be of 2 hours' duration unless stated otherwise.

5.5.2 The overall course grade shall be computed as General Regulation 41.7.4. The Cumulative GPA shall be computed in accordance with General Academic Regulation 00.86.

5.5.3 The Dissertation will be examined by an internal examiner and an external examiner, both of whom shall be nominated by the Department. An oral
FACULTY OF SOCIAL SCIENCES

Department of Economics 85
Department of Law 87
Department of Political and administration Studies 88
Department of Population Studies 92
Department of Social Work 94
Department of Sociology 97
Department of Statistics 100
examination to defend the Dissertation may be arranged.

**MPhil and PhD Degrees in Physics**

6.0 Departmental Regulations for MPhil/PhD Degrees in Physics

The Department of Physics offers MPhil and PhD Degrees by supervised research only. General Regulation 50.0 shall apply.

6.1 Entrance Requirements

6.1.1 Master of Philosophy Degree Programme in the Department of Physics

a) In order to register for the MPhil Degree, a candidate must discuss the proposed programme with the Department of Physics and then submit with the application form an acceptable outline of the research, in addition to satisfying Regulation 50.1.

b) A candidate may be required to undergo a Departmental assessment and evaluation in order to determine whether or not he/she is adequately qualified to undertake the MPhil programme of study. On the basis of this assessment and evaluation, the Departmental Board shall make a recommendation whether a candidate is admissible or not admissible into the MPhil Programme in Physics.

6.1.2 PhD Programme

To register for a PhD Degree, a candidate must have obtained an appropriate Degree (Master of Science or MPhil), in accordance with Regulation 50.2.

6.2 Submission of Applications

The procedure for submitting applications for admission

**DEPARTMENT OF ECONOMICS**

**Master of Arts Degree in Economics**

Special Regulations for the Master of Arts Degree in Economics and Applied Economics

Subject to the provisions of General Regulations for Master's Degrees, the following Special Regulations shall apply to the MA (Economics) and MA (Applied Economics) Degree Programmes.

Entry Requirements

The normal minimum entrance requirement shall be a Bachelor's Degree of this University with at least a second-class second division, or a comparable or equivalent qualification from any other recognised University or equivalent institution. Students shall normally have taken at least 48 credit hours in Economics. Applicants seeking admission into the Master of Arts Degree Programme in Economics shall normally have taken at least 48 credit hours in Economics. Applicants shall have obtained an appropriate Degree (Master of Science or MPhil) in accordance with Regulation 50.2.

Programme Structure

The Master of Arts Degree Programme, for both part-time and full-time studies, shall be by coursework and Dissertation.

Master of Arts in Economics (Full-Time)

The Master of Arts in Economics Degree full-time courses shall consist of the equivalent of 12 semester courses taken over a period of 2 years as follows:

- All courses at this level are core

Semester 1

ECO 601 Advanced Microeconomics I
ECO 603 Advanced Macroeconomics I
ECO 605 Advanced Mathematical Economics
ECO 611 Policy Analysis

Semester 2

ECO 602 Advanced Microeconomics II
ECO 604 Advanced Macroeconomics II
ECO 606 Advanced Econometrics
ECO 615 Research Methods (core)

Semester 3

ECO 719 Dissertation Proposal (core)
Students shall take 2 optional courses.

Semester 4

ECO 720 Dissertation (15, core)
Optional Courses (3 credits)
ECO 701 Development Economics
ECO 702 Planning and Project Appraisal
ECO 703 International Economics
ECO 704 International Finance
ECO 705 Agricultural Economics
ECO 706 Resources and Environmental Economics
ECO 707 Labour Economics
ECO 708 Financial Institutions and Markets
ECO 709 Corporate Finance and Investment
ECO 710 Economics of Public Enterprises
ECO 711 Monetary Theory and Practice
ECO 712 Industrial Economics
ECO 713 Public Finance
ECO 714 Economic Theory and Institutions
ECO 715 Health Economics
ECO 716 Managerial Economics

AERC funds permitting, all full-time second year MA students who have not failed any course in the first year, will attend the Joint Facility for Electives (JFE) in Nairobi, Kenya. Students whose sponsors are able to pay their travel and subsistence costs, may be allowed to go to the JFE. Students not going to the JFE will be offered Electives in the Department. The JFE is part of the Collaborative Masters Programme in Economics (CMAP) of the African Economics Research Consortium (AERC), based in Nairobi, Kenya.

**Master of Arts in Economics Degree (Part-Time)**

The part-time Master of Arts Economics Degree course shall consist of the equivalent of 12 semester courses taken over a period of 3 years as follows:

- All courses at this level are core

Semester 1

ECO 611 Advanced Microeconomics I
ECO 605 Advanced Mathematical Economics

Semester 2

ECO 601 Advanced Microeconomics II
ECO 606 Advanced Econometrics
ECO 615 Research Methods (core)

Semester 3

ECO 603 Advanced Macroeconomics I
ECO 611 Policy Analysis

Semester 4

ECO 604 Advanced Macroeconomics II
Plus: 2 optional courses

Semester 5

ECO 719 Dissertation Proposal (core)

Semester 6

ECO 720 Dissertation (core)

**Assessment**

Evaluation of students’ performance in the MA coursework shall normally be based on continuous assessment and a final examination at the end of the semester. The ratio of continuous assessment to final examination shall be 1:1.

**Dissertation**

In order to commence work on the Dissertation, the student shall have presented an acceptable and viable proposal to the Department of Economics. The student shall present the Dissertation proposal to the Department of Economics Board, and following the presentation the Departmental Board, shall convene a meeting to consider the recommendation of the supervisor to either approve or reject the proposal. In the event that the Dissertation proposal has not been approved, the resubmission shall be within 3 months from the date of the communication. If, upon resubmission, the Dissertation proposal is rejected by the Departmental Board, the student shall be discontinued from the Pro-gramme.

**Award of Degree**

A student shall be eligible for the award of the Master of Arts Degree upon completion of all coursework plus 15 credit hours for ECO7 20 awarded upon acceptance of the Dissertation by examiners.

**MPhil/PhD in Economics**

1. **Introduction**

The Department of Economics is an integral part of the Faculty of Social Sciences at the University of Botswana. Since August 1991, the Department has successfully administered an MA degree programme in Economics, and is a member of the African Economic Research Consortium (AERC). The Department now seeks to launch an MPhil/PhD programme in Economics.

2. **Aims**

The MPhil/PhD programme in Economics is designed to produce graduates who are competent in economic theory and practice. The programme will enable students to acquire knowledge and skills through instructions and research.

3. **The Objectives of the MPhil/PhD Programme**

(a) To enable Botswana and other students from elsewhere to have the opportunity for advanced training in economics.

(b) To provide a forum for the exchange of research output through projects, theses and seminars.

(c) To enhance the understanding of the Botswana economy and other regional economies through case studies, research and publications.

(d) To contribute to the Staff Development Programme of the University of Botswana.

(e) To contribute to the Vision and Mission of the University of Botswana.

4. **The Rationale for the MPhil/PhD Programme**

To date, over 150 students have graduated from the MA programme since it began in 1991, 56 of whom were local students. In recent years, the number of local students admitted into the programme has been greater than that of foreign students, signifying the increasing popularity of the programme within the country. The 19 years in which the programme has successfully been administered epitomize the maturity of the Department of Economics at UB. In essence, the PhD programme will be a logical extension of the MA economics. Through the
programme, the Department will provide Batswana and other students the opportunity to obtain the highest qualification in economics.

The Department is involved in several collaborative efforts, including the AERC. The AERC was established in 1988 and its principal objective is to strengthen capacity in research and training in Sub-Saharan Africa. The training component of the AERC is through the Collaborative MA Programme (CMAP) and the Collaborative PhD Programme (CPP) in economics. Participating universities collaborate, among others, by offering electives jointly. The Department of Economics at the University of Botswana is a member of CMAP. In the AERC, participating universities have been placed into categories A and B. Category A universities send their students to category B universities because the latter comprise those universities which are deemed to have adequate capacity to offer core courses (Macroeconomics, Microeconomics and Quantitative Methods) and meet jointly determined and enforced standards. The University of Botswana Economics Department has since 1991 been classified as category B because of its ability to offer the core courses and dissertation supervision in CMAP.

In April 2007, the Department of Economics was reviewed externally by two eminent economists. The reviewers, among others, observed that the Department’s success in running the MA programme should be the basis for offering an MPhil/PhD programme in Economics at the University of Botswana. In section 2.3.4 of his report, one of the reviewers stated:

One important room for improvement is the lack of the PhD programme in Economics. This report would like to encourage the Department and the University to build on the current strength of the Department and the existing successful CMAP in order to offer a PhD programme in Economics, through the Collaborative PhD Programme (CPP) co-ordinated by the AERC, as an award university during the next review of Departments of Economics in Africa. Clearly, this strategy is also consistent with the Vision of the University as ‘a leading academic centre of excellence in Africa and the world’.

The rationale for establishing an MPhil/PhD programme in Economics is the Department’s success in the MA programme and the recommendations of the external reviewers. This is also in line with UB’s strategy of intensifying research performance through increasing and enhancing student research training (UB Strategy for Excellence, 2008). Although, initially, the MPhil/PhD programme will not be part of the CPP, establishing the programme at the University of Botswana will enable the Department to meet the prerequisites for applying to join the CPP at a later stage.

The proposed doctoral degree in Economics is much more than an extension of an Master’s programme with learning outcomes that go beyond the completion of courses. The programme will require students to demonstrate advanced analytical skills and knowledge, linking teaching and research in the field of economics to develop and adapt the vital skills that facilitate successful graduate students to grow and mature as professionals. With this perspective, the PhD programme will enable students to use applications of economic and statistical methods to solve real world problems in agriculture, forestry, life sciences, finance sector, industry, and beyond.

Through the various courses in the programme, students will acquire the ability to integrate knowledge from formal courses, research activities, independent studies, service learning, and other forms of experience. This framework of programme implementation fosters the University’s commitment to advance knowledge and understanding through research and its application to improvement of economic and social development, as well as high impact engagement with the private sector, the professions, and government.

The programme staff is competent and devoted to helping graduate students achieve academic, intellectual, personal, and career goals. The overall programme design offers a challenging environment of scholarship, creativity, and intellectual freedom for the graduate students, who will be encouraged to work closely with the programme staff and participate in academic activities as colleagues in the School.

5. Needs Assessment
There has been revealed preference for the MPhil/PhD programme in economics. Enquiries about the programme have come from governmental and non-governmental organizations within and outside Botswana.

The Department of Economics also seeks to benefit from the facilities provided by the Collaborative PhD Programme (CPP) for Sub-Saharan Africa. The CPP is categorized into host and non-host degree-awarding universities (DAUs). The DAUs admit students and send them to the regional host to do core courses, before the students take electives at a joint facility for electives (the CPP JFE) in Nairobi, Kenya. Through thesis workshops, the CPP ensures that PhD students complete their theses and produce high quality work. There are PhD thesis workshops at the proposal, post-field-work, and draft stages of the theses. The non-host DAUs supervise PhD theses for the students they admit and award PhD degrees to those who successfully complete the programme.

The Department of Economics at the University of Botswana will gain if it eventually becomes a degree-awarding university in the CPP. The Department will be able to utilize the facilities of the CPP, such as the CPP JFE and the CPP thesis workshops. If UB is a degree-awarding university, it means that the catchment area of potential candidates for the MPhil/PhD in Economics programme in Southern Africa, with the AERC offering scholarships to some students to enrol at UB. To become part of the CPP, however, the Department needs to have a running PhD programme. Therefore, subsequent to the launch of the PhD programme, the Department of Economics at UB intends, by 2014, to be a host degree-awarding university in the CPP.

6. Career Opportunities
Employment opportunities for PhD holders in Economics exist in both the public and private sectors, at local, regional and global levels. Studies have shown that the demand for PhD holders in Africa exceeds the supply. This is particularly the case for PhD holders in economics.

7. Proposed Intake
The proposed intake is a target of three students each year, during the first four years of the programme. After the initial four years, the Department will review the programme and make recommendations to the School of Graduate Studies on the number of candidates to be admitted to the programme each year.

8. Resource Implications
Staff
The Department of Economics has the required staff to offer the PhD in economics initially. The Department’s approved establishment is twenty-six. Currently at post there is one professor, three associate professors, eight senior lecturers and thirteen lecturers, one of whom is on study leave doing a doctoral degree. Of the twenty-five members now available, twelve are at the rank of senior lecturer and above. The professors and senior Lecturers will have a pivotal role in the launch and sustainability of the PhD programme. After the initial four years, student enrollment into the programme is expected to rise; then there will be need for two more associate professors/professors to augment the existing establishment.

Library resources
The success of the MPhil/PhD programme will depend, among others, on the availability of scholarly literature in economics. The UB library has adequate selection of leading journals in economics. However, this list will be up-dated and if necessary, augmented by the inter-library loan facility.

Facilities
The introduction of the PhD programme will require additional facilities such as computers, software, data sets, study rooms or cubicles for the students. In the short run, existing facilities will be adjusted to accommodate the students. In the long run, the construction of other buildings in UB should cater for such things as study carrels, cubicles for PhD students.

9. Departmental Regulations for the MPhil/PhD degree in Economics

9.1 Preamble
The MPhil/PhD degree programme in Economics shall be in accordance with the General Regulations 50.1 and 50.2 for the Degrees of Master of Philosophy (MPhil) and Doctor of Philosophy (PhD) (UB Graduate Calendar 2009/2010).

9.2 Admission Requirements

9.2.0 MPhil Programme
Admission into the MPhil (Economics) programme shall be in accordance with Regulation 50.1 of the General Regulations for the Degrees of Master of Philosophy (MPhil) and Doctor of Philosophy (PhD). Notwithstanding the provisions of General Regulation 50.1, candidates admitted into the MPhil (Economics) programme should have a Masters degree.

9.2.1 PhD Programme
Admission into the PhD (Economics) programme shall be in accordance with Regulation 50.2 of the General Regulations for the Degree of Doctor of Philosophy (PhD).

9.3 Submission of Application for Admission
The procedure for submitting applications for admissions to the PhD (Economics) programme shall be as stipulated in General Regulations 50.2.

9.4 Registration
The procedure for registration for the PhD (Economics) programme shall be a stated in General Regulations 50.3.

9.5 Programme Structure
Further to the provisions of the General Regulations, all candidates are expected to complete satisfactorily the following requirements:

9.5.1 MPhil Programme
First Semester:
FSS 800 Advanced Social Science Research Methods (3 credits)
ECO 801 Seminar Topics in Advanced Microeconomics (3 credits)
ECO 802 Seminar Topics in advanced...
the Department becomes Degree awarding as the core
The economies of teaching will be solved in future if
and will therefore be manageable with the current
as seminar presentations by each MPhil/PhD student
50.10 (UB Graduate Calendar 2009/2010).
in accordance with the provisions of General Regulations
of the MPhil proposal.
9.7 Programme of Study
The programme of study shall be as stipulated in General Regulation 50.6
9.8 Transfer of Registration
Transfer of registration from MPhil to PhD and from PhD
to MPhil shall be in accordance with General Regulation 50.7. Candidates registered for the MPhil programme
may transfer to the PhD programme after the completion of the MPhil proposal.
9.9 Thesis
The thesis shall be submitted as specified in General Regulation 50.8
9.10 Examinations
Examinations shall be conducted in accordance with the provisions of General Regulations 50.9
9.11 Notification of Results and Award of Degree
The notification of results and award of degree shall be
in accordance with the provisions of General Regulations 50.10 (UB Graduate Calendar 2009/2010).
NOTE
The ‘taught’ courses involve guided readings as well
as seminar presentations by each MPhili/PhD student
and will therefore be manageable with the current
resources even though the students are few in number.
The economies of teaching will be solved in future if
the Department becomes Degree awarding as the core
courses can be taught at the host university.

**DEPARTMENT OF LAW**

Master of Laws (LLM) Degree

Special Regulations
Subject to the provisions of General Academic Regulation 0.01 and General Regulations for Master’s
degrees 40.1 and 41.0, the following Special Regulations shall apply to the LLM degree programme.

4.1 Entrance Qualifications
4.1.1 The normal minimum entrance requirement shall be a Bachelor of Laws (LLB) degree of this University with at least a second-class second division, or a comparable or equivalent qualification from any other recognized University or equivalent institution.
4.1.2 The admission of applicants with qualifications other than a Bachelor of Laws degree of this University as specified in Special Regulation 4.1.1 shall be subject to the approval of the Department.

4.2 Programme Structure

4.2.1 Duration
The normal duration for the LLM degree programme shall be as follows:

a) A minimum of 3 to a maximum of 6 semesters on a full-time basis.

b) A minimum of 6 to a maximum of 12 semesters on a part-time basis.

4.2.2 Programme Options
The LLM degree programme shall be offered by one of the following modes:

a) LLM by Coursework and Research Essay; and

b) LLM by Coursework and Dissertation.

4.3 LLM by Coursework and Research Essay

4.3.1 Students registered for this option shall be required to complete 24 credits from courses approved by the Departmental Board and 12 credits for a satisfactory Research Essay. The degree shall be awarded upon completion of a minimum of 36 credits from these two components.

4.3.2 Full-time students registered for this option shall take a minimum of 12 credits of coursework per semester over a period of 2 semesters.

4.3.3 Part-time students registered for this option shall take 6 credits of coursework per semester over a period of 4 semesters.

4.3.4 Each student shall take at least 18 out of the total of 24 credits for the coursework from a list of approved LLM courses. Where necessary this may include a course or courses on advanced legal theory.

4.3.5 With the approval of the Department Board, and subject to the applicable programme or subject regulations, each student may take up to 6 credits or equivalent in courses offered in subject areas other than law at the University of Botswana. Where appropriate this may include a course or courses on Social Research methods.

4.3.6 Subject to changes approved from time to time, the list of LLM courses shall be as follows:

**Optional Courses**

**LAW 601** Advanced Legal Theory and Jurisprudence

**LAW 602** Advanced Company Law

**LAW 603** Advanced Labour Law

**LAW 604** Advanced Social Security Law

**LAW 605** Advanced Property Law

**LAW 606** Comparative Constitutional Law

**LAW 607** Law and Public Administration

**LAW 608** International Criminal Law

**LAW 609** International Human Rights Law

**LAW 610** World Trade Law and Developing Countries

**LAW 611** Regional Integration Law in Africa

**LAW 612** International Finance and Investment Law and Developing Countries

**LAW 613** International Environmental Law

**LAW 614** Law and the Environment in Southern Africa

**LAW 615** Alternative Dispute Resolution

**Core Courses**

**LAW 701** LLM Dissertation

**4.3.7 Assessment of Coursework**

4.3.7.1 Evaluation of students’ performance in the LLM coursework shall normally be based on continuous assessment and a formal examination at or before the end of the semester.

4.3.7.2 Continuous Assessment
Continuous assessment shall normally be based on at least one of the pieces of work indicated in Academic General Regulation 0.81. The ratio of Continuous Assessment to the formal examination shall be 1:1

4.3.7.3 Formal Examination
The duration, format and mode of the formal examination for each approved LLM course shall be as approved by the Departmental Board.

4.3.8 Research Essay

4.3.8.1 The Research Essay shall be identified as LAW 701 and shall contribute 12 credits to the total number of 36 credits for the award of the LLM under this option.

4.3.8.2 Except as otherwise herein provided, General Regulations for Master’s Degrees (41.10) shall apply to the Research Essay component of this LLM option.

4.3.8.3 Research Area
Students registered for this option shall normally be required to indicate proposed research areas for approval by the Departmental Board upon completion of a minimum 12 credits from the coursework.

4.3.8.4 Research Essay Supervisor
The Department shall normally nominate a supervisor for each student before the completion of the coursework. The supervisor shall normally be a member of the Department of Law with some expertise in the area in which the student has registered to conduct research.

4.3.8.5 Departmental Advisory Committee
The Department may also nominate two other persons who together with the Research Essay supervisor shall form a Departmental Advisory Committee. The additional advisory committee members may be from another Department of the University or from an approved external institution.

4.3.8.6 The role of the Research Essay supervisor and the advisory committee shall be to monitor and guide all aspects of the student’s research work and the production of the Dissertation. The additional advisory committee members shall also be eligible for appointment as Internal Examiners, but the Research Essay supervisor shall not be eligible for appointment as an Internal Examiner.

4.3.8.7 Notice of Submission
A student shall normally give six weeks’ notice to the Head of Department of the date of submission of the Research Essay together with its final title.

4.4 LLM by Coursework and Dissertation

4.4.1 Students registered for this option shall complete a minimum of 12 credits from courses approved by the Departmental Board for the LLM programme and 24 credits for a Dissertation approved by Examiners. The degree shall be awarded upon completion of a minimum of 36 credits from these two components.

4.4.2 Full-time students registered for this option shall normally complete 12 credits for the coursework in the first semester.

4.4.3 Part-time students registered for this option shall normally take 6 credits of coursework per semester over a period of 2 semesters.

4.4.4 Each student shall normally take at least 9 out of the total of 12 credits for the coursework from the list of approved LLM courses referred to in Special Regulation 4.3.6. Where necessary this may include a course or courses on advanced legal theory.

4.4.5 With the approval of the Department Board, and subject to the applicable subject or programme regulations, each student registered for this option...
DEPARTMENT OF POLITICAL AND ADMINISTRATIVE STUDIES

Master of Public Administration (MPA)

4.4.6 Assessment of Coursework
The coursework for this option shall be assessed in the same manner and subject to the General and Special Regulations applicable to the LLM by coursework and Research Essay option.

4.4.7 Progression and other Recommendations
General Regulation for Master's Degrees (41.8), shall apply to progression from semester to semester and to other related recommendations.

4.4.8 Dissertation
4.4.8.1 The Dissertation shall be identified as course LAW702 and shall contribute 24 credits to the minimum total number of 36 credits for the award of the LLM by coursework and Dissertation

4.4.8.3 Research Area
Students shall be registered for this option subject to consultation with and approval by the Department of the general area of research on which the Dissertation shall focus

4.4.8.4 Dissertation Supervisor
The Departmental Board shall normally nominate a Dissertation supervisor for each student registered for this option before the end of the first semester. The supervisor shall normally be a member of the Department of Law with some expertise in the area in which the student has registered to conduct research.

4.4.8.5 Departmental Advisory Committee
The Departmental Board may also nominate two persons who together with the Dissertation supervisor shall form a Departmental Advisory Committee. The additional advisory committee members may be from another Department of the University or from an approved external institution.

4.4.8.6 The role of the Dissertation supervisor and the advisory committee shall be to monitor and guide all aspects of the student's research work and the production of the Dissertation. The additional advisory committee members shall also be eligible for appointment as Internal Examiners, but the Dissertation supervisor shall not be appointed as Internal Examiner.

4.4.8.7 Notice of Submission
A student shall normally give six weeks' notice to the Head of Department of the date of submission of the Dissertation together with its final title.

Non-Law Students
Subject to the approval of the Departmental Board, students registered in other graduate programmes of the University shall be entitled to take any LLM course that is indicated in the course description, which is not exclusively designed for graduate law students.

4.4.9 Service Courses
Subject to changes approved from time to time to the list of LLM courses, students registered for the LLM options shall not be entitled to take the following courses offered to students registered in other graduate programmes:

LAW 651  Legal Issues in Counselling
LAW 652  Ethics and Law in Health Care

specialization courses (for MPA General option), or 6 credits from the preferred specialization core courses (for MPA specialization), and any 6 additional credits from the MPA specialization core/optional courses and/or elective courses; and write a research essay, which shall be equivalent to 12 credits.

The following shall be the Common Core Courses:
MPA 601  Foundations of Public Management and Institutions
MPA 602  Public Policy and Administration
MPA 603  Research Methods & Computer Applications 1 (Co-code/DVC607/POP 604)
MPA 604  Economics for Development Management

The Specialization Core Courses shall be:
Human Resources Management:
MPA 605  Indusrtial Relations in the Public Sector
MGT 745  Human Resource Development
MPA 606  Human Resource Management
MGT 640  Behavior in Organizations

Local Government Management:
MPA 607  Intergovernmental Relations and Cooperative Governance
MPA 608  Local Government Management
MPA 609  Public Budgeting and Finance
DVS 610  NGOs and Development.

Public Policy and Administration:
MPA 609  Public Budgeting and Finance
MPA 610  State and Development Policy in the Developing Countries
MPA 611  Development Management and Poverty Alleviation
MPA 612  Project Management and Evaluation
MPA 614  Aid and Debt Management

Public Financial Management:
MPA 609  Public Budgeting and Finance
MPA 613  Public Sector Financial Management
MPA 612  Project Management and Evaluation
MPA 614  Aid and Debt Management

Environmental Resources Management:
Any four (4) from the following:
MPA 615  Environmental and Natural Resources Management
ENV 610  Integrated Environmental Analysis And Management I
ENV 612  Integrated Environmental Analysis And Management II
ENV 628  Wildlife Management & Tourism Management
ENV 629  National Resource Use Policies
MPA 638  Global Environmental Politics

The Optional Courses shall be selected from the following:
MPA 611  Development Management and Poverty Alleviation
MPA 610  State and Development Policy in the Developing Countries
MPA 701  Occupational Health and Safety
MPA 702  Local Government Financial Management
MPA 703  The Politics of Public Budgeting
MPA 704  Public Sector Accounting
MPA 705  Environmental Management and Human Health
MPA 706  Politics of Water Resources Management
MPA 707  Public Policy and Micro enterprise Development
MPA 708  Organization Development & Leadership
MPA 709  Organization Theory and Practice
MPhil/PhD in Public Administration

Departmental Regulations

1.0 General Provisions

1.1 The Department of Political and Administrative Studies offers an MPhil and PhD Degree in Public Administration by supervised research for those meeting the requirements of General Regulations 50.0 as well as Departmental regulations which stipulate course work as outlined below.

1.2 Prerequisite: Candidates selected for admission to the MPhil/PhD degree programme who have not done and passed Research Methods course (or its equivalent) at Master’s degree level shall be required to take and pass MPA603 Research Methods and Computer Applications course during the first semester of registration.

MPhil Degree:

2.0 Entrance Requirements

2.1 General Regulation 50.1 shall apply with Special Departmental Regulations.

2.2 A candidate for admission in to the MPhil/PhD degree programme who has not done and passed Research Methods course (or its equivalent) at Master’s degree level shall be required to take and pass MPA603 Research Methods and Computer Applications course during the first semester of registration.

3.0 Programme Structure:

3.1 In addition to the provisions of the General Regulations, all candidates are expected to complete satisfactorily the following requirements:

3.1.1 First Semester:
- FSS800 Advanced Social Science Research Methods 3 credits
- PAD800 Guided Readings and Seminars in Public Administration 12 credits

3.1.2 Second Semester:
- PAD801 Thesis Proposal 12 credits
- PAD802 Supervised Research and Thesis in Public Administration 24 credits

4.0 MPhil/PhD Course Descriptions:

- FSS 800 GUIDED READINGS AND SEMINARS IN PUBLIC ADMINISTRATION (12)

PhD Degree in Public Administration

1.0 Entrance Requirements:

1.1 The following General Regulations S0.2 shall apply:

(a) Subject to paragraph "a" applicants shall normally be admitted into an MPhil programme.

(b) After successful completion of a maximum of two semesters of full-time academic work (or the equivalent) the programme, the Department shall recommend the student either for transfer to the PhD programme or for continuation as an MPhil candidate.

(c) When transfer to the PhD programme occurs, the candidate shall be applied toward the 72 credits required for completion of PhD degree.

(d) Students of previous research experience may be admitted directly into a PhD programme, upon recommendation of the Departmental Board and approved by the School of Graduate Studies.

2.0 PhD Programme Structure:

2.1 In addition to the provisions of the General Regulations, all candidates are expected to complete satisfactorily the following requirements (except those who have successfully completed Part I of MPhil programme and have been selected by the Departmental Board/ Graduates Studies Board to transfer to the Part II of PhD programme).

2.1.1 First Semester:
- FSS800 Advanced Social Science Research Methods 3 credits
- PAD800 Guided Readings and Seminars in Public Administration 12 credits

2.1.2 Second Semester:
- PAD801 Thesis Proposal 12 credits

3.0 Programme Structure:

3.1 In addition to the provisions of the General Regulations, all candidates are expected to complete satisfactorily the following requirements:

3.1.1 First Semester:
- FSS800 Advanced Social Science Research Methods 3 credits
- PAD800 Guided Readings and Seminars in Public Administration 12 credits

3.1.2 Second Semester:
- PAD801 Thesis Proposal 12 credits
- PAD802 Supervised Research and Thesis in Public Administration 24 credits

4.0 MPhil/PhD Course Descriptions:

- PAD 800 GUIDED READINGS AND SEMINARS IN PUBLIC ADMINISTRATION (12)

This course will require in-depth readings by the student under the supervision of a staff member designated by the Department to acquire a firm grounding in the disciplinary theories and issues of Public Administration.
In addition, the student will be required to undertake readings specifically related to the proposed theme of research. This course will end with presentation by the student of two seminars to the Department on topics to be advised by the supervisor. The Departmental Board will have to be satisfied with performance of the candidate based on the recommendation of the supervisor.

PAD 801 THESIS PROPOSAL (12)

The thesis proposal will be prepared by the student under the guidance of a supervisor designated by the Department. The proposal will include inter alia background to the study, statement of the research problem, objectives, justification, literature review, hypotheses, central research questions, research methodology, and limitations. It is a requirement that the proposal be presented to the Department for approval before the student is able to proceed to Part II of the MPH/PhD programme.

Master of Arts in Politics and International Relations

Regulations for the Master of Arts in Politics and International Relations (MAPIR)

1.0 Preamble
Subject to Academic General Regulations, and the Faculty of Social Sciences Special Regulations, the following special regulations shall apply.

2.0 Degree Programme
The programme of study shall be offered for the award of the Master of Arts in Politics and International Relations (MAPIR).

3.0 Entrance Qualifications
3.1 The minimum entrance requirements shall be a Bachelor's degree in the Social Sciences with at least a second class second division or equivalent. Preference shall be given to majors in Political Science or an associated discipline.

3.2 Applicants who hold a university degree other than in the Social Sciences, may be admitted if they passed with at least second class, second division, or its equivalent, and with at least two years relevant work experience. Such applicants may be required to attend an interview and/or take a qualifying examination.

3.3 Work experience in areas covered by the programme will be taken into account, but will not outweigh formal academic qualifications.

4.0 Programme Structure
4.1 The Master's degree shall be offered as follows: option one (course work and dissertation); option two (course work and research essay); option three (course work only).

4.2 To successfully complete the programme a student shall be required to obtain a total of 48 credits.

4.3 There shall be a total of eight core courses of 3 credits each.

4.4 A student pursuing course work and dissertation (option one) shall be required to complete 24 credits of core courses and successfully complete POL 719 Dissertation, which is equivalent to 12 credits. In addition, a student shall be required to demonstrate a capacity for independent research and obtain an average of at least 60% in core course work in order to take the dissertation option.

4.5 A student who chooses to do course work and research essay shall in addition to the 24 credits of core courses and 12 credits of options, take POL 718 Research Essay, which shall be equivalent to 12 credits.

4.6 A student pursuing course work only (option three) shall be required to complete 24 credits of core courses and 24 credits of optional courses.

4.7 A student shall complete the core courses before embarking on the dissertation or research essay.

4.8 The following shall be the required Core Courses:

<table>

5.0 Duration of the Programme
5.1 The normal length of the programme shall be four semesters by full-time study and six semesters for part-time study.

6.0 Dissertation and Research Essay
6.1 A student shall be required to submit a research topic to the head of the PAS Department before the completion of course work and a dissertation proposal shall be presented to the Departmental Board for consideration and approval.

6.2 Only once a proposal has been approved by the Department Board can a student be considered to be formally pursuing this option.

6.3 Supervision and examination of dissertation and research essays shall be governed by Academic General Regulations 40.7 to 40.7.10.

6.4 The dissertation will be graded in order to promote excellence in students' research.

7.0 Assessment and Examinations
7.1 The assessment of a student shall be based upon participation in class discussion, one or more written pieces of work, and a final examination at the end of the semester in which the course is taken, except Dissertation (POL 719) and Research Essay (POL 718), which will be governed by Academic General Regulations 40.73.

7.2 The Department reserves the right to review the mode of assessment from time to time, and shall specify mode of assessment prior to any intake or at the start of the semester in which the course is taken.

7.3 All examination question papers and examination scripts shall be moderated.

7.4 The ratio between assessed written work and final examination shall be 1:1.

7.5 Passing a course and calculation of cumulative GPA shall be in accordance with Academic General Regulations 40.533 and 40.532.

8.0 Progression from Semester to Semester
8.1 Progression shall be governed by Academic General Regulations 40.61 to 40.63.

9.0 Award of the Degree
9.1 The MAPIR degree shall be awarded to the student on successful completion of all programme requirements.

Master's Degree of Research and Public Policy (MRPP)

1.0 Aims and Objectives

The vision underpinning the Master of Research and Public Policy (MRPP) is the value of strengthening the production of social science researchers so that they may contribute to public policy development in Sub-Saharan Africa. The programme will go a long way in providing for the development of competencies in research and public policy and will therefore generate a cadre of professionals able to work in a wide variety of settings including but not limited to government bodies, think tanks, civil society organisations, regional and international organisations, media and universities. MRPP graduates should be able to produce social science research that can contribute to public policy and good governance, and also be able to utilise research evidence in public policy development. At the end of the programme, all graduates will be able to demonstrate:

a) An advanced knowledge of different conceptual and methodological approaches to social science.
3.0 Target Group
This programme is designed to develop the research skills of all the people who are involved in public policy formulation, implementation and research. It will cater for officers in public and private organisations, media, universities, Non-Governmental Organisations, community based organisations and students from the SADC region. Government sponsored employees are expected to constitute a significant percentage of the students which will greatly contribute to the sustenance of the programme.

4.0 Departmental Regulations For The Master Of Research And Public Policy (MRPP)

4.1 Preamble
Subject to the Academic General Regulations, departmental special regulations shall apply.

4.2 Master’s Degree Programme
The programme of study shall be offered for the award of the Masters of Research and Public Policy (MRPP).

4.3 Entrance Requirements
In line with the General Academic Regulation 41.3.1 the minimum entrance requirement shall be a Bachelor’s degree with at least a second class lower division (GPA 2.8) or equivalent. In exceptional cases where applicants have very strong work experience but do not meet the minimum academic standards, the Department of PAS may decide to deem the applicant eligible for consideration. The MRPP is designed to appeal across disciplines. For example, a medical student interested in health policy can apply and be admitted because a variety of disciplinary and experiential backgrounds will enrich the programme.

5.0 Programme Structure
The MRPP programme shall have two graduate pathways. These are the “research pathway” and the “policy practice pathway.” The former is for students who are primarily interested in doing policy relevant research who may aspire to undertake advanced scholarship, teach in African universities and/or work in research think tanks and other types of research organisations. The latter is for students primarily interested in using research as policy practitioners who aspire to influence, inform or shape public policy, through work in national and sub-national governments, think tanks, advocacy organisations, media, private sector as well as regional and international organisations. Interaction among students involved in both pathways will provide a richer learning experience for all. Many of the needed competencies for both pathways are identical. The programme architecture allows for each student to customise their learning experience through their choice of courses, field experience and dissertation.

The programme shall be offered through course work, workshops, field experience and dissertation. Course work, which will be undertaken in semesters 1 and 2, is meant to give students the theoretical tools for research using a mix of uniform course content with localised course content. E-learning materials are to form an integral part of the course delivery and will provide Lecturers with an opportunity to bring international practices and experience into the classroom as well as enable students to interact across MRPP universities thus advancing the University of Botswana’s internationalisation policy. During the last two semesters (i.e. 3 and 4), students will be expected to write and present a dissertation to demonstrate integration of learning experiences from course work, field experience and workshops. The programme structure for the two pathways is illustrated below.

### A) Research Pathway

#### Semester 1
Core Courses

- MRP 600: Qualitative Research Methods For Public Policy
- MRP 601: Quantitative Research Methods For Public Policy

#### Semester 2
Core Courses

- MRP 602: Policy Development And Analysis
- MRP 603: Governance And Politics Of Public Policy
- MRP 604: Social Science Foundations For Public Policy

Optional Courses

- MRP 607: Advanced Qualitative Methods

### B) Policy Practice Pathway

#### Semester 1
Core Courses

- MRP 600: Qualitative Research Methods For Public Policy
- MRP 601: Quantitative Research Methods For Public Policy

#### Semester 2
Core Courses

- MRP 602: Public Policy Development And Analysis
- MRP 603: Governance And Politics Of Public Policy
- MRP 604: Social Science Foundations For Public Policy

Optional Courses

- MRP 607: Advanced Qualitative Methods

### Core Courses

- MRP 605: Economics For Public Policy
- MRP 606: Ethics In Research And Public Policy
- MRP 611: Political Economy Of Public Policy
- MRP 701: Research Policy And Public Interface
- MRP 702: Gender, Social Diversity, Equality & Public Policy
- MRP 703: Leadership And Public Policy
- MRP 704: Field Work
- MRP 705: Dissertation

### Core Courses

- MRP 700: Applied Policy Analysis
- MRP 701: Research Policy And Public Interface
- MRP 702: Gender, Social Diversity, Equality & Public Policy
- MRP 703: Leadership And Public Policy
- MRP 704: Social Science Foundations For Public Policy
- MRP 705: Dissertation

### Core Courses

- MRP 700: Field Work
- MRP 705: Dissertation

### Core Courses

- MRP 704: Field Work
- MRP 705: Dissertation

### Core Courses

- MRP 600: Qualitative Research Methods For Public Policy
- MRP 601: Quantitative Research Methods For Public Policy
- MRP 602: Public Policy Development And Analysis
- MRP 603: Governance And Politics Of Public Policy
- MRP 604: Social Science Foundations For Public Policy

### Core Courses

- MRP 605: Economics For Public Policy
- MRP 606: Ethics In Research And Public Policy
- MRP 609: Applied Policy Analysis

### Core Courses

- MRP 600: Qualitative Research Methods For Public Policy
- MRP 601: Quantitative Research Methods For Public Policy
- MRP 602: Public Policy Development And Analysis
- MRP 603: Governance And Politics Of Public Policy
- MRP 604: Social Science Foundations For Public Policy

### Core Courses

- MRP 605: Economics For Public Policy
- MRP 606: Ethics In Research And Public Policy
- MRP 609: Applied Policy Analysis
A field work, with a maximum of eight weeks, will be undertaken at the end of semester 2. It seeks to expose students to new and real world environments and issues. It will also be used to facilitate data collection for the dissertation as well as afford students future employment opportunities with the host organisations. The field work will be awarded eight (8) credits from the overall 24 credits awarded for the dissertation. Each student will be expected to present a record of the activities undertaken during the eight weeks. Furthermore, the host organisations and the students’ supervisors will submit reports for students to be awarded the eight credits.

6.0 Duration Of The Programme
The programme shall be covered over a period of four (4) semesters on a full-time basis and six semesters on a part-time basis.

7.0 Award Of Master’s Degree
A student shall be eligible for the award of Master’s degree of Research and Public Policy (MRPP) after satisfying all the programme requirements.

### MPhil/PhD in Political Science

#### Departmental Regulations

1.0 General Provisions

1.1 The Department of Political and Administrative Studies offers an MPhil and PhD Degree in Public Administration by supervised research for those meeting the requirements of General Regulations 50.0 as well as Departmental regulations which stipulate course work as outlined below.

1.2 Prerequisite: Candidates selected for admission into the MPhil/PhD degree programme who have not done and passed Research Methods course (or its equivalent) at Master’s degree level shall be required to take and pass MPA603 Research Methods and Computer Applications course during the first semester of registration.

#### MPhil Degree

2.0 Entrance Requirements

2.1 General Regulation 50.1 shall apply with Special Departmental Regulations.

2.2 A candidate for admission in to MPhil programme will be required to have a Master’s Degree in Political Science or in the related discipline.

2.3 Candidates without a Masters qualification, but with a strong undergraduate degree in Political Science or related discipline, may be admitted, as provided Departmental Regulations.

#### PhD. Degree in Political Science

1.0 Entrance Requirements

1.1 The following General Regulations 50.2 shall apply:

50.2.1 Applicants who have obtained appropriate Master’s degree with course work and research are eligible to apply

50.2.2 (a) Subject to paragraph “a” applicants shall normally be admitted into an MPhil programme.

(b) After successful completion of a maximum of two semesters of full-time academic work (or the equivalent) the programme, the Department shall recommend the student either for transfer to the PhD programme or for continuation as an MPhil candidate.

(c) When transfer to the PhD programme occurs, the credits accumulated as an MPhil student shall be applied toward the 72 credits required for completion of PhD degree.

(d) Applicants the PhD degree with previous research experience may be admitted directly into a PhD programme, upon recommendation of the Departmental Board and approved by the School of Graduate Studies.

2.0 PhD Programme Structure: Part I

2.1 In addition to the provisions of the General Regulations, all candidates are expected to complete satisfactorily the following requirements:

2.1.1 FirstSemester: FSS800 Advanced Social Science Research Methods 3 credits

POL800 Guided Readings and Seminars in Political Science 12 credits

(Two Seminars on Selected Topics)

2.1.2 Second Semester: POL801 Thesis Proposal 12 credits

2.1.3 Part II

POL802 Supervised Research and Thesis in Political Science 24 credits

4. Duration of MPhil Programme:

Programme Structure MPhil Part I

4.1 Full-time candidates are expected to meet the Part I requirements within two semesters and part-time candidates within three semesters.

Programme Structure MPhil Part II

POL803 Supervised Research and Thesis in Political Science for MPhil 24 credits

DEPARTMENT OF POPULATION STUDIES

Master of Arts Degree in Population Studies

3.0 Master of Arts Degree [Population Studies]

Subject to the provisions of the General Academic Regulations 000 and the General Regulations for Master’s Degrees 400, the following Special Regulations shall apply:

3.1 Programme Structure

The Programme shall be offered for the award of a Master of Arts Degree In Population Studies.

3.2 Entrance Qualifications

3.2.1 The normal minimum entrance requirements shall be a Bachelor’s Degree of this or any other recognised University or equivalent institution with at least a second class, second division or its equivalent or a Post Graduate Diploma in Population Studies.

3.2.2 A student with a Post Graduate Diploma in Population Studies may be exempted from certain courses that will be determined by the Department of Population Studies.

3.2.3 Candidates with a “pass” Degree or equivalent who have at least 2 years relevant work experience are admissible.
3.3 Programme Structure

3.3.1 The Master's Degree Programme shall be by course work and a Research Essay or course work and Dissertation as stipulated in General Regulation 40.12.

3.3.2 The coursework and Research Essay option shall involve taking and passing 24 credits of core courses, 12 credits of optional courses and POP 721 Research Essay, which shall be equivalent to 12 credits.

3.3.3 The coursework and Dissertation option shall involve taking and passing 24 credits of core courses and POP 720 Dissertation, which shall be equivalent to 24 credits.

3.3.4 To successfully complete the Programme, a student shall be required to obtain a total of 48 credits.

3.3.5 A student shall have the choice of either specialising in Demography or Population Studies.

4.0 Master of Arts Degree (Demography Specialisation)

Core Courses (24 credits)
- POP 602 Demographic Methods
- POP 603 Computing in Population Analysis
- POP 604 Methods of Social Science Research
- POP 605 Collection, Evaluation and Adjustment of Demographic Data
- POP 606 Advanced Demographic Techniques
- POP 607 Methods of Population Estimates and Projections
- POP 610 Mathematical Demography
- POP 613 Basic Epidemiological Techniques

Research Essay option only:
- POP 601 Population and Development: An Analytic Approach
- POP 611 IEC in Population and Development
- POP 614 Population, Law, Policies and Programmes
- POP 701 Integrating Population into Development Planning
- POP 702 Population, Environment and Development

Plus any 4 of the following optional courses (12 credits)
- STA 672 Multivariate Analysis

4.1 Master of Arts Degree (Population Studies Specialisation)

Core Courses (24 credits)
- POP 601 Populations and Development: An Analytical Approach
- POP 602 Demographic Methods
- POP 603 Computing in Population Analysis
- POP 604 Methods of Social Science Research
- POP 605 Foundations of Health Policy
- POP 614 Population, Law, Policies and Programmes
- POP 703 Gender, Population and Development
- POP 704 Migration, Urbanisation and Development

Research Essay option only:
- POP 606 Advanced Demographic Techniques
- POP 607 Methods of Population Estimates and Projections
- POP 611 Information, Education and Communication in Population and Development
- POP 701 Integrating Population into Development Planning
- POP 702 Population, Environment and Development

4.2 MPhil/PhD in Population Studies

6.0 Aims and Objectives

The MPhil and PhD degrees are intended to provide advanced knowledge and understanding of the theories and procedures in the discipline of Population Studies including advanced training in critical appraisal, statistical analysis of demographic and socio-economic data, study design and protocol development.

Further, the MPhil/PhD programme is aimed to equip students with knowledge, skills and applied competencies to do independent demographic research that contributes to new knowledge and understanding in Population Sciences and to prepare students for working in universities, government departments and national and international research organizations.

6.1 Specific objectives

- To equip students with the state- of -the art knowledge and techniques in Population Studies in order to prepare them to function as practicing independent demographers in academic, public and private organizations, including self employment.
- To provide rigorous training and a solid foundation for the development of analytical, conceptual and theoretical skills required for conducting demographic research.
- To help students develop the practical, intellectual and technical skills necessary for making linkages among conceptual issues, theoretical issues and empirical methodological concerns pertaining to demography and related disciplines.

7.0 Academic Regulations

The Master of Philosophy (MPhil) and the Doctor of Philosophy (PhD) degrees in Population Studies are post-graduate programmes carried out through supervised research.

7.1 Preamble

Unless otherwise specified, the School of Graduate Studies (SGS) General regulations 50.1 and 50.2 shall apply for the programme. The MPhil/PhD degree Programme is envisaged to carry out through supervised research, preceded by preparatory course work deemed necessary by the Departmental Board.

7.2 The Department of Population Studies shall offer an MPhil / PhD Degree in Population Studies by supervised research and coursework for those meeting the requirements of SGS General Regulations 50.0.

8.0 MPhil Degree in Population Studies

8.1 Entrance Requirements

8.1.1 School of Graduate Studies (SGS) General Regulation 50.1 shall apply.

8.1.2 A candidate for admission into M. Phil programme will be required to have a Master's Degree in Population Studies/ Demography or a related discipline as approved by the Departmental Board.

8.1.3 Candidates must have shown a potential to do independent research as evidenced by his/her past record especially at Master's level.

8.1.4 Candidates without a Masters qualification, but with a strong undergraduate degree in Population Studies or related discipline, may be admitted, as provided for under SGS General Regulation 50.1.

8.2 Programme Structure:

Part I

8.2.1 In addition to the provisions of the General Regulations, all candidates are expected to complete satisfactorily the following course requirements:

8.2.2 First Semester:
- POP 800 Recent Advances in Population Studies (6 credits)
- FSS 800 Advanced Social Science Research Methods (3 credits)

8.2.3 Second Semester:
- POP 802: Guided Readings and Seminars in Population Studies (6 credits)
- POP 803: Thesis Proposal (9 credits)

Part II

8.2.4 POP 804: Supervised Research and Thesis for MPhil in Population Stud-ies (24 credits)

8.3 Duration of MPhil Programme
8.3.1 Full-time candidates are expected to meet the Part I requirements within two Semesters and part-time candidates within four semesters.

Progression to Part II
8.3.2 At the successful completion of Part I a candidate shall either proceed to Part II of the MPhil Programme (6.2.4) or will be allowed to transfer registration for Part II of the PhD programme on the recommendation of the Departmental Board and approval by the Graduate Studies Board.

9.0 PhD Degree in Population Studies
9.1 Entrance Requirements:
The SGS General Regulations 50.2 shall apply:
For instance:
9.1.1 Applicants who have obtained an appropriate Master's Degree (MSc, MA, MPhil or equivalent) with coursework component and are eligible to apply.
9.1.2 a)Subject to paragraph “d”, applicants shall normally be admitted into an MPhil programme.
b) After completion of a maximum of two semesters of full-time academic work (or the equivalent) the programme shall recommend the student either for transfer to the PhD programme or for continuation as an MPhil candidate.
c) When transfer to the PhD programme occurs, the credits accumulated as an MPhil student shall be applied toward the 72 credits required for completion of the PhD degree.
d) Applicants with previous research experience may be admitted directly into a PhD programme, upon recommendation of the Departmental Board and approval by the School of Graduate Studies.
9.2 Programme Structure:
Part I
In addition to the provisions of the General Regulations, all candidates are expected to complete satisfactorily the following requirements except those who have successfully completed Part I of MPhil programme and have been selected to transfer to Part II of PhD programme.
9.2.1 First Semester:
POP 800: Recent Advances in Population Studies (6 credits)
This course is meant to review, revamp and equip students with the state of the art developments, globally, in both substantive and technical aspects of Population Studies. A major objective is to introduce students to the recent developments in the core areas of demography (fertility, mortality, migration, and population aging) and examine critically how researchers tackle contemporary demographic issues. The current trends in the growth of the population of the world in general and sub-Saharan Africa in particular: Analysis of the components of growth and their determinants - The social and economic consequences of population change - The demographic and health transitions underway and their socio-cultural implications.
1994 Cairo International Conference on Population and Development (ICPD) plan of action and its implementation – Millennium Development Goals (MDGs) - The differential effects of legal and illegal immigration. This course considers a variety of procedures for measuring and modelling demographic processes. These include increment/decrement tables, generalizations of stable population relations, two-sex models, and indirect estimation procedures.

POP 802: Guided Readings and Seminars in Population Studies (6 credits)
This course is meant to be supervisor oriented. The main supervisor, in consultation with Co-supervisors, will decide on some selected topics which mirror the cutting edge areas in Population Studies and ask the students to read extensively and digest it. It is implied that the students will receive sufficient guidance from the faculty. Then, each student is mandated to give at least two departmental seminars which will be evaluated by the Departmental board in attendance.

DEPARTMENT OF SOCIAL WORK
Master's Degree in Social Work (MSW)
5.0 Master's Degree in Social Work (MSW)
5.0.1 The University of Botswana Master's Degree in Social Work Programme is a direct response to the community of Botswana's specialist needs. The MSW Programme will help produce practitioners who are competent, professionally competent and who will advance the intellectual and human resource capacity of the nation in line with the University of Botswana Vision.
5.1.4 The MSW Programme is also significant in realising Vision 2016 for Botswana. A basic goal of this Vision is to "build a just and caring society." Through this goal, Botswana aims to offer support and opportunities to underprivileged citizens and to provide safety nets for those who are in poverty traps. The Vision also calls for establishing strategies and programmes to strengthen family structures and to enhance family functioning, developing viable programmes for youth, reducing the incidence of teenage pregnancy and containing HIV/AIDS infection. The creation of the MSW Programme will help produce practitioners who are competent, professionally competent and who will advance the intellectual and human resource capacity of the nation in line with the University of Botswana Vision.
5.1.5 Finally, training at the Post Graduate level is becoming increasingly important for the development of the Social Work profession. Lack of progression often causes social workers to burn out and leads to poor productiviti-ty. Unlike in the past, progression in the public service is no longer pegged to the length of service and experience. According to the Public Service Management Directive No. 26 of 1995, post graduate training is now required for progression to a D4 scale. Consequently, employers are now required to ensure that officers who are eligible for training are given the opportunity to do so in an effort to prepare employees to assume more responsible positions. The creation of the MSW Programme is most timely in this regard.
5.1.6 The MSW Programme is offered on both a full-time and a part-time basis. Students will be given a choice to specialise in 3 areas: Social Policy and Administration, Clinical Social Work, and Youth and Community Practice. However, all students will be required to take 4 compulsory courses during the first semester to equip them with the basic knowledge in Social Work and research. Finally, students will be allowed to choose between a Programme founded on coursework and a Dissertation and a programme based on coursework and a Research Essay.

5.2 Areas of Specialisation
5.2.1 Social Policy and Administration Botswana has experienced rapid growth in human services, both public and private. All these services currently require highly qualified professional welfare administrators to manage and develop them and to constantly review and update their policies. This stream will equip practitioners with skills to perform these functions.
5.2.2 Clinical Social Work
Programmes in human services are becoming increasingly complex due to the many social problems individuals and families in the country are experiencing. Social workers with specialised clinical expertise in physical and mental health and the social arenas are required to effectively
help the affected persons.

5.2.3 Youth and Community Practice
Youth and marginalised communities are disproportionately affected by the problems that face the country and so require specifically targeted programmes. Consequently, practitioners specialising in these areas are required in growing numbers.

5.2.4 Course offerings for Areas of Specialisation
All MSW students will be required to take foundation courses during the first semester of the first year. Subsequently, students will be advised to choose their areas of specialization subject to the availability of staff and other resources.

5.3 Objectives of the Master's Degree in Social Work Programme
The core curriculum of the MSW Programme is designed to achieve the following objectives:

a) To train broad-based, advanced practitioners who are competent in 1 of the 3 areas of specialization (Social Policy and Administration, Clinical Social Work Practice, and Youth and Community Practice);

b) To enable students to gain a broad understanding of individual and societal functions and dysfunctions and to utilise this knowledge in designing, implementing, managing, monitoring and evaluating social services;

c) To prepare professionals with a sound empirical base in Social Work practice so that they can understand, critique, interpret, and apply theory to practice situations and conduct social work research;

d) To prepare professionals who are committed to promoting equity and social justice at the local and national level.

5.4 Programme Structure
The MSW curriculum is designed to promote interactive learning, emphasising seminars, group discussions, case studies, role-playing, and presentations that enhance the full participation of students. These methods will serve to supplement regular lectures, the library, and other resources available in the community.

5.4.2 Semesterised Courses
The MSW Programme is based on semesterised courses that are divided into foundation, core, and electives. The foundation courses are compulsory for all students taking the MSW. The core courses concern the areas of specialisation, while the elective courses enable students to choose courses of personal interest. All the courses deepen knowledge in a substantive field and develop the students' capacity to analyse issues, policies, and programmes systematically and critically.

5.4.3 MSW by Coursework and Dissertation
Students pursuing the Coursework and Dissertation alternative shall be required to undertake comprehensive research in their areas of specialisation. The Dissertation, showing the original work of the student under supervision, shall normally be a minimum of 20,000 words and shall not exceed 40,000 words (excluding footnotes and appendices). The Dissertation shall count as 8 semester courses (24 credits). Students taking this alternative will therefore complete all their coursework in the first year of the MSW Programme.

5.4.4 MSW by Coursework and Research Essay
The MSW by Coursework and Research Essay shall be given to students who want to acquire a MSW through coursework without writing a Dissertation. In its place, they shall write a Research Essay, showing the original work of the student under supervision that shall normally be a minimum of 10,000 words (excluding footnotes and appendices) but should not exceed 20,000 words (excluding footnotes and appendices). The Research Essay shall include extensive review of the literature rather than empirical research, for example: review of social policy and legislative documents; historical and theoretical analysis; analysis of data sets, etc. The Research Essay shall amount to 4 semester courses (12 credits). Students taking this alternative shall normally take 12 courses: 8 in the first year and an additional 4 in the first semester of the second year.

5.5 Year 1
Semester 1
Core Courses
MSW 601 Contemporary and Ethical Issues in Social Work Practice
MSW 602 Developmental Social Work
MSW 603 Managing Human Services
DVS 607 Research and Analysis Methods I or PDP 604 Methods of Social Science Research

Semester 2
Optional Courses
Areas of Specialisation - Students shall take all courses in their Areas of Specialisation during the second semester.

a) Social Policy and Administration:
MSW 604 Social Policy in a Changing Society
MSW 605 Social Policy Analysis and Planning
MSW 606 Poverty and Welfare
MSW 613 Research Seminar

b) Clinical Social Work:
MSW 607 Rethinking Family and Household Interventions
MSW 608 Social Work Intervention in Chronic Illness and Disability
MSW 609 African Centred Helping and Counseling Strategies
MSW 613 Research Seminar

c) Youth and Community Practice:
MSW 610 Youth and Community Practice
MSW 611 Economic Vitality
MSW612 Needs Assessment, Programme Development and Evaluation
MSW 613 Research Seminar

5.5.1 All students must take all foundation courses and core courses in their area of specialisation. Optional courses will be offered subject to demand and availability of resources.

5.5.2 Students who for good reason fail to complete the Research Essay by the last day of the formal examination will be awarded a Grade "I" (Incomplete). Exceptions for reasonable cause may be considered through an appeal to the Board of the School of Graduate Studies.

5.5.3 Students doing a Dissertation shall complete coursework in Year 1 and then proceed with their research work in Year 2.

5.6 Year 2
5.6.1 Year 2 of the MSW Programme shall be by coursework, Research Essay and Dissertation and shall consist of 8 semester courses, taken on a part-time or full-time basis. The Research Essay shall be taken in the second semester and will amount to 4 semester courses. The Dissertation shall amount to 8 semester courses.

Semester 1
Areas of Specialisation
a) Social Policy and Administration:
MSW702 Child and Family Policy
MSW703 Supervision in Human Services

Optional Courses
Students shall select 2 optional courses.

b) Clinical Social Work Practice:
MSW704 Social Work, HIV/AIDS and Caring
MSW705 Social Work in Mental Health

Optional Courses
Students shall select 2 optional courses.

5.7 Degree Structure
5.7.1 MSW by Coursework and Research Essay
(Full-time)
There are 12 credits per semester, which with the Research Essay (equivalent to 12 credits) equals 48 credits over a period of 2 years. This calculation applies to all areas of specialisation.

5.7.2 MSW by Coursework and Research Essay
(Part-Time)
Part-time students shall be given a choice of taking a maximum of 9 credits and a minimum of 6 credits per semester, depending on their situation, ability, and commitments. The 9 credits per semester, with the Research Essay (equivalent to 12 credits), equals 48 credits over a period of 3 years. Students wishing to finish the Degree in 4 years shall be allowed to take a maximum of 6 credits per semester. Credit distribution will be done in consultation with the Department of Social Work.

5.7.3 MSW by Coursework and Dissertation
(Full-Time)
The credit distribution for students doing a Dissertation should be considered in the context of their academic and professional goals.
will be 12 + 12 + Dissertation 24 = 48 credits equivalent. Students shall be expected to complete this Programme within a period of years. This option applies to all areas of specialisation.

5.7.4 MSW by Coursework and Dissertation (Part-Time) Part-time students shall be given a choice of taking a minimum of 6 credits and a maximum of 9 credits per semester (6+6+6+6) or Dissertation (24) = 48 credits. Students wishing to complete their Degree in 4 years will be allowed to take a minimum of 6 credits per semester. Credits distribution will be done in consultation with the Department of Social Work.

5.8 Special Regulations
Subject to the provisions of General Regulation 400, the following Special Regulations of the Faculty shall apply:

5.9.1 Upon the recommendation of the Department and with the approval of Senate, equivalent qualifications and experience may be accepted. Such candidates may be required to perform successfully on an admission examination or satisfy other requirements as deemed appropriate by the School of Graduate Studies.

5.10 Assessment and Examination
5.10.1 Assessment will be done in accordance with the provisions as stated in the course outlines in this document.
5.10.2 Courses offered by departments other than Social Work shall be examined in accordance with the relevant regulations in those departments.
5.10.3 In order to pass and proceed to the Dissertation or Research Essay, students must pass all courses including examinations.

5.11 Award of Degree
The MSW Degree shall be awarded in accordance with areas of specialisation, that is, MSW in Social Policy and Administration, MSW in Clinical Social Work Practice, and MSW in Youth and Community Practice.

MPhil / PhD in Social Work

5.12 Programme Objectives
To promote scientific enquiry that further develops the social work profession.
To support training of social workers and researchers wishing to pursue higher (graduate) degrees in Social Work.
To equip MPhil and PhD students with the necessary analytic skills in research to tackle complex social issues and challenges at national and/or regional levels.
To provide graduates in the helping professions with a sound empirical base in social work practice so that they can understand, criticise and interpret, social theory and apply it to practice situations and competently conduct social work research.
To prepare professionals who are committed to research geared towards promoting equity and social justice at local and national levels.
To enable students to gain broad understanding of individual and societal functions and dysfunctions, and through research to utilize this knowledge in designing, implementing, managing, and monitoring and evaluating social policy and social programmes.

5.12.1 Key and Unique Features of the Programme
The MPhil/PhD programmes will provide a set of structured and integrated core courses (largely in the form of seminars) that are applied to each student's area of specialization or area of research interest.
In addition to the above-mentioned core-courses, the student will select themes in selected fields of practice in order to pursue more specialized interests in seminars and research.

5.12.2 Constituent Subjects
The PhD is essentially by research. It focuses primarily on design of concepts or processes, as well as examination and analysis of the social, cultural, economic, political, environmental, and psychological conditions that form the building blocks of social work education, theory and practice in Botswana and Africa. Students will be encouraged to conduct research pertinent to social policy, health, clinical practice, socio-economic development, community development, among many others.

5.12.3 Graduates Abilities
Students should demonstrate strong research and analytic skills, and ability to conduct independent research in various areas of specialization.

5.12.4 Admission Requirements
General Regulation 50.1 shall apply together with Special Departmental Regula-tions.
5.12.4.0 In addition to General Regulation 50.1, the following special regulations shall apply:
5.12.4.1 In order to register for the MPhil or PhD degree, a candidate must discuss the proposed research topic with the designated supervisors in the Department of Social Work. The application shall include an outline of the research proposal as well as the motivation for wanting to pursue research in that area. Admission shall be dependent upon availability of a supervisor.
5.12.4.2 The Department of Social Work's Graduate Study Sub-committee shall evaluate the application to determine whether or not a candidate qualifies to undertake the MPhil or PhD programme of study. This body reserves the right to request for additional submissions from the candidate, including an oral presentation. On the basis of this evaluation, the Graduate Study Sub-committee shall make the relevant recommendation to the Departmental Board as to whether the candidate is admissible into the MPhil or PhD programme.
5.12.4.3 A candidate for admission into the MPhil programme will be required to possess a Master's Degree in Social Work or in a related discipline.
5.12.4.4 Candidates should have shown potential to do independent research as evidenced by their performance in project courses and in their area of intended specialization.
5.12.4.5 Candidates without a Masters qualification, but with a strong undergraduate degree in Social Work or related discipline, may be admitted, as provided for under General Regulation 50.1. However, these candidates will undergo a Departmental assessment to determine their eligibility to undertake the MPhil programme.

5.12.5 MPhil Programme Structure: Part I
In addition to the provisions of the General Regulations, all candidates are ex-pected to complete satisfactorily the following requirements:

5.12.5.0 First Semester: FSS800: Advanced Social Science Research Methods (3) MSW 800: Advanced Social Science Theory (Guided Readings and 1 Seminar on Selected Topic) (3) MSW 801: Social Research Methods (3)
Part II
5.12.5.2 MSW 804: Supervised Research Thesis in Social Work for MPhil (12)
Programme Structure (Part II)
5.12.5.3 Duration of MPhil Programme
5.12.5.4 The MPhil programme shall be of 2 years duration for full time students extendable to a maximum of 3 years, depending on demonstrable evidence that the candidate shall complete the programme within the extended period.
5.12.5.5 Part time students should complete the programme within four years (eight semesters).

Progression to Part II
5.12.5.6 At the successful completion of Part I, a candidate shall either proceed to Part II of the MPhil Programme or will be allowed to transfer registration to the PhD programme on the recommendation of the Departmental Board and approval by the School of Graduate Studies Board (see regulation 50.2.2) (b).

5.12.5.7 Research Thesis Supervision:
The Departmental Board shall appoint a thesis committee, comprising a minimum of two (2) supervisors one of which must be a specialist in social research methods.

5.12.5.8 Assessment General Regulation 50.9 shall apply.
5.12.5.9 Research Thesis Submission
The MPhil Research Thesis shall be submitted in accordance with the provisions of General Regulation 50.8.
5.12.5.10 PhD. Degree in Social Work: Programme
5.12.5.11 Entrance Requirements, General Regulation 50.2 shall apply:
5.12.5.12 When transfer from the MPhil to the PhD programme occurs, the credits accumulated as an MPhil student (i.e. 12 credits) shall be added to the 60 credits required for completion of the PhD degree Thesis, and a cumulative credit of 72
attained for the completion and award of a PhD degree (50.2.2) (c).

5.12.5.13 Candidates who already hold an MPhil degree, with previous research experience in Social Work or a related field of study shall be admitted directly into the PhD programme after due consideration of the applicant documents, and upon recommendation by the Departmental Board of Social Work and approval by the School of Graduate Studies (See 50.2.2) (d).

5.12.5.14 PhD Programme Structure:

5.12.5.15 SW 900 Supervised Research and Thesis in Social Work (48 credits – for MPhil route or 60 credits– for Direct entry into PhD) Core – requisite: Students will be obliged to present two seminars during the course of their study.

5.12.5.16 Progression:
During the provisional period of registration (where applicable) the Special Departmental Regulations for MPhil shall apply. Furthermore, transfer to the PhD shall be guided by General Regulation 50.7.1 as well as the recommendation by the Departmental Graduate Study Committee, affirming the candidate’s capability in this regard.

5.12.5.17 Transfer of Registration
The transfer from MPhil to PhD and from PhD to MPhil shall be permitted in accordance with the provisions of General Regulations 50.7.1 and 50.7.2 respectively.

5.12.5.18 Duration
Duration of the PhD programme shall be as stipulated in General regulation 50.5.

5.12.5.18 Thesis supervision:
- The Departmental Board shall appoint a thesis committee, comprising minimum of two (2) Supervisors, one of which must be a specialist in research methods.
- The Department of Social Work may appoint a co-supervisor from a relevant Department of UB in accordance with section 9.6a (ii).

5.12.5.19 Thesis submission
The PhD thesis shall be submitted in accordance with the provisions of General Regulation 50.8

Projections on Intake and Graduation
We envisage starting with a relatively small admission of 2 to a maximum of 3 MPhil/PhD students in the first 2 years, and then an average of 4 PhD students after the 3rd year of MPhil/PhD programme operation. It is anticipated that by the third year of operation, at least 2 candidates shall have graduated with an MPhil, or shall have transferred into the PhD programme. We hope that the first crop of PhDs will graduate in 2016.

Note: The ‘taught’ courses involve guided readings as well as seminar presentations by each MPhil/PhD student.

Note: The Social Research Methods Course will be mounted by the Faculty of Social Sciences for all MPhil/PhD candidates registered in the Faculty.

DEPARTMENT OF SOCIOLOGY

Master of Arts Degree in Development Studies

3.0 Special Regulations for the Master of Arts Degree in Development Studies
Subject to the provisions of General Academic Regulations and the Faculty of Social Sciences Special Regulations, the following Departmental Special Regulations shall apply:

3.1 Graduate Programme and Title of Degree
The Department of Sociology offers a Master of Arts Programme in Development Studies.

3.2 Objectives
The objectives of this MA Programme are as follows:

a) To produce highly skilled graduates for the various development practices and educational institutions in Botswana and southern Africa;

b) To enhance the capacity of the Department both for research and for strengthening the quality of undergraduate teaching by involving graduate students;

c) To enhance the capability of the Department to play a leading role in the advancement of Development Studies;

d) To equip students with the skills for basic research, implementation, and evaluation of the impact of development policies and programmes.

3.3 Entrance Requirements

3.3.1 The normal minimum entrance requirements for admission to the Master of Arts Programme in Development Studies shall be:

a) A relevant Bachelor’s Degree from this or any recognized university or equivalent institution with a minimum of 4 undergraduate courses in Social Science or related subjects and at least a Second Class Lower division or its equivalent;

b) Evidence of potential to perform success fully in a graduate level programme;

c) With the approval of Senate, equivalent qualifications and experience may be accepted. Such candidates may be required to perform successfully on an admission examination or satisfy other requirements as deemed appropriate by the Faculty of Social Sciences.

3.3.2 With the approval of Senate, a Bachelor’s Degree plus at least 5 years relevant work experience may be accepted. Such candidates may be required to perform successfully on an admission examination or satisfy other requirements as deemed appropriate by the Faculty of Social Sciences.

3.3.3 Students with a pass in a Postgraduate Diploma in Development Studies or equivalent from a recognized institution of higher learning can be admitted directly into Year 2 of the Master’s Degree Programme provided they satisfy Special Regulations.

3.3.4 Candidates may be required to take and pass pre-requisite courses, which are deemed necessary or desirable. Such prerequisites may be required prior to admission to the MA Programme or prior to a particular semester of study or prior to the granting of the Degree. Pre-requisite courses will not earn credit towards degree requirements.

3.4 Student Advising
Prior to online registration and during the course of their study, students shall consult with the Coordinator of Graduate Studies regarding coursework and all other matters related to the programme of study.

3.5 Selection of Supervision Committee for Dissertation Students
A research supervisor shall normally be appointed from among the staff of the Department of Sociology; however, there shall have direct expertise in the topic of the student’s chosen research project. Up to two (2) additional Supervision Committee members shall be chosen by the supervisor in consultation with the student. The supervisor and the Supervision Committee shall be approved by the Sociology Board.

3.6 Qualifications of Research Committee for Dissertation Students

3.6.1 The supervisor shall normally be a member of the Department of Sociology and shall have expertise in the topic area and/or research methodology appropriate for guiding the research process.

3.6.2 The Research Committee members shall be chosen for their potential contribution to the proposed investigation and its methodology. One Committee member shall normally be from a department other than that of the supervisor.

3.6.3 The role of the Research Committee shall be to monitor and guide all aspects of the student’s research work including approval of the proposal. One member of the Committee shall normally serve as internal examiner for the Dissertation.

3.7 Programme Structure

3.7.1 The Master of Arts in Development Studies Programme shall be offered by either coursework only or coursework and Dissertation.

3.7.2 On completion of 8 courses, including core courses, students shall normally be designated to the Dissertation Option.

3.7.3 All students must take all Core Courses.

3.8 Master of Arts in Development Studies (MA DVS) by coursework and Dissertation

3.8.1 A student wishing to graduate in the MA(DVS) through the Dissertation Option must take and pass 4 taught core courses (12), a Dissertation (24), and 4 optional courses (12).

3.8.2 To qualify for the Dissertation Option, candidates must have achieved a minimum overall unweighted average of 65 per cent in 8 taught courses (24 credits), 4 [four] of which will be core.

3.8.3 With approval of the Supervision Committee, the student shall present the proposal in a Departmental seminar. After the presentation, the Supervision Committee will make a recommendation to the Departmental Board for approval or rejection of the proposal.

3.8.4 The subject of the Dissertation must reveal...
independent and original investigation and knowledge of methods of scholarship. The Dissertation shall normally not exceed 30,000 words, excluding footnotes, references and appendices.

3.9 Master of Arts in Development Studies (MA DVS) by Coursework Only

3.9.1 A candidate wishing to graduate in the MA (DVS) through the Coursework Only Option must take and pass 5 taught core courses (15 credits) and 11 optional courses (33 credits).

Core Courses
The following are the core courses available for the MA DVS Programme:

a) Taught Courses
   DVS601 Development Theory and Practice
   DVS607 Research and Analysis Methods
   POP 604 Methods of Social Science Research
   ECO701 Development Economics
   DVS605 Policy Analysis and Planning
   DVS617 Research Proposal and Report Writing (For Coursework Option)

b) Research Courses
   DVS 701 Dissertation

Optional Courses
Optional courses maybe selected from any graduate programme at the University of Botswana with the approval of the Department of Sociology.

3.10 Assessment and Examination

3.10.1 Unless specified otherwise in the course outline, each course shall be assessed by continuous assessment. Each course shall be externally examined.

3.10.2 The ratio between continuous assessment and formal examination, if applicable, shall be 50:50.

3.10.3 Courses offered by departments other than Sociology shall be examined in accordance with the relevant regulations in those departments.

Master of Arts Degree in Sociology

1.0 Aims and Objectives
The aims and objectives of the programme are to:

a) Provide advanced training in Sociological Theory and Social Research methodologies that are an essential part of the intellectual equipment of practicing Sociologists;

b) Impart the skills necessary to deal with the linkages between conceptual issues and empirical concerns and facts;

c) Produce graduates with analytical and theoretical skills to address different social phenomena from a Sociological perspective;

d) Equip students with strong technical skills and competencies for conducting social research;

e) Produce graduates with the ability to communicate effectively with peers within the discipline and the broader social sciences on topical social issues at local, national and regional levels.

f) Provide students with a broad understanding of individual and societal functions and dysfunctions, and through research the ability to utilize this knowledge in implementing and managing social policy and social programmes.

g) A student who elects to do the MA by course work and dissertation shall normally be expected to complete all the course work before embarking on the dissertation.

f) The courses are divided into core and optional courses. All courses are semester long except the dissertation.

g) A student intending to write a Dissertation or Research Essay shall be required to submit a typed copy of a research proposal to the Head of Department, and shall be required to make a presentation to the Supervisory Committee for consideration and approval.

h) Each student registered for an MA Sociology by Dissertation or Research Essay shall work under the general supervision of a supervisory committee appointed by the Department. The Chair of the supervisory committee will be appointed by the Head of Department.

Option One
MA by Course Work and Research Essay

A student pursuing an MA degree in Sociology through course work and a research essay must take and pass the following Sociology courses:

Semester 1
Core courses:
A student must take and pass the following core Sociology courses:
SOC 601 Classical Sociological Theory
SOC 603 Qualitative Research Methods

Optional Courses:
A student must take and pass any two of the following optional courses:
SOC 606 Crime and Deviance
SOC 607 Health and Illness
SOC 608 Industry, Organisation and Society
SOC 610 Race and Ethnicity
SOC 609 Political Sociology
DVS 603 The Making of Southern Africa
DVS 605 Globalisation, Culture and Social Change

Semester 2
Core courses:
A student must take and pass the following core Sociology courses:
SOC 602 Modern Sociological Theory
SOC 604 Quantitative Research Methods
SOC 605 Advanced Seminars in Sociology

Optional Courses:
A student must take and pass any one of the following optional courses:
SOC 611 Religion and Belief Systems
SOC 612 Social Change and Development
SOC 613 Urban Sociology
SOC 614 Environmental Sociology
DVS 608 Rural Development and Agrarian Change
DVS 610 NGOs and Development

Semester 3
A student pursuing an MA degree in Sociology through coursework and a Research Essay must take and pass four of the following optional courses:
DVS 710 Families, Households and Development
DVS 606 Gender and Development
DVS 703 The Social Impacts of Structural Adjustment Policies in Africa
DVS 704 Dynamics of Poverty in the Third World
DVS 715 Communication for Development
DAE 655 Youth and Development
POP 704 Migration, Urbanisation and Development
A student must take and pass the following core Sociology courses:

- SOC 601 Classical Sociological Theory
- SOC 603 Qualitative Research Methods

Optional Courses:

A student must take and pass any two of the following optional courses:

- SOC 606 Crime and Deviance
- SOC 607 Health and Illness
- SOC 608 Industry, Organisation and Society
- SOC 609 Political Sociology
- SOC 610 Race and Ethnicity
- DVS 603 The Making of Southern Africa
- DVS 605 Globalisation, Culture and Social Change

Second Semester

Core courses:

A student must take and pass the following core Sociology courses:

- SOC 602 Modern Sociological Theory
- SOC 604 Quantitative Research Methods
- SOC 605 Advanced Seminars in Sociology

Optional Courses:

A student must take and pass any one of the following optional courses:

- SOC 611 Religion and Belief Systems
- SOC 612 Social Change and Development
- SOC 613 Urban Sociology
- SOC 614 Environmental Sociology
- DVS 608 Rural Development and Agrarian Change
- DVS 610 NGOs and Development

A student pursuing an MA degree in Sociology through coursework and dissertation must take and pass the following Sociology courses in semesters 1 and 2:

Semester 1

Core courses:

A student must take and pass the following core Sociology courses:

- SOC 601 Classical Sociological Theory
- SOC 603 Qualitative Research Methods

Optional Courses:

A student must take and pass any two of the following optional courses:

- SOC 606 Crime and Deviance
- SOC 607 Health and Illness
- SOC 608 Industry, Organisation and Society
- SOC 609 Political Sociology
- SOC 610 Race and Ethnicity
- DVS 603 The Making of Southern Africa
- DVS 605 Globalisation, Culture and Social Change

Semester 2

Core courses:

A student must take and pass the following core Sociology courses:

- SOC 602 Modern Sociological Theory
- SOC 604 Quantitative Research Methods
- SOC 605 Advanced Seminars in Sociology

Optional Courses:

A student must take and pass any one of the following optional courses:

- SOC 611 Religion and Belief Systems
- SOC 612 Social Change and Development
- SOC 613 Urban Sociology
- SOC 614 Environmental Sociology
- DVS 608 Rural Development and Agrarian Change
- DVS 610 NGOs and Development

A student pursuing an MA degree in Sociology through coursework and a Research Essay must take and pass SOC 700 Research Essay.

Option Two

MA by Course Work and Dissertation

A student pursuing an MA degree in Sociology through coursework and dissertation must take and pass the following Sociology courses in semesters 1 and 2:

Semester 1

Core courses:

A student must take and pass the following core Sociology courses:

- SOC 601 Classical Sociological Theory
- SOC 603 Qualitative Research Methods

Optional Courses:

A student must take and pass any two of the following optional courses:

- SOC 606 Crime and Deviance
- SOC 607 Health and Illness
- SOC 608 Industry, Organisation and Society
- SOC 609 Political Sociology
- SOC 610 Race and Ethnicity
- DVS 603 The Making of Southern Africa
- DVS 605 Globalisation, Culture and Social Change

Semester 2

Core courses:

A student must take and pass the following core Sociology courses:

- SOC 602 Modern Sociological Theory
- SOC 604 Quantitative Research Methods
- SOC 605 Advanced Seminars in Sociology

Optional Courses:

A student must take and pass any one of the following optional courses:

- SOC 611 Religion and Belief Systems
- SOC 612 Social Change and Development
- SOC 613 Urban Sociology
- SOC 614 Environmental Sociology
- DVS 608 Rural Development and Agrarian Change
- DVS 610 NGOs and Development

A student pursuing an MA degree in Sociology through coursework and dissertation must take and pass the following Sociology courses in semesters 1 and 2:

Semester 1

Core courses:

A student must take and pass the following core Sociology courses:

- SOC 601 Classical Sociological Theory
- SOC 603 Qualitative Research Methods

Optional Courses:

A student must take and pass any two of the following optional courses:

- SOC 606 Crime and Deviance
- SOC 607 Health and Illness
- SOC 608 Industry, Organisation and Society
- SOC 609 Political Sociology
- SOC 610 Race and Ethnicity
- DVS 603 The Making of Southern Africa
- DVS 605 Globalisation, Culture and Social Change

Semester 2

Core courses:

A student must take and pass the following core Sociology courses:

- SOC 602 Modern Sociological Theory
- SOC 604 Quantitative Research Methods
- SOC 605 Advanced Seminars in Sociology

Optional Courses:

A student must take and pass any one of the following optional courses:

- SOC 611 Religion and Belief Systems
- SOC 612 Social Change and Development
- SOC 613 Urban Sociology
- SOC 614 Environmental Sociology
- DVS 608 Rural Development and Agrarian Change
- DVS 610 NGOs and Development

A student pursuing an MA degree in Sociology through coursework and a Research Essay must take and pass SOC 700 Research Essay.

Option Two

MA by Course Work and Dissertation

A student pursuing an MA degree in Sociology through coursework and dissertation must take and pass the following Sociology courses in semesters 1 and 2:

Semester 1

Core courses:

A student must take and pass the following core Sociology courses:

- SOC 601 Classical Sociological Theory
- SOC 603 Qualitative Research Methods

Optional Courses:

A student must take and pass any two of the following optional courses:

- SOC 606 Crime and Deviance
- SOC 607 Health and Illness
- SOC 608 Industry, Organisation and Society
- SOC 609 Political Sociology
- SOC 610 Race and Ethnicity
- DVS 603 The Making of Southern Africa
- DVS 605 Globalisation, Culture and Social Change

Semester 2

Core courses:

A student must take and pass the following core Sociology courses:

- SOC 602 Modern Sociological Theory
- SOC 604 Quantitative Research Methods
- SOC 605 Advanced Seminars in Sociology

Optional Courses:

A student must take and pass any one of the following optional courses:

- SOC 611 Religion and Belief Systems
- SOC 612 Social Change and Development
- SOC 613 Urban Sociology
- SOC 614 Environmental Sociology
- DVS 608 Rural Development and Agrarian Change
- DVS 610 NGOs and Development

A student pursuing an MA degree in Sociology through coursework and a Research Essay must take and pass the following Sociology courses in semesters 1 and 2:

Semester 1

Core courses:

A student must take and pass the following core Sociology courses:

- SOC 601 Classical Sociological Theory
- SOC 603 Qualitative Research Methods

Optional Courses:

A student must take and pass any two of the following optional courses:

- SOC 606 Crime and Deviance
- SOC 607 Health and Illness
- SOC 608 Industry, Organisation and Society
- SOC 609 Political Sociology
- SOC 610 Race and Ethnicity
- DVS 603 The Making of Southern Africa
- DVS 605 Globalisation, Culture and Social Change

Semester 2

Core courses:

A student must take and pass the following core Sociology courses:

- SOC 602 Modern Sociological Theory
- SOC 604 Quantitative Research Methods
- SOC 605 Advanced Seminars in Sociology

Optional Courses:

A student must take and pass any one of the following optional courses:

- SOC 611 Religion and Belief Systems
- SOC 612 Social Change and Development
- SOC 613 Urban Sociology
- SOC 614 Environmental Sociology
- DVS 608 Rural Development and Agrarian Change
- DVS 610 NGOs and Development

A student pursuing an MA degree in Sociology through coursework and a Research Essay must take and pass the following Sociology courses in semesters 1 and 2:

Semester 1

Core courses:

A student must take and pass the following core Sociology courses:

- SOC 601 Classical Sociological Theory
- SOC 603 Qualitative Research Methods

Optional Courses:

A student must take and pass any two of the following optional courses:

- SOC 606 Crime and Deviance
- SOC 607 Health and Illness
- SOC 608 Industry, Organisation and Society
- SOC 609 Political Sociology
- SOC 610 Race and Ethnicity
- DVS 603 The Making of Southern Africa
- DVS 605 Globalisation, Culture and Social Change

Semester 2

Core courses:

A student must take and pass the following core Sociology courses:

- SOC 602 Modern Sociological Theory
- SOC 604 Quantitative Research Methods
- SOC 605 Advanced Seminars in Sociology

Optional Courses:

A student must take and pass any one of the following optional courses:

- SOC 611 Religion and Belief Systems
- SOC 612 Social Change and Development
- SOC 613 Urban Sociology
- SOC 614 Environmental Sociology
- DVS 608 Rural Development and Agrarian Change
- DVS 610 NGOs and Development
may be allowed by the Head of the Department under special circumstances, if so recommended by the supervisor. This course is open to PGD Statistics students only.

5.2.3 For Advanced Statistical Computing (STA 671) the final examination will be a practical exam of 4 hours and the final assessment grade will be based on the continuous assessment and the examination in the ratio 1:1.

5.2.4 The Statistical Consultancy (STA 681) course is centered around consultancy projects which are assigned in the first 2 weeks of the semester. Some informal lectures accompany these projects to explain specific technicalities. The final grade is based on 3 minor projects and a major project. The minor projects shall account for 50 per cent of the final mark and the major project will account for 50 per cent of the final mark. There will be no formal final examination.

5.2.5 In the Selected Special Topics (STA 783) course, the student undertakes up to date reviews of 2 or 3 statistical techniques. Assessment is based on the review reports on the techniques selected, a presentation of at least one of the reports at a Departmental seminar, and a 3-hour open-book examination on the journal articles chosen for the report. The report presentation and the examination carry equal weight for the final grade.

5.2.6 The Research Treatise (STA 790) shall be taken over a period of 2 semesters totaling 6 credits; the student will work under a supervisor. The student is expected to demonstrate the ability to master and critically analyze a prescribed area of advanced statistical literature by making 2 presentations and finally presenting a Research Treatise Report. At the end of STA 791 the student should have made the first presentation and the second presentation will be at the end of STA 792. The last date of submission of the Report shall be the last day of lectures of the second semester. In exceptional cases, it may be ex-tended by not more than 2 months, if a request is made through the Head of the Department, supported by the supervisor, at least 2 weeks before the due date. The length of the report shall be around 60 typed, A4 pages (1.5 line spacing). The report will be internally evaluated and will further be externalised. The final assessment grade for the course will be based on the 2 presentations (20 per cent) and the report (80 per cent).

5.3 Examinations and Assessment

The written examination for all courses, unless otherwise specified in the course template, will normally be of 3 hours duration. The continuous assessment and the examination shall be weighted in the ratio of 1:1. The cumulative GPA shall be computed in accordance with General Academic Regulation 00.86.

6.0 Departmental Regulations for the Post-graduate Diploma in Statistics

General Academic Regulations and the following Departmental Special Regulations shall apply:

6.1 Entrance Requirements

The normal entrance requirement is a Bachelor’s Degree with at least 40 per cent of the courses in Statistics, from any recognized University. Other applicants may be considered in exceptional cases on the recommendation of the Department; however they may be required to take some undergraduate courses as specified by the Department.

6.2 Duration of the Programme

The normal duration of the Programme on a full-time basis is 2 semesters. However a maximum of 6 semesters is allowed for part-time students to complete the Programme.

Core Courses

STA 621 Probability (2, Sem 1)
STA 631 Statistical Inference I (Sem 1)
STA 641 Statistical Analysis I (Sem 1)
STA 642 Statistical Analysis II (Sem 2)
STA 672 Multivariate Analysis (Sem 2)
STA 681 Statistical Consulting (Sem 2)
STA 691 Project Report (Sem 2)

Optional Courses (3 courses, 9 Credits)

STA 501 Mathematical Methods for Statistics (Sem 1)
STA 632 Non-parametric Inference (Sem 2)
STA 651 Advanced Survey Sampling (Sem 2)
STA 661 Time Series Analysis and Forecasting (Sem 2)
STA 671 Advanced Statistical Computing (Sem 1)
STA 682 Categorical Data Analysis (Sem 1)
STA 683 Medical Statistics (Sem 2)
STA 684 Econometrics (Sem 2)
STA 685 Agricultural Statistics (Sem 1)
STA 686 Economic Statistics and National Accounting (Sem 1)
STA 687 Education Statistics (Sem 2)

6.3 Programme Structure

The Postgraduate Diploma is done by course work that includes 7 core courses at Levels 5 and 6 totalling 19 credits and at least 2 optional courses totalling 6 credits. One of the core courses is the Project Report STA681. This is a 2-semester Programme for full-time students.

6.4 Assessment

Students shall be assessed on their coursework in accordance with General Academic Regulations and the Department of Statistics Special Regulations 6.2.

6.5 Award of the Postgraduate Diploma in Statistics

6.5.1 A student who has passed the core and optional courses and has received 25 hours of credits shall be eligible for the award of the Postgraduate Diploma in Statistics.

6.5.2 Classification

The award of diploma shall be classified as per General Academic Regulation 40.73.9.

7.0 Departmental Regulations for the Master’s Degree in Statistics Programme

The Master’s Degree in Statistics Programme shall be offered to those having a Bachelor’s Degree with Statistics as a Major. At the end of the Programme the candidate is expected to have the ability:

a) To organise census, market surveys, opinion polls, etc;

b) To analyse and interpret data and write reports for projects;

c) To provide advisory and consultancy services, including the use of Statistical Software packages; and

d) To adopt and/or innovate statistical tools and techniques to suit special problems. The Programme is done by coursework and a Research Treatise Report. It will be governed by University General Academic Regulations 40.0, and the Department of Statistics Special Regulations as follows:

7.1 Entrance Requirements

7.1.1 Applicants should have a Bachelor’s Degree with at least a second class (second division) pass from a recognised University or an equivalent institution, with Statistics as a Major subject.

With the approval of the Department equivalent qualifications and experiences may be considered.

7.1.2 Students with a pass in the Postgraduate Diploma in Statistics or its equivalent of this University or an equivalent institution can be admitted to the Programme at Level 2 in Semester 4 and get credits for the passed courses.

7.1.3 Candidates having a pass in the Bachelor’s Degree with Statistics as a Major subject can be considered for admission provided they have at least 2 years relevant work experience.

7.2 Programme Structure

The Programme consists of 11 core courses in Statistics, including the two-semester Research Treatise course totalling 31 credits. In addition there are 6 optional courses in Statistics totalling 18 credits. The Programme requires a total of 49 credits through the courses listed below. The Department will Endeavour to offer optional courses subject to sufficient demand. This is a four semester programme for full-time students run at Levels 1 and 2. A student shall take 700 level courses only at Level 2.

Levels 1 and 2

Core Courses

STA 621 Probability (Sem 1)
STA 631 Statistical Inference I (Sem 1)
STA 641 Statistical Analysis I (Sem 1)
STA 642 Statistical Analysis II (Sem 2)
STA 672 Multivariate Analysis (Sem 2)
STA 681 Statistical Consulting (Sem 2)
STA 682 Categorical Data Analysis (Sem 1)
STA 683 Medical Statistics (Sem 2)
STA 684 Econometrics (Sem 2)
STA 685 Agricultural Statistics (Sem 1)
STA 686 Economic Statistics and National Accounting (Sem 1)
STA 687 Education Statistics (Sem 2)

STA 671 Advanced Statistical Computing (Sem 1)
STA 682 Categorical Data Analysis (Sem 1)
STA 683 Medical Statistics (Sem 2)
STA 684 Econometrics (Sem 2)
STA 685 Agricultural Statistics (Sem 1)
STA 686 Economic Statistics and National Accounting (Sem 1)

STA 632 Non-parametric Inference (Sem 2)
STA 661 Multivariate Analysis (Sem 2)
STA 681 Statistical Consulting (Sem 2)
STA 721 Probability Theory (Sem 1)
STA 731 Statistical Inference II (Sem 2)
STA 732 Bayesian Inference and Decision Theory I (Sem 2)
STA 791 Research Treatise I (3 credits)
STA 792 Research Treatise II (3 credits)

Optional Courses (6 courses, 18 credits)

STA 601 Mathematical Methods for Statistics (Sem 1)
STA 632 Non-parametric Inference (Sem 2)
STA 605 Advanced Survey Sampling (Sem 2)
STA 661 Time Series Analysis and Forecasting (Sem 2)
STA 671 Advanced Statistical Computing (Sem 2)
STA 682 Categorical Data Analysis (Sem 1)
STA 683 Medical Statistics (Sem 2)
STA 684 Econometrics (Sem 2)
STA 685 Agricultural Statistics (Sem 1)
STA 686 Economic Statistics and National Accounting (Sem 1)
STA 687 Education Statistics (Sem 2)
STA 721 Probability Theory (Sem 2)
STA 601 Advanced Stochastic Process (Sem 2)
STA 731 Applied Biostatistics (Sem 1)
STA 732 Advanced Operations Research (Sem 2)
STA 732 Selected Special Topics (Sem 1 and 2)

7.3 Duration of the Programme

The normal duration of the Programmed is 4 semesters of full-time study; it can be extended to 8 semesters for part-time study.

7.4 Assessment

All the taught courses, unless otherwise specified in the course templates, shall have a final examination. The continuous assessment and the examination are weighted in the ratio of 1:1, subject to the Departmental Special Regulations 7.0.

7.5 Award of the Master of Arts in Statistics Degree

7.5.1 In order to be awarded the Master of Arts in Statistics Degree a student must have passed all
the required courses and received 49 hours of credits.

MPhil and PhD in Statistics

1. Special Departmental Regulations for the Master of Philosophy (MPhil)

Preamble

Unless otherwise specified under the following special regulations, the general university regulations 50 shall apply. However, should a conflict in interpretation of both regulations exist, these Special Departmental Regulations shall apply.

1.1: Entrance requirements for the Master of Philosophy in Statistics

1.1.1 The normal minimum entrance qualifications for a Master of Philosophy shall be a Master Degree in Statistics.

1.1.2 Candidates must have shown a potential to do independent research as evidenced in performances in project courses and courses in their area of intended specialization, as well as good performances in at least one of the following areas: probability, mathematics and statistical computing.

1.1.3 Applicants without a Master Qualification, but with a strong undergraduate degree in statistics as spelt out in General regulation 50.1 may be admitted. However, such candidates would be required to take selected courses from the Master in Statistics program. Their performance in such courses shall form part of their dossier for progression after the first year.

1.2: Admissions

In addition to general regulations 50.1

1.2.1 In order to register for the MPhil degree, a candidate must discuss the proposed research topic with the department of Statistics and/or proposed supervisor. The application shall include an outline of the research proposal as well as the motivation for wanting to pursue research in that area. Admission shall depend on the availability of an internal supervisor.

1.2.2 A Departmental Graduate Studies Subcommittee shall evaluate the application to determine whether or not the Candidate adequately qualifies to undertake the MPhil program of study. This board reserves the right to request for additional submissions from the candidate including an oral presentation. On the basis of this evaluation, the subcommittee shall make the relevant recommendation to the Departmental Board as to whether candidate is admissible into the MPhil programme in Statistics.

1.2.3 Given the nature of statistics, the MPhil program shall normally be taken on a full time basis. Only in exceptional cases shall a student be admitted on part-time basis.

1.3: Duration of the Program

1.3.1 The program shall be of 2 years duration for full time students extendable to a maximum of 3 years, depending on demonstrable evidence that the candidate shall complete the program within the extended period.

1.3.2 Part-time students must complete the program within four years.

1.4: Program of Study

The department shall offer a Master of Philosophy (MPhil) degree by supervised research in different applied and theoretical areas of Statistical Science. General regulation 50.6 shall apply. Students shall register for the following courses as appropriate.

FSS800 Advanced Social Science Research Methods
STA 800 Supervised research and Thesis in Statistics (MPhil)

1.5: Progression

1.5.1 The candidates for MPhil program will be mandated to complete yearly appraisal forms to be filled by both the candidate and supervisor. The appraisal form will be evaluated by the Departmental board.

1.5.2 At the end of their first year of study, the student progress shall be evaluated to decide as to whether the student can continue with the program of research or not. The decision shall be guided by the following factors:

a) The student has demonstrated sufficient ability to conduct independent research up to the level of MPhil.

b) The research topic is sufficiently broad to include the need to contribute to new knowledge in the area – an MPhil goes beyond the requirements of Master Degree Dissertation to include a candidate’s contribution to knowledge either through extension of existing results/methods, or proposal of new methods.

1.6: Assessment

General regulation 50.9 shall apply.

1.7: Award of Degree

General regulation 50.1 and 50.2 respectively (see Appendix).

1.7.1 The successful candidate shall be awarded the University of Botswana Master of Philosophy (MPhil) in Statistics (MPhil – Statistics) degree.

2. Special Departmental Regulations for the Doctor of Philosophy (PhD)

Preamble

The procedure for submitting application for admission to the MPhil and PhD programmes shall be as stipulated in General regulation 50.1 and 50.2 respectively (see Appendix).

2.1 Admissions

In addition to general regulations 50.2

2.1.1 Applicants intending to pursue the degree of Doctor of Philosophy in Statistics shall register provisionally for the Degree of Master of Philosophy under Special Departmental Regulation 1.2, unless they already hold a relevant MPhil from this or other University in the intended area of research.

2.1.2 A candidate who already has a Master of Philosophy Degree in the same research area shall be admitted directly into the PhD program after due consideration of the application documents, that shall include a clear statement of additional work to be conducted for the award of the PhD as well as a work-plan evaluated by the intended supervisor and the Departmental Graduate Studies committee and approved the Departmental Board.

2.1.3 Given the nature of statistics, the PhD program shall normally be taken on a full time basis. Only in exceptional cases shall a student be admitted on part-time basis.

2.2 Duration of the Programme

The duration of PhD program as shall be stipulated in general regulation 50.5. The minimum duration of 36 months may be reduced in exceptional cases, such as for transfer students or candidates with sufficient relevant prior learning/research experience, subject to with recommendation from the graduate study committee.

2.3 Program Structure

The department shall offer a Doctor of Philosophy (PhD) degree by supervised research in different applied and theoretical areas of Statistical Science. General regulation 50.6 shall apply. Students shall register for the following courses as appropriate.

FSS800 Advanced Social Science Research Methods
STA800 Supervised research and Thesis in Statistics (MPhil)
STA900 Supervised research and Thesis in Statistics (PhD)

2.4: Progression

2.4.1 During the provisional period of registration (where applicable), the Special Departmental regulations for MPhil shall apply. Furthermore, transfer to PhD shall be guided by general University regulation 50.7, as well as a recommendation from the Departmental Graduate Study Committee affirming that the candidate has a viable program of study for the degree of PhD and is capable of the required level of independent research required of PhD candidates.

2.4.2 Each PhD student shall complete an annual appraisal form to be filled by both the candidate and primary supervisor. The appraisal form will be evaluated by the Departmental Graduate Study committee and the resulting report shall be presented to the Departmental Examination Board.
OKAVANGO
RESEARCH INSTITUTE (ORI)
MPhil/PhD in Natural Resources Management

Special Departmental Regulations
Departmental Regulations for MPhil/PhD Degrees in Natural Resources Management with Emphasis on Wetlands

1 Preamble
ORC will offer MPhil and PhD degrees in Natural Resources Management by supervised research only and the University of Botswana General Regulation 50.0 shall apply.

2 Admission Requirements
Admission into the MPhil programme in wetland oriented Natural Resources Management shall be in accordance with the University of Botswana Regulation 50.1 of the General Regulations for Masters and Doctor of Philosophy degrees. Admission into the PhD programme shall be in accordance with the University of Botswana Regulation 50.2 of the General Regulations for Masters and Doctor of Philosophy Degrees.

3 Submission of Applications for Admission
The procedure for submitting applications for admissions to the MPhil and PhD degree programmes shall be as stipulated in the University of Botswana General Regulation 50.1 and 50.2 respectively.

4 Registration
The procedure for registration for the MPhil and PhD degree programmes shall be as prescribed in the University of Botswana General Regulation 50.3.

5 Duration of the Programme
The duration of the programme shall be as stipulated in the University of Botswana General Regulation 50.5.

6 Programme of Study
The duration and times of tenure of MPhil and/or PhD students will be as laid down in Graduate Studies regulations 50.4 viz: 2-6 semesters full time or 4-12 semesters, part time for an MPhil candidate and 6-8 semesters full-time and 8-16 semesters, part time for a PhD candidate. The MPhil students will take a course on Research Methods, ORC 600.

ORC600 Research Methods: Natural Resources Management 3 Credits

Aims and learning objectives:
The course aims at introducing research processes and enables the students to:
• identify a research area
• formulate the problem statement, main objectives and specific objectives
• describe different types and methods of research and state their importance,
• plan and design research for hypothesis testing including sampling
• use statistical methods to analyse data, to discuss and present results.
• report on the results.

Modes of Assessment
CA (Test, Assignments, seminars) and Exam
CA: Exam 50:50

ORC800 Thesis for MPhil. in Natural Resources Management with emphasis on wetlands 24 Credits

Aim/Objectives:
The aims of the MPhil are to provide the candidate with adequate research background experience. He/she will conduct independent research and showing sound scholarship and constituting a contribution to the advancement of knowledge in various aspects of natural resources management field. The candidate is expected to have mastered techniques in collecting, analysing and interpreting data, he/she should have acquired a wide knowledge and understanding of literature in the field of study; should have developed a capacity for critical appraisal of existing facts, ideas and theories and be capable of producing a treatise through the analysis and synthesis of the relevant data, concepts and theories. Pre-requisites: ORC 600

Modes of Assessment:
Assessment will be as per as per the Examination procedures under Graduate Studies regulations, 50.8.

ORC900 Doctor of Philosophy in Natural Resources Management with emphasis on wetlands 72 Credits

Aim/Objectives:
The aims of the PhD programme are to provide the candidate with an enhanced research experience. He/she will conduct independent research and showing sound scholarship and constituting a substantial original contribution to the advancement of knowledge in a particular aspect of natural resources management science. The candidate is expected to have mastered advanced techniques in collecting, analysing and interpreting significant data sets, he/she should have acquired a wide knowledge and depth of understanding of literature in the field of study; should have developed a capacity for critical appraisal of existing facts, ideas and theories and be capable of producing an advanced treatise through the analysis and synthesis of the relevant data, concepts and theories. In addition the candidate will be asked to write an extended thesis covering in an integrated manner all the topics researched or will be asked to submit research articles for publication.

Modes of Assessment:
Assessment will be as per as per the Examination procedures under Graduate Studies regulations, 50.8.
Appendix A

MEMORANDUM OF UNDERSTANDING BETWEEN GRADUATE STUDENT AND SUPERVISORS

All students writing the research assay, dissertation or thesis must complete this form contingent with submission of a research topic for approval. The signatures of student, supervisor and co-supervisor(s) indicate that they intend to abide by the terms and provisions of this agreement. A copy of the signed Memorandum should be sent to the School of Graduate Studies (SGS).

ROLES AND RESPONSIBILITIES OF THE SUPERVISOR

All supervisors are expected to have good knowledge of the Graduate Program. The following conditions have been read and agreed upon by the student and supervisor.

The supervisor should assist the student to develop a work plan for the research work.

The supervisor will guide the research work of the student and facilitate timely completion of the dissertation / thesis in accordance with SGS regulations.

The supervisor will provide mentorship to the student.

The supervisor will be available to meet regularly to discuss ongoing progress and issues. The frequency and regularity of meetings with the student will vary depending on the stage at which a student is at, but the supervisor and the student should meet a minimum of 3 times per semester and the research project committee should meet a minimum of once a semester.
The supervisor will ensure timely feedback to the student. Normally, written work should be returned within 10-15 working days, or at an agreed time which may vary depending on the volume of the work to be reviewed.

The supervisor will ensure appropriate ongoing supervision of the student during any leave of absence from the University as per SGS regulations.

The supervisor will facilitate funding from a research grant, if possible, and support the student in applications for fellowship grants.

**ROLES AND RESPONSIBILITIES OF THE STUDENT**

All students are expected to have good knowledge of the Graduate Program. The following conditions have been read and agreed upon by the student and supervisor.

The student is responsible for keeping in touch with the supervisor and providing progress reports.

The student is responsible for informing the supervisor of any changes in contact details (e-mail, mailing address, telephone).

The student is responsible for keeping the supervisor informed in writing of any problems that could delay (or prevent) completion of the research.

The student is responsible for preparing and submitting the thesis research for relevant ethics approval (with input from supervisor).

The student is responsible for undertaking the research according to relevant regulations and guidelines (and as agreed with the supervisory committee).

The student is responsible for indicating how advice and suggestions from the supervisor and committee have been integrated into the thesis work.

If the student does not adhere to the agreement, it should be reflected in the semester progress reports.

In addition, the student and supervisor should discuss/define:

i  Ownership and use of data

ii  A plan for presentations and publications based on the thesis

iii  Authorship protocols for presentations and publications

**DISAGREEMENT BETWEEN STUDENT AND SUPERVISOR**

If there is a disagreement between the student and supervisor, an appeal should be presented in writing to the program coordinator. The program coordinator will investigate the problem with the assistance of the head of the
department. If the student is not satisfied with the decision, he/she could appeal to the Dean of School of Graduate Studies. The Dean of School of Graduate Studies will set up a committee from members of the SGS Board to investigate and recommend accordingly. The recommendation will be considered by the SGS Board and its decision would be communicated to the Vice Chancellor (VC) for final approval.
